

WHAT IS THIS?

It's a low-prep room transformation!

Use the 10 math challenges, included decor, and more for a fun & easy room transformation!

Simply print the academic challenges, put up a few included decor items, and you're ready for a great day!

Room transformations can be stress-free and low-prep.

Keep scrolling to learn how!

Let's start with the basics...

What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

Camping Day

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

STEP 1:

Tell your class they are vets today!

They will practice solving addition and subtraction word problems within 20 in activities set up around the room. You can do this for a day, a few days, or over the course of a week!

Flexibility is key.

Need to modify? No problem!
Choose how many centers students will need to complete and what time frame they have to meet YOUR needs.

Set-up is quick and easy.

Simply print the posters, 10 activities, and a recording sheet for each student. Place them around your room and you're ready to begin!

STEP 2:

Let students move around the room and complete each center. They can be completed in any order. All centers include practicing addition and subtraction word problems within 20.

Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

PET HOSPITAL
Put a check next to each animal once you've completed the challenge.

Cat <input checked="" type="checkbox"/>	Bird <input type="checkbox"/>
Dog <input type="checkbox"/>	Mouse <input type="checkbox"/>
Puppy <input type="checkbox"/>	Snake <input type="checkbox"/>
Rabbit <input type="checkbox"/>	Hamster <input type="checkbox"/>
Fish <input type="checkbox"/>	Turtle <input type="checkbox"/>

CAT
94 cats have come in today to get their shots. 15 cats are given a shot and go home.
How many cats still need to be given shots today? Show your work!

$$\begin{array}{r} 94 \\ - 15 \\ \hline 79 \end{array}$$

Decorative elements include a pink paperclip, a blue paperclip, a cartoon bird, and a small cat illustration.

STEP 3:

When students finish all activities you've assigned, they win! You can give them the included certificate, coloring page, or a small prize of your choice.

A shopping guide is also included to give you suggestions of optional "extras" you could add in.

Remember:

Anything different from a "normal" day in the classroom is special to students! A reward at the end isn't required during a classroom transformation.

Prize

STEP 4:

Most of the time, there are early finishers. These kiddos get to go around the room and read fun facts about the topic! No one is ever bored.

Choose from 3 versions!

THE CONTENT:

10 themed math challenges
aligned to math standards

RABBIT

A rabbit comes in with a sick tummy because he ate too many carrots. He ate 54 carrots yesterday and 17 carrots today.

How many carrots did he eat altogether? Show your work.

TURTLE

A turtle comes in for a check up. The first time you try to look at him, he pops into his shell 27 times. The 2nd time, he pops into his shell double the amount of times he did the first time!

How many times did he pop out the second time?

Show your work.

CAT

94 cats have come in today to get their shots. 15 cats are given a shot and go home.

How many cats still need to be given shots today? Show your work!

HOW TO USE THIS:

Ideas for Implementation:

- pick and choose the centers you want to use: do what works best for your class!
- you can have students work individually, in partners, or small groups--any way works!
- give students 1-2 hours to complete all 10 activities
- give less than 10 challenges to students if you are short on time
- OR spread the room transformation out over a couple of days

that works best for you!

Every activity relates to real-life mathematics!

CAT

94 cats have come in today to get their shots. 15 were shot and go home.

TURTLE

A turtle comes in for a check up. The first time you try to look at him, he pops into his shell 27 times. The 2nd time, he pops into his shell double the amount of times he did the first time!

SNAKE

snakes get dropped off by an animal rescue to be

HAMSTER

A little girl brings in her hamsters. She puts 43 boy hamsters on the table.

PUPPY

All of the crates were left open and all of the puppies escaped. Read the lines below and tell how many puppies you need to find!

- 64 puppies escaped from the crates.
- You have caught 18 of the puppies so far.

DOG

today needing an x-ray. Sixteen of the dogs are fine. use they are fine. still need an x-ray? Show your work.

BIRD

A parrot comes in with 90 small cuts on its wing. There are now only 18 cuts left.

How many cuts did you heal on the bird's wing?

FISH

You are checking on the fish in an aquarium to make sure they are okay. You see 61 fish swimming around.

If 27 of them are orange fish, how many are not orange? Show your work.

RABBIT

comes in with a sick tummy because he ate too many carrots yesterday and 17 carrots today.

How many carrots did he eat altogether? Show your work.

addition & subtraction
word problems within 20

A turtle comes in for a check up. The first time you try to look at him, he pops into his shell 27 times. The 2nd time, he pops into his shell double the amount of times he did the first time!

How many times did he pop out the second time?

Answer: 54 times

A turtle comes in for a check up. The first time you try to look at him, he pops into his shell 27 times. The 2nd time, he pops into his shell double the amount of times he did the first time!

How many times did he hide in his shell in all?

1st Time: 27 times

2nd Time: 54 times

Total: 81 times

A bunch of snakes get dropped off by an animal rescue to be checked.

The first crate of snakes has 68 snakes inside. The second crate of snakes has 14 snakes inside.

How many snakes are there in both crates combined?

Answer: 82 snakes

The first crate of snakes has 68 snakes inside. The second crate of snakes has 14 snakes inside. How many snakes are there in both crates combined?

1st Crate: 68

2nd Crate: 14

Combined: 82 snakes

A third crate of snakes gets delivered. It has 15 snakes inside. How many snakes are there now?

3rd Crate: 15

All 3 Crates: 97 snakes

K-5 MATH & READING

THE LIFETIME LEARNER'S CLASSROOM TRANSFORMATIONS ARE:

1. Engaging to Students
2. Classroom Tested (and Student-Approved)
3. Print and Digital Compatible
4. Jam-Packed with Content
5. Aligned to Math Standards
6. Easy to Implement
7. Flexible for Every Classroom
8. Versatile Ways to Reward Students
9. Rigorous Student Learning Activities

All content is included so you can simply **print**
and get ready for an **AMAZING** experience
with your students!

Please Note:

- There are 10 math challenges provided as well as décor, a fast finisher activity, and additional extras.
- The digital version is provided in Google Slides.
- **Nervous about trying your first room transformation? You'll be hooked once you try one! I promise!**
- **Feel free to contact me if you have questions or want to chat about room transformations. You can email me at lindsaythelifetimelearner@gmail.com**
