

WHAT IS THIS?

It's a low-prep room transformation!

Use the 10 math challenges, included decor, and more for a fun & easy room transformation!

Simply print the academic challenges, put up a few included decor items, and you're ready for a great day!

Room transformations can be stress-free and low-prep.

Keep scrolling to learn how!

Let's start with the basics...

What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

Camping Day

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

STEP 1:

Tell your class they are detectives today and will solve a MYSTERY!

They will practice reviewing place value, counting, addition, and subtraction in activities set up around the room. You can do this for a day, a few days, or over the course of a week!

Set-up is quick and easy.

Simply print the posters, 10 activities, and a recording sheet for each student. Place them around your room and you're ready to begin!

WHO DUNNIT?

Grab your magnifying glass because we're going to solve a mystery today!

There are 10 challenges. Complete them all to solve the mystery.

When you finish each challenge, go to the teacher to get checked.

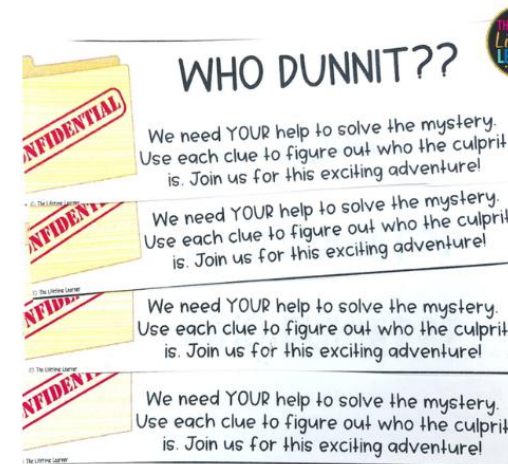

Each time students complete an academic challenge, they are given a clue that helps them get closer to solving the mystery!

Flexibility is key.

Need to modify? No problem!

Choose how many centers students will need to complete and what time frame they have to meet YOUR needs.

STEP 2:

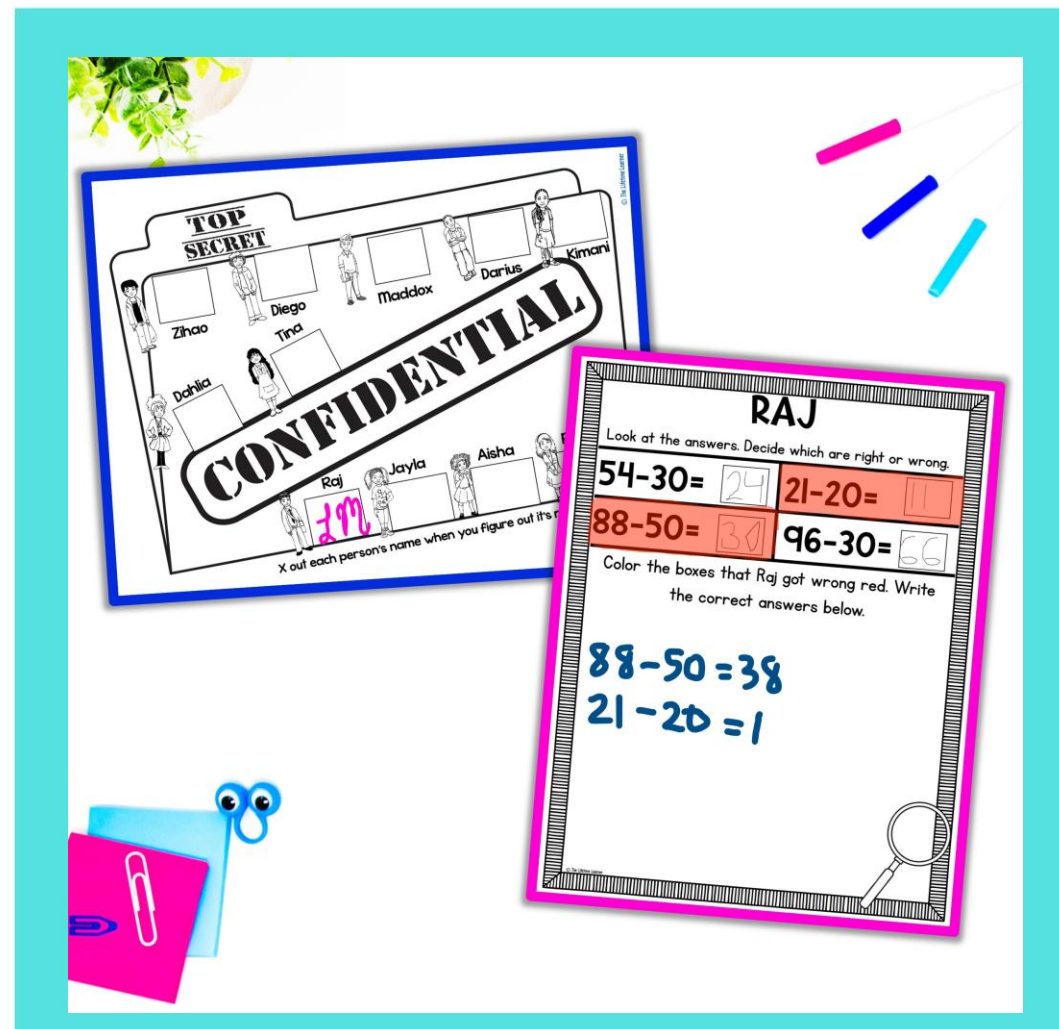

Let students move around the room and complete each center. They can be completed in any order. All centers include reviewing place value, counting, addition, and subtraction.

Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

STEP 3:

When students finish all activities you've assigned, they win! You can give them the included certificate, coloring page, or a small prize of your choice.

A shopping guide is also included to give you suggestions of optional "extras" you could add in.

Remember:

Anything different from a "normal" day in the classroom is special to students! A reward at the end isn't required during a classroom transformation.

STEP 4:

Most of the time, there are early finishers. These kiddos get to go around the room and complete a write the room activity! No one is ever bored.

How to Use

Name: _____

FIND IT! WRITE IT!

A. 	_____	F. 	_____
B. 	_____	G. 	camera
C. _____	_____	H. 	_____
D. 	camera	I. 	_____
E. 	_____	J. 	_____

F.  _____

H.  **footprint**

 **pencil**

Students write each word they find around the room.

How to Use

Name: _____

WRITE THE LETTER

Find the matching sentence and write down the letter on the sentence card.

Letter: _____		Letter: G	
Letter: _____		Letter: _____	
G.  I spy a cop with a mop.		Letter: _____	
Letter: _____		Letter: _____	
Letter: _____		Letter: _____	
Letter: _____	_____	Letter: _____	

B.  I spy a _____

I.  I spy a bug with a mug. _____

C. _____ cat on a mat.

Students find each card and write the correct letter on their recording sheet.

THE CONTENT:

10 themed math challenges
aligned to math standards

CHUNG

Start at 96 and add 10 more.

97 98 99 100 1
2 3 4 5 6

Chung says: Look at my work!
I counted 10 more up there!

Explain what Chung did wrong.
Also, tell what the correct answer is.

RAJ

Look at the answers. Decide which are right or wrong.

$54-30=$ 24	$21-20=$ 11
$88-50=$ 30	$96-30=$ 66

Color the boxes that Raj got wrong red. Write
the correct answers below.

DIEGO

Look at the magnifying glass.
Tell what number is inside.

Diego says: The answer is 98 because there's a
9 and an 8. You put them together.

Explain what Diego did wrong.
Also, tell what the correct answer is.

HOW TO USE THIS:

Ideas for Implementation:

- pick and choose the centers you want to use: do what works best for your class!
- you can have students work individually, in partners, or small groups--any way works!
- give students 1-2 hours to complete all 10 activities
- give less than 10 challenges to students if you are short on time
- OR spread the room transformation out over a couple of days

PRINT & DIGITAL

RACHEL
Find 10 more. Find 10 less.

82	28	15	25
36	45	77	77
21	31	64	34

Color the boxes that Rachel got wrong red.
Write the correct answers below.

$82 + 10 = 92$
 $36 + 10 = 46$
 $15 - 10 = 5$
 $64 - 10 = 54$

The worksheet shows a grid of math problems. The first two columns are for 'Find 10 more' and the last two for 'Find 10 less'. The numbers 28, 45, 31, and 34 are circled in red, indicating incorrect answers. The numbers 25 and 77 are circled in green with checkmarks, indicating correct answers. Below the grid, there are instructions to color the wrong boxes red and write the correct answers. The correct answers are written in green and red ink.

Print & Go

CHUNG
Start at 96 and add 10 more.

97 98 99 100 1
2 3 4 5 6

Chung says: Look at my work! I counted 10 more up there!

Explain what Chung did wrong.
Also, tell what the correct answer is.

Chung started counting correctly but when he got to 100, he started over at 1 instead of going 101, 102, 103, 104, 105, 106.

The digital slide shows a computer monitor displaying a math problem. The problem asks to start at 96 and add 10 more. Chung's work shows a sequence of numbers: 97, 98, 99, 100, 1, 2, 3, 4, 5, 6. A magnifying glass is shown over the text 'Chung started counting correctly but when he got to 100, he started over at 1 instead of going 101, 102, 103, 104, 105, 106.' The slide also includes instructions to explain what Chung did wrong and to provide the correct answer.

CHUNG

Start at 96 and add 10

97 98 99 100
2 3 4 5

Chung says: Look at the numbers. I counted 10 more up.

Explain what Chung did wrong. Also, tell what the correct answer is.

AISHA

Count how many there are below.

Aisha says...

DIEGO

Look at the magnifying glass. Tell what number is inside.

98

focuses on:
reviewing place value, counting, addition, and subtraction

CHUNG

Start at 96 and add 10 more.

97 98 99 100 1
2 3 4 5 6

Chung says: Look at my work! I counted 10 more up there!

Explain what Chung did wrong.
Also, tell what the correct answer is.

Chung started counting correctly but when he got to 100, he started over at

JAYLA

Write each number in standard form in each box.

thirty-nine 39	one hundred eight 180
fifteen 15	seventy 70

Jayla filled in the boxes but one is wrong. Can you find it?
Tell what the number should be.

Jayla filled in the number one hundred eight incorrectly.

DIEGO

Look at the magnifying glass.
Tell what number is inside.

Diego says: The answer is 98 because there's a 9 and an 8. You put them together.

Explain what Diego did wrong.
Also, tell what the correct answer is.

Diego did not read the labels on

AISHA

Count how many there are below.

Aisha says: I circled groups of 10. There are 35.

Explain what Aisha did wrong.
Tell how many there are.
