

# WHAT IS THIS?

It's a low-prep room transformation!

Use the 30 math challenges, included decor, and more for a fun & easy room transformation!

Simply print the academic challenges, put up a few included decor items, and you're ready for a great day!

Room transformations can be stress-free and low-prep.

Keep scrolling to learn how!

# Let's start with the basics...

## What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

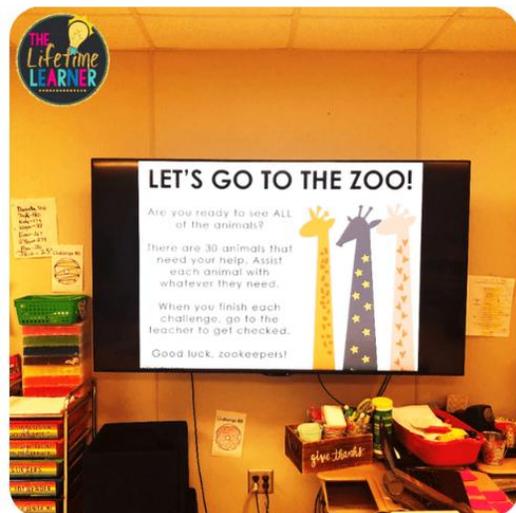

Camping Day

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

# STEP 1:

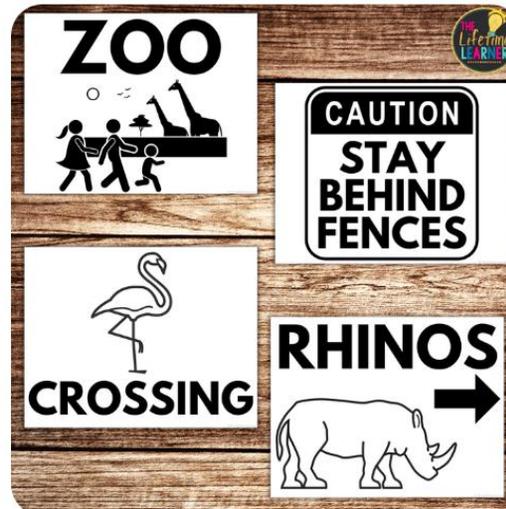

Tell your class they are at the zoo today!

They will practice identifying even and odd numbers within 20 in activities set up around the room. You can do this for a day, a few days, or over the course of a week!

Flexibility is key.

Need to modify? No problem!  
Choose how many centers students will need to complete and what time frame they have to meet YOUR needs.

Set-up is quick and easy.

Simply print the posters, 30 activities, and a recording sheet for each student. Place them around your room and you're ready to begin!

# STEP 2:

Let students move around the room and complete each center. They can be completed in any order. All centers include practicing identifying even and odd numbers within 20.

## Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

## Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

# STEP 3:

When students finish all activities you've assigned, they win! You can give them the included certificate, coloring page, or a small prize of your choice.

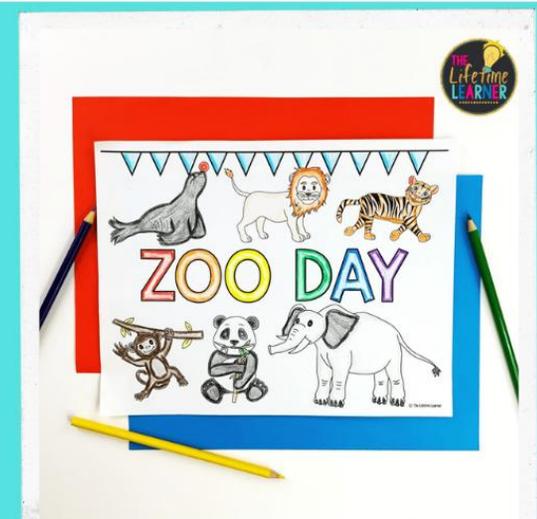

A shopping guide is also included to give you suggestions of optional "extras" you could add in.

## Remember:

Anything different from a "normal" day in the classroom is special to students! A reward at the end isn't required during a classroom transformation.

Prize

# STEP 4:

Most of the time, there are early finishers. These kiddos get to go around the room and read fun facts about the topic! No one is ever bored.

**Choose from 3 versions!**

**Digital Scavenger Hunt**

*Let students "find" the facts on Google Slides*

**Printable Facts**

*Hang facts around room*

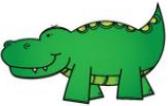

**QR Codes**

*Students scan to read fun facts*

# HOW TO USE THIS:

## Ideas for Implementation:

- pick and choose the centers you want to use: do what works best for your class!
- you can have students work individually, in partners, or small groups--any way works!
- give students 1-2 hours to complete all 30 activities
- give less than 30 challenges to students if you are short on time
- OR spread the room transformation out over a couple of days

ROOM TRANSFORMATION

1ST GRADE MATH

By: The Lifetime Learner

John Doe Zookeeper

This resource includes a tiger mask, a zoo sign, and several math cards. The cards feature illustrations of a sloth, a toucan, an elephant, and a lion. Each card contains a math problem: '10 less than 47 is...', '10 more than 54 is...', '10 less than 20 is...', and '10 more than 20 is...'. A green circle highlights the instruction 'find 10 more or 10 less' and the standard '1.NBT.5'.

ROOM TRANSFORMATION

3RD GRADE MATH

By: The Lifetime Learner

John Doe Zookeeper

This resource includes a tiger mask, a zoo sign, and several word problem cards. The cards feature illustrations of a crocodile, a toucan, a tiger, and a lion. Each card contains a word problem: 'There are 14 alligators in the zoo. They are kept apart so there is only 1 alligator in each enclosure. How many enclosures does the zoo have?', 'The zoo has 20 tigers. Each alligator of the zoo eats 20 pounds of food a day. If they eat that much food over a 2 hour period, how much food are they eating per hour?', and 'The zoo has 6 tigers each hour. How many tigers will be seen in 6 hours?'. A green circle highlights the instruction 'MULTIPLICATION & DIVISION word problems' and the standard '3.OA.3'.

ROOM TRANSFORMATION

2ND GRADE READING

By: The Lifetime Learner

John Doe Zookeeper

This resource includes a tiger mask, a zoo sign, and several reading cards. The cards feature illustrations of a sloth, a toucan, a tiger, and a lion. Each card contains a reading activity: 'COLOR THE PICTURES' with words 'shy', 'dry', 'she', 'no', 'we', 'poker', 'siren'; 'THIS OR THAT?' with a choice between a tiger and a lion; and '3 CHOICES' with a grid of words and pictures. A blue circle highlights the instruction 'open syllable words'.
