

WHAT IS THIS?

It's a low-prep room transformation!

Use the 10 math challenges, included decor, and more for a fun & easy room transformation!

Simply print the academic challenges, put up a few included decor items, and you're ready for a great day!

**Room transformations can
be stress-free and low-prep.**

Let's start with the basics...

What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

Camping Day

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

STEP 1:

Tell your class it is
Halloween today!

They will practice reviewing many 1st grade math skills in activities set up around the room. You can do this for a day, a few days, or over the course of a week!

Flexibility is key.

Need to modify? No problem!
Choose how many centers students will
need to complete and what time frame
they have to meet YOUR needs.

Set-up is quick and easy.

Simply print the posters, 10 activities, and a
recording sheet for each student. Place them
around your room and you're ready to begin!

STEP 2:

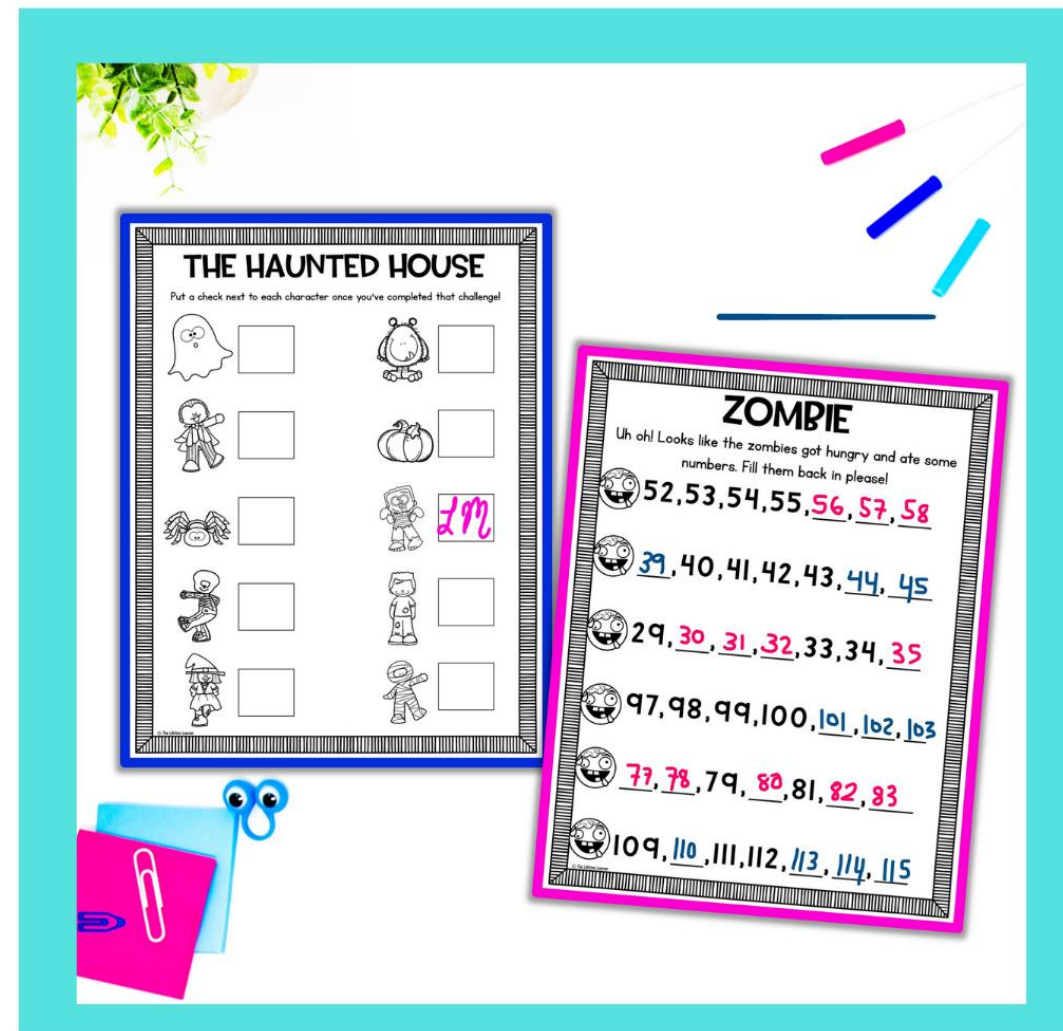

Let students move around the room and complete each center. They can be completed in any order. All centers include reviewing many 1st grade math skills.

Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

STEP 3:

This part is optional but SO MUCH FUN!

After students complete each center, I have them pull out a chance card.

If the card says "Trick", they put their hand in a Halloween "Trick Bag".

If the card says "Treat", they get a piece of candy.

What's in the Trick Bags?

There are things like marshmallows (ghost poop), carrots (monster toes), and a glove filled of flour (Frankenstein's hand). The resource includes ten bag labels and a shopping list of exactly what you'll need to fill them up.

STEP 4:

When students finish all activities you've assigned, they win! You can give them the included certificate, coloring page, or a small prize of your choice.

A shopping guide is also included to give you suggestions of optional "extras" you could add in.

Remember:

Anything different from a "normal" day in the classroom is special to students! A reward at the end isn't required during a classroom transformation.

STEP 5:

Most of the time, there are early finishers. These kiddos get to go around the room and complete a write the room activity! No one is ever bored.
