

WHAT IS THIS?

It's a low-prep room transformation!

Use the 10 math challenges, included decor, and more for a fun & easy room transformation!

Simply print the academic challenges, put up a few included decor items, and you're ready for a great day!

Room transformations can be stress-free and low-prep.

Keep scrolling to learn how!

Let's start with the basics...

What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

Camping Day

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

STEP 1:

Tell your class they are going to see dinosaurs today!

They will practice 2nd grade math skills in activities set up around the room. You can do this for a day, a few days, or over the course of a week!

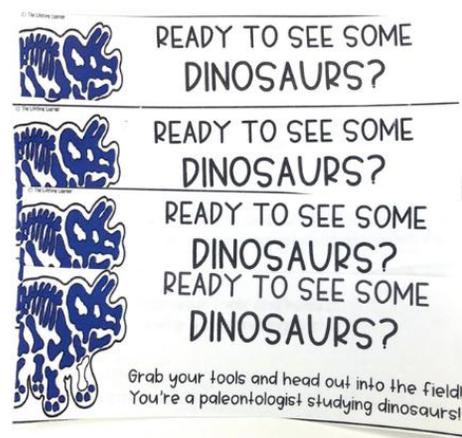

Set-up is quick and easy.

Simply print the posters, 10 activities, and a recording sheet for each student. Place them around your room and you're ready to begin!

Flexibility is key.

Need to modify? No problem! Choose how many centers students will need to complete and what time frame they have to meet YOUR needs.

STEP 2:

Let students move around the room and complete each center. They can be completed in any order. All centers include practice with 2nd grade math skills.

Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

STEP 3:

When students finish all activities you've assigned, they win! You can give them the included certificate, coloring page, or a small prize of your choice.

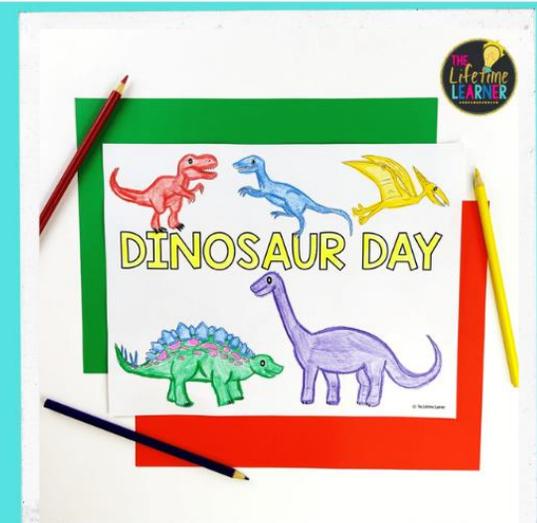

A shopping guide is also included to give you suggestions of optional "extras" you could add in.

Remember:

Anything different from a "normal" day in the classroom is special to students! A reward at the end isn't required during a classroom transformation.

Certificate

Coloring Page

In Action Pic

Prize

STEP 4:

Most of the time, there are early finishers. These kiddos get to go around the room and read fun facts about the topic! No one is ever bored.

Choose from 3 versions!

THE CONTENT:

10 themed math challenges
aligned to math standards

SABER TOOTH TIGER

Color the saber tooth tigers that go together the same colors.

 800+40+2	 242	 800+20+4	 Two hundred forty-eight
 824	 200+40+8	 284	 Eight hundred twenty-four
 Four hundred twenty-eight	 842	 Two hundred forty-two	 400+20+8
 200+40+2	 Eight hundred forty-two	 200+80+4	 Two hundred eighty-four

PTERODACTYL

Write the next 3 numbers in each pattern.

455,460,465,		410,420,430,
685,690,695,		850,860,870,
220,225,230,		180,190,200,
700,705,710,		370,380,390,
540,545,550,		230,240,250,

STEGOSAURUS

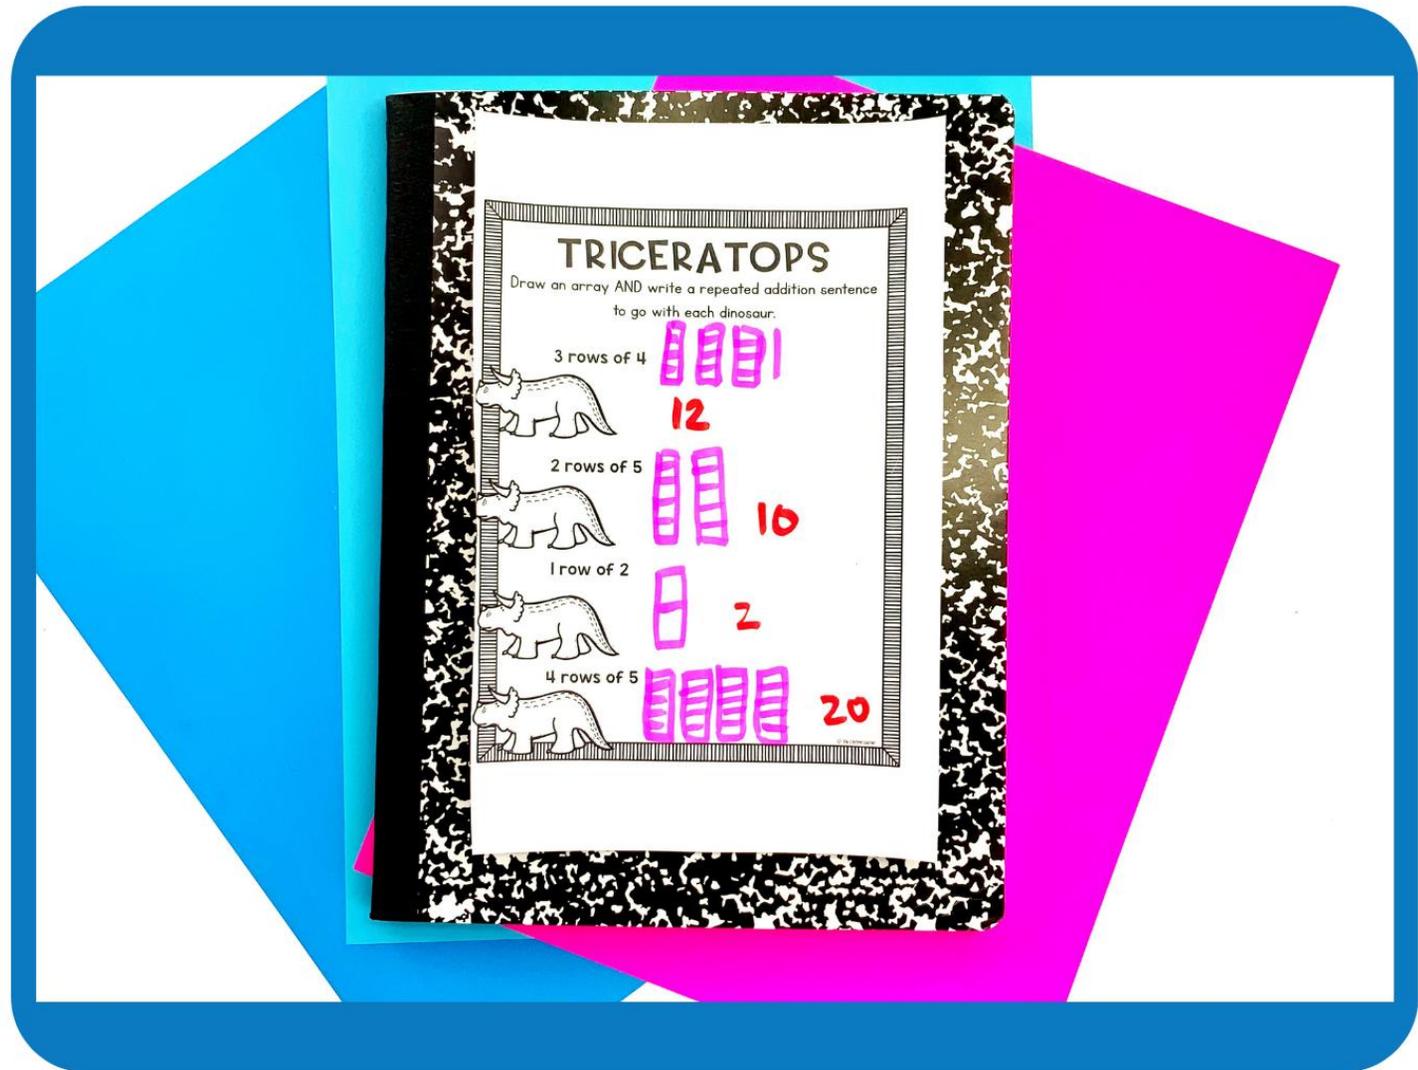

Tell if each dinosaur put the right symbol in the middle by putting a check or an X next to each equation.

286  268	154  145
517  511	761  771
444  999	325  325
429  430	908  980

HOW TO USE THIS:

Ideas for Implementation:

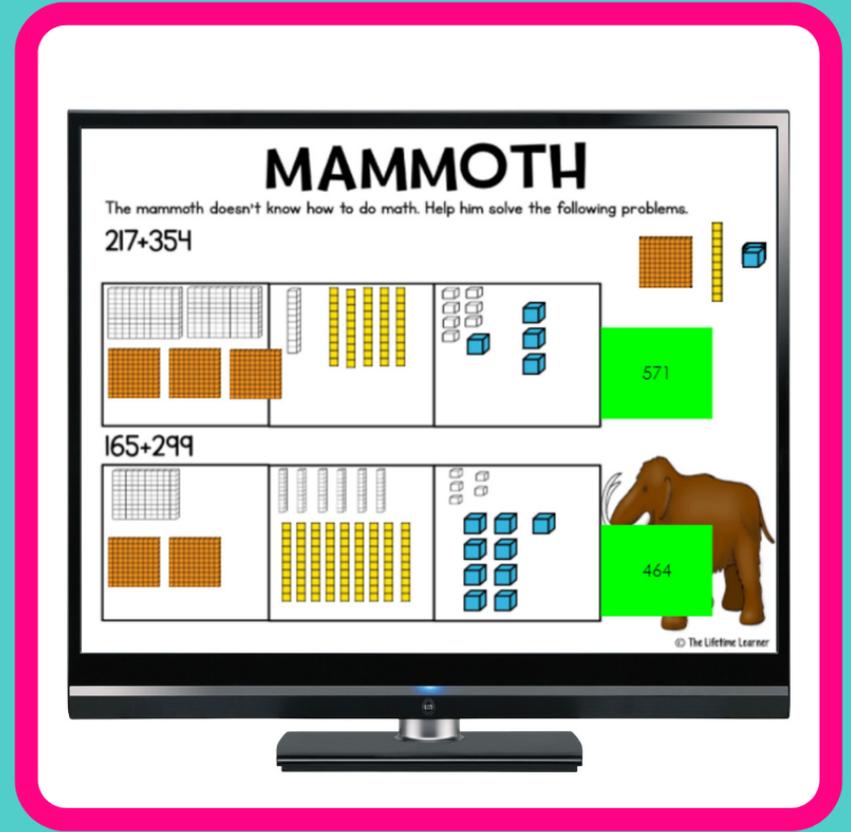

- pick and choose the centers you want to use: do what works best for your class!
- you can have students work individually, in partners, or small groups--any way works!
- give students 1-2 hours to complete all 10 activities
- give less than 10 challenges to students if you are short on time
- OR spread the room transformation out over a couple of days

Google Slides

Choose the format
that works best for you!

Every activity relates to real-life mathematics!

TRICERATOP

Draw an array AND write a repeated addition to go with each dinosaur.

VELOCIRAPTOR

There were 56 velociraptors. 24 run away down the road. How many velociraptors are there now?

STYGIOSAURUS

How tall each dinosaur is in inches and in centimeters. Find the difference between the two in centimeters and in inches.

ANKYLOSAUR

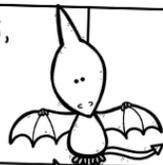

The first dinosaur traveled 34 miles and the second 23 miles to get to the watering hole. How much more did the first dinosaur travel?

PTERODACTYL

Write the next 3 numbers in each pattern.

455, 460, 465,

410, 420, 430,

850, 860, 870

MAMMOTH

Mammoth doesn't know how to do math. Help him solve the following problems.

STEGOSAURUS

Tell if each dinosaur put the right symbol by putting a check or an X next to the number.

286

268

154

325

SABER TOOTH TIGER

Color the saber tooth tigers that go together the same colors.

$800+40+2$

242

$800+20+4$

824

$200+40+8$

284

T-REX

Color the T-Rex of meat the same color as the T-Rex it goes with based on the number of sides that shape has. If the T-Rex does not have a matching dinosaur, leave it white.

quadrilateral

rhombus

triangle

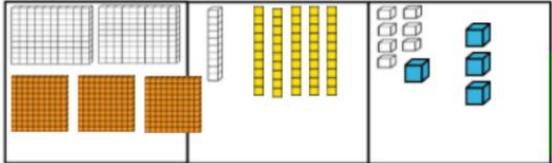

heart

**focuses on:
2nd grade math skills**

MAMMOTH

The mammoth doesn't know how to do math. Help him solve the following problems.

$217+354$

$165+299$

SABER TOOTH TIGER

Color the saber tooth tigers that go together the same colors.

$800+40+2$	242	$800+20+4$	Two hundred forty-eight
824	$200+40+8$	284	Eight hundred twenty-four

TRICERATOPS

Draw an array AND write a repeated addition sentence to go with each dinosaur.

3 rows of 4

Repeated Addition:
 $4+4+4=12$
 $3+3+3=12$

2 rows of 5

Repeated Addition:
 $2+2+2+2+2=10$
 $5+5=10$

1 row of 2

Repeated Addition:

ANKYLOSAURUS

The first dinosaur traveled 34 miles and the second dinosaur traveled 23 miles to get to the watering hole. How much farther did the second dinosaur travel?

The dinosaur will be 53 feet long when it's full-grown. It is only 27 feet long as a baby. How many more feet does it still need to grow?

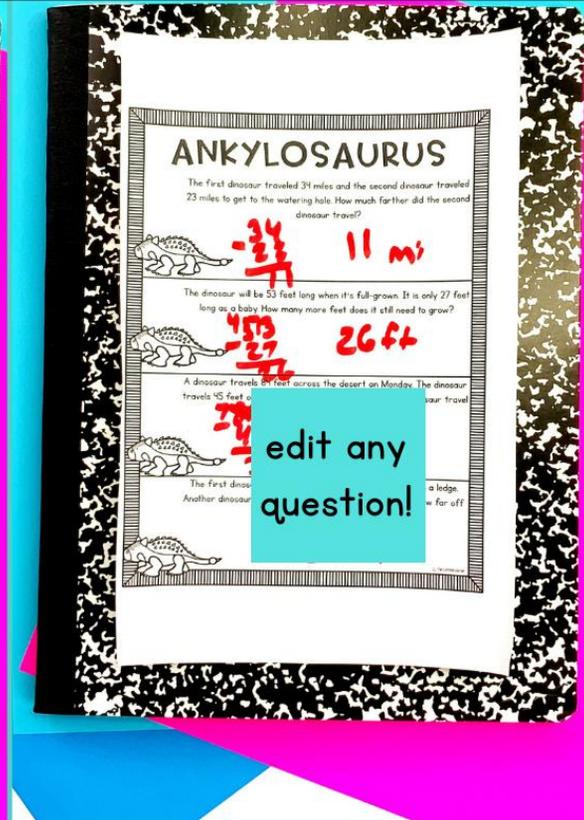

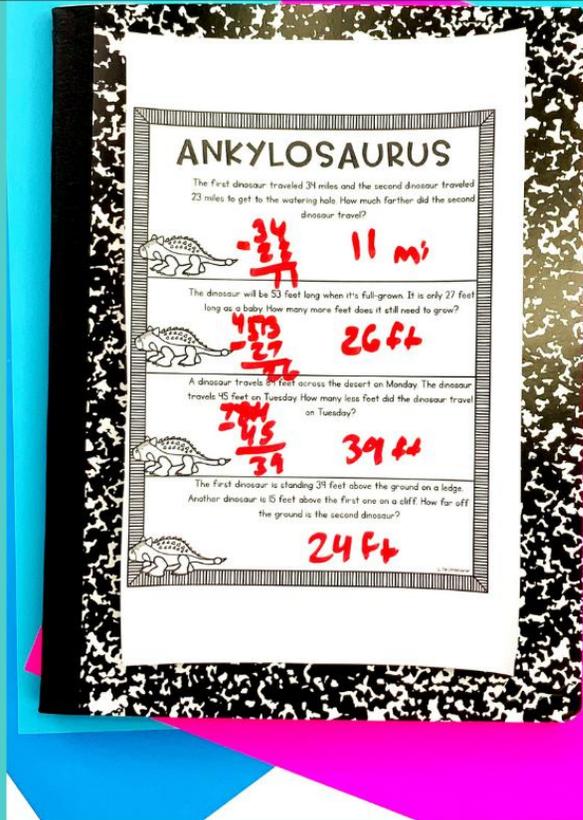

A dinosaur travels 84 feet across the desert on Monday. The dinosaur travels 45 feet on Tuesday. How many less feet did the dinosaur travel on Tuesday?

Fun Facts

jam-packed with fun, rigor, and engagement!

other resources this pairs well with:

Differentiate by grabbing math for multiple grade levels!

Or, add in some reading to your themed learning day!

When you purchase a Mega Bundle, you save 50% off the price of the individual resources!

classroom transformations

low prep, fun, and engaging!

K-5 MATH & READING

THE LIFETIME LEARNER'S CLASSROOM TRANSFORMATIONS ARE:

1. Engaging to Students
2. Classroom Tested (and Student-Approved)
3. Print and Digital Compatible
4. Jam-Packed with Content
5. Aligned to Math Standards
6. Easy to Implement
7. Flexible for Every Classroom
8. Versatile Ways to Reward Students
9. Rigorous Student Learning Activities

All content is included so you can simply **print**
and get ready for an **AMAZING** experience
with your students!

Please Note:

- **There are 10 math challenges provided as well as décor, a fast finisher activity, and additional extras.**
- **The digital version is provided in Google Slides.**
- **Nervous about trying your first room transformation? You'll be hooked once you try one! I promise!**
- **Feel free to contact me if you have questions or want to chat about room transformations. You can email me at lindsaythelifetimelearner@gmail.com**
