

WHAT IS THIS?

It's a low-prep room transformation!

Use the 30 math challenges, included decor, and more for a fun & easy room transformation!

Simply print the academic challenges, put up a few included decor items, and you're ready for a great day!

Room transformations can be stress-free and low-prep.

Keep scrolling to learn how!

Let's start with the basics...

What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

Camping Day

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

STEP 1:

Tell your class they are in a grocery store today!

They will practice comparing 3 digit numbers in activities set up around the room. You can do this for a day, a few days, or over the course of a week!

Set-up is quick and easy.

Simply print the posters, 30 activities, and a recording sheet for each student. Place them around your room and you're ready to begin!

Flexibility is key.

Need to modify? No problem!

Choose how many centers students will need to complete and what time frame they have to meet YOUR needs.

STEP 2:

Let students move around the room and complete each center. They can be completed in any order. All centers include practicing comparing 3 digit numbers.

Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

The image displays two educational materials. On the left is a 'SHOPPING LIST' grid with 18 items, each with a small illustration. The items are: Cheese, Milk, Eggs, Yogurt, Butter, Macaroni, Bread, Cereal, Chips, Pudding, Apple, Orange, Grapes, Bananas, Blueberries, Strawberry, Pineapple, Chicken, Bacon, Fish, Broccoli, Carrot, Corn, Onion, Lettuce, Pepper, Tomato, Hot Dogs, Peanut Butter, and Shrimp. The grid is titled 'SHOPPING LIST' and includes the instruction 'Record each of your answers in the boxes below.' On the right is a recording sheet with a pink border. It features four math problems: $454 = 454$ (with a bunch of grapes), $919 < 991$ (with an orange), $472 < 749$ (with blueberries), and $207 > 108$ (with a banana). The recording sheet also includes illustrations of a paperclip, a pencil, and a pen.

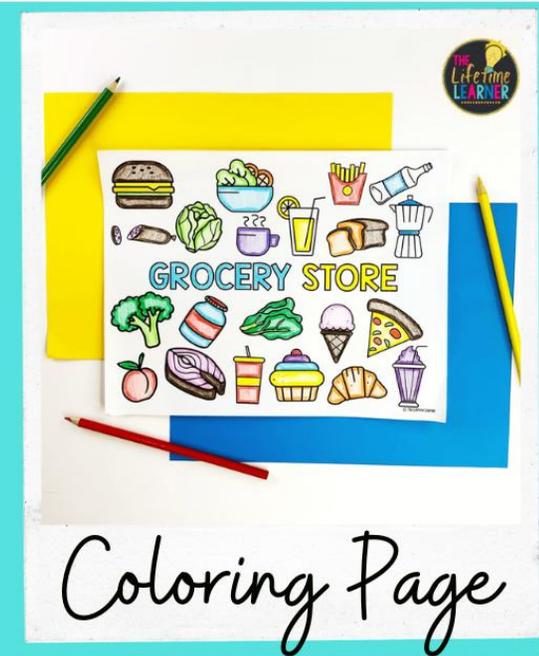

STEP 3:

When students finish all activities you've assigned, they win! You can give them the included certificate, coloring page, or a small prize of your choice.

A shopping guide is also included to give you suggestions of optional "extras" you could add in.

Remember:

Anything different from a "normal" day in the classroom is special to students! A reward at the end isn't required during a classroom transformation.

STEP 4:

Most of the time, there are early finishers. These kiddos get to go around the room and read fun facts about the topic! No one is ever bored.

Choose from 3 versions!

THE CONTENT:

30 themed math challenges
aligned to math standards

 454 <input type="checkbox"/> 454	919 <input type="checkbox"/> 991
472 <input type="checkbox"/> 749	207 <input type="checkbox"/> 108
	

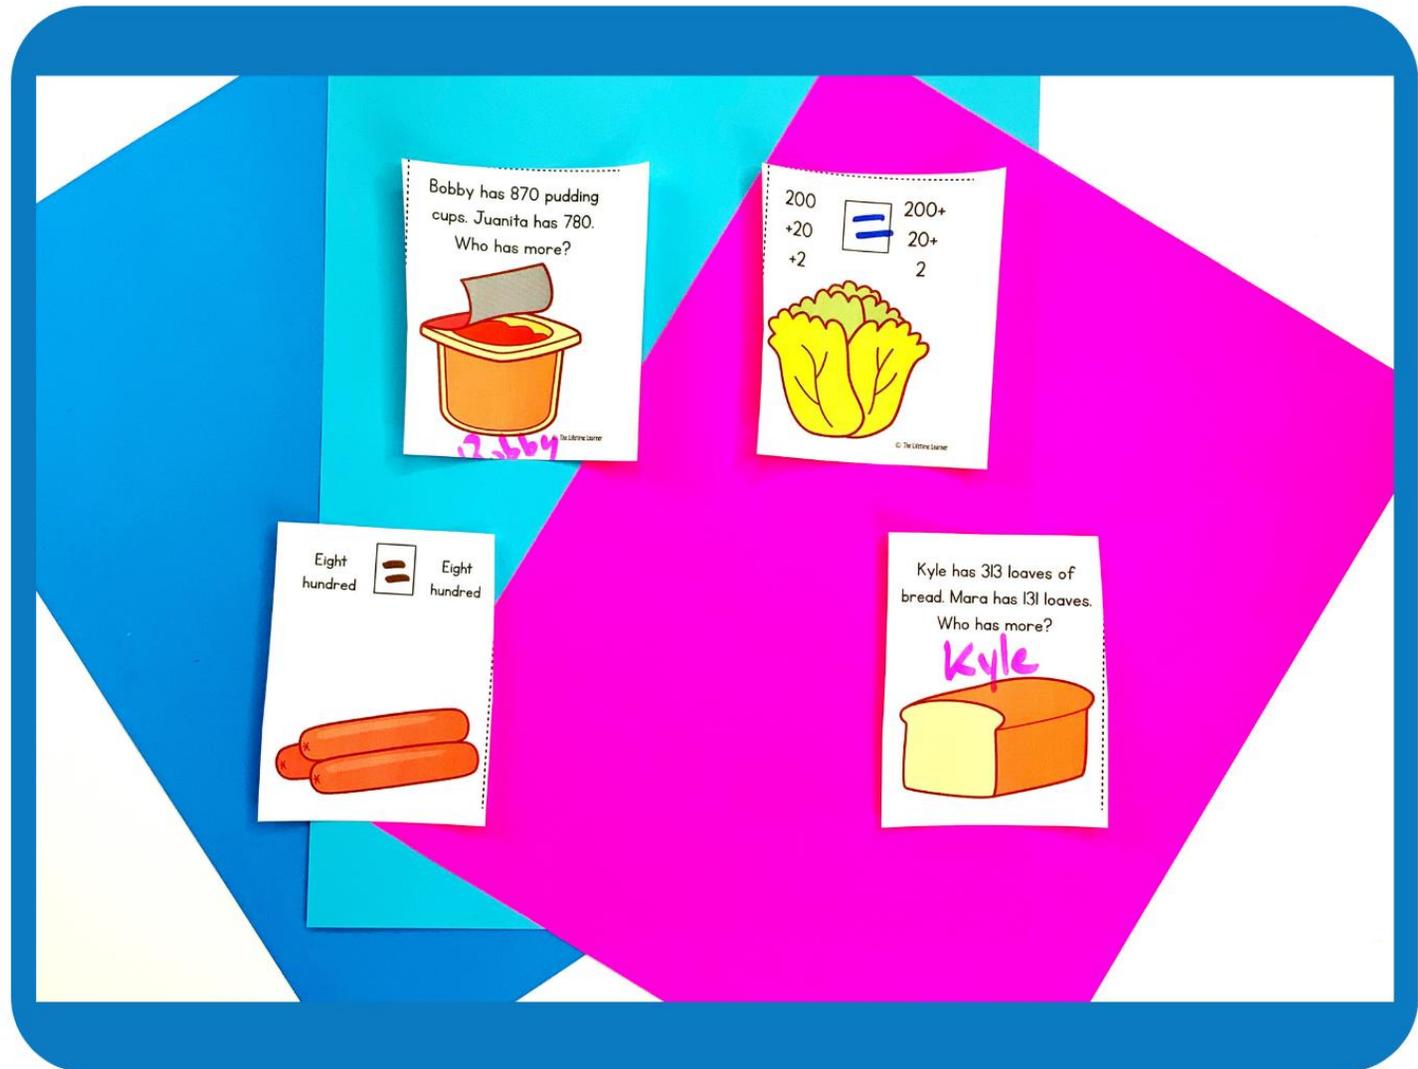

Lana has 256 pieces of macaroni. Javier has 265. Who has more?	Gabrielle has 774 chips. Michelle has 747 chips. Who has more?
	
Kyle has 313 loaves of bread. Mara has 131 loaves. Who has more?	Bobby has 870 pudding cups. Juanita has 780. Who has more?
	

Three hundred thirty <input type="checkbox"/> Three hundred twenty-nine	Nine hundred thirty-seven <input type="checkbox"/> Nine hundred seventy-three
	
Eight hundred <input type="checkbox"/> Eight hundred	Five hundred seven <input type="checkbox"/> Five hundred seventeen
	

HOW TO USE THIS:

Ideas for Implementation:

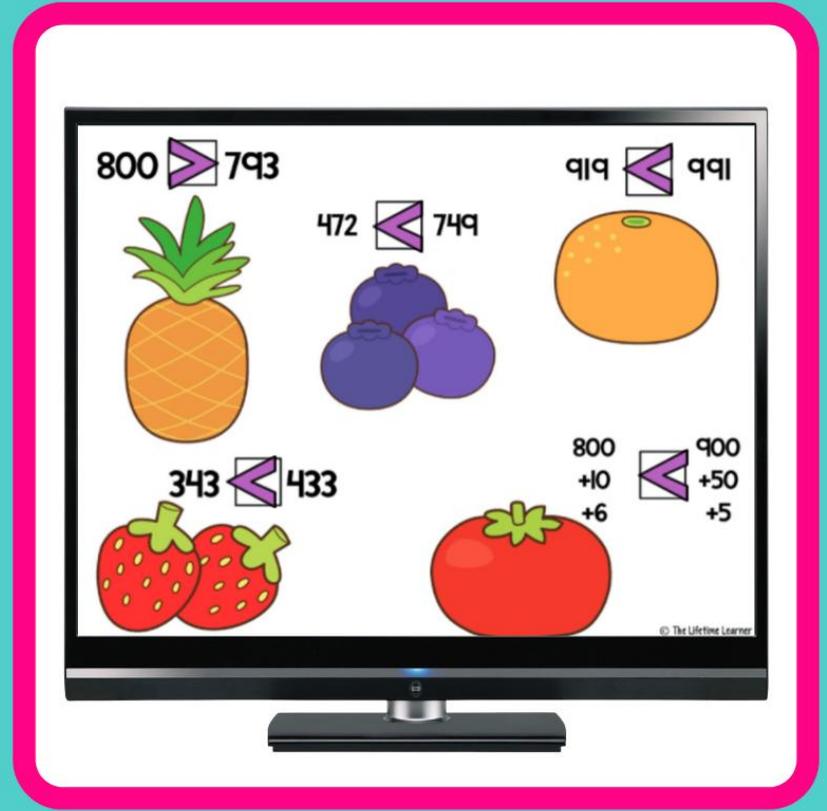

- pick and choose the centers you want to use: do what works best for your class!
- you can have students work individually, in partners, or small groups--any way works!
- give students 1-2 hours to complete all 30 activities
- give less than 30 challenges to students if you are short on time
- OR spread the room transformation out over a couple of days
