

WHAT IS THIS?

It's a low-prep room transformation!

Use the 10 math challenges, included decor, and more for a fun & easy room transformation!

Simply print the academic challenges, put up a few included decor items, and you're ready for a great day!

Room transformations can be stress-free and low-prep.

Keep scrolling to learn how! ↓

Let's start with the basics...

What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

Camping Day

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

STEP 1:

Tell your class they are working in an ice cream shop today!

They will practice multiplication and division strategies in activities set up around the room. You can do this for a day, a few days, or over the course of a week!

Set-up is quick and easy.

Simply print the posters, 10 activities, and a recording sheet for each student. Place them around your room and you're ready to begin!

Flexibility is key.

Need to modify? No problem!
Choose how many centers students will need to complete and what time frame they have to meet YOUR needs.

STEP 2:

Let students move around the room and complete each center. They can be completed in any order. All centers include practice with multiplication and division strategies.

Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

STEP 3:

When students finish all activities you've assigned, they win! You can give them the included certificate, coloring page, or a small prize of your choice.

A shopping guide is also included to give you suggestions of optional "extras" you could add in.

Remember:

Anything different from a "normal" day in the classroom is special to students! A reward at the end isn't required during a classroom transformation.

Certificate

Coloring Page

In Action Pic

Prize

STEP 4:

Most of the time, there are early finishers. These kiddos get to go around the room and read fun facts about the topic! No one is ever bored.

Choose from 3 versions!

THE CONTENT:

10 themed math challenges aligned to math standards

FROZEN YOGURT

Fill in the missing parts of the chart below about how customers split their frozen yogurt at the ice cream parlor this week.

How the Customers Split the Frozen Yogurt	Equation	Picture	Answer
12 cups split between 3 people	$12 \div 3 =$		4
10 cups split between 10 people			
	$20 \div 4 =$		
24 cups split between 6 people			
	$15 \div 5 =$		
	$18 \div 2 =$		

POPSICLE

Uh oh! It looks like each popsicle was broken in half. Write the other multiplication or division equation that goes in each popsicle's fact family.

The first one has been done for you as an example.

ICE CREAM CONE

I have 16 ice cream cones. I have an equal amount of chocolate, vanilla, blueberry, and strawberry cones. How many of each do I have? Color the ice cream correctly.

Write the multiplication sentence:

Write the division sentence:

HOW TO USE THIS:

Ideas for Implementation:

- pick and choose the centers you want to use: do what works best for your class!
- you can have students work individually, in partners, or small groups--any way works!
- give students 1-2 hours to complete all 10 activities
- give less than 10 challenges to students if you are short on time
- OR spread the room transformation out over a couple of days

**Choose the format
that works best for you!**

Every activity relates to real-life mathematics!

MILKSHAKE

Figure out how much each person owes based on

Flavor Type	Price

ICE CREAM SANDWICH

Write 2 multiplication equations and 2 division equations to go with each set of ice cream sandwiches.

FROZEN YOGURT

Using parts of the chart below about how customers bought frozen yogurt at the ice cream parlor this week.

ICE CREAM SUNDAE

You are making ice cream sundaes. Someone comes in and orders 6 ice cream sundaes. They would like six scoops of ice cream on each sundae. Then, write an equation to show how many scoops of ice cream you need.

ROOT BEER FLOAT

Uh oh! Your customer is NOT happy. Look at what you did and write what you can do to fix it.

The customer says: I ordered 9 root beer floats. I asked for 2 dollops of whipped cream on each one. You did not complete my order correctly.

ICE CREAM CAKE

Which word problem is talking about multiplication or division. Draw a picture of each one you know.

Word problem: I have 8 ice cream cakes. I divide each one into 4 pieces. How many pieces of cake do I have altogether?

Word problem: I have 8 ice cream cakes. I divide each one into 4 pieces. How many pieces of cake do I have altogether?

ICE CREAM CONE

I have 16 ice cream cones. I have an equal amount of chocolate and strawberry cones. How many of each do I have? Color the cones.

POPSICLE

Uh oh! It looks like each popsicle was broken in half. Write the other multiplication or division equation that goes in each popsicle's fact family.

The first one has been done for you as an example.

$$18 \div 3 = 6$$

$$9 \times 8 = 72$$

$$54 \div 6 = 9$$

$$4 \times 7 =$$

$$18 \div 6 = 3$$

focuses on:
multiplication &
division strategies

ICE CREAM SUNDAE

You are making ice cream sundaes. Someone comes in and orders 5 ice cream sundaes. They would like six scoops of ice cream on each one. Fill in each sundae. Then, write an equation to go with it.

$$5 \times 6 = 30$$

You are making ice cream sundaes. Someone comes in and orders an ice cream sundae with 8 scoops on it. They will share it with their husband. How many scoops will each person eat if they split it equally? Draw a picture of the sundae. Write an equation to go with it.

$$8 \div 2 = 4$$

FROZEN YOGURT

Fill in the missing parts of the chart below about how customers split their frozen yogurt at the ice cream parlor this week.

How the Customers Split the Frozen Yogurt	Equation	Picture	Answer
12 cups split between 3 people	$12 \div 3 =$		4
10 cups split between 10 people	$10 \div 10 =$		1
20 cups split between 4 people	$20 \div 4 =$		5
24 cups split between 6 people	$24 \div 6 =$		4

ICE CREAM SANDWICH

Write 2 multiplication equations and 2 division equations to go with each set of ice cream sandwiches.

MULTIPLICATION:

$$3 \times 5 = 15$$

$$5 \times 3 = 15$$

MULTIPLICATION:

$$2 \times 4 = 8$$

DIVISION:

$$15 \div 3 = 5$$

$$15 \div 5 = 3$$

DIVISION:

$$8 \div 2 = 4$$

BANANA SPLIT

Uh oh! Your customer is NOT happy. Look at what you did and write what you can do to fix it.

The customer says: I ordered 3 banana splits. I asked for 9 extra cherries to be split equally among the sundaes. You gave me WAY too many cherries.

This is what YOU did:

Explain what you did wrong. Tell what you should have done with the cherries.
