

WHAT IS THIS?

It's a low-prep room transformation!

Use the 10 math challenges, included decor, and more for a fun & easy room transformation!

Simply print the academic challenges, put up a few included decor items, and you're ready for a great day!

Room transformations can be stress-free and low-prep.

Keep scrolling to learn how!

Let's start with the basics...

What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

Camping Day

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

STEP 1:

Tell your class they are at a party today!

They will practice with multi-step word problems in activities set up around the room. You can do this for a day, a few days, or over the course of a week!

Set-up is quick and easy.

Simply print the posters, 10 activities, and a recording sheet for each student. Place them around your room and you're ready to begin!

Flexibility is key.

Need to modify? No problem!
Choose how many centers students will need to complete and what time frame they have to meet YOUR needs.

STEP 2:

Let students move around the room and complete each center. They can be completed in any order. All centers include practicing multi-step word problems.

Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

LET'S PARTY!
Put a check next to each challenge once you've completed it.

| | | | | | |
|--|-------------------------------------|-----------|--|--------------------------|--------------|
| | <input type="checkbox"/> | Cupcake | | <input type="checkbox"/> | Party Favors |
| | <input type="checkbox"/> | Present | | <input type="checkbox"/> | RSVP |
| | <input type="checkbox"/> | Candle | | <input type="checkbox"/> | Sundae |
| | <input checked="" type="checkbox"/> | Cake | | <input type="checkbox"/> | Balloon |
| | <input type="checkbox"/> | Party Hat | | <input type="checkbox"/> | Streamers |

CAKE CHALLENGE

| | |
|------------|-----|
| Chocolate | 523 |
| Vanilla | 85 |
| Strawberry | 481 |
| Lemon | 237 |
| Carrot | 120 |

Use the table to answer the questions below. Show your work.

To the nearest ten, how many people ate chocolate and strawberry cake combined?

$$\begin{array}{r} 520 \\ + 480 \\ \hline 1000 \end{array}$$

How many more people liked lemon and chocolate cake than vanilla and carrot cake?

$$\begin{array}{r} 237 \\ + 523 \\ \hline 760 \end{array} \quad \begin{array}{r} 120 \\ + 85 \\ \hline 205 \end{array} \quad \begin{array}{r} 760 \\ - 205 \\ \hline 555 \end{array}$$

STEP 3:

When students finish all activities you've assigned, they win! You can give them the included certificate, coloring page, or a small prize of your choice.

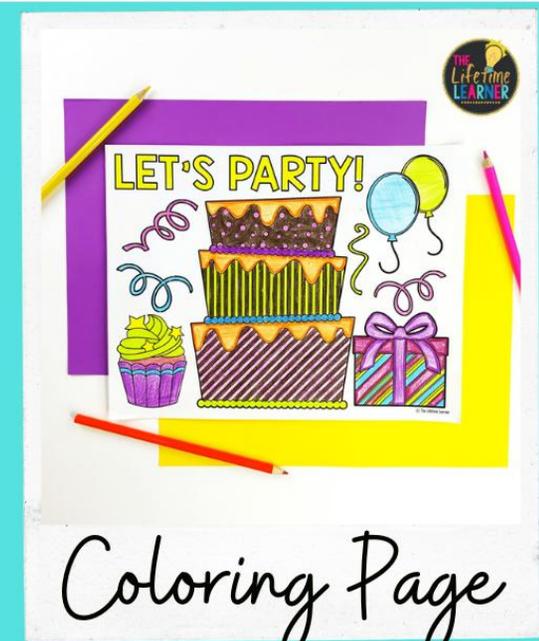

A shopping guide is also included to give you suggestions of optional "extras" you could add in.

Remember:

Anything different from a "normal" day in the classroom is special to students! A reward at the end isn't required during a classroom transformation.

Certificate

Coloring Page

In Action Pic

Prize

STEP 4:

Most of the time, there are early finishers. These kiddos get to go around the room and read fun facts about the topic! No one is ever bored.

Choose from 3 versions!

THE CONTENT:

10 themed math challenges aligned to math standards

SUNDAE CHALLENGE

There are 700 ice cream sundaes at your party. Unfortunately, 333 melt because of the hot sun. Then, another 28 fall on the ground. Which equation will help you find the answer to how much ice cream is left?

- A. $700-333+28$
- B. $700-333-28$
- C. $700+333+28$
- D. $700+333-28$

There are 50 people who want ice cream at your party. They are seated equally between 5 tables. There are also 2 people who want ice cream that are not sitting at a table. Which equation would help you find the answer to how many people want ice cream?

- A. $50-5-2$
- B. $50+5-2$
- C. $50+5+2$
- D. $50+5+2$

You have 4 gallons of chocolate ice cream that can each feed 9 people. You also have 5 gallons of vanilla that can each feed 9 people. Which equation can help you figure out how many people you can feed in all?

- A. $(4+9)(5+9)$
- B. $4+9+5$
- C. $(4+9)(5+9)$
- D. $(4+9)(5+9)$

PARTY FAVOR CHALLENGE

7 people go home with a party favor bag that looks like this.

9 people go home with a party favor bag that looks like this.

How many smiley face favors were given out in all? Show your work. Write an equation.

STREAMERS CHALLENGE

The table shows the amount of each color streamer used. Answer the questions about the table below.

| | |
|--------|-----|
| Red | 291 |
| Orange | 526 |
| Yellow | 678 |
| Green | 411 |
| Blue | 304 |

1. About how many streamers were used in all to the nearest hundred?

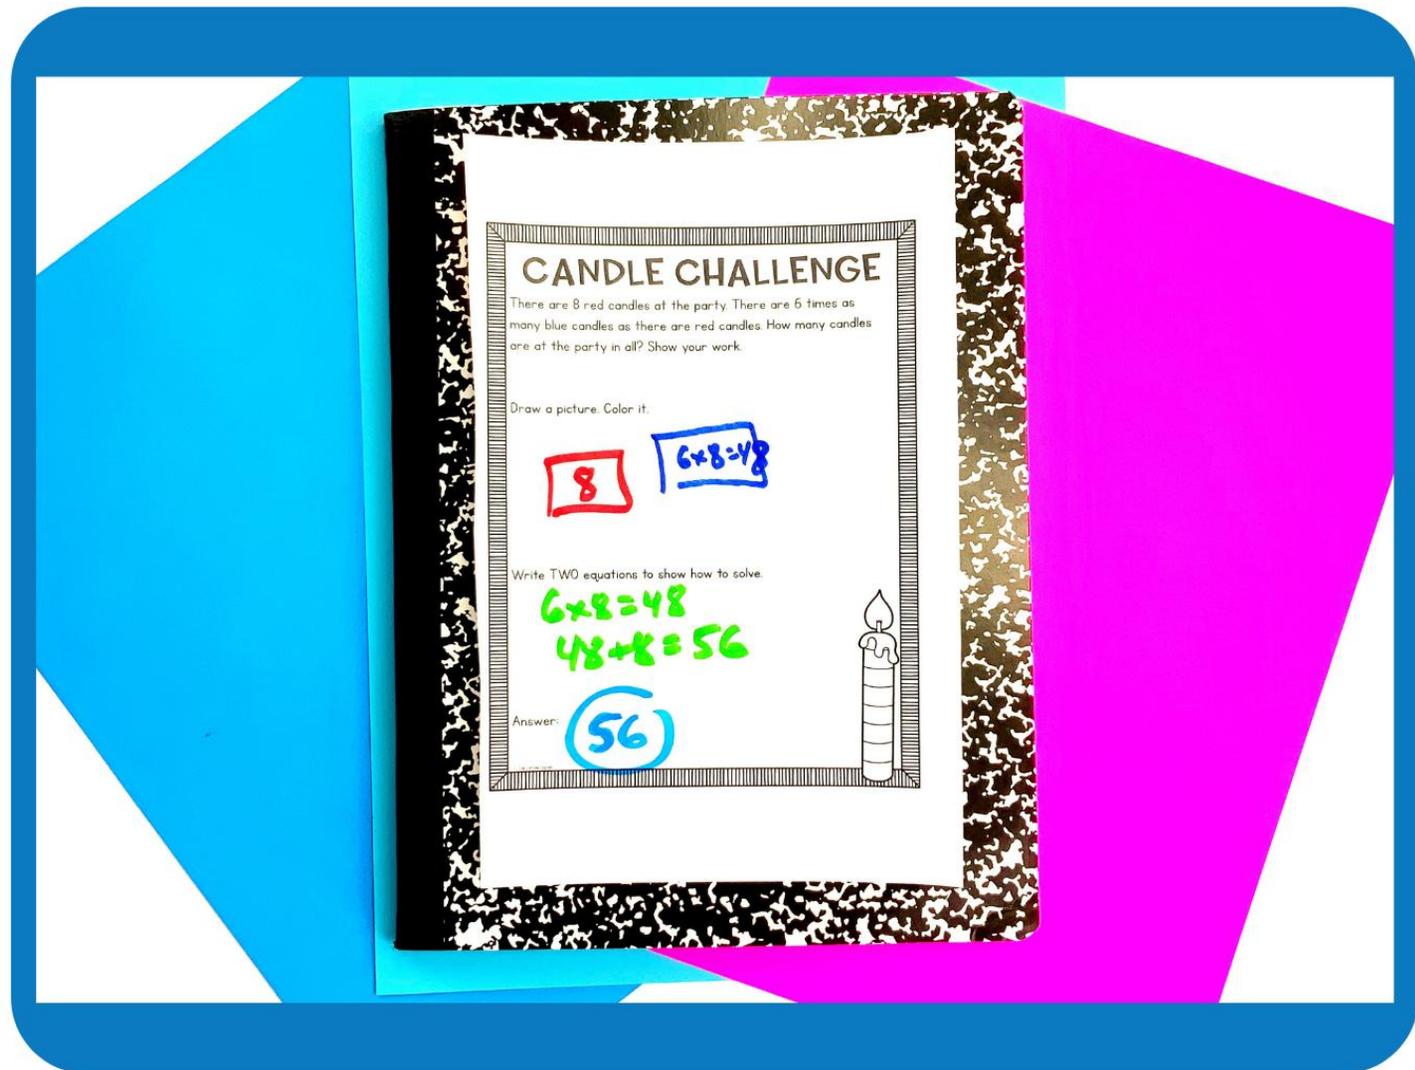

2. How many fewer red and green streamers were used than orange and yellow streamers?

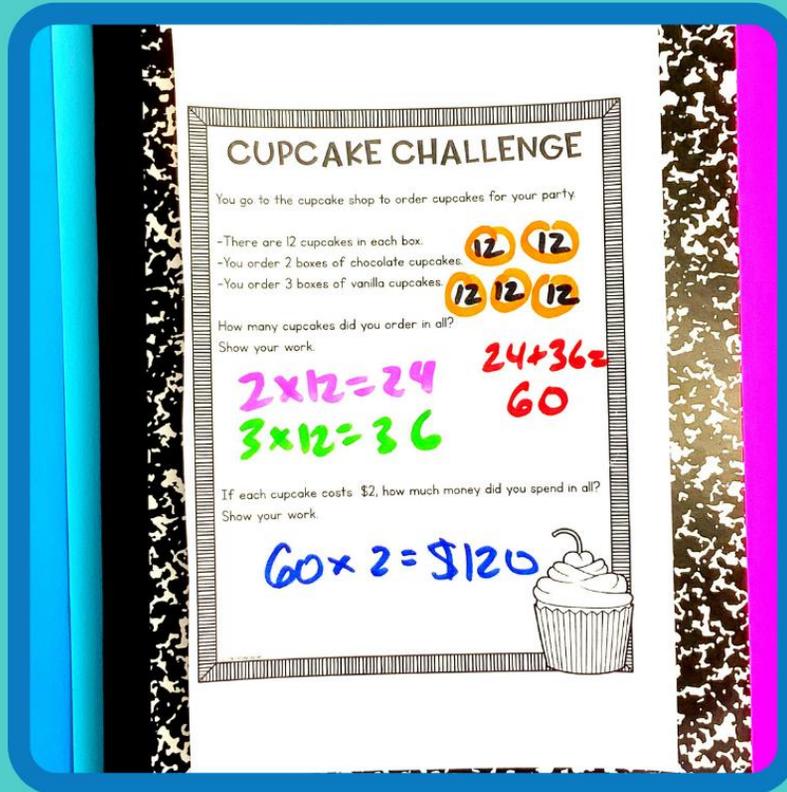

HOW TO USE THIS:

Ideas for Implementation:

- pick and choose the centers you want to use: do what works best for your class!
- you can have students work individually, in partners, or small groups--any way works!
- give students 1-2 hours to complete all 10 activities
- give less than 10 challenges to students if you are short on time
- OR spread the room transformation out over a couple of days

PRINT & DIGITAL

CUPCAKE CHALLENGE

You go to the cupcake shop to order cupcakes for your party.

- There are 12 cupcakes in each box.
- You order 2 boxes of chocolate cupcakes.
- You order 3 boxes of vanilla cupcakes.

How many cupcakes did you order in all?
Show your work.

$2 \times 12 = 24$
 $3 \times 12 = 36$
 $24 + 36 = 60$

If each cupcake costs \$2, how much money did you spend in all?
Show your work.

$60 \times 2 = \$120$

Print & Go

CUPCAKE CHALLENGE

You go to the cupcake shop to order cupcakes for your party.

- There are 12 cupcakes in each box.
- You order 2 boxes of chocolate cupcakes.
- You order 3 boxes of vanilla cupcakes.

How many cupcakes did you order in all?

$12 \times 2 = 24$
 $12 \times 3 = 36$
 $24 + 36 = 60$

If each cupcake costs \$2, how much money did you spend in all?

$60 \times 2 = 120$ dollars

CANDLE CHALLENGE

There are 8 red candles at the party. There are 6 many blue candles as there are red candles. How many are at the party in all? Show your work.

CUPCAKE CHALLENGE

You go to the cupcake shop to order cupcakes for your party.

SEVP CHALLENGE

anner, it is your job to figure out how many people will come

PRESENT CHALLENGE

A lot of guests bring presents to the party you are outside of the yard, there are 4 tables that are

STREAMERS CHALLENGE

The table shows the amount of each color streamer used. Answer the questions about the table below.

| | |
|--------|-----|
| Red | 291 |
| Orange | 526 |
| Yellow | 678 |
| | 411 |

SUNDAE CHALLENGE

team sundaes at your party. Unfortunately, 333 melt because of other 218 fall on the ground. Which equation will help you find the ice cream is left?

CAKE CHALLENGE

| | |
|------------|-----|
| Chocolate | 523 |
| Vanilla | 85 |
| Strawberry | 481 |
| Lemon | 237 |
| Carrot | 120 |

Use the table to answer the questions below. Show your work.
To the nearest ten, how many people ate chocolate and strawberry cake combined?

BALLOON CHALLENGE

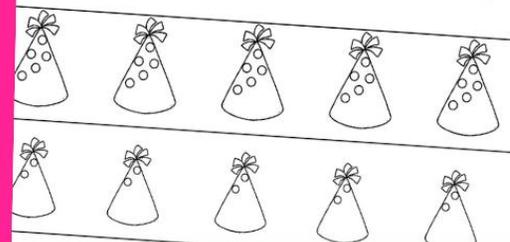

To get ready for the party, you and your staff blew up a lot of balloons with your balloon pump.

- Chelsea blew up 8 balloons a minute for 5 minutes.
- Alayna blew up 7 balloons a minute for 2 minutes.
- Carter blew up 6 balloons a minute for 6 minutes.
- Marcos blew up 10 balloons a minute for 7 minutes.

How many balloons were blown up altogether?

Chelsea:

PARTY HAT CHALLENGE

focuses on:
multi-step
word problems

CUPCAKE CHALLENGE

You go to the cupcake shop to order cupcakes for your party.

- There are 12 cupcakes in each box.
- You order 2 boxes of chocolate cupcakes.
- You order 3 boxes of vanilla cupcakes.

How many cupcakes did you order in all?

$12 \times 2 = 24$
 $12 \times 3 = 36$
 $12 \times 5 = 60$

If each cupcake costs \$2, how much money did you spend in all?

CANDLE CHALLENGE

There are 8 red candles at the party. There are 6 times as many blue candles as there are red candles. How many candles are at the party in all? Show your work.

Write TWO equations to show how to solve.

Equation 1: $8 \times 6 = 48$

Equation 2: $48 + 8 = 56$ candles

Answer:

PRESENT CHALLENGE

A lot of guests bring presents to the party you are hosting. On the left side of the yard, there are 4 tables that are each holding 70 presents. On the right side of the yard, there are 3 tables that are each holding 80 presents.

Show how many presents are on each side by typing an equation on both sides.

LEFT SIDE

$4 \times 70 = 280$

RIGHT SIDE

$3 \times 80 = 240$

Which side of the yard has more presents? How many more?

SUNDAE CHALLENGE

There are 700 ice cream sundaes at your party. Unfortunately, 333 melt because of the hot sun. Then, another 28 fall on the ground. Which equation will help you find the answer to how much ice cream is left?

- A. $700 + 333 + 28$
- B. $700 - 333 - 28$
- C. $700 - 333 + 28$
- D. $700 \times 333 - 28$

There are 50 people who want ice cream at your party. They are seated equally between 5 tables. There are also 2 people who want ice cream that are not sitting at a table. Which equation would help you find the answer to how many people want ice cream?

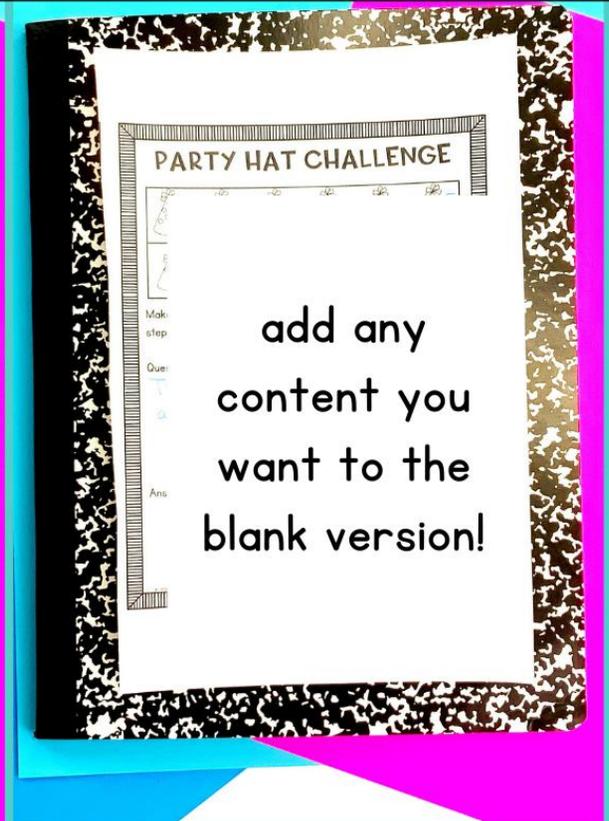

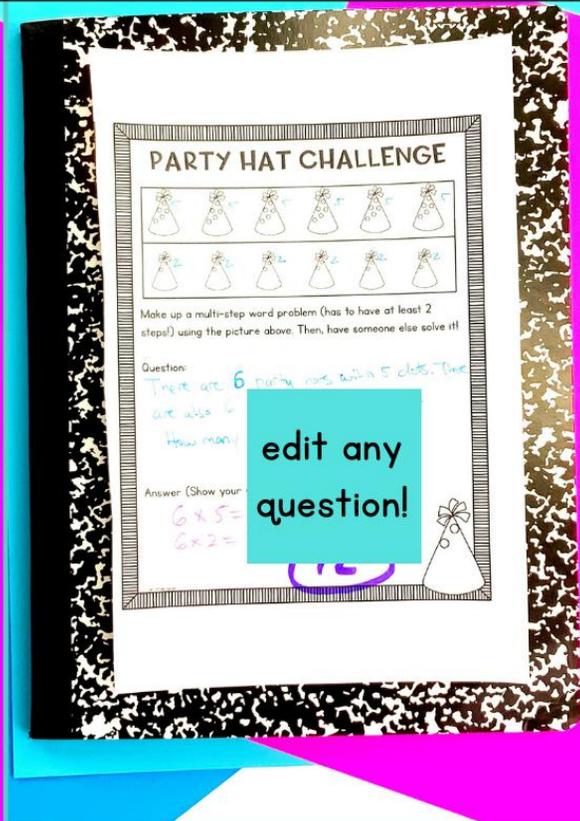

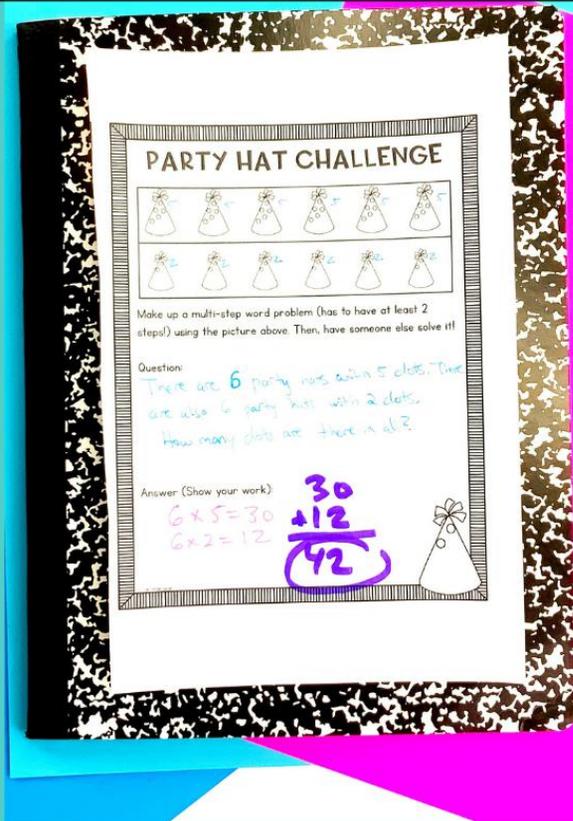

- A. $50 - 5 - 2$
- B. $50 \div 5 - 2$
- C. $50 \times 5 + 2$
- D. $50 \div 5 + 2$

You have 4 gallons of chocolate ice cream that can each feed 9 people. You also have 5 gallons of vanilla

low prep, fun, and engaging!

K-5 MATH & READING

THE LIFETIME LEARNER'S CLASSROOM TRANSFORMATIONS ARE:

1. Engaging to Students
2. Classroom Tested (and Student-Approved)
3. Print and Digital Compatible
4. Jam-Packed with Content
5. Aligned to Math Standards
6. Easy to Implement
7. Flexible for Every Classroom
8. Versatile Ways to Reward Students
9. Rigorous Student Learning Activities

All content is included so you can simply **print**
and get ready for an **AMAZING** experience
with your students!

Please Note:

- **There are 10 math challenges provided as well as décor, a fast finisher activity, and additional extras.**
- **The digital version is provided in Google Slides.**
- **Nervous about trying your first room transformation? You'll be hooked once you try one! I promise!**
- **Feel free to contact me if you have questions or want to chat about room transformations. You can email me at lindsaythelifetimelearner@gmail.com**
