

# WHAT IS THIS?

## It's a low-prep room transformation!

Use the 10 reading stations, included decor, and more for a fun & easy room transformation!

This themed learning day has 10 stations:  
5 phonics-based stations and  
5 reading comprehension-based stations.  
You can use 1, 5, or all 10--it's flexible!

**Room transformations can  
be stress-free and low-prep.**

**Keep scrolling  
to learn how!**

# Let's start with the basics...

## What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

Camping Day

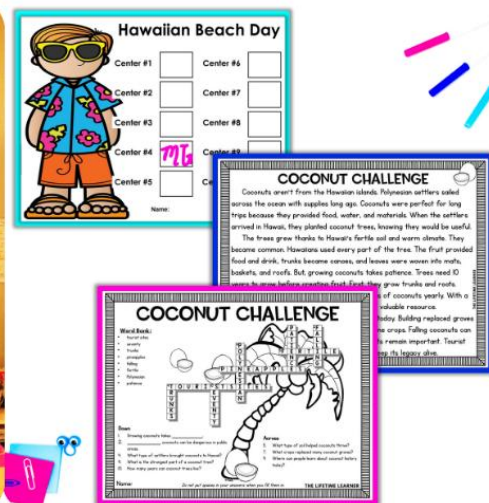

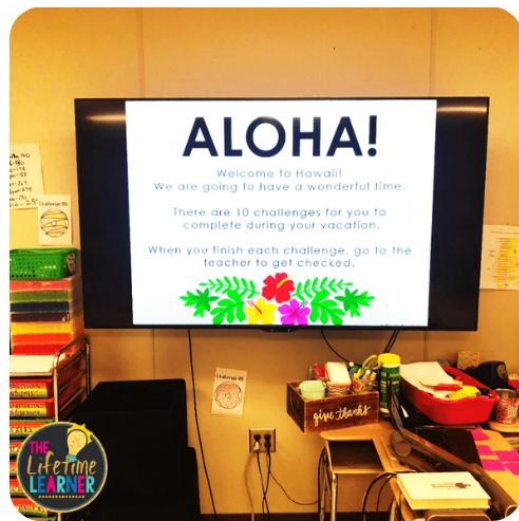

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

# STEP 1:

Tell your class they are in Hawaii today!

They will complete a review of 5 reading comprehension and 5 phonics-based activities set up around the room. You can do this for a day, a few days, or over the course of a week!

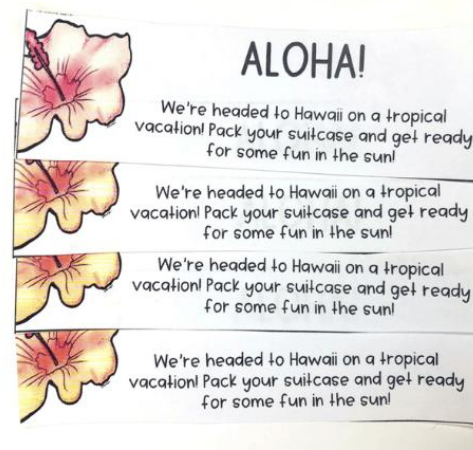

Flexibility is key.

Need to modify? No problem!  
Choose how many centers students will need to complete and what time frame they have to meet YOUR needs.

Set-up is quick and easy.

Simply print the posters, 10 activities, and a recording sheet for each student. Place them around your room and you're ready to begin!

# STEP 2:

Let students move around the room and complete each station. They read a passage and then an activity to go with it. They can be completed in any order. All stations include a variety of reading comprehension and phonics skills. You can choose just a few for students to complete or use all 10. This is up to the teacher and the amount of time you'd like to fill.

## Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

## Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

**COCONUT CHALLENGE**

Coconuts aren't from the Hawaiian islands. Polynesian settlers sailed across the ocean with supplies long ago. Coconuts were perfect for long trips because they provided food, water, and materials. When the settlers arrived in Hawaii, they planted coconut trees, knowing they would be useful. The trees grew thanks to Hawaii's fertile soil and warm climate. They became common. Hawaiians used every part of the tree. The fruit provided food and drink, trunks became canoes, and leaves were woven into mats, baskets, and roofs. But, growing coconuts takes patience. Trees need 10 years to grow before creating fruit. First they grow trunks and roots.

**COCONUT CHALLENGE**

**Word Bank:**

- tourist sites
- twenty
- trunks
- pineapples
- fertile
- Polynesian
- patience

**Down**

1. Growing coconuts takes \_\_\_\_\_.
2. \_\_\_\_\_ coconuts can be dangerous in public areas.
3. What type of settlers brought coconuts to Hawaii?
4. What is the strongest part of a coconut tree?
5. How many years can coconut trees live?

**Across**

6. What type of soil helped coconuts thrive?
7. What crops replaced many coconut groves?
8. Where can people learn about coconut history today?

Name: \_\_\_\_\_

Do not put spaces in your answers when you fill them in.

THE LIFETIME LEARNER

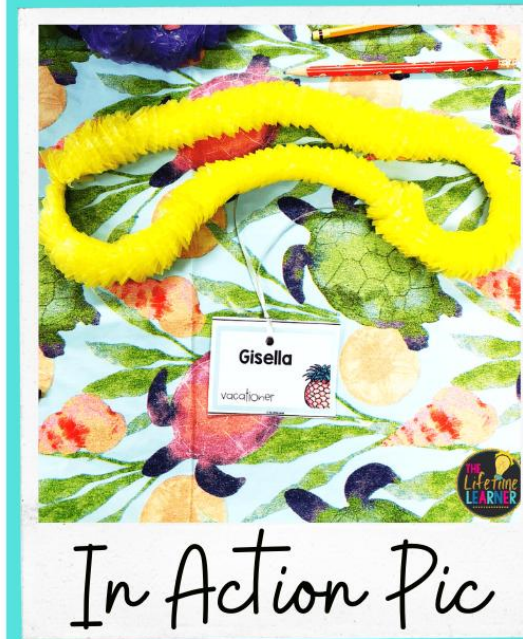

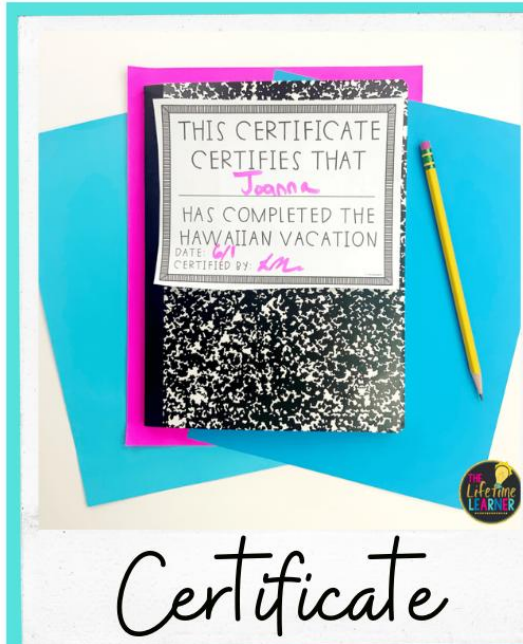

# STEP 3:

When students finish all activities you've assigned, they win! You can give them the included certificate, coloring page, or a small prize of your choice.

A shopping guide is also included to give you suggestions of optional "extras" you could add in.

## Remember:

Anything different from a "normal" day in the classroom is special to students! A reward at the end isn't required during a classroom transformation.

# STEP 4:

Most of the time, there are early finishers. These kiddos get to go around the room and read fun facts about the topic! No one is ever bored.

**Choose from 3 versions!**

## **Digital Scavenger Hunt**

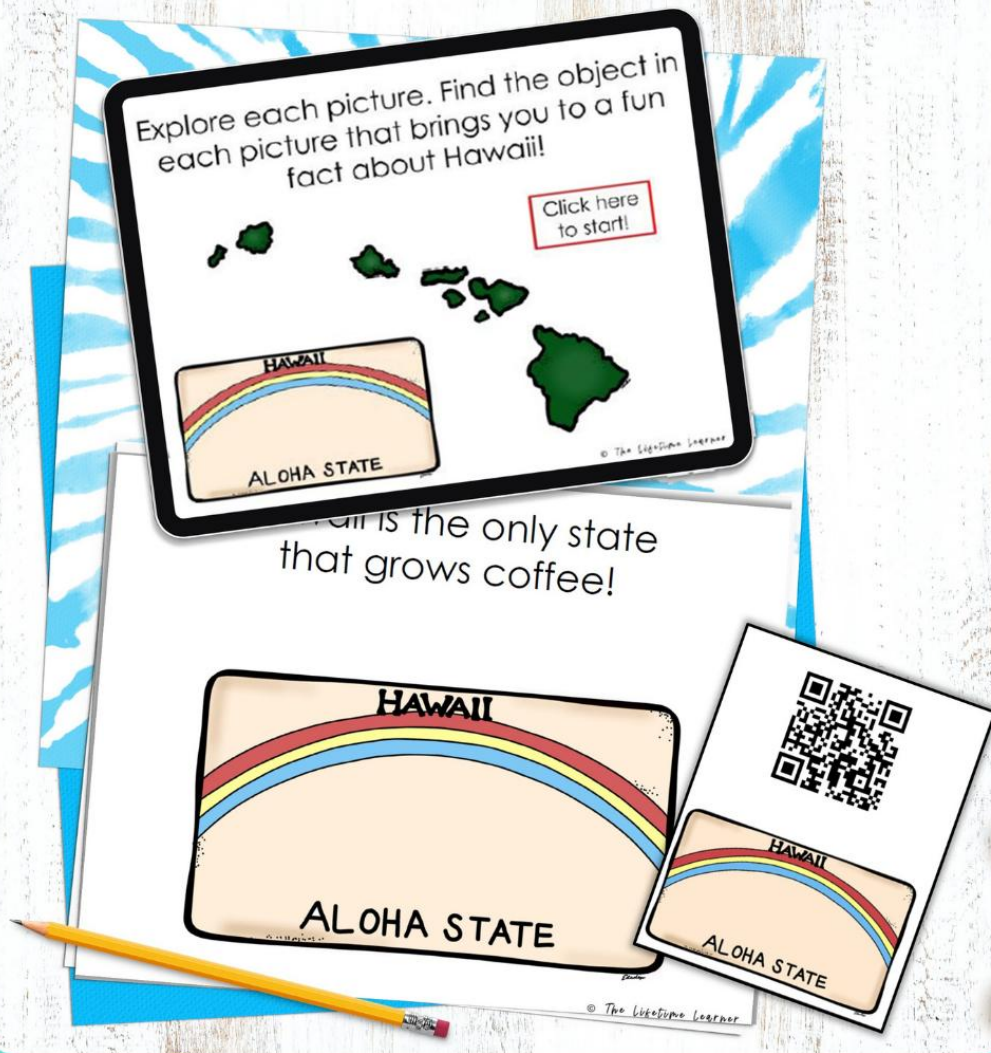

*Let students "find" the facts on Google Slides*

## **Printable Facts**

*Hang facts around room*

## **QR Codes**

*Students scan to read fun facts*

# 5 READING COMPREHENSION PASSAGES/ACTIVITIES:

## FRUIT CHALLENGE

Pineapples first were grown in South America and spread to the West Indies. Christopher Columbus found them there and brought them to Europe. Later, they were taken to Hawaii and became a crop. At one point, they were so popular that Hawaii produced 80% of the world's pineapples.

## FRUIT CHALLENGE

There are 3 details that go with each main idea. Color each box the correct color.

### MAIN IDEA #1

Where Pineapples  
Come From

A.

Pineapple farm  
workers

B.

Can be cloned

C.

Pineapples have  
an enzyme

## COCONUT CHALLENGE

# 2 Versions of Every Passage Included for Students

## PALM TREE CHALLENGE

When thinking about Hawaii, palm trees come to mind. But they are more than symbols. One major cause for why there are so many is their adaptability. Palm trees can grow in sandy soil, salty air, and in hot climates. Because of this, they grow well in tropical and coastal areas. They also provide shade which helps keep people cool.

Another reason they're popular is because of their usefulness. Palm trees produce coconuts, dates, and açai fruit. They provide food and nutrition to millions. In ancient times, people found leaves could be woven into baskets, mats, and roofs for shelters. The structure of palm trees also helps the environment. Their trunks and roots help them resist the wind and floods. This reduces erosion along coastlines.

## PALM TREE CHALLENGE

When thinking about Hawaii, palm trees come to mind. But they are more than symbols. They have causes and effects that influence nature, culture, and daily life.

One major cause for why there are so many is their adaptability. Palm trees can grow in sandy soil, withstand salty air, and grow in hot climates. Because of this, they grow well in tropical and coastal areas. They also provide shade which helps keep people cool. As a result, palm trees are plentiful in Hawaii, the Caribbean, and Southeast Asia.

Another cause of their popularity is their usefulness. Palm trees produce coconuts, dates, açai fruit, and heart of palm. They provide food and nutrition to millions. In ancient times, people found palm leaves could be woven into baskets, mats, and roofs for shelters. This usefulness has continued today. Palm products are used in everyday life.

The structure of palm trees also has environmental effects. Their flexible trunks and deep root systems make them resistant to winds and floods. As a result, palm trees help reduce erosion along coastlines and protect land from storm damage.

In windy areas, they serve as natural windbreaks (protection from wind).

Through history, palm trees have symbolized victory, peace, and wealth.

They appear on the flags of Florida, South Carolina, Saudi Arabia, and Haiti because they are well-known. Festivals have palm branches as symbols of celebration and hope.

THE LIFETIME LEARNER

## COCONUT CHALLENGE

Coconuts aren't native to the Hawaiian islands. Their journey to Hawaii is a story of exploration, survival, and how nature can change. Long ago, Polynesian settlers sailed across the ocean with supplies like coconuts. Coconuts were perfect for long trips because they provided food, water, and materials for tools. When the settlers arrived in Hawaii, they planted coconut trees, knowing they would be useful.

The trees thrived thanks to Hawaii's fertile soil and warm climate. They quickly became common across the islands. Early Hawaiians used every part of the tree. The fruit provided food and drink, trunks became canoes and shelters, and leaves were woven into mats, baskets, and roofs.

However, growing coconuts takes patience. Trees need about 10 years to grow before producing fruit. First, they grow strong trunks and deep roots. Once fully grown, a tree can produce hundreds of coconuts each year. With a lifespan of up to 70 years, coconut trees became a valuable and long-lasting resource.

# THE CONTENT:

10 high-interest passages & activities  
in 2 formats: hands-on & no prep!

## Hands-On Centers

This activity includes a passage titled "FRUIT CHALLENGE" and three main idea cards. The passage describes the history and cultivation of pineapples. The main idea cards are:

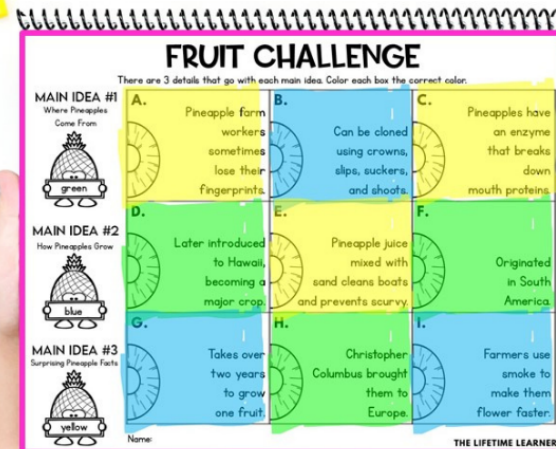

- MAIN IDEA #1: Where Pineapples Come From
- MAIN IDEA #2: Where Pineapples Come From
- MAIN IDEA #3: Surprising Pineapple Facts

There are also three detail cards:

- A. Pineapple farm workers sometimes lose their fingerprints.
- B. Can be cloned using crowns, slips, suckers, and shoots.
- C. Pineapples have an enzyme that breaks down mouth proteins.

With this version, students read the passage. Then, they complete a hands-on center activity you can laminate and re-use for years to come.

## No-Prep Printables

This activity includes a passage titled "FRUIT CHALLENGE" and a worksheet for students to complete. The worksheet has three main idea sections:

- MAIN IDEA #1: Where Pineapples Come From
- MAIN IDEA #2: How Pineapples Grow
- MAIN IDEA #3: Surprising Pineapple Facts

There are also three detail sections:

- A. Pineapple farm workers sometimes lose their fingerprints.
- B. Can be cloned using crowns, slips, suckers, and shoots.
- C. Pineapples have an enzyme that breaks down mouth proteins.

Or in this version, students read the passage. Then, they complete the activity in worksheet form. This version is NO PREP and PRINT & GO! Just as much fun as the hands-on centers!

## Crossword Puzzle

**COCONUT CHALLENGE**

Coconuts from the Hawaiian islands. Polynesian settlers sailed with supplies long ago. Coconuts were perfect for long journeys. They provided food, water, and materials. When the settlers arrived in Hawaii, they found that coconut trees grew there. The trees grew tall and became common. Hawaiians used coconuts for food and drink, trunks for baskets and roofs. But, it took many years to grow before a tree could be used. Once fully grown, a tree could live for 70 years, so coconut trees aren't just for resorts and farms for tourists. They also be dangerous in public areas. Preserve Hawaiian culture.

## Write a Sentence

**TROPICAL BIRDS CHALLENGE**

Hawaii is known for its nature, but its birds are in danger. Over time, 95 percent of Hawaiian birds have disappeared. Only 44 species are left today.

One reason for this is habitat loss. As forests and wetlands are destroyed. Birds are losing their homes.

Another problem is diseases spread by mosquitoes. In warm, low areas, where many birds nest, higher places often die.

Climate change makes things worse. We are forcing birds to live in higher areas that used to be in lower areas. They are forced to move face new dangers like less food.

But, some birds are getting stronger and are working hard to restore habitats, remove harmful plants, and releasing them into the wild. Voluntary conservation groups are helping to protect Hawaii's birds.

With help, Hawaii's birds are being protected. With help, Hawaii's birds are being protected. With help, Hawaii's birds are being protected.

Name: \_\_\_\_\_

**TROPICAL BIRDS**

- One major reason why Hawaiian birds are disappearing is \_\_\_\_\_  
One major reason is habitat loss caused by building homes, roads, and businesses that destroy forests and wetlands.
- Mosquitoes affect the survival of native Hawaiian birds by \_\_\_\_\_  
Mosquitoes spread diseases like avian malaria, which harm birds living in warm, lowland areas. Birds that cannot move to higher ground often die.
- One sign of hope mentioned in the passage for Hawaii's native birds is \_\_\_\_\_  
Conservation groups are restoring habitats, removing harmful plants, breeding birds in captivity, and releasing them into the wild.
- Two ways conservation groups are helping to protect Hawaii's birds are \_\_\_\_\_  
Birds can't survive in lowland areas because mosquitoes spread deadly diseases there, especially avian malaria.
- Some birds can't survive in lowland areas anymore because \_\_\_\_\_  
Some birds are becoming more resistant to diseases, giving hope that they can survive with continued conservation efforts.

Write the answers to the questions in each box in complete sentences.

THE LIFETIME LEARNER

Students write the answer to each prompt on the lines.
