

# WHAT IS THIS?

It's a low-prep room transformation!

Use the 10 math challenges, included decor, and more for a fun & easy room transformation!

Simply print the academic challenges, put up a few included decor items, and you're ready for a great day!

**Room transformations can be stress-free and low-prep.**

**Keep scrolling to learn how!**

# Let's start with the basics...

## What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

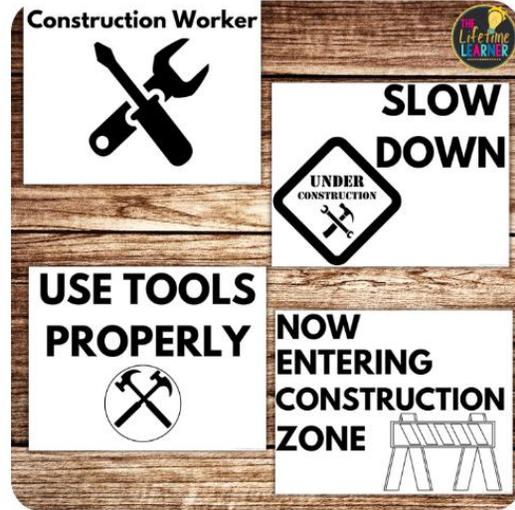

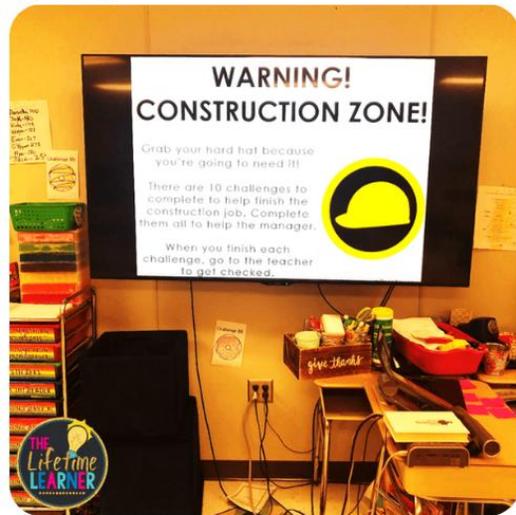

Camping Day

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

# STEP 1:

Tell your class they are construction workers today!

They will practice completing a measurement review in activities set up around the room. You can do this for a day, a few days, or over the course of a week!

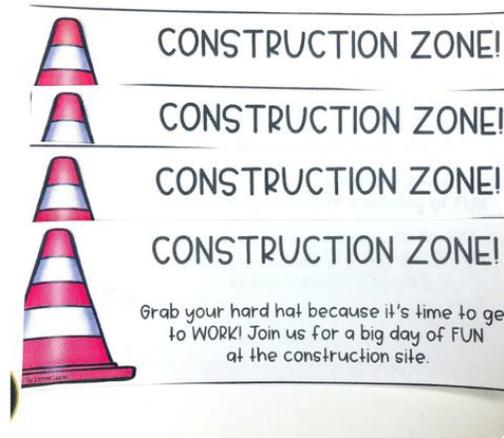

Set-up is quick and easy.

Simply print the posters, 10 activities, and a recording sheet for each student. Place them around your room and you're ready to begin!

Flexibility is key.

Need to modify? No problem!  
Choose how many centers students will need to complete and what time frame they have to meet YOUR needs.

# STEP 2:

Let students move around the room and complete each center. They can be completed in any order. All centers include practicing completing a measurement review.

## Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

## Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

**CONSTRUCTION ZONE**  
Put a check next to each object once you've completed that challenge.

 <input type="checkbox"/>	 <input type="checkbox"/>
Length: <input type="text"/>	Length: <input type="text"/>
 <input checked="" type="checkbox"/>	 <input type="checkbox"/>
Length: <input type="text"/>	Length: <input type="text"/>
 <input type="checkbox"/>	 <input type="checkbox"/>
Length: <input type="text"/>	Length: <input type="text"/>
 <input type="checkbox"/>	 <input type="checkbox"/>
Length: <input type="text"/>	Length: <input type="text"/>
 <input type="checkbox"/>	 <input type="checkbox"/>
Length: <input type="text"/>	Length: <input type="text"/>

**PLIERS TOOLS BOUGHT**

Shop	Tools Bought
Shop #1	6
Shop #2	9
Shop #3	2

How many tools were bought at Shop #3? **2**

How many tools were bought at Shop #1? **6**

How many tools were bought at Shop #2 and Shop #3 altogether? **9 + 2 = 11**

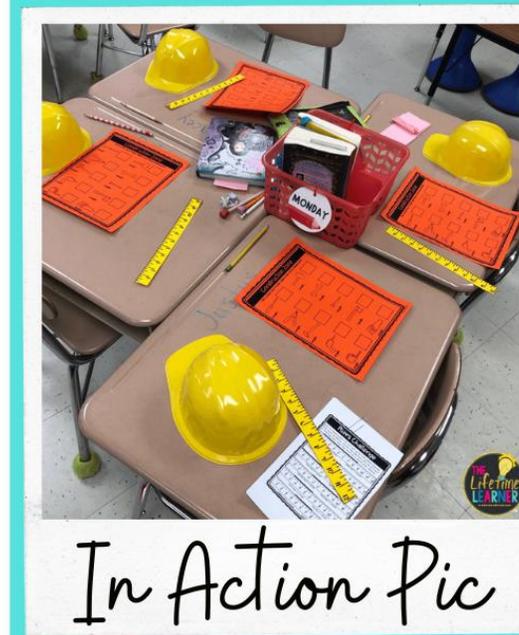

# STEP 3:

When students finish all activities you've assigned, they win! You can give them the included certificate, coloring page, or a small prize of your choice.

A shopping guide is also included to give you suggestions of optional "extras" you could add in.

## Remember:

Anything different from a "normal" day in the classroom is special to students! A reward at the end isn't required during a classroom transformation.

# STEP 4:

Most of the time, there are early finishers. These kiddos get to go around the room and complete a write the room activity! No one is ever bored.

## How to Use

Name: \_\_\_\_\_

**FIND IT! WRITE IT!**

A. 	F.  truck
B. 	G. 
C. _____	H. 
F.  truck	J. 
E. 	J. 

E.  h

G.  nail

brick

Students write each word they find around the room.

## How to Use

Name: \_\_\_\_\_

**WRITE THE LETTER**

Letter: _____		Letter: _____	
Letter: _____		Letter: _____	
B.  He will make a wall with bricks.		Letter: _____	
Letter: _____		Letter: <b>B</b>	
Letter: _____		Letter: _____	

I.  There is a \_\_\_\_\_ in \_\_\_\_\_.

C.  The saw will cut the wood.

G.  \_\_\_\_\_ is next to the cone.

Students find each card and write the correct letter on their recording sheet.

Version 1:

## AXE

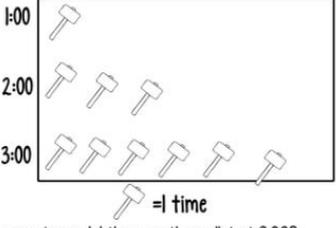

Measure how long each ax is with the unit squares.

© The Little Learner

## THE MALLET

### TIMES THE MALLET WAS USED

How many times did they use the mallet at 2:00?

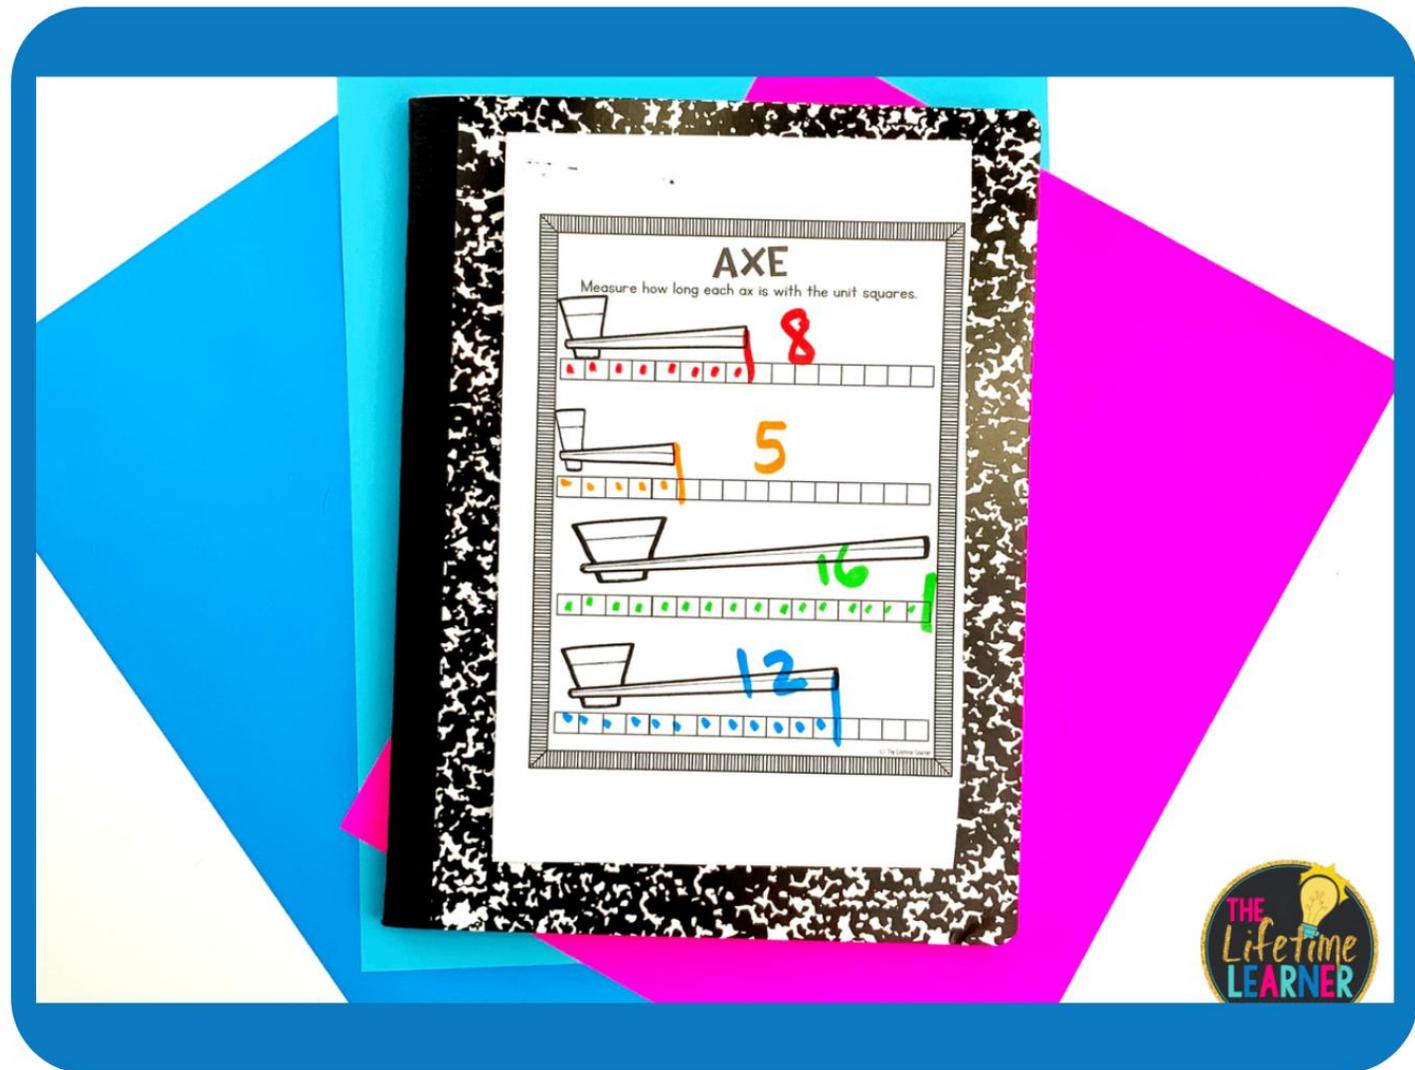

How many times was the mallet used in all?

© The Little Learner

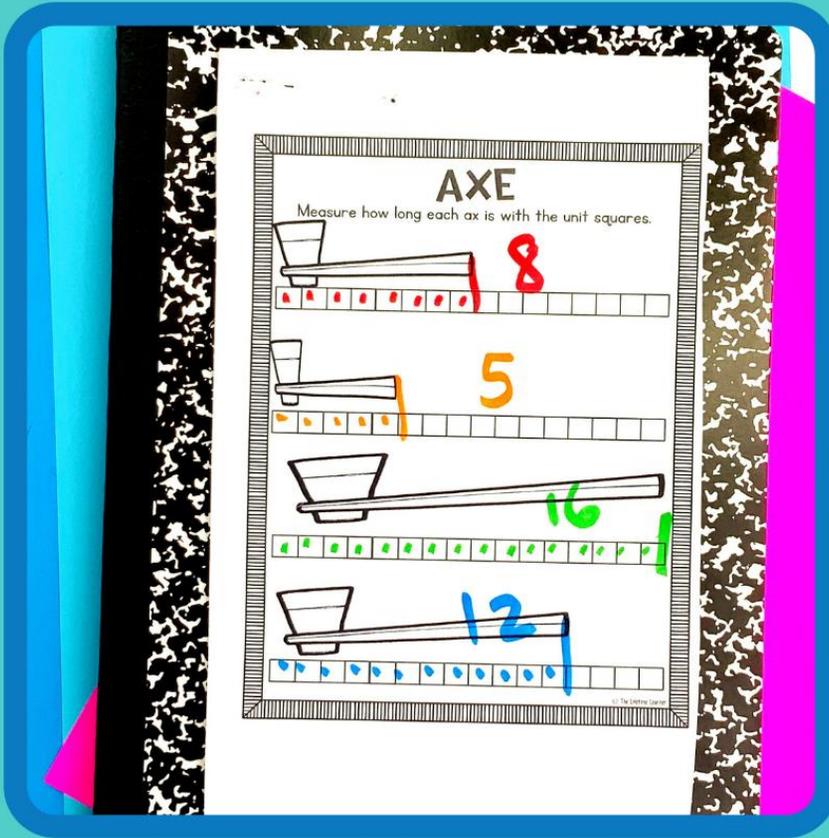

# HOW TO USE THIS:

## Ideas for Implementation:

- pick and choose the centers you want to use: do what works best for your class!
- you can have students work individually, in partners, or small groups--any way works!
- give students 1-2 hours to complete all 10 activities
- give less than 10 challenges to students if you are short on time
- OR spread the room transformation out over a couple of days

that works best for you!**

# Every activity relates to real-life mathematics!

## DRILL

The construction workers use the drill at the times during the day. Draw the hands on them.

## SCREWDRIVER

Measure how tall each hotel is using the screwdrivers on the side. Cut them out and glue them in the boxes. Write the number next to each hotel.

## HAMMER

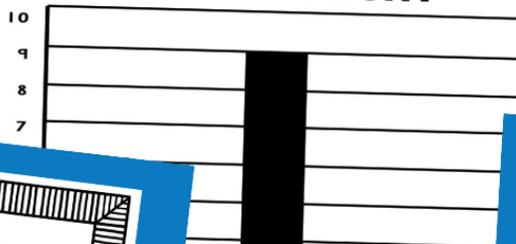

## THE MALLET

TIMES THE MALLET WAS

## PLIERS

TOOLS BOUGHT

## WRENCH

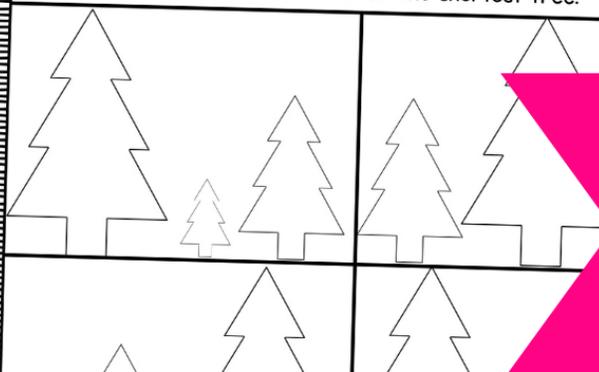

Fill in the missing words in each blank.

## AXE

Measure how long each ax is with the

## SAW

Look at each set of pictures. Chop down (put an X) on the tallest tree. Put a check on the shortest tree.

## TAPE MEASURE

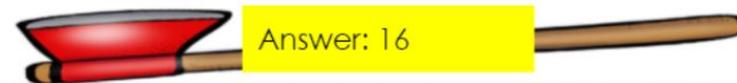

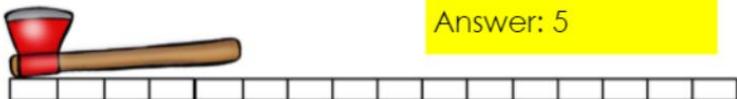

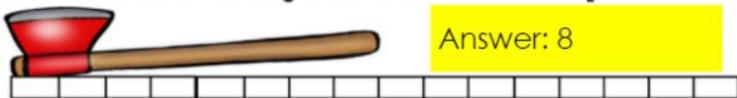

Measure the height of each house at the bottom. Use it to measure how big each house is. Write the number inside each.

HOUSE #1

**focuses on:**  
completing a  
measurement review

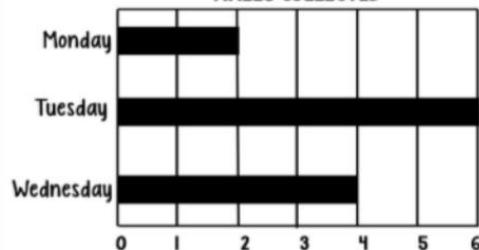

## AXE CHALLENGE

Measure how long each ax is with the unit squares.

## NAIL CHALLENGE

NAILS COLLECTED

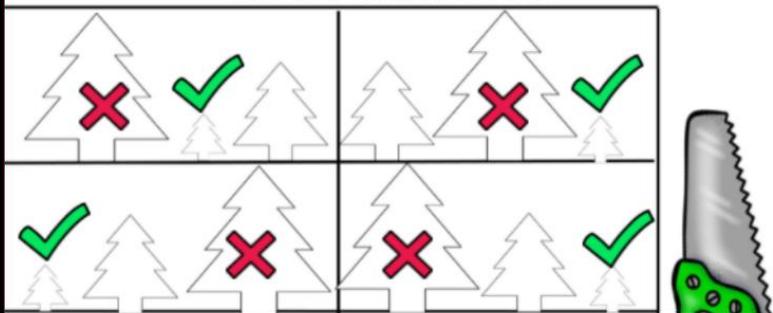

How many nails were collected on Monday and Tuesday in all?

$$2 + 4 = 8$$

## SAW CHALLENGE

Look at each set of pictures. Chop down (put an X) on the tallest tree.  
Put a check on the shortest tree.

## WRENCH CHALLENGE

Write the missing words in each blank.

shorter than  
longer than

The wrench is longer than the nail.

taller than  
shorter than

The nail is shorter than the wrench.

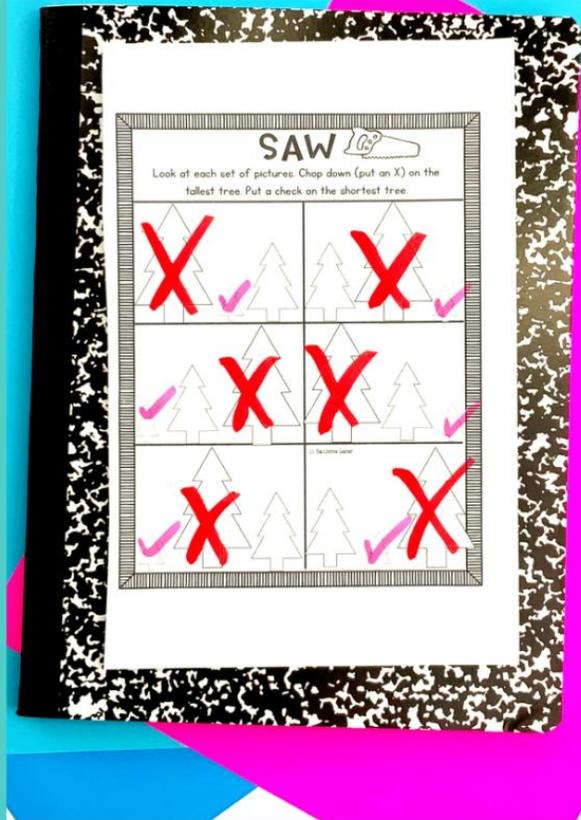

taller than  
shorter than

The wrench is taller than the nail.

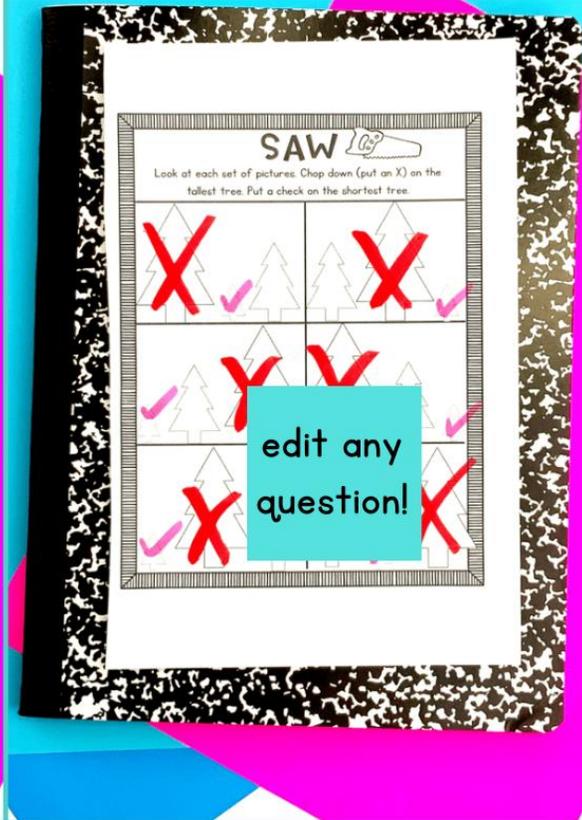

shorter than
