

WHAT IS THIS?

It's a low-prep room transformation!

Use the 10 math challenges, included decor, and more for a fun & easy room transformation!

Simply print the academic challenges, put up a few included decor items, and you're ready for a great day!

Room transformations can be stress-free and low-prep.

Keep scrolling to learn how!

Let's start with the basics...

What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

Camping Day

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

STEP 1:

Tell your class they are artists today!

They will practice 3rd grade geometry concepts in activities set up around the room. You can do this for a day, a few days, or over the course of a week!

Set-up is quick and easy.

Simply print the posters, 10 activities, and a recording sheet for each student. Place them around your room and you're ready to begin!

Flexibility is key.

Need to modify? No problem!
Choose how many centers students will need to complete and what time frame they have to meet YOUR needs.

STEP 2:

Let students move around the room and complete each center. They can be completed in any order. All centers include practice with 3rd grade geometry concepts.

Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

STEP 3:

When students finish all activities you've assigned, they win! You can give them the included certificate, coloring page, or a small prize of your choice.

A shopping guide is also included to give you suggestions of optional "extras" you could add in.

Remember:

Anything different from a "normal" day in the classroom is special to students! A reward at the end isn't required during a classroom transformation.

Prize

STEP 4:

Most of the time, there are early finishers. These kiddos get to go around the room and read fun facts about the topic! No one is ever bored.

Choose from 3 versions!

Digital Scavenger Hunt

THE CONTENT:

10 themed math challenges
aligned to math standards

BROWN

Cut out the pieces at the bottom and glue them where they belong.

quadrilaterals	rectangles	Not polygons	No right angles
parallelograms	polygons	Have right angles	More than 4 sides

BLUE

Color in each of the dots that describe each shape.

	Polygon (Blue)	Quadrilateral (Green)	Parallelogram (Purple)
Circle	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Triangle	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Square	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Rectangle	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Rhombus	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Trapezoid	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Kite	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Pentagon	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Hexagon	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Octagon	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

ORANGE

You drew a bunch of irregular shapes below! Color them according to the key:

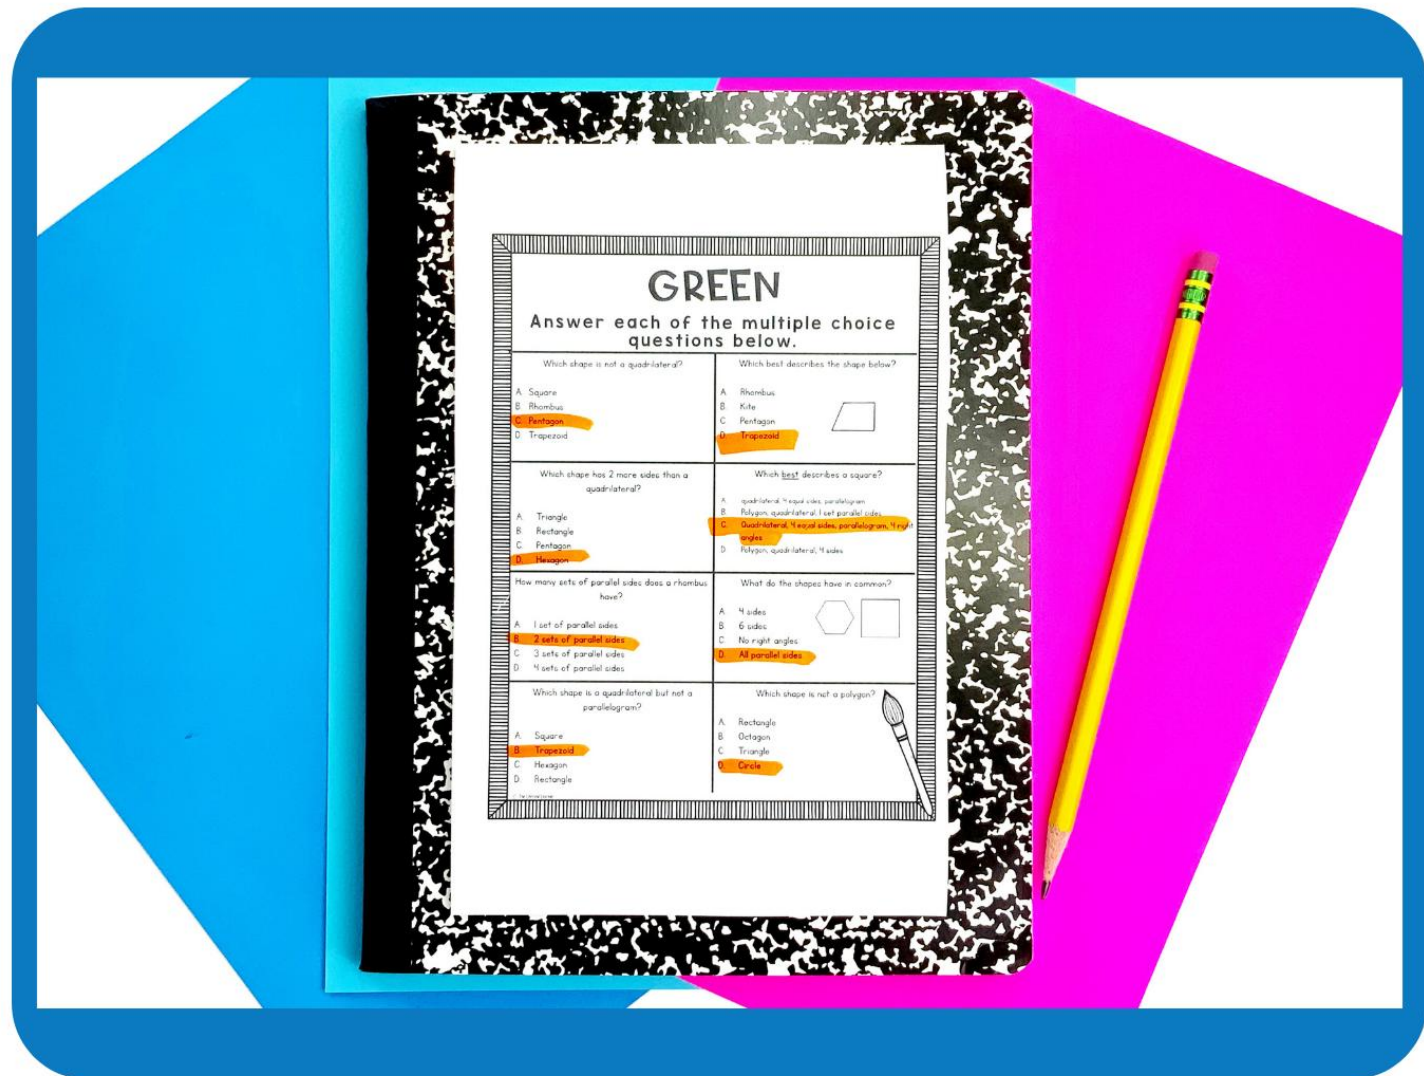

- Irregular Quadrilaterals: Red
- Irregular Pentagons: Orange
- Irregular Hexagons: Yellow
- Irregular Octagons: Green

HOW TO USE THIS:

Ideas for Implementation:

- pick and choose the centers you want to use: do what works best for your class!
- you can have students work individually, in partners, or small groups--any way works!
- give students 1-2 hours to complete all 10 activities
- give less than 10 challenges to students if you are short on time
- OR spread the room transformation out over a couple of days

Choose the format
that works best for you!

Every activity relates to real-life mathematics!

GREEN

Answer each of the multiple questions below.

Which shape is not a quadrilateral?

Which best de

ORANGE

You drew a bunch of irregular shapes below! Color them according to the key:

Irregular Quadrilaterals: Red

BLACK

Look at the two shapes below. Explain what the Explain what is different.

BLUE

Color in each of the dots that describe each shape.

Polygon (Blue) Quadrilateral (Green) Parallelogram (Purple)

Circle

Triangle

YELLOW

practice drawing some shapes below!

PURPLE

Write true or false next to each statement. If you write false, write the correct statement so the statement is true.

A hexagon has 6 sides.

A rhombus is a parallelogram.

WHITE

Find the shape I am describing.

- It has less than 5 sides.
- It is a polygon.
- It has four angles.
- It has 2 sets of parallel sides.
- It has right angles.
- It does not have all equal sides.

BROWN

Cut out the pieces at the bottom and glue them where they belong.

PINK

Write true or false next to each shape is based on the

A square has four right angles.

What shape am I?

I have four sides, four right angles, and all equal sides. What shape am I?

focuses on:
3rd grade
geometry concepts

RED CHALLENGE

As an artist, you need to know the name of shapes! Identify each shape below.

rectangle

trapezoid

square

hexagon

octagon

rhombus

GREEN CHALLENGE

Answer each of the multiple choice questions below.

Which shape is not a quadrilateral?

- A. Square
- B. Rhombus
- C. Pentagon
- D. Trapezoid

Which best describes the shape below?

- A. Rhombus
- B. Kite
- C. Pentagon
- D. Trapezoid

Which shape has 2 more sides than a quadrilateral?

- A. Triangle
- B. Rectangle
- C. Pentagon
- D. Hexagon

Which best describes a square?

- A. quadrilateral, 4 equal sides, parallelogram
- B. Polygon, quadrilateral, 1 set parallel sides
- C. Quadrilateral, 4 equal sides, parallelogram, 4 right angles
- D. Polygon, quadrilateral, 4 sides

How many sets of parallel sides does a rhombus have?

- A. 1 set of parallel sides
- B. 2 sets of parallel sides
- C. 3 sets of parallel sides
- D. 4 sets of parallel sides

What do the shapes have in common?

- A. 4 sides
- B. 6 sides
- C. No right angles
- D. All parallel sides

ORANGE CHALLENGE

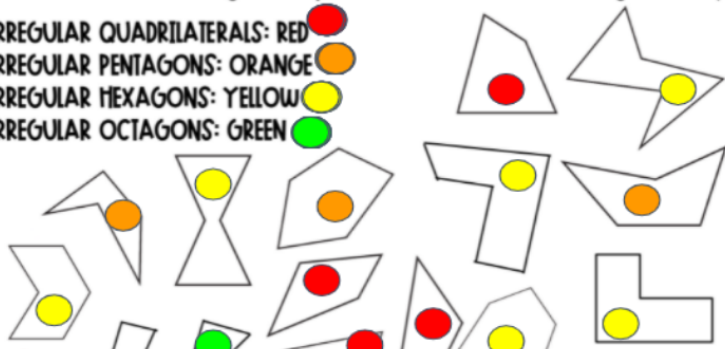

You drew a bunch of irregular shapes below! Color them according to the key:

IRREGULAR QUADRILATERALS: RED

IRREGULAR PENTAGONS: ORANGE

IRREGULAR HEXAGONS: YELLOW

IRREGULAR OCTAGONS: GREEN

YELLOW CHALLENGE

Drag each of the shapes into the correct spot.

Trapezoid

Kite

Pentagon

Irregular Quadrilateral

Equilateral Triangle

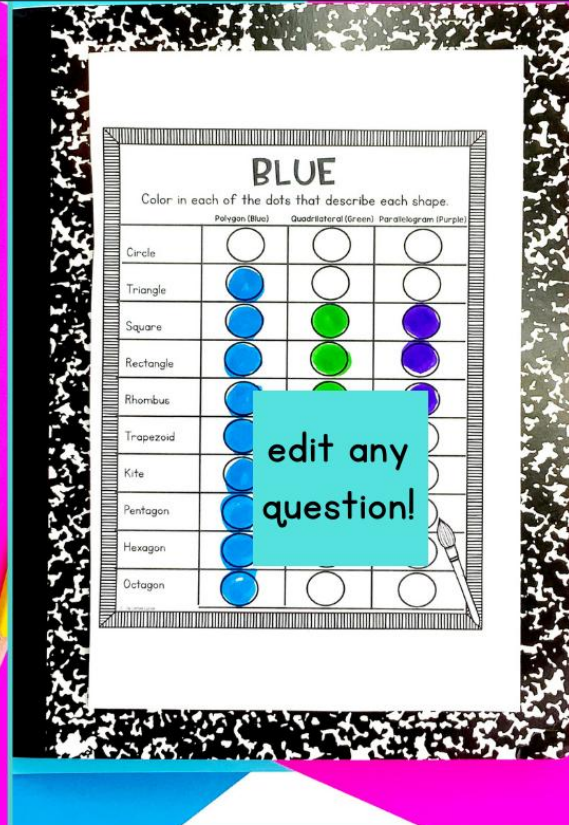

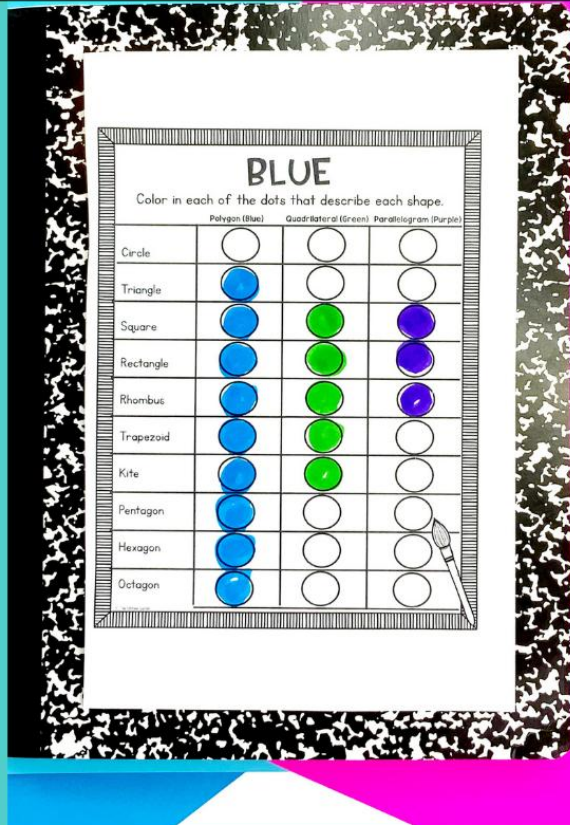

Octagon

THE LIFETIME LEARNER'S CLASSROOM TRANSFORMATIONS ARE:

1. Engaging to Students
2. Classroom Tested (and Student-Approved)
3. Print and Digital Compatible
4. Jam-Packed with Content
5. Aligned to Math Standards
6. Easy to Implement
7. Flexible for Every Classroom
8. Versatile Ways to Reward Students
9. Rigorous Student Learning Activities

All content is included so you can simply **print**
and get ready for an **AMAZING** experience
with your students!

Please Note:

- **There are 10 math challenges provided as well as décor, a fast finisher activity, and additional extras.**
- **The digital version is provided in Google Slides.**
- **Nervous about trying your first room transformation? You'll be hooked once you try one! I promise!**
- **Feel free to contact me if you have questions or want to chat about room transformations. You can email me at lindsaythelifetimelearner@gmail.com**
