

WHAT IS THIS?

It's a low-prep room transformation!

Use the 10 math challenges, included decor, and more for a fun & easy room transformation!

Simply print the academic challenges, put up a few included decor items, and you're ready for a great day!

Room transformations can be stress-free and low-prep.

Keep scrolling to learn how!

Let's start with the basics...

What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

Camping Day

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

STEP 1:

Tell your class they are working in a donut shop today!

They will practice with bar graphs and pictographs in activities set up around the room. You can do this for a day, a few days, or over the course of a week!

Set-up is quick and easy.

Simply print the posters, 10 activities, and a recording sheet for each student. Place them around your room and you're ready to begin!

Flexibility is key.

Need to modify? No problem!
Choose how many centers students will need to complete and what time frame they have to meet YOUR needs.

STEP 2:

Let students move around the room and complete each center. They can be completed in any order. All centers include practice with bar graphs and pictographs.

Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

CHALLENGE #3
Make a bar graph of everyone's least favorite donut using the data in the table to the right.
Don't forget to add:
-the flavors on the left side
-the numbers on the bottom
-fill in the bars in the graph

STEP 3:

When students finish all activities you've assigned, they win! You can give them the included certificate, coloring page, or a small prize of your choice.

A shopping guide is also included to give you suggestions of optional "extras" you could add in.

Remember:

Anything different from a "normal" day in the classroom is special to students! A reward at the end isn't required during a classroom transformation.

STEP 4:

Most of the time, there are early finishers. These kiddos get to go around the room and read fun facts about the topic! No one is ever bored.

Choose from 3 versions!

SPRINKLES ON MY DONUT

Color	Number of Donuts
Green	8
Brown	14
Pink	6
Yellow	11
Blue	17

How many pink and yellow sprinkles are on my donut?

How many fewer green sprinkles are on my donut than blue sprinkles?

How many more brown sprinkles are on my donut than green and pink sprinkles?

CHALLENGE #5

Ask ten people in the classroom what their favorite type of donut is.

Then, make a graph of it below. You can make a pictograph or a bar graph.

Don't forget to add:
-the flavors on the left side
-the numbers on the bottom
-fill in the bars in the graph

 = 4 minutes

How long did customer #5 wait for their donut?

How long did customer #2 wait for their donut?

How long did customer #4 wait for their donut?

How long did customer #3 wait for their donut?

HOW TO USE THIS:

Ideas for Implementation:

- pick and choose the centers you want to use: do what works best for your class!
- you can have students work individually, in partners, or small groups--any way works!
- give students 1-2 hours to complete all 10 activities
- give less than 10 challenges to students if you are short on time
- OR spread the room transformation out over a couple of days

CHALLENGE #4
SPRINKLES ON MY DONUT

Green	7
Brown	15
Pink	6
Yellow	11
Blue	17

How many pink and yellow sprinkles are on my donut?
 $6 + 11 = 17$

How many fewer green sprinkles are on my donut than blue sprinkles?
 $17 - 7 = 10$

How many more brown sprinkles are on my donut than green and pink sprinkles?
 $15 - (7 + 6) = 2$
