

# WHAT IS THIS?

It's a low-prep room transformation!

Use the 10 math challenges, included decor, and more for a fun & easy room transformation!

Simply print the academic challenges, put up a few included decor items, and you're ready for a great day!

Room transformations can be stress-free and low-prep.

Keep scrolling to learn how!

# Let's start with the basics...

## What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

Camping Day

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

# STEP 1:

Tell your class they are race car drivers today!

They will practice plotting fractions on number lines in activities set up around the room. You can do this for a day, a few days, or over the course of a week!

Flexibility is key.

Need to modify? No problem!  
Choose how many centers students will need to complete and what time frame they have to meet YOUR needs.

Set-up is quick and easy.

Simply print the posters, 10 activities, and a recording sheet for each student. Place them around your room and you're ready to begin!

# STEP 2:

Let students move around the room and complete each center. They can be completed in any order. All centers include practicing plotting fractions on number lines.

## Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

## Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

**GET READY TO RACE**  
Put a check on each place you go.

Airport	<input type="checkbox"/>	Fire Station	<input type="checkbox"/>
Bakery	<input type="checkbox"/>	Park	<input type="checkbox"/>
Bank	<input type="checkbox"/>	School	<input checked="" type="checkbox"/>
Movie Theater/Cinema	<input type="checkbox"/>	Football Stadium	<input type="checkbox"/>
City Hall	<input type="checkbox"/>	Pet Shop	<input type="checkbox"/>

**SCHOOL CHALLENGE**  
You have to take 3 roads to get to school. There is a stop sign on each road at the fraction listed below for each. Plot each fraction on the number lines shown to show where each of the stop signs are.

Number line 1:  $\frac{4}{6}$   
Ticks:  $\frac{1}{6}, \frac{2}{6}, \frac{3}{6}, \frac{4}{6}, \frac{5}{6}$   
Stop sign at  $\frac{4}{6}$

Number line 2:  $\frac{4}{4}$   
Ticks:  $\frac{1}{4}, \frac{2}{4}, \frac{3}{4}$   
Stop sign at  $\frac{4}{4}$

Number line 3:  $\frac{3}{8}$   
Ticks:  $\frac{1}{8}, \frac{2}{8}, \frac{3}{8}, \frac{4}{8}, \frac{5}{8}, \frac{6}{8}, \frac{7}{8}$   
Stop sign at  $\frac{3}{8}$

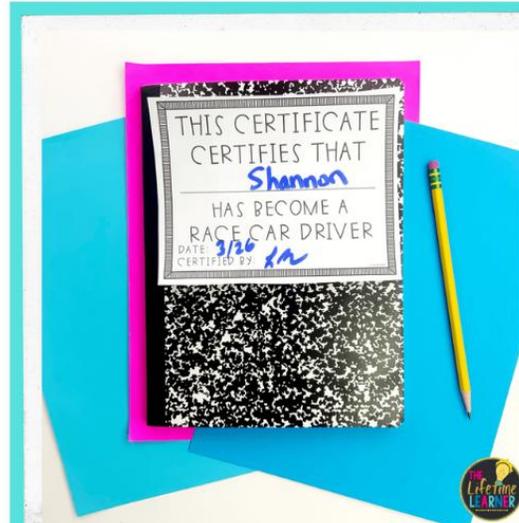

# STEP 3:

When students finish all activities you've assigned, they win! You can give them the included certificate, coloring page, or a small prize of your choice.

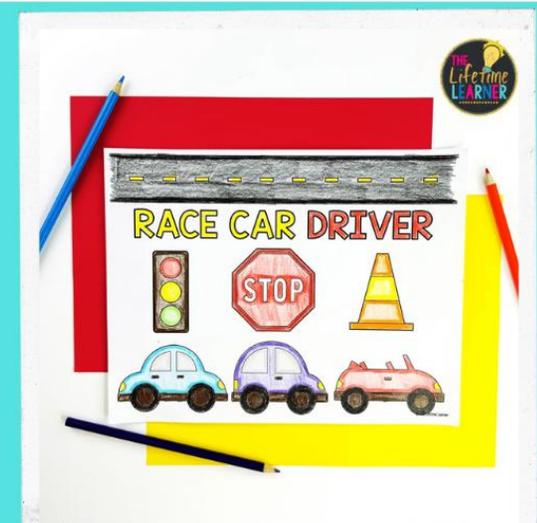

A shopping guide is also included to give you suggestions of optional "extras" you could add in.

## Remember:

Anything different from a "normal" day in the classroom is special to students! A reward at the end isn't required during a classroom transformation.

Certificate

Coloring Page

Prize

# STEP 4:

Most of the time, there are early finishers. These kiddos get to go around the room and read fun facts about the topic! No one is ever bored.

## Choose from 3 versions!

### Digital Scavenger Hunt

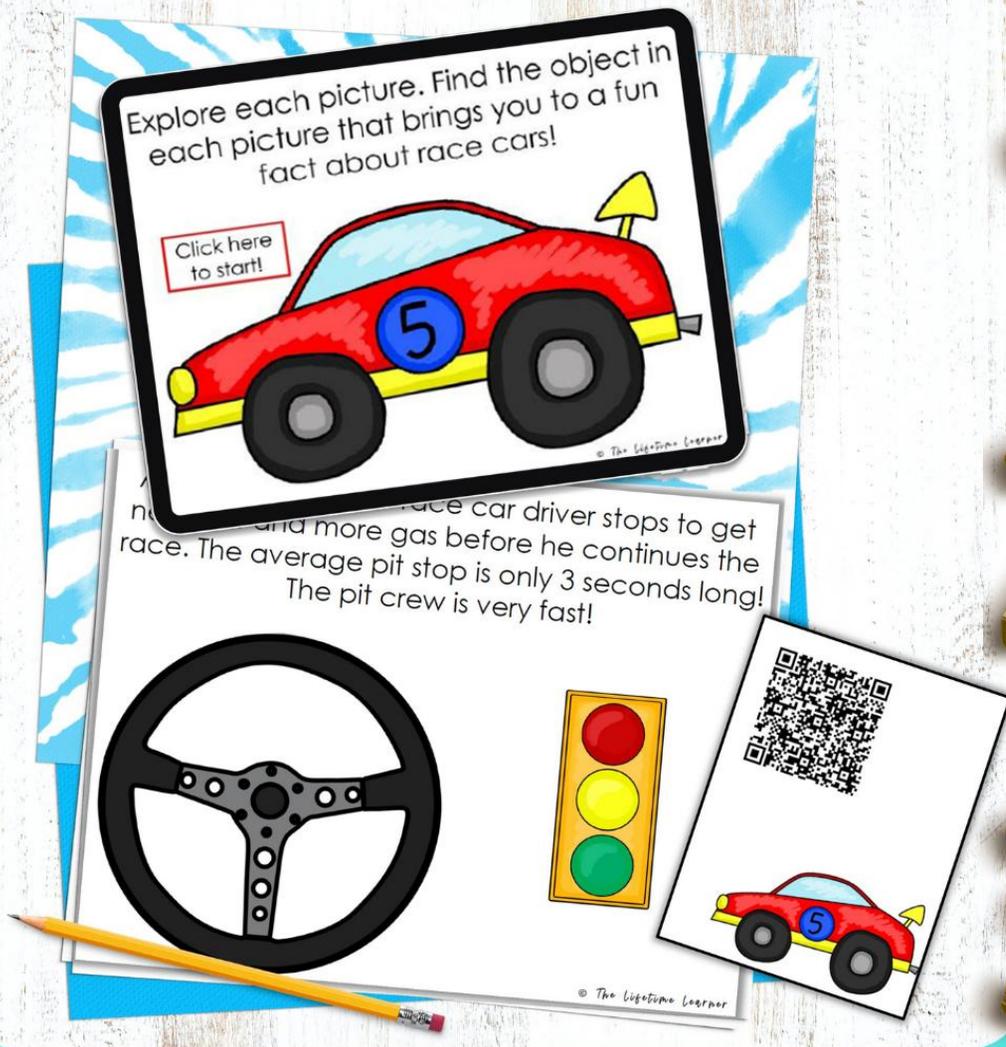

Let students "find" the facts on Google Slides

### Printable Facts

Hang facts around room

# HOW TO USE THIS:

## Ideas for Implementation:

- pick and choose the centers you want to use: do what works best for your class!
- you can have students work individually, in partners, or small groups--any way works!
- give students 1-2 hours to complete all 10 activities
- give less than 10 challenges to students if you are short on time
- OR spread the room transformation out over a couple of days

# Every activity relates to real-life mathematics!

## FIRE STATION CHALLENGE

You are helping the fire station put out fires! Tell how far you had from one fire to the next.

Fire #1

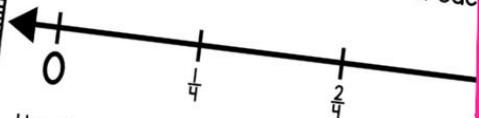

## SCHOOL CHALLENGE

You have to take 3 roads to get to school. You started at 0 and marked mile markers. Plot how far you drove on each mile marker.

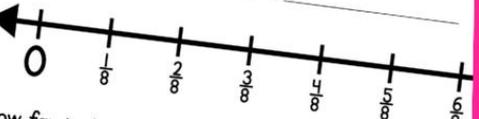

## STADIUM CHALLENGE

You're going to be late to the big game! Hurry! How far did you drive on each road?

How far is it from  $1/4$  to  $3/4$ ?

How far is it from  $3/8$  to  $7/8$ ?

How far is it from  $2/4$  to 1 whole?

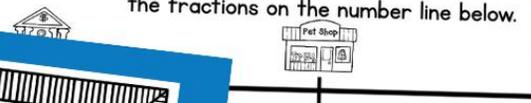

## BAKERY CHALLENGE

You want to go to the bakery to get some cake! Your sister says when you drive from your house to the bakery, it's only  $3/6$  of a mile because there's one mark between your house and there.

## PET SHOP CHALLENGE

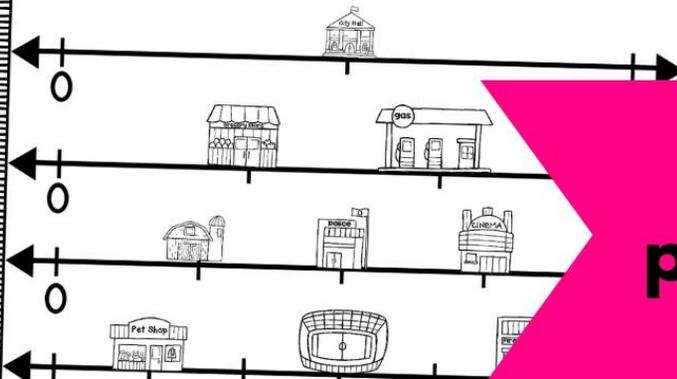

You've heard that there is only one puppy left at the pet shop! You better hop in your race car and GET THERE NOW!

Determine how far away you are from the pet shop based on the fractions on the number line below.

## AIRPORT CHALLENGE

While driving to the airport, you see a lot of things

## CINEMA CHALLENGE

It says it's  $5/8$  of a mile to get from the cinema to the grocery store.

## BANK CHALLENGE

You need to go to the bank because you need some money RIGHT NOW! You notice a lot of police on the way there.

Car #1 Car #2 Car #3

## PARK CHALLENGE

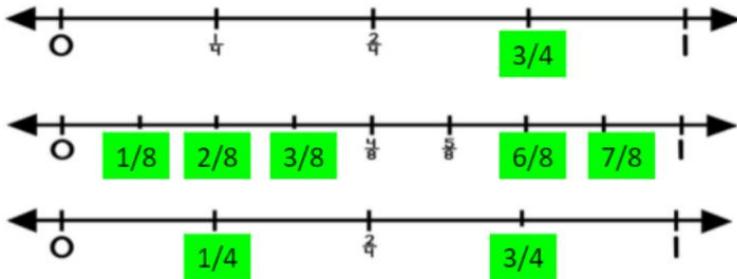

The sentence below is true or false based on where the park is located.

The park is  $6/8$  away from the bank.

**focuses on:  
plotting fractions on  
number lines**

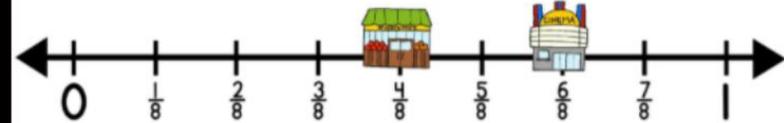

# STADIUM CHALLENGE

You're going to be late to the big game if you don't hurry! The roads below are each missing some fractions. Fill in the missing fractions on each road below so you can drive on.

# CINEMA CHALLENGE

Your friend says it's  $\frac{5}{8}$  of a mile to get from the cinema to the grocery store.

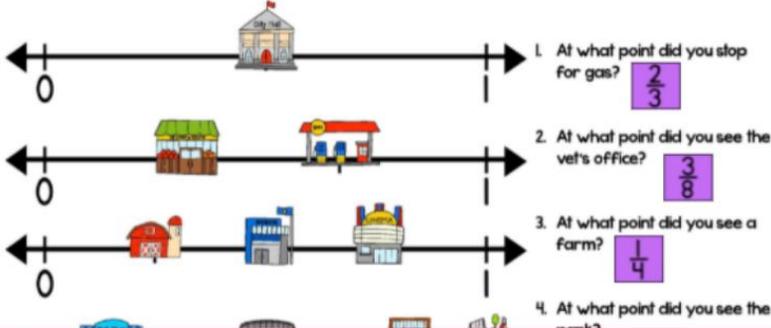

Do you agree or disagree?  
Explain why.

I disagree because you have to count the distance between

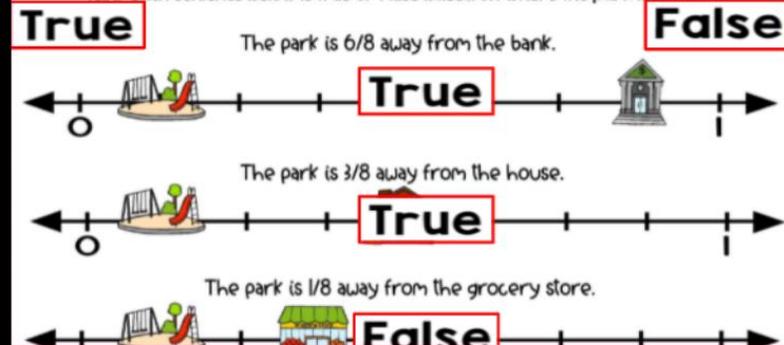

# AIRPORT CHALLENGE

While driving to the airport, you see a lot of things

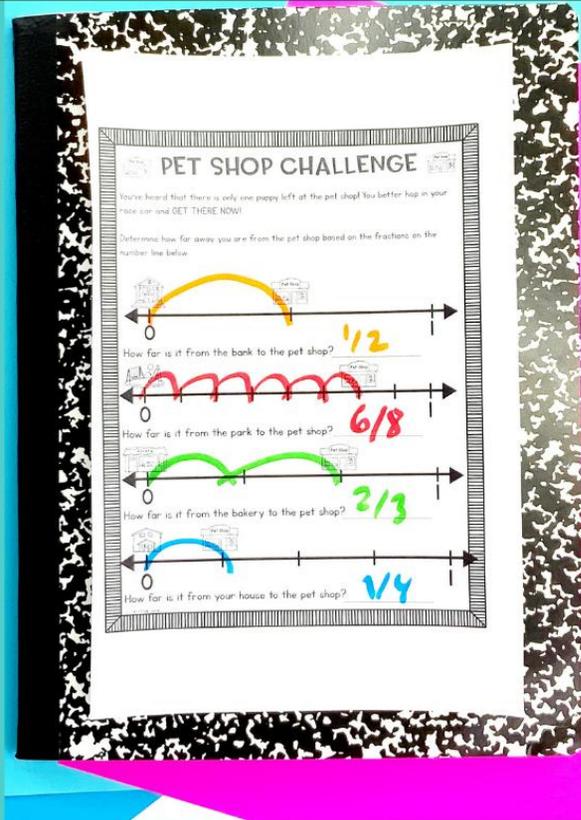

# PARK CHALLENGE

Tell if each sentence below is true or false based on where the park is located.
