

WHAT IS THIS?

It's a low-prep room transformation!

Use the 10 math challenges, included decor, and more for a fun & easy room transformation!

Simply print the academic challenges, put up a few included decor items, and you're ready for a great day!

Room transformations can be stress-free and low-prep.

Keep scrolling to learn how!

Let's start with the basics...

What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

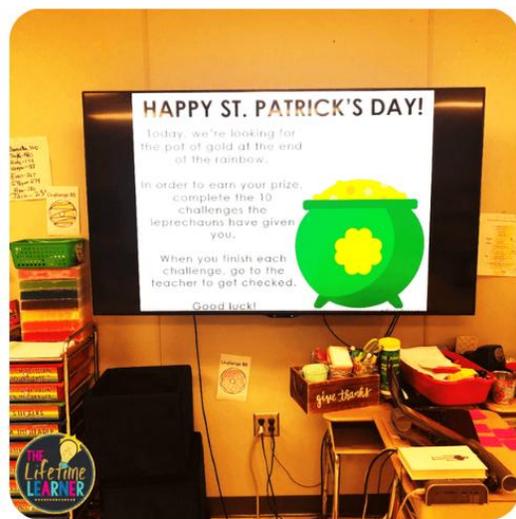

Camping Day

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

STEP 1:

Tell your class they are leprechauns today!

They will practice a variety of 2nd grade math skills in activities set up around the room. You can do this for a day, a few days, or over the course of a week!

Set-up is quick and easy.

Simply print the posters, 10 activities, and a recording sheet for each student. Place them around your room and you're ready to begin!

Flexibility is key.

Need to modify? No problem! Choose how many centers students will need to complete and what time frame they have to meet YOUR needs.

STEP 2:

Let students move around the room and complete each center. They can be completed in any order. All centers include reviewing a variety of 2nd grade math skills.

Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

The image shows two math center cards. The first card, titled "LEPRECHAUN FAMILY REUNION", has a blue border and a decorative top-left corner with green leaves. It contains a grid of 10 leprechaun characters, each with a name and a small square box for a checkmark. The characters are: Lucky, Goldie (with a pink signature), Coin, Emerald, Rainbow, Greeny, Fortune, Grandma Willow, Clover, and Grandpa Potter. The second card, titled "GOLDIE'S CHALLENGE", has a pink border and a decorative top-right corner with three colored sticks (pink, blue, cyan). It features a grid of 10 clover leaves, each with a number and a small square box for a symbol. The numbers are: 262, 626, 711, 117, 945, 845, 30, 300, 579, 975, 442, and 424. The card also includes a small illustration of Goldie at the bottom right.

STEP 3:

When students finish all activities you've assigned, they win! You can give them the included certificate, coloring page, or a small prize of your choice.

A shopping guide is also included to give you suggestions of optional "extras" you could add in.

Remember:

Anything different from a "normal" day in the classroom is special to students! A reward at the end isn't required during a classroom transformation.

Prize

STEP 4:

Most of the time, there are early finishers. These kiddos get to go around the room and read fun facts about the topic! No one is ever bored.

Choose from 3 versions!

1 Digital Scavenger Hunt

Let students "find" the facts on Google Slides

2 Printable Facts

Hang facts around room

3 QR Codes

THE CONTENT:

10 themed math challenges aligned to math standards

RAINBOW'S CHALLENGE

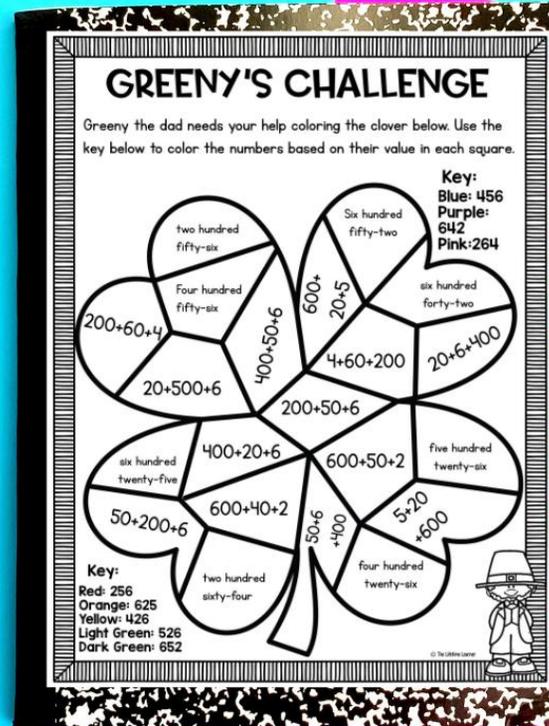

Rainbow loves finding pots of gold! Look at the place value drawing and write the answer on the pot.

This worksheet features ten pots of gold arranged in two columns of five. Each pot is accompanied by a place value chart with columns for hundreds, tens, and ones. The pots are intended for students to write the sum of the numbers shown in the place value charts.

GREENY'S CHALLENGE

Greeny the dad needs your help coloring the clover below. Use the key below to color the numbers based on their value in each square.

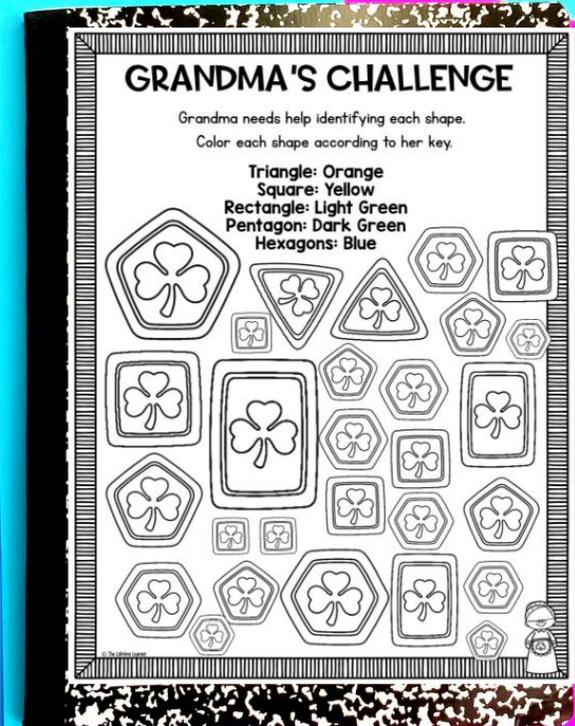

This worksheet features a large four-leaf clover. Each leaf is divided into several sections, each containing a math problem. A key at the bottom left provides the color for each number: Red: 256, Orange: 625, Yellow: 426, Light Green: 526, Dark Green: 652. A key at the top right provides the color for each number: Blue: 456, Purple: 642, Pink: 264. A small cartoon character is at the bottom right.

Key:
Red: 256
Orange: 625
Yellow: 426
Light Green: 526
Dark Green: 652

Key:
Blue: 456
Purple: 642
Pink: 264

GRANDMA'S CHALLENGE

Grandma needs help identifying each shape. Color each shape according to her key.

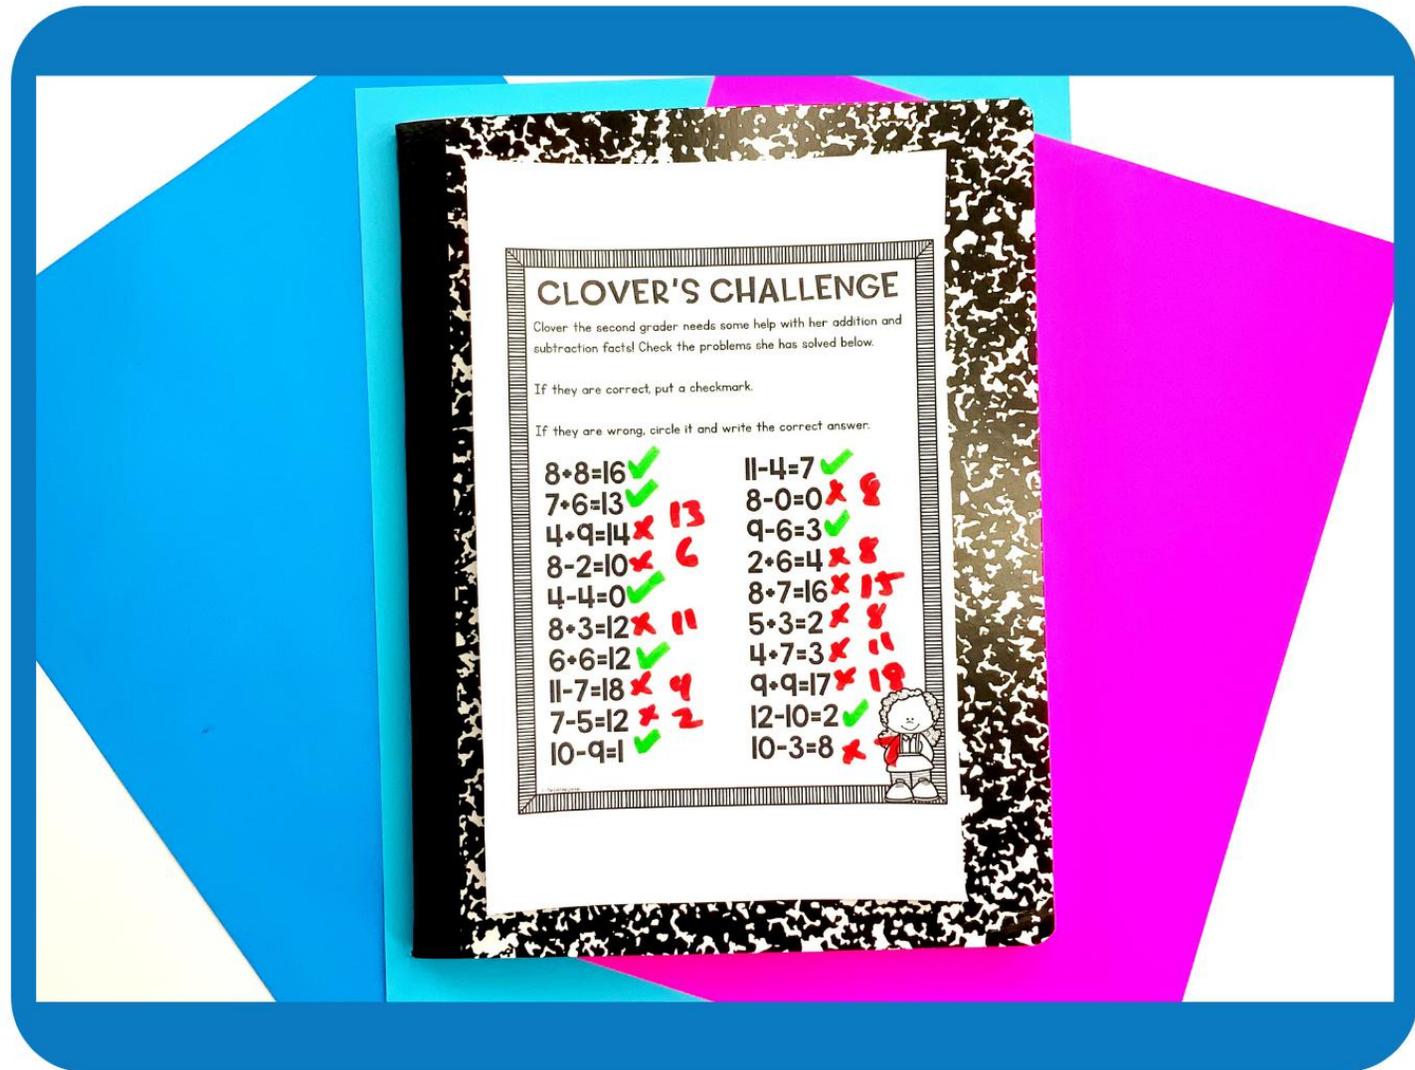

This worksheet features a collection of various shapes, each containing a clover. A key at the top right provides the color for each shape: Triangle: Orange, Square: Yellow, Rectangle: Light Green, Pentagon: Dark Green, Hexagons: Blue. A small cartoon character is at the bottom right.

Key:
Triangle: Orange
Square: Yellow
Rectangle: Light Green
Pentagon: Dark Green
Hexagons: Blue

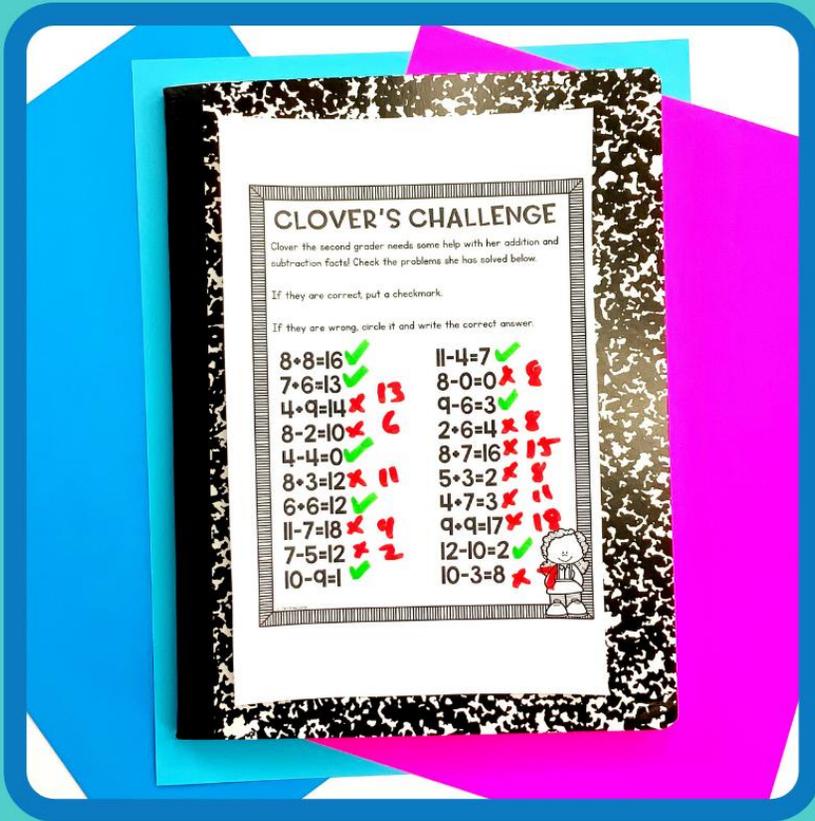

HOW TO USE THIS:

Ideas for Implementation:

- pick and choose the centers you want to use: do what works best for your class!
- you can have students work individually, in partners, or small groups--any way works!
- give students 1-2 hours to complete all 10 activities
- give less than 10 challenges to students if you are short on time
- OR spread the room transformation out over a couple of days

that works best for you!**

Every activity relates to real-life mathematics!

FORTUNE'S CHALLENGE

Fortune needs some help adding ten more or ten less. Help him out!

GRANDPA'S CHALLENGE

Grandpa needs help deciding if each clover is odd or even. If it's odd, color it light green. If it's even, color it dark green.

OLDIE'S CHALLENGE

Help writing the correct symbol on each clover. Write $<$, $>$, or $=$.

GRANDMA'S CHALLENGE

Grandma needs help identifying each shape. Color each shape according to the key below.

Triangle: Orange
Square: Yellow

CLOVER'S CHALLENGE

Clover the second grader needs some help with her addition and subtraction facts! Check the problems she has solved below.

If they are correct, put a checkmark.

If they are wrong, circle it and write the correct answer.

$$11-4=7$$

BOW'S CHALLENGE

Bow is finding pots of gold! Look at the place value chart and write the answer on the pot.

LUCKY'S CHALLENGE

Lucky the baby doesn't know how to add yet. Help!

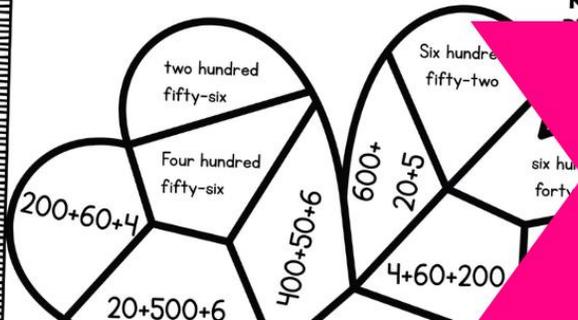

Assist him in adding each of the following coins to find out how much gold he has in all!

GREENY'S CHALLENGE

Greeny the dad needs your help coloring the clover below. Use the key below to color the numbers based on their value in each square.

GRANDMA'S CHALLENGE

Grandma needs help identifying each shape. Color each shape according to her key.

- Triangle: Orange
- Square: Yellow
- Rectangle: Light Green
- Pentagon: Dark Green
- Hexagons: Blue

COIN'S CHALLENGE

1. How many more coins does Coin have than Clover?

$$6 - 4 = 2$$

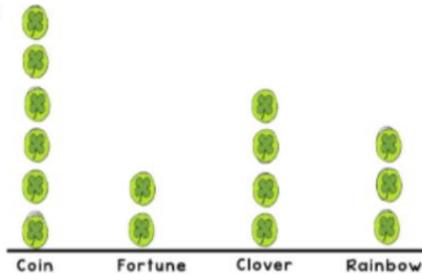

2. Who has the fewest number of coins?

Fortune

3. How many coins do Clover and Rainbow have combined?

$$4 + 3 = 7$$

4. How many less coins does Fortune have than Rainbow?

FORTUNE'S CHALLENGE

Fortune needs some help adding ten more or ten less below. Help him out!

$$470 - 10 = 460$$

$$927 - 100 = 827$$

$$640 + 10 = 650$$

$$373 + 100 = 473$$

$$220 - 10 = 210$$

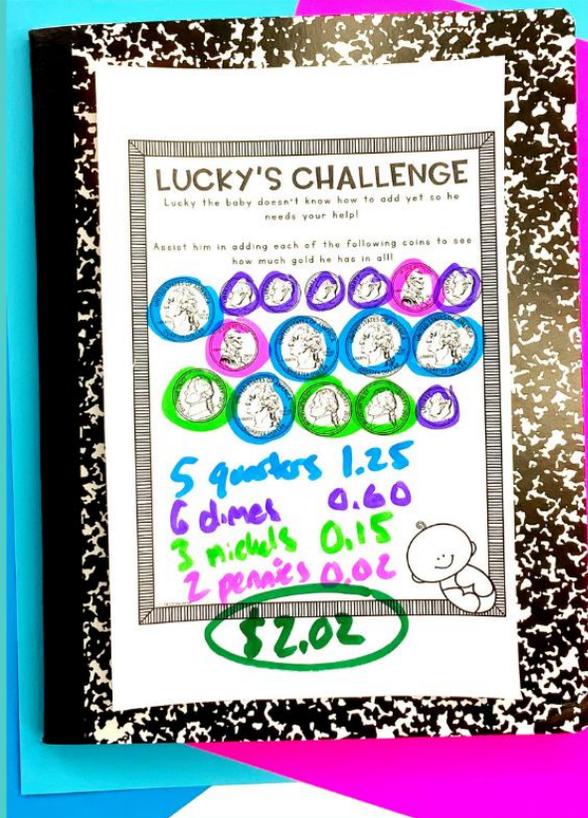

$$452 - 100 = 352$$

$$190 - 10 = 180$$

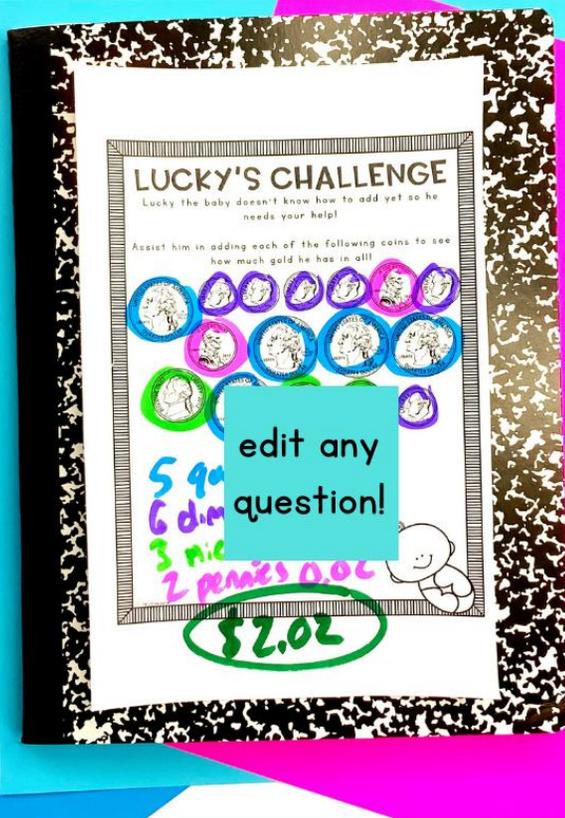

$$659 - 100 = 559$$
