

WHAT IS THIS?

It's a low-prep room transformation!

Use the 10 math challenges, included decor, and more for a fun & easy room transformation!

Simply print the academic challenges, put up a few included decor items, and you're ready for a great day!

Room transformations can be stress-free and low-prep.

Keep scrolling to learn how!

Let's start with the basics...

What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

Camping Day

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

STEP 1:

Tell your class there is a Thanksgiving parade today!

They will practice reviewing multiple math standards in activities set up around the room. You can do this for a day, a few days, or over the course of a week!

Set-up is quick and easy.

Simply print the posters, 10 activities, and a recording sheet for each student. Place them around your room and you're ready to begin!

Flexibility is key.

Need to modify? No problem! Choose how many centers students will need to complete and what time frame they have to meet YOUR needs.

STEP 2:

Let students move around the room and complete each center. They can be completed in any order. All centers include reviewing multiple math standards.

Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

STEP 3:

When students finish all activities you've assigned, they win! You can give them the included certificate, coloring page, or a small prize of your choice (instructions included how to let students build a cookie turkey!).

A shopping guide is also included to give you suggestions of optional "extras" you could add in.

Remember:

Anything different from a "normal" day in the classroom is special to students! A reward at the end isn't required during a classroom transformation.

Certificate

Coloring Page

In Action Pic

Prize

STEP 4:

Most of the time, there are early finishers. These kiddos get to go around the room and read fun facts about the topic! No one is ever bored.

Choose from 3 versions!

1 Digital Scavenger Hunt

Let students "find" the facts on Google Slides

2 Printable Facts

Hang facts around room

3 QR Codes

Students scan to read fun facts

SCARECROW CHALLENGE

Write on top of each scarecrow's hat if the problem is addition or subtraction. Then solve. Show your work.

A farmer needs 80 scarecrows. He has 42. How many can he throw away?
There are 55 scarecrows in the field. 27 fall down. How many are left?
A farmer needs 100 scarecrows. He has 99 so far. How many more does he need?
There are 36 scarecrows. The farmer puts 38 more in the field. How many are there now?

HOW TO USE THIS:

Ideas for Implementation:

- pick and choose the centers you want to use: do what works best for your class!
- you can have students work individually, in partners, or small groups--any way works!
- give students 1-2 hours to complete all 10 activities
- give less than 10 challenges to students if you are short on time
- OR spread the room transformation out over a couple of days

FOX CHALLENGE
Tell if each fox put the write symbol in the middle by putting a check or an X next to each equation.

242 > 224	232 = 323
713 < 711	471 < 481
666 < 999	235 = 235
149 > 150	909 > 990

that works best for you!**

Every activity relates to real-life mathematics!

CORNUCOPIA CHALLENGE

Color the food the correct color based on what it goes with.

CORN CHALLENGE

Write what time it is on each corn.

TRUCK CHALLENGE

Color the leaves that are correct green and the leaves that are correct red. If it's wrong, write the correct amount.

SCARECROW CHALLENGE

Write on top of each scarecrow's hat if the problem is addition or subtraction. Then solve. Show your work.

TURKEY CHALLENGE

Draw a place value drawing for each turkey's number below.

319

132

355

128

MIX CHALLENGE

Put the right symbol in the middle by checking or an X next to each equation.

PIE CHALLENGE

$$\begin{array}{r} 56 \\ - 28 \\ \hline \end{array}$$

$$\begin{array}{r} 14 \\ + 37 \\ \hline \end{array}$$

$$\begin{array}{r} 59 \\ + 49 \\ \hline \end{array}$$

OWL CHALLENGE

Help the owl figure out the answer!

The owl goes to the store.
 He picks up 50 pumpkin pies.
 He drops 12 pies on the floor.
 He picks up 35 more pumpkin pies.
 Someone hands him 13 more pies.
 He goes home.
 He forgets 24 pies in the car.
 He burns 12 pies in the oven.
 The dog eats four pumpkin pies.
 The cat eats seven pumpkin pies.
 The hamster eats three pumpkin pies.

How many pumpkin pies did the owl have at the end?

SCARECROW CHALLENGE

Write on top of each scarecrow's hat if the problem is addition or subtraction. Then solve.

92-80=12

55-27=28

100-49=51

36+38=74

low prep, fun, and engaging!

K-5 MATH & READING

THE LIFETIME LEARNER'S CLASSROOM TRANSFORMATIONS ARE:

1. Engaging to Students
2. Classroom Tested (and Student-Approved)
3. Print and Digital Compatible
4. Jam-Packed with Content
5. Aligned to Math Standards
6. Easy to Implement
7. Flexible for Every Classroom
8. Versatile Ways to Reward Students
9. Rigorous Student Learning Activities

All content is included so you can simply **print**
and get ready for an **AMAZING** experience
with your students!

Please Note:

- **There are 10 math challenges provided as well as décor, a fast finisher activity, and additional extras.**
- **The digital version is provided in Google Slides.**
- **Nervous about trying your first room transformation? You'll be hooked once you try one! I promise!**
- **Feel free to contact me if you have questions or want to chat about room transformations. You can email me at lindsaythelifetimelearner@gmail.com**
