

WHAT IS THIS?

It's a low-prep room transformation!

Use the 10 math challenges, included decor, and more for a fun & easy room transformation!

Simply print the academic challenges, put up a few included decor items, and you're ready for a great day!

Room transformations can be stress-free and low-prep.

Keep scrolling to learn how!

Let's start with the basics...

What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

Camping Day

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

STEP 1:

Tell your class they are doctors today!

They will practice 1st grade place value in activities set up around the room. You can do this for a day, a few days, or over the course of a week!

Flexibility is key.

Need to modify? No problem!
Choose how many centers students will need to complete and what time frame they have to meet YOUR needs.

Set-up is quick and easy.

Simply print the posters, 10 activities, and a recording sheet for each student. Place them around your room and you're ready to begin!

STEP 2:

Let students move around the room and complete each center. They can be completed in any order. All centers include practice with 1st grade place value.

Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

The image shows two educational activity cards. The first card, titled "CALLING ALL SURGEONS", is a grid with 10 rows and 2 columns. Each row contains a drawing of an organ, a blank box for a checkmark, and the organ's name. The organs are: Brain, Skin, Liver, Small Intestine, Kidneys, Lungs, Eyeball, Heart, Stomach, and Spleen. The second card, titled "HEART SURGERY", asks "Which number is represented in each heart? As a surgeon, it's your job to figure it out! Circle it." It features three heart diagrams with place value information and three numbers to be circled. The first heart has "7 tens 2 ones" and the numbers 72, 27, and 70, with 72 circled. The second heart has "8 ones 5 tens" and the numbers 85, 58, and 50, with 58 circled. The third heart has "3 tens 6 ones" and the numbers 33, 63, and 36, with 36 circled. The cards are decorated with colorful arrows and paper clips.

STEP 3:

When students finish all activities you've assigned, they win! You can give them the included certificate, coloring page, or a small prize of your choice.

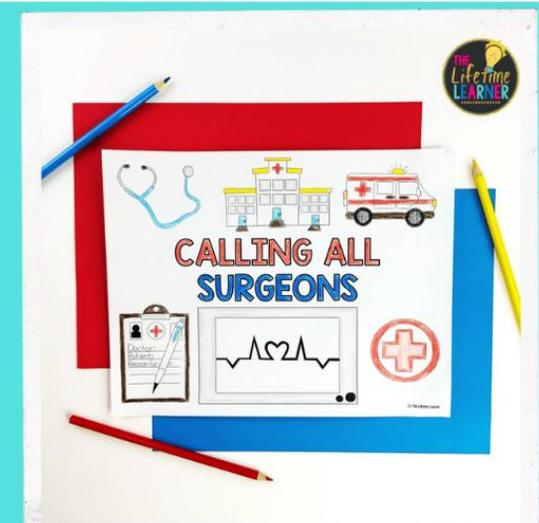

A shopping guide is also included to give you suggestions of optional "extras" you could add in.

Remember:

Anything different from a "normal" day in the classroom is special to students! A reward at the end isn't required during a classroom transformation.

STEP 4:

Most of the time, there are early finishers. These kiddos get to go around the room and complete a write the room activity! No one is ever bored.

How to Use

Name: _____

FIND IT! WRITE IT!

A. 	F. 
B. 	G.  gloves
C. 	H. 
E. 	J. 

G.  **gloves**

E.  **ambulance** F.  **x-ray** **mask**

Students write each word they find around the room.

How to Use

Name: _____

WRITE THE LETTER

Letter: 	Letter: 
Letter: 	G.  I wait for the doctor in bed.
Letter: 	Letter: 
Letter: G 	Letter: 
Letter: 	Letter: 

B.  He drives the ambulance.

C.  It helps me go down the hall.

Students find each card and write the correct letter on their recording sheet.

THE CONTENT:

10 themed math challenges
aligned to math standards

KIDNEY SURGERY

How many kidneys are in this operating room? Put a check next to each number that represents the number of kidneys there are.

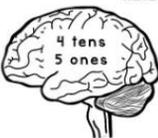

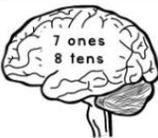

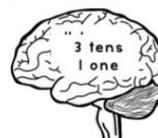

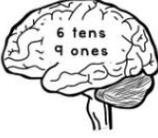

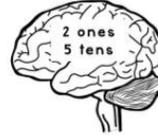

21 12

twelve 12 tens

12 ones 1 ten 2 ones

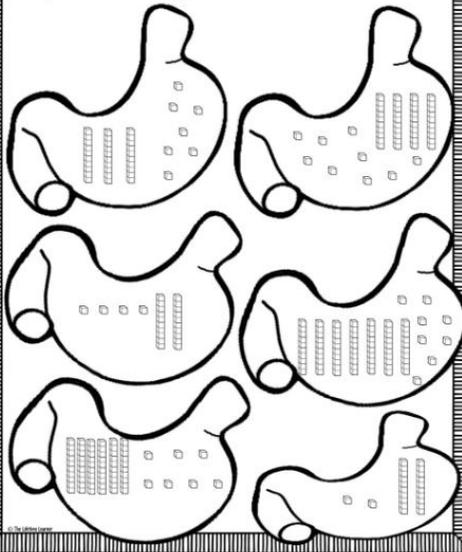

BRAIN SURGERY

Complete the surgery on each brain below by writing what number is represented.

 4 tens 5 ones	 8 ones 9 tens
 7 ones 8 tens	 3 tens 1 one
 6 tens 9 ones	 2 ones 5 tens

STOMACH SURGERY

Figure out how many pieces of food are in each stomach.

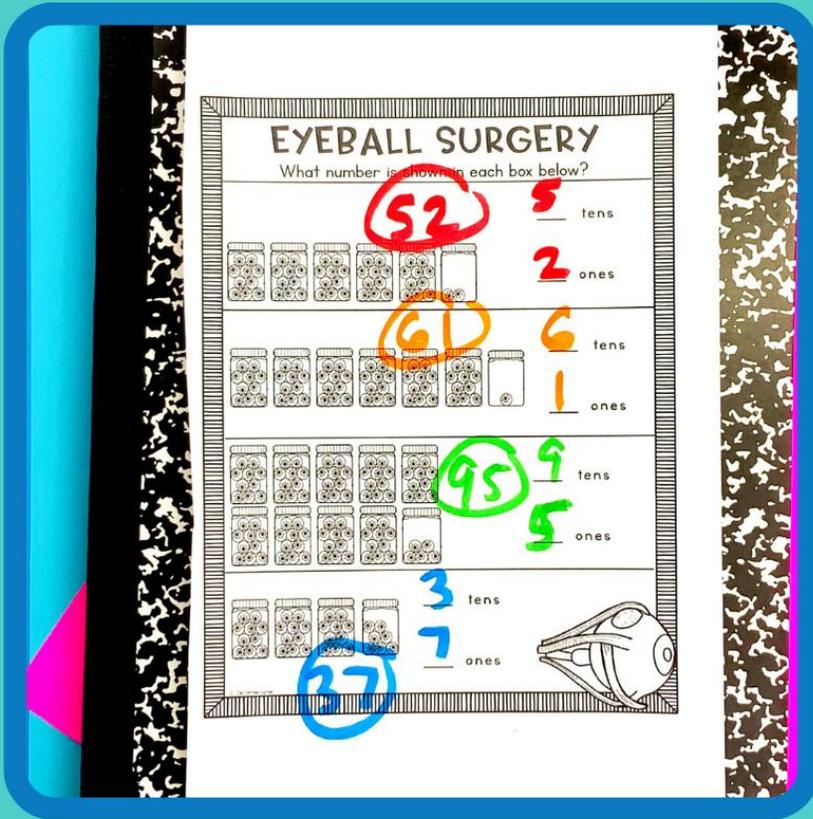

HOW TO USE THIS:

Ideas for Implementation:

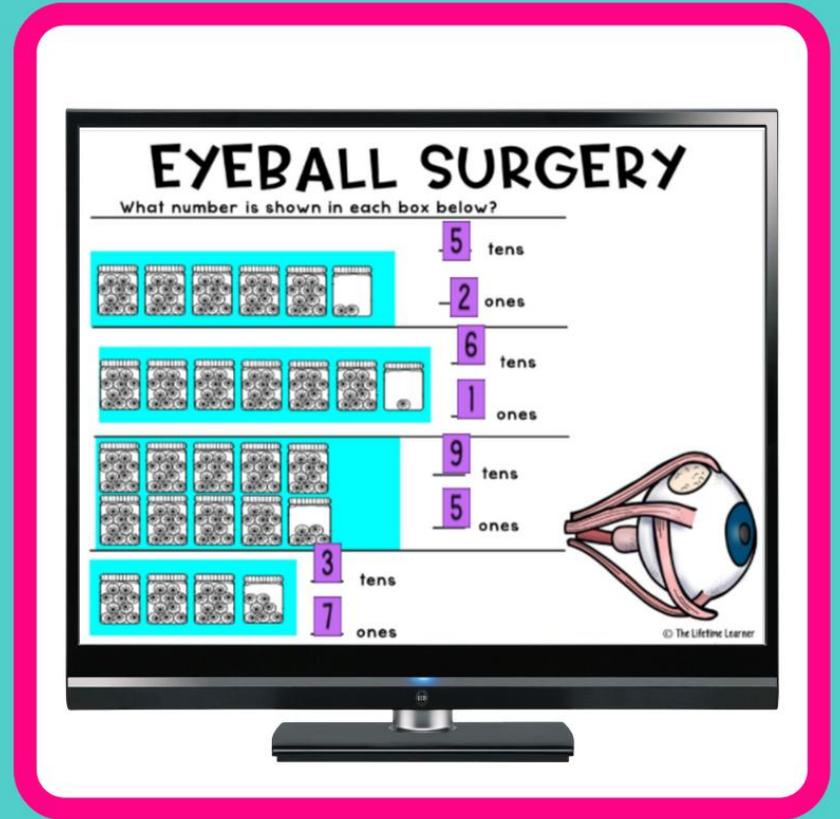

- pick and choose the centers you want to use: do what works best for your class!
- you can have students work individually, in partners, or small groups--any way works!
- give students 1-2 hours to complete all 10 activities
- give less than 10 challenges to students if you are short on time
- OR spread the room transformation out over a couple of days

that works best for you!**

Every activity relates to real-life mathematics!

LUNG SURGERY

Two surgeons are fighting about what numbers are shown below.

SKIN SURGERY

There are 5 skin cells shown below.

HEART SURGERY

Which number is represented in each heart? As a surgeon, it's your job to figure it out! Circle it.

STOMACH SURGERY

Figure out how many pieces of food are in the stomach below.

EYEBALL SURGERY

What number is shown in each box below?

_____ tens

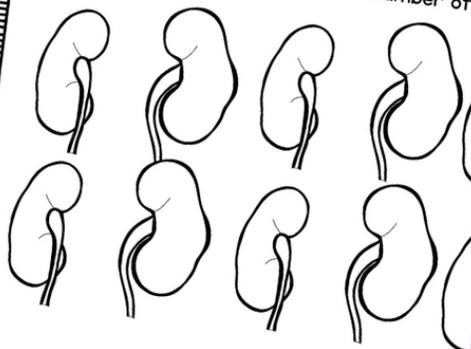

LIVER SURGERY

Write a value drawing inside each liver of the doctor. Thank you, doctor!

44

KIDNEY SURGERY

How many kidneys are in this operating room? Write each number that represents the number of kidneys.

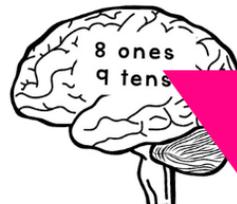

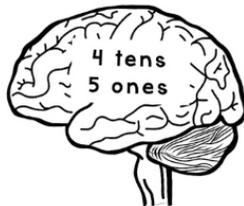

21

BRAIN SURGERY

Complete the surgery on each brain below by writing what number is represented.

SPLEEN SURGERY

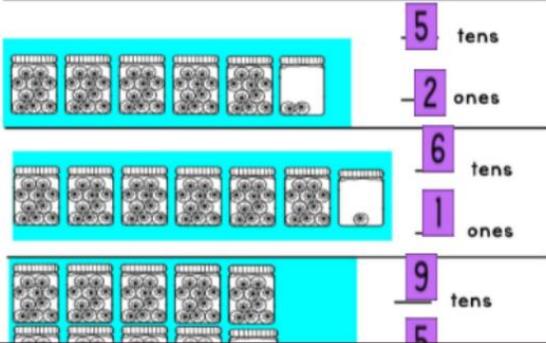

How many white blood cells are in the spleen below? Write a group of ten a different color and then write the number.

focuses on:
with 1st grade
place value

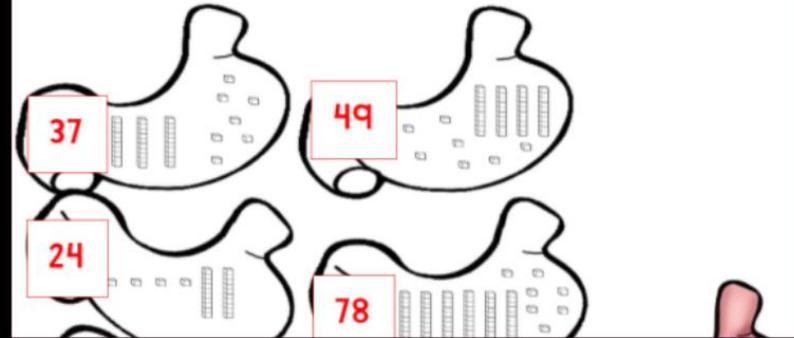

EYEBALL SURGERY

What number is shown in each box below?

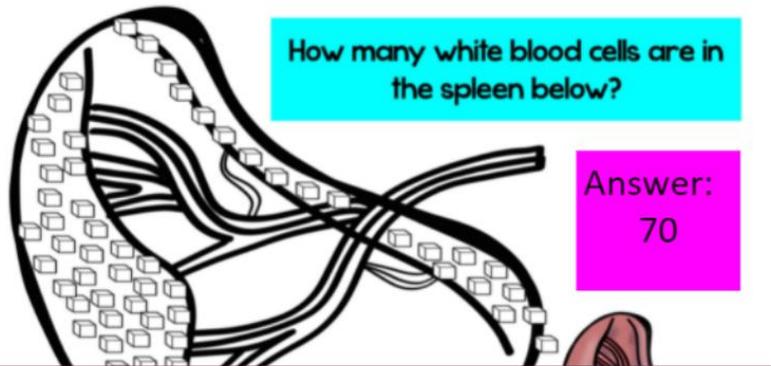

STOMACH SURGERY

Figure out how many pieces of food are in each stomach.

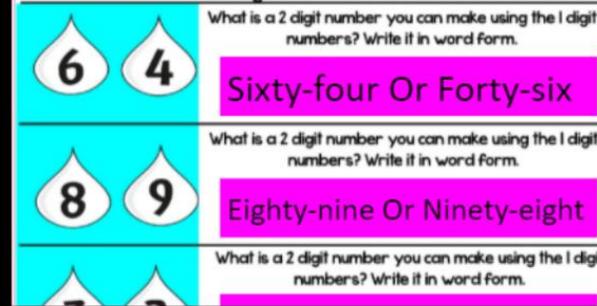

SPLEEN SURGERY

How many white blood cells are in the spleen below?

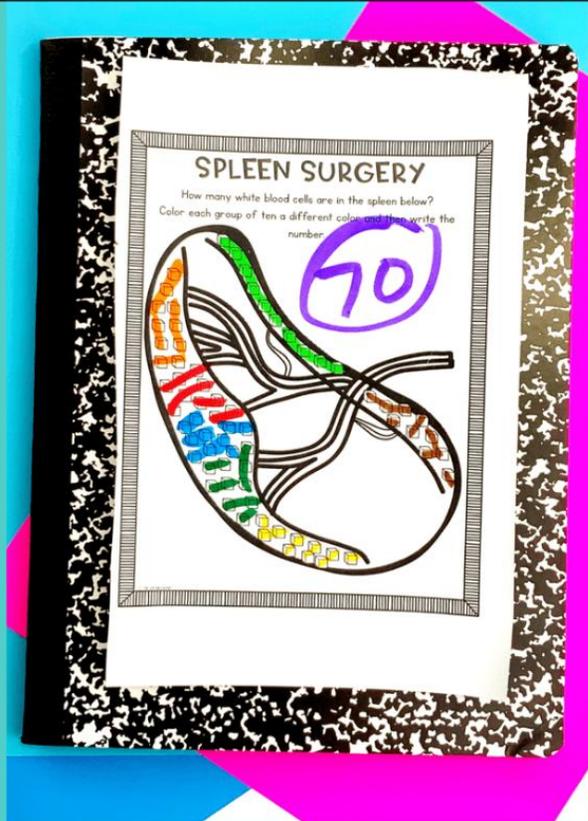

SMALL INTESTINE SURGERY

The small intestine takes in water to help break down food.
It changes food into waste that exits the body.

K-5 MATH & READING

THE LIFETIME LEARNER'S CLASSROOM TRANSFORMATIONS ARE:

1. Engaging to Students
2. Classroom Tested (and Student-Approved)
3. Print and Digital Compatible
4. Jam-Packed with Content
5. Aligned to Math Standards
6. Easy to Implement
7. Flexible for Every Classroom
8. Versatile Ways to Reward Students
9. Rigorous Student Learning Activities

All content is included so you can simply **print**
and get ready for an **AMAZING** experience
with your students!

Please Note:

- **There are 10 math challenges provided as well as décor, a fast finisher activity, and additional extras.**
- **The digital version is provided in Google Slides.**
- **Nervous about trying your first room transformation? You'll be hooked once you try one! I promise!**
- **Feel free to contact me if you have questions or want to chat about room transformations. You can email me at lindsaythelifetimelearner@gmail.com**
