

WHAT IS THIS?

It's a low-prep room transformation!

Use the 10 math challenges, included decor, and more for a fun & easy room transformation!

Simply print the academic challenges, put up a few included decor items, and you're ready for a great day!

Room transformations can be stress-free and low-prep.

Keep scrolling to learn how!

Let's start with the basics...

What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

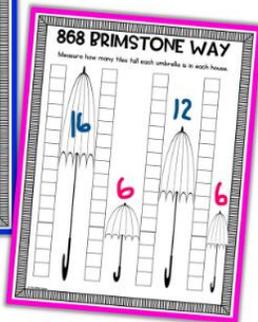

Camping Day

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

STEP 1:

Tell your class they are **realtors today!**

They will practice with nonstandard measurement in activities set up around the room. You can do this for a day, a few days, or over the course of a week!

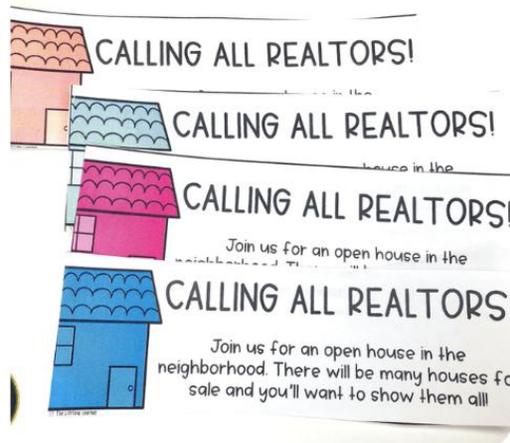

Set-up is quick and easy.

Simply print the posters, 10 activities, and a recording sheet for each student. Place them around your room and you're ready to begin!

Flexibility is key.

Need to modify? No problem!
Choose how many centers students will need to complete and what time frame they have to meet YOUR needs.

STEP 2:

Let students move around the room and complete each center. They can be completed in any order. All centers include practice with nonstandard measurement.

Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

STEP 3:

When students finish all activities you've assigned, they win! You can give them the included certificate, coloring page, or a small prize of your choice.

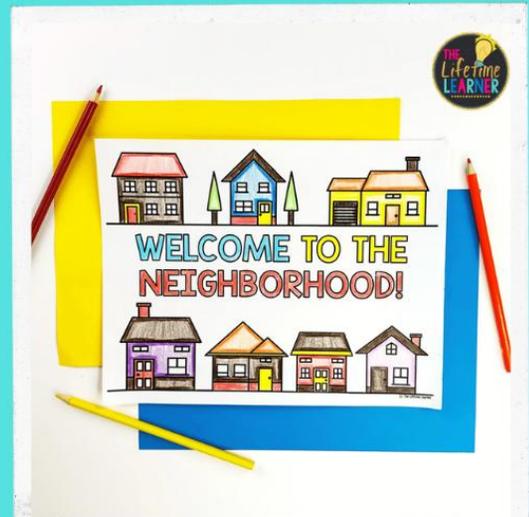

A shopping guide is also included to give you suggestions of optional "extras" you could add in.

Remember:

Anything different from a "normal" day in the classroom is special to students! A reward at the end isn't required during a classroom transformation.

Prize

STEP 4:

Most of the time, there are early finishers. These kiddos get to go around the room and complete a write the room activity! No one is ever bored.

How to Use

Name: _____

FIND IT! WRITE IT!

A. 	_____	F. 	_____
B. 	_____	G. 	_____
C. 	wall	H. 	_____
D. 	_____	I. 	_____
E. 	_____	J. 	_____

Examples:
D.  **door**
A.  **home**
C.  **wall**
I.  **roof**

Students write each word they find around the room.

How to Use

Name: _____

WRITE THE LETTER

Letter: _____		Letter: _____	
Letter: _____		G. 	The tree is next to the hot tub.
Letter: _____			
Letter: _____		Letter: _____	
Letter: G			Letter: _____
			Letter: _____

Examples:
I.  I can sit **I** on the bed.
B.  There is a map **B** under the desk.
G.  The tree is next to the hot tub.

Students find each card and write the correct letter on their recording sheet.

THE CONTENT:

10 themed math challenges aligned to math standards

890 PINE NUT WAY

Cut out the bedrooms below and lay each one on top of the hands to measure how long each one is.

BEDROOM 1:
BEDROOM 2:
BEDROOM 3:
BEDROOM 4:
BEDROOM 5:

BEDROOM 4

BEDROOM 5 **BEDROOM 1**

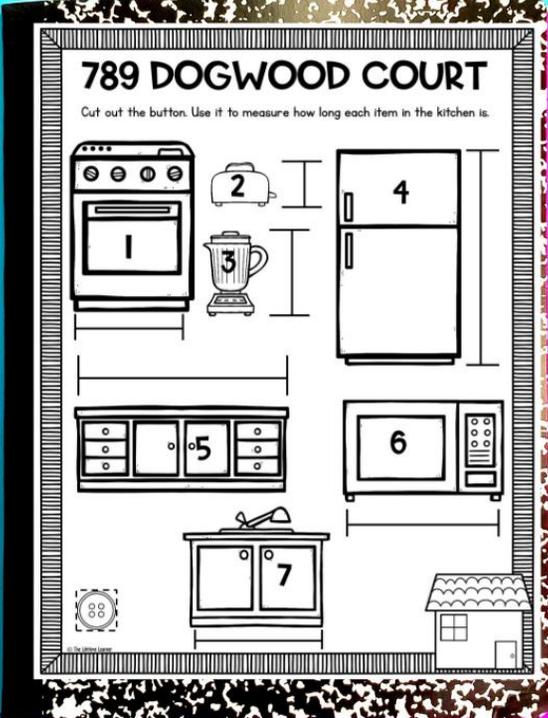

BEDROOM 2

BEDROOM 3

789 DOGWOOD COURT

Cut out the button. Use it to measure how long each item in the kitchen is.

479 CYPRUS ROAD

Use the donut at the bottom to measure how long each object in the garage is.

The wheelbarrow is donuts long.

The toolbox is donuts long.

The broom is donuts long.

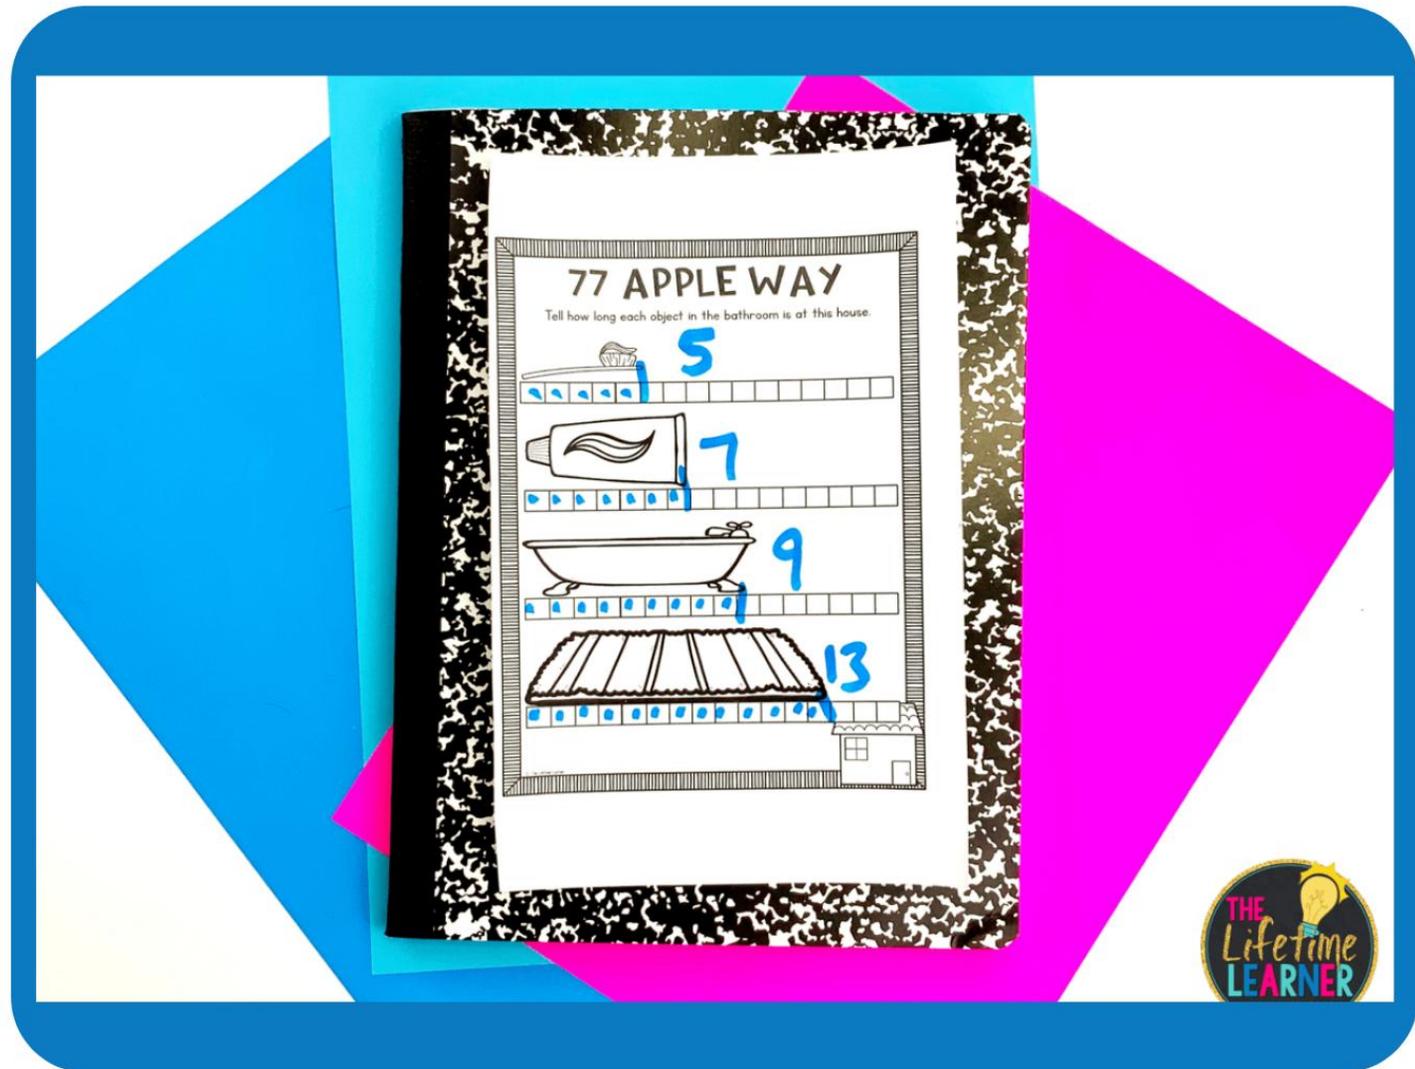

The work bench is donuts long.

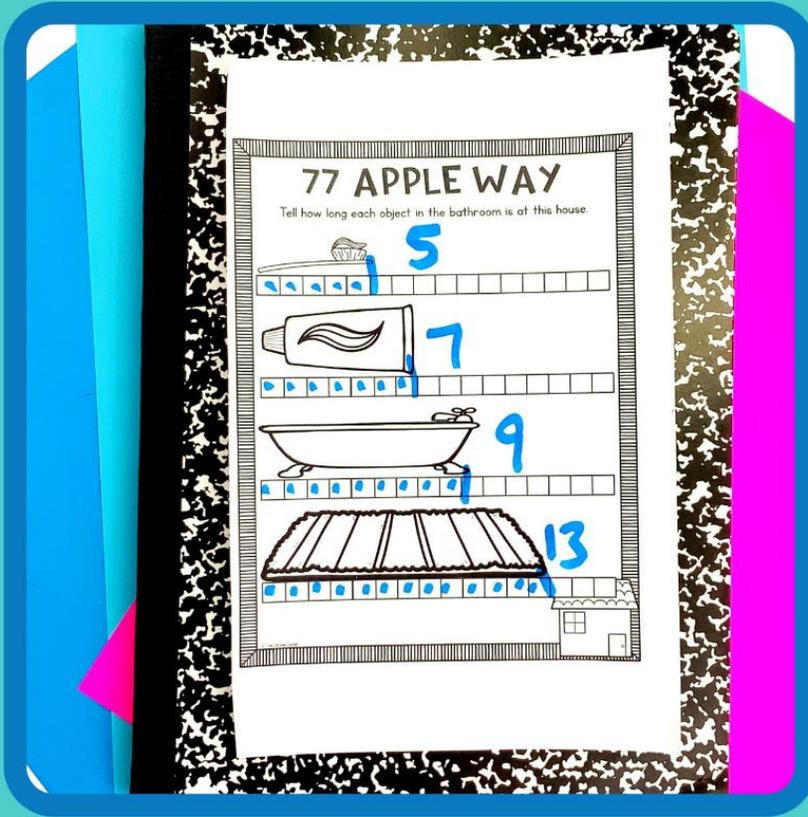

HOW TO USE THIS:

Ideas for Implementation:

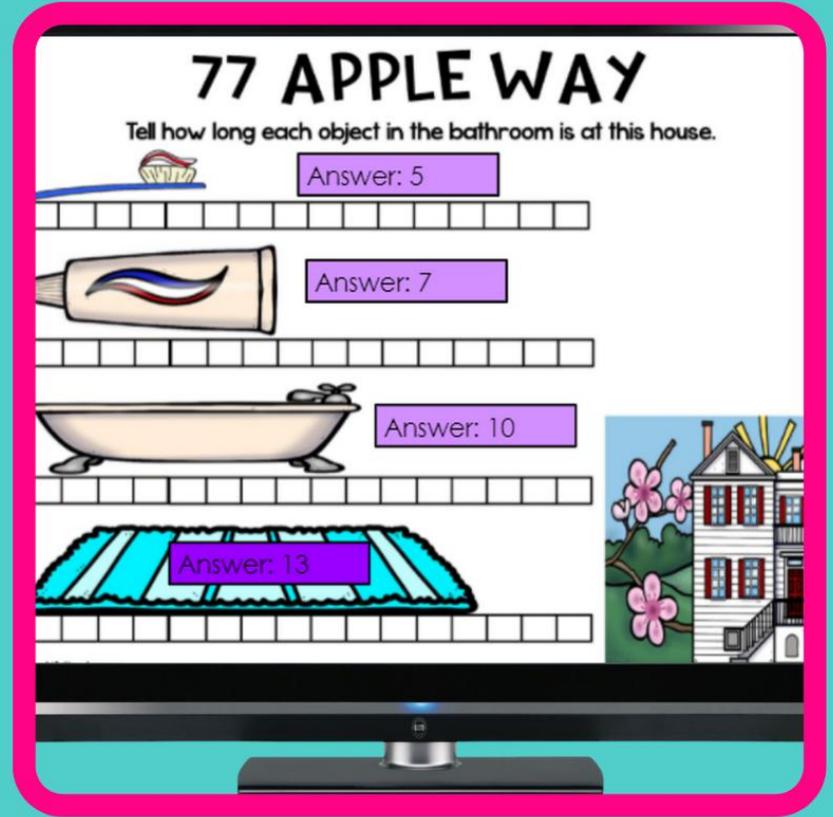

- pick and choose the centers you want to use: do what works best for your class!
- you can have students work individually, in partners, or small groups--any way works!
- give students 1-2 hours to complete all 10 activities
- give less than 10 challenges to students if you are short on time
- OR spread the room transformation out over a couple of days

Every activity relates to real-life mathematics!

624 PECAN GROVE ST

Measure how far it is from house to house in the yard using the paperclip below.

House A to House B: House E to House F:

56 SPRUCE ROAD

Measure how tall each flower is in the yard using an object in your classroom. Write how tall each flower is on the page.

8 GREEN STREET

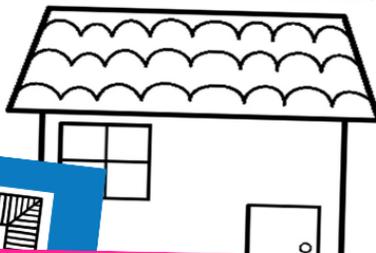

Measure how tall each mailbox is using the apples on the side. Cut them out and use them to measure the boxes. Write the number on each mailbox.

77 APPLE WAY

Tell how long each object in the bathroom is using the comb below.

123 ACORN ROAD

Count how many presents can fit across the front porch.

BRIMSTONE WAY

Count how many tiles tall each umbrella is in each house.

456 MAPLE STREET

Cut out the house at the bottom. Use it to measure how long each room is. Write the number inside each.

FAMILY ROOM

KITCHEN

SUN

BATH ROOM

BEDROOM #

890 PINE NUT WAY

Count how many bedrooms below and lay each one on top of the others to measure how long each one is.

789 DOGWOOD COURT

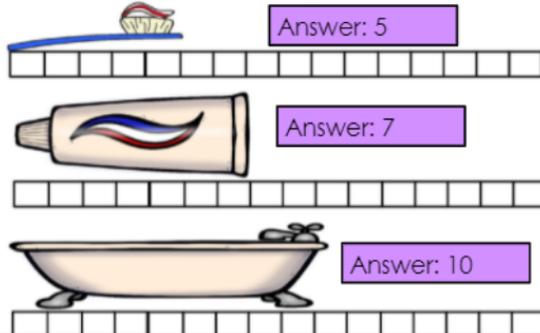

Cut out the button. Use it to measure how long each item in the kitchen is.
