

WHAT IS THIS?

It's a low-prep room transformation!

Use the 10 math challenges, included decor, and more for a fun & easy room transformation!

Simply print the academic challenges, put up a few included decor items, and you're ready for a great day!

Room transformations can be stress-free and low-prep.

Keep scrolling to learn how!

Let's start with the basics...

What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

Camping Day

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

STEP 1:

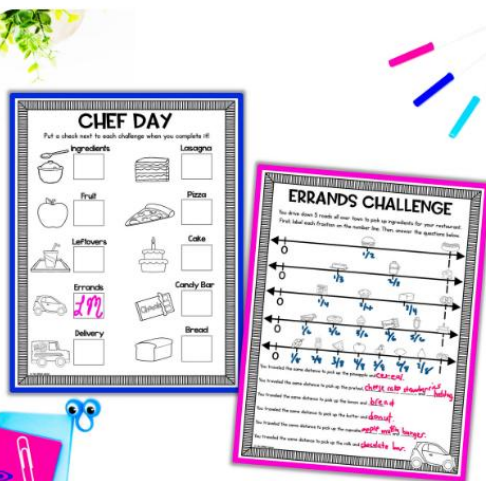

Tell your class they are chefs today!

They will practice finding equivalent fractions in activities set up around the room. You can do this for a day, a few days, or over the course of a week!

Set-up is quick and easy.

Simply print the posters, 10 activities, and a recording sheet for each student. Place them around your room and you're ready to begin!

Flexibility is key.

Need to modify? No problem!
Choose how many centers students will need to complete and what time frame they have to meet YOUR needs.

STEP 2:

Let students move around the room and complete each center. They can be completed in any order. All centers include practicing finding equivalent fractions.

Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

The image displays two activity sheets and decorative elements. The 'CHEF DAY' sheet is a grid with 10 categories: Ingredients, Fruit, Leftovers, Errands, Delivery, Lasagna, Pizza, Cake, Candy Bar, and Bread. Each category has a small icon and a square box for a student to check off. The 'ERRANDS CHALLENGE' sheet features five horizontal number lines from 0 to 1, each with a different fraction (1/2, 1/3, 1/4, 1/6, 1/8) and a car icon. Below each number line is a question about traveling the same distance to pick up items, with handwritten answers in red ink. The decorative elements include a pink paperclip, a blue character with eyes, and a blue pencil.

CHEF DAY
Put a check next to each challenge when you complete it!

Ingredients	Lasagna
Fruit	Pizza
Leftovers	Cake
Errands	Candy Bar
Delivery	Bread

ERRANDS CHALLENGE
You drive down 5 roads all over town to pick up ingredients for your restaurant. First, label each fraction on the number line. Then, answer the questions below.

1. You traveled the same distance to pick up the pineapple and cereal.

2. You traveled the same distance to pick up the pretzel, cheese cake, strawberry's, and holding.

3. You traveled the same distance to pick up the lemon and bread.

4. You traveled the same distance to pick up the butter and donut.

5. You traveled the same distance to pick up the cupcake, apple, muffin, burger.

6. You traveled the same distance to pick up the milk and chocolate bar.

STEP 3:

When students finish all activities you've assigned, they win! You can give them the included certificate, coloring page, or a small prize of your choice.

A shopping guide is also included to give you suggestions of optional "extras" you could add in.

Remember:

Anything different from a "normal" day in the classroom is special to students! A reward at the end isn't required during a classroom transformation.

Certificate

Coloring Page

Prize

STEP 4:

Most of the time, there are early finishers. These kiddos get to go around the room and read fun facts about the topic! No one is ever bored.

Choose from 3 versions!

10 themed math challenges aligned to math standards

FRUIT CHALLENGE

You're chopping up fruits for a fruit salad you are making!
Tell if each of the fruits you chopped up are equal or not equal fractions.

LASAGNA CHALLENGE

You need to put cheese on only a certain part of each lasagna. Shade in the rectangle lasagnas so they show equivalent fractions. Then, write the fractions below each lasagna to show that the lasagnas are equal in the amounts of cheese they have.

 $\frac{2}{6} =$	 $\frac{6}{8} =$
 $\frac{1}{2} =$	 $\frac{3}{6} =$
 $\frac{2}{8} =$	 $\frac{1}{1} =$
 $\frac{4}{4} =$	 $\frac{2}{3} =$

LEFTOVERS CHALLENGE

You are picking up some leftovers that weren't eaten after a big restaurant event.
Step 1: Label each fraction that is left below.
Step 2: Color the fractions that are equal to each other the same color. Only color in the shaded part of each fraction!

HOW TO USE THIS:

Ideas for Implementation:

- pick and choose the centers you want to use: do what works best for your class!
- you can have students work individually, in partners, or small groups--any way works!
- give students 1-2 hours to complete all 10 activities
- give less than 10 challenges to students if you are short on time
- OR spread the room transformation out over a couple of days

PRINT & DIGITAL

Google Slides

**Choose the format
that works best for you!**

Every activity relates to real-life mathematics!

CANDY BAR CHALLENGE

You've chopped up some candy bars to use in a chocolate cake. Shade in the chocolate you chopped up. Then, tell if the pieces you chopped up are equal or not equal.

CAKE CHALLENGE

You are the best chef in town so you've been hired to make 6 different birthday cakes this weekend! If half of each cake needs to be chocolate, but each cake needs to have a different amount of pieces, how much of each cake

PIZZA CHALLENGE

Make a couple of pizzas following the instructions below.

ERRANDS CHALLENGE

You drive down 5 roads all over town to pick up ingredients for a burger. First, label each fraction on the number line. Then, answer the questions.

DELIVERY CHALLENGE

One of the drivers you hired to deliver your catered food around town tells you how far he drove to each house.

PASTA CHALLENGE

Shade in the cheese on only a certain part of each lasagna. Shade in the same amount so they show equivalent fractions. Then, write the fractions you used to show that the lasagnas are equal in the amounts of cheese they have.

INGREDIENT CHALLENGE

You are trying to figure out if you are using the same amount of an ingredient in the recipe. Draw a picture of each fraction and tell if the fractions are equivalent or not equivalent. The first one is for you as an example.

$$\frac{1}{6} \neq \frac{4}{6}$$

$$\frac{3}{6}$$

$$\frac{2}{4} \square \frac{1}{2}$$

$$\frac{7}{8}$$

$$\frac{4}{4} \square \frac{2}{2}$$

$$\frac{4}{8}$$

FRUIT CHALLENGE

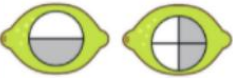

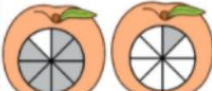

You're chopping up fruits for a fruit salad you are making! Tell if each of the fruits you chopped up are equal or not equal fractions.

focuses on:
finding
equivalent fractions

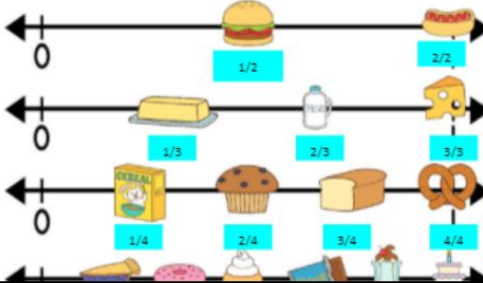

FRUIT CHALLENGE

You're chopping up fruits for a fruit salad you are making! Tell if each of the fruits you chopped up are equal or not equal fractions.

	equal		unequal
	unequal		equal
	equal		unequal

ERRANDS CHALLENGE

You drive down 5 roads all over town to pick up ingredients for your restaurant. First, label each fraction on the number line. Then, answer the questions below.

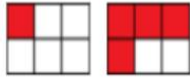

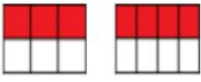

You traveled the same distance to pick up the pineapple and cereal.
 You traveled the same distance to pick up the pretzel, hot dog, cheese, cake and strawberries.
 You traveled the same distance to pick up the lemon and bread.
 You traveled the same distance to pick up the butter and donut.
 You traveled the same distance to pick up the cupcake, muffin, burger, and apple.

INGREDIENT CHALLENGE

You are trying to figure out if you are using the same amount of each ingredient in the recipe.

1. Drag over a picture of each fraction.
2. Put an equal or not equal symbol in the middle of each set of fractions.

$\frac{1}{6}$ 	$\frac{4}{6}$ 	$\frac{3}{6}$ 	$\frac{4}{8}$ 
$\frac{2}{4}$ 	$\frac{1}{2}$ 	$\frac{7}{8}$ 	$\frac{6}{8}$ 
$\frac{4}{4}$ 	$\frac{2}{4}$ 	$\frac{4}{4}$ 	$\frac{3}{4}$ 

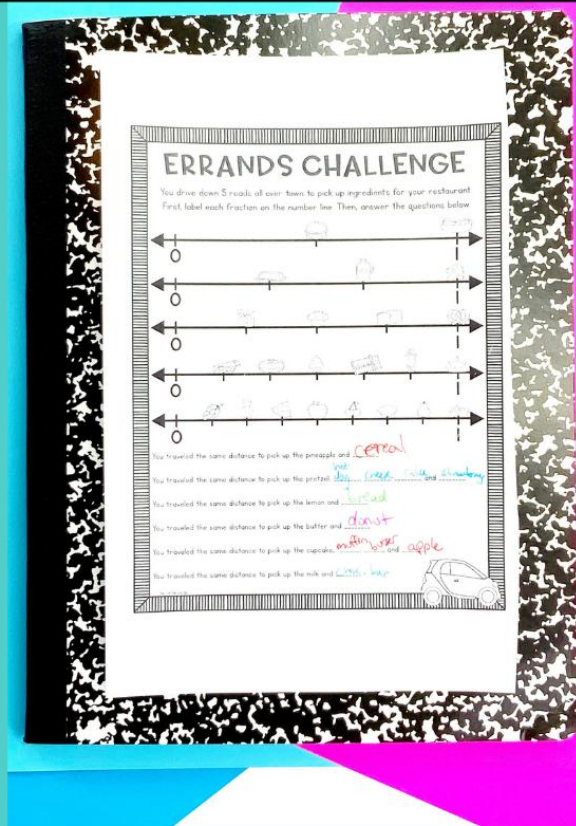

LEFTOVERS CHALLENGE

- You are picking up some leftovers that weren't eaten after a big restaurant event.
- Step 1: Label each fraction that is left below.
 - Step 2: Color the fractions that are equal to each other the same color.

	$\frac{1}{2}$		$\frac{3}{3}$		$\frac{1}{1}$	
	$\frac{4}{6}$		$\frac{2}{4}$		$\frac{2}{3}$

classroom transformations

low prep, fun, and engaging!

K-5 MATH & READING

THE LIFETIME LEARNER'S CLASSROOM TRANSFORMATIONS ARE:

1. Engaging to Students
2. Classroom Tested (and Student-Approved)
3. Print and Digital Compatible
4. Jam-Packed with Content
5. Aligned to Math Standards
6. Easy to Implement
7. Flexible for Every Classroom
8. Versatile Ways to Reward Students
9. Rigorous Student Learning Activities

All content is included so you can simply **print**
and get ready for an **AMAZING** experience
with your students!

Please Note:

- **There are 10 math challenges provided as well as décor, a fast finisher activity, and additional extras.**
- **The digital version is provided in Google Slides.**
- **Nervous about trying your first room transformation? You'll be hooked once you try one! I promise!**
- **Feel free to contact me if you have questions or want to chat about room transformations. You can email me at lindsaythelifetimelearner@gmail.com**
