

# WHAT IS THIS?

It's a low-prep room transformation!

Use the 10 math challenges, included decor, and more for a fun & easy room transformation!

Simply print the academic challenges, put up a few included decor items, and you're ready for a great day!

Room transformations can  
be stress-free and low-prep.

Keep scrolling  
to learn how!

# Let's start with the basics...

## What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

Camping Day

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

# STEP 1:

Tell your class there is a  
Thanksgiving parade today!

They will practice reviewing many 1st grade math skills in activities set up around the room. You can do this for a day, a few days, or over the course of a week!

Flexibility is key.

Need to modify? No problem!  
Choose how many centers students will need to complete and what time frame they have to meet YOUR needs.

Set-up is quick and easy.

Simply print the posters, 10 activities, and a recording sheet for each student. Place them around your room and you're ready to begin!

# STEP 2:

Let students move around the room and complete each center. They can be completed in any order. All centers include reviewing many 1st grade math skills.

## Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

## Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

# STEP 3:

When students finish all activities you've assigned, they win! You can give them the included certificate, coloring page, or a small prize of your choice (instructions included how to let students build a cookie turkey!).

A shopping guide is also included to give you suggestions of optional "extras" you could add in.

## Remember:

Anything different from a "normal" day in the classroom is special to students! A reward at the end isn't required during a classroom transformation.

Certificate

Coloring Page

In Action Pic

Prize

# STEP 4:

Most of the time, there are early finishers. These kiddos get to go around the room and complete a write the room activity! No one is ever bored.

**How to Use**

Name: \_\_\_\_\_

**FIND IT! WRITE IT!** <<<<

A.  <b>turkey</b>	F. 
B. 	G. 
C. 	H. 
D. 	I.  <b>turkey</b>
E. 	J. 

C.  B.  **family** **fall**

Students write each word they find around the room.

**How to Use**

Name: \_\_\_\_\_

**WRITE THE LETTER** <<<<

Letter: 	Letter: <b>I</b> 
Letter: 	Letter: 
I.  <b>Let's make some gravy.</b>	Letter: 
Letter: 	Letter: 
Letter: 	Letter: 

G.  **No cake** B.  **I like fall time!** **will bake this pie.**

Students find each card and write the correct letter on their recording sheet.

**Version 1:  
Words**

**Choose between  
2 versions!**

**Version 2:  
Read Sentences**

# THE CONTENT:

10 themed math challenges  
aligned to math standards

### CORN CHALLENGE

Write what time it is on each corn.

The worksheet features six analog clocks arranged in a 3x2 grid. Each clock is next to a corn cob illustration. Below each clock is a blank rectangular box for the student to write the time. The times shown on the clocks are: 1:50, 10:10, 1:00, 9:15, 4:00, and 12:00.

### TRUCK

Color the leaves that are correct green and the leaves that are not correct red.

The worksheet shows a variety of leaves, each with a math problem. The problems are:  $4+4=8$ ,  $16-7=9$ ,  $12-8=5$ ,  $20-10=10$ ,  $4+6=10$ ,  $3-3=1$ ,  $6+8=14$ ,  $18-8=11$ ,  $10-5=5$ ,  $7-1=8$ ,  $12-6=6$ ,  $9-16=5$ ,  $7+3=3$ ,  $14-3=11$ ,  $17-12=5$ , and  $13+6=19$ . A small truck with people is in the top right corner.

### FOX

Tell if each fox put the right symbol in the middle by putting a check or an X next to each equation.

The worksheet features two columns of equations, each preceded by a fox illustration. The equations are:  $42 > 24$ ,  $32 = 23$ ,  $13 < 11$ ,  $71 < 81$ ,  $66 < 99$ ,  $35 = 35$ ,  $49 > 50$ , and  $09 > 90$ .

# HOW TO USE THIS:

## Ideas for Implementation:

- pick and choose the centers you want to use: do what works best for your class!
- you can have students work individually, in partners, or small groups--any way works!
- give students 1-2 hours to complete all 10 activities
- give less than 10 challenges to students if you are short on time
- OR spread the room transformation out over a couple of days
