Let's start with the basics...

What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

Camping Day

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

STEP 1:

Tell your class it is fall today!

They will practice reviewing many kindergarten & 1st grade math skills in activities set up around the room. You can do this for a day, a few days, or over the course of a week!

Flexibility is key.

Need to modify? No problem!
Choose how many centers students will need to complete and what time frame they have to meet YOUR needs.

Set-up is quick and easy.

Simply print the posters, 10 activities, and a recording sheet for each student. Place them around your room and you're ready to begin!

STEP 2:

Let students move around the room and complete each center. They can be completed in any order. All centers include reviewing many kindergarten & 1st grade math skills.

Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

The image displays two educational cards. The first is a 'SQUIRREL'S CHECKLIST' with ten challenge spots, each featuring a squirrel icon and a line for a signature. The second is a 'CHALLENGE #6' card titled 'Compare the two numbers using <, >, or =.' It contains ten math problems, each with a squirrel icon and a box for the comparison symbol. The problems are: 88 < 92, 22 < 32, 59 > 56, 14 < 41, 75 > 25, 87 = 87, 59 > 55, 69 < 96, 07 = 7, and 30 > 03. The cards are decorated with colorful arrows and paper clips.

STEP 3:

When students finish all activities you've assigned, they win! You can give them the included certificate, coloring page, or a small prize of your choice.

A shopping guide is also included to give you suggestions of optional "extras" you could add in.

Remember:

Anything different from a "normal" day in the classroom is special to students! A reward at the end isn't required during a classroom transformation.

STEP 4:

Most of the time, there are early finishers. These kiddos get to go around the room and complete a write the room activity! No one is ever bored.
