

# WHAT IS THIS?

It's a low-prep room transformation!

Use the 10 math challenges, included decor, and more for a fun & easy room transformation!

Simply print the academic challenges, put up a few included decor items, and you're ready for a great day!

Room transformations can be stress-free and low-prep.

Keep scrolling to learn how!

# Let's start with the basics...

## What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

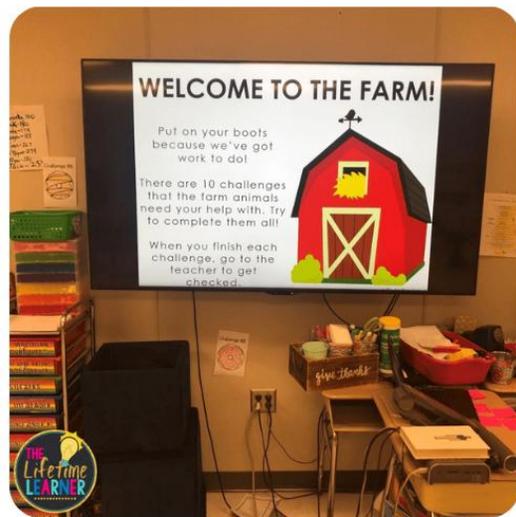

Camping Day

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

# STEP 1:

Tell your class they are farmers today!

They will practice identifying fractions and partitioning shapes in activities set up around the room. You can do this for a day, a few days, or over the course of a week!

Set-up is quick and easy.

Simply print the posters, 10 activities, and a recording sheet for each student. Place them around your room and you're ready to begin!

Flexibility is key.

Need to modify? No problem!  
Choose how many centers students will need to complete and what time frame they have to meet YOUR needs.

# STEP 2:

Let students move around the room and complete each center. They can be completed in any order. All centers include practicing identifying fractions and partitioning shapes.

## Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

## Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

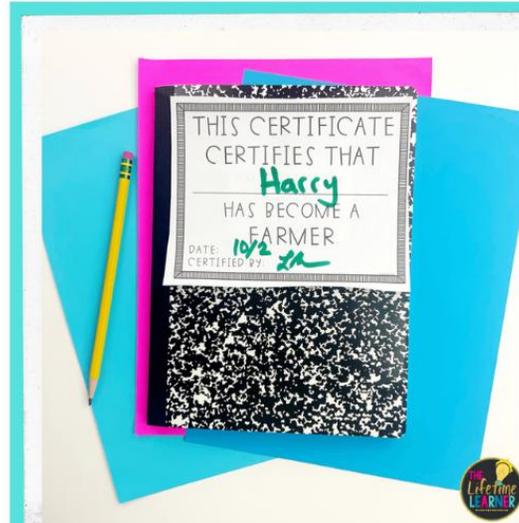

# STEP 3:

When students finish all activities you've assigned, they win! You can give them the included certificate, coloring page, or a small prize of your choice.

A shopping guide is also included to give you suggestions of optional "extras" you could add in.

## Remember:

Anything different from a "normal" day in the classroom is special to students! A reward at the end isn't required during a classroom transformation.

Certificate

Coloring Page

In Action Pic

Prize

# STEP 4:

Most of the time, there are early finishers. These kiddos get to go around the room and read fun facts about the topic! No one is ever bored.

## Choose from 3 versions!

# THE CONTENT:

## 10 themed math challenges aligned to math standards

### GOOSE CHALLENGE

The geese need help identifying what fraction of each of their ponds are NOT filled with water. This will help the farmer know which ponds he needs to go refill.

Identify the UNSHADED fraction in each pond below.

### FROG CHALLENGE

The frogs have been catching flies all morning long. Tell how full each frog's belly is by identifying each fraction below.

### SHEEP CHALLENGE

The sheep are grazing out in the pasture.

What fraction of the sheep are black?

What fraction of the sheep are white?

What fraction of the sheep are "baa-ing"?

What fraction of the sheep are NOT "baa-ing"?

# HOW TO USE THIS:

## Ideas for Implementation:

- pick and choose the centers you want to use: do what works best for your class!
- you can have students work individually, in partners, or small groups--any way works!
- give students 1-2 hours to complete all 10 activities
- give less than 10 challenges to students if you are short on time
- OR spread the room transformation out over a couple of days

that works best for you!

# Every activity relates to real-life mathematics!

## GOOSE CHALLENGE

The geese need help identifying what fraction of ponds are NOT filled with water. This will help the farmer determine which ponds he needs to go refill.

## CHICKEN CHALLENGE

There are multiple chicken coops on the farm. Tell the fractional name for each chicken coop below. The first has been done for you.

## DOG CHALLENGE

The dog has been catching flies all morning long. Tell how full the dog's belly is by identifying each fraction below.

## ROOSTER CHALLENGE

The rooster is running around the farm eating up all the animals' food! Each animal started with a full belly. How much food has each animal eaten out of its belly?

## GOAT CHALLENGE

The farmer is rebuilding the goat pens but he needs your help. He needs your help determining if the goat pens he has built so far are partitioned equally so all the goats have the same amount of space.

If the goat pen is CORRECT, put a check on it.  
If the goat pen is NOT CORRECT, draw an X on it and draw a better one.

Goat Pen #4

## HORSE CHALLENGE

The horse has been given one bale of hay. Identify how much hay the horse has eaten so far based on the fraction strips. Write your answer next to each horse.

## COWS CHALLENGE

The cows all feel differently about how hot it is on the farm. Color the cows according to how they feel.

Color the angry cows red.  
Color the sad cows blue.  
Color the happy cows green.

What fraction of the cows are happy?

## PIG CHALLENGE

The pigs are sliding around in the mud! They have messed up their pig pen and made it way too muddy!

Can you partition the pig pens below into 8 equal parts so each pig has an equal amount of space? Partition each pen and show the various ways of showing equal parts.

## SHEEP CHALLENGE

The sheep are grazing out in the pasture.

BAA!!

BAA!!

**focuses on:**  
**identifying fractions & partitioning shapes**

# GOOSE CHALLENGE

The geese need help identifying what fraction of each of their ponds are NOT filled with water. This will help the farmer know which ponds he needs to go refill. Identify the UNSHADED fraction in each pond below.

	<input type="text" value="0"/>		<input type="text" value="4/8"/>
	<input type="text" value="6/8"/>		<input type="text" value="0"/>
	<input type="text" value="2"/>		<input type="text" value="1"/>

# GOAT CHALLENGE

The farmer is rebuilding the goat pens but he needs your help. He needs your help determining if the goat pens he has built so far are partitioned equally so all the goats have the same amount of space.

If the goat pen is CORRECT, put a check on it.  
If the goat pen is NOT CORRECT, put an X on it.
