

# WHAT IS THIS?

It's a low-prep room transformation!

Use the 10 reading stations, included decor, and more for a fun & easy room transformation!

This themed learning day has 10 stations:  
5 phonics-based stations and  
5 reading comprehension-based stations.  
You can use 1, 5, or all 10--it's flexible!

Room transformations can  
be stress-free and low-prep.

Keep scrolling  
to learn how!

# Let's start with the basics...

## What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

Camping Day

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

# STEP 1:

Tell your class there is a Thanksgiving parade today!

They will complete a review of 5 reading comprehension and 5 phonics-based activities set up around the room. You can do this for a day, a few days, or over the course of a week!

**FUN FACTS ABOUT TURKEYS**

Turkeys have many unique features. They can have anywhere from 5,000-6,000 feathers on their body. There is also a patch of feather skin on a turkey's throat that changes color based on how the male turkey feels. If he's excited, he has a blue skin. If he's angry or ready to fight, it turns red. Male turkeys weigh between 16-22 pounds while females weigh 8-12 pounds. Males have a fleshy growth over their beaks called a wattle. Females choose their mates based on the health of it.

Turkeys are also capable of doing amazing things. They can run up to 25 miles per hour and fly up to 55 miles per hour. Turkeys are also able to form bonds with their friends. They communicate in their own language through gobbling, purring. Some turkeys show affection to humans, and they enjoy being petted. Turkeys have impressive survival skills for the wild. They can survive in cold and hot areas of night despite their large size. Turkeys have great color vision so there are more birds about the history of turkeys. Turkeys were first brought to the Americas 3,000 years ago. In the 1900s, conservation efforts have saved the wild turkey. Before European settlement, wild turkeys were found in the United States. Flexibility is key.

Need to modify? No problem!  
Choose how many centers students will need to complete and what time frame they have to meet YOUR needs.

Set-up is quick and easy.

Simply print the posters, 10 activities, and a recording sheet for each student. Place them around your room and you're ready to begin!

# STEP 2:

Let students move around the room and complete each station. They read a passage and then an activity to go with it. They can be completed in any order. All stations include a variety of reading comprehension and phonics skills. You can choose just a few for students to complete or use all 10. This is up to the teacher and the amount of time you'd like to fill.

## Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

## Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

Here are more facts about the history of turkeys. Turkey were first brought to North America by Native Americans 2,000 years ago. In the 1900s, overhunting almost led to the extinction of wild turkeys with only 30,000 birds left. Fortunately, conservation efforts have raised the population to over 7 million. Before European settlement, wild turkeys were found in the eastern United States from Canada to Mexico. Their habitat included forests, grasslands, and wetlands.

## This or That?

**PROS & CONS OF BLACK FRIDAY**

Black Friday is the day after Thanksgiving. It is one of the best days to shop because of all the great deals. While Black Friday has many advantages, there are also some disadvantages. Let's explore both the pros and cons of Black Friday shopping.

People love Black Friday for the low prices on electronics, clothes, and gifts. It's a great way to start holiday shopping early and on a budget. It can be fun to make memories when you go with friends. Another option is shopping online to skip the crowds.

Though Black Friday has great deals, there are challenges you might face: long lines, big crowds, and rude shoppers. Black Friday starts on Thanksgiving night, so you may have to leave dinner a spot in line. Cold weather can make waiting outside difficult. Online, websites might crash or items might sell out. Whether it's worth it depends on how much you're willing to handle to save money.

Getting items at a lower price.	<b>Which benefit of Black Friday shopping is emphasized more in the passage?</b>	1. Spending time with family.
To avoid crowds and long lines.	<b>What could be a reason people choose to shop online on Black Friday?</b>	2. To get better discounts than in-store.
Difficulty finding parking spaces.	<b>Which challenge is mentioned as a downside of Black Friday shopping in person?</b>	3. Stressful interactions with other shoppers.
It causes them to miss family time by securing deals.	<b>What effect does starting Black Friday sales on Thanksgiving night have on shoppers?</b>	4. It gives them more time to plan out their purchases.

Students put a checkmark on the side with the correct answer after reading the passage.

## 3 Choices

**THE STUFFED OWL**

Why did Jenny get a new stuffed owl for Thanksgiving, "I didn't?" Tyra complained. "She was showing everyone it at school." Her mother looked up from preparing Thanksgiving dinner. "Jenny's family must give each other gifts for the holiday. We don't but you'll get gifts for Christmas. Now, go to your room and play until it's dinner time."

Tyra stomped upstairs and flopped on her bed. It didn't seem fair. She lay there a while. Her mom swung the door open. "Yeah, Mom?" Tyra asked. "Jenny's at the door," her mom replied. "Go outside and play for a bit." Tyra saw Jenny with the owl when she left. "You're so lucky," she said. Jenny tilted her head. "It's okay. I'd rather have my mom home instead." Tyra glanced her head, confused. "Where's your mom?" "She works as a night nurse. She'll miss dinner, so she got me this owl." "Oh," Tyra said. "I thought you had the perfect life. I was jealous." Jenny laughed lightly. "A stuffed animal is nothing compared to having dinner with your family. My mom will be gone all evening. You're the lucky one." "You're right," Tyra admitted. She realized she should change her mindset.

1. What does Tyra learn by the end of the story?	A. She is luckier than she first thought because she has her family.	B. She will get the owl eventually, so she shouldn't be upset.	C. Jenny's life is perfect even though her mom works long hours.
2. Which word best describes Tyra's attitude toward her mother at the beginning?	A. Annoyed	B. Grateful	C. Confused
3. What does Jenny mean when she says, "You're the lucky one?"	A. Tyra will get an owl for Christmas.	B. Tyra is luckier because she gets better toys than Jenny.	C. Tyra spends Thanksgiving with her family, while Jenny's mom works.

Students put a finger on the correct answer for each question.

**FUN FACTS ABOUT TURKEYS**

Turkeys have many unique features. They can have anywhere from 5,000-6,000 feathers on their body. There is also a patch of clear skin on a turkey's throat that changes color based on how the male turkey feels. If he's excited, his head turns blue. If he's angry or ready to fight, it turns red. Male turkeys weigh between 16-22 pounds while females weigh 8-12 pounds. Males have a fleshy growth over their beaks called a snood. Females choose their mates based on the length of it.

Turkeys are also capable of doing amazing things. They can run up to 25 miles per hour and fly up to 55 miles per hour. Turkeys are able to form bonds and remember their friends. They communicate in their own language through gobbling, clucking, and purring. Some turkeys show affection to humans, and they enjoy being petted. Wild turkeys have impressive survival skills too like swallowing acorns whole and roosting in trees at night despite their large size. Turkeys have great color vision as well.

Here are more facts about the history of turkeys. Turkey were first domesticated by Native Americans 2,000 years ago. In the 1900s, overhunting almost led to extinction with only 30,000 birds left. Fortunately, conservation efforts have raised the population to over 7 million. Before European settlement, wild turkeys were found in North America, from Canada to Mexico. Their habitat included forests, grasslands, and wetlands.
