

WHAT IS THIS?

It's a low-prep room transformation!

Use the 10 math challenges, included decor, and more for a fun & easy room transformation!

Simply print the academic challenges, put up a few included decor items, and you're ready for a great day!

Room transformations can be stress-free and low-prep.

Keep scrolling to learn how!

Let's start with the basics...

What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

Camping Day

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

STEP 1:

Tell your class there is a Thanksgiving parade today!

They will practice reviewing multiple math standards in activities set up around the room. You can do this for a day, a few days, or over the course of a week!

Set-up is quick and easy.

Simply print the posters, 10 activities, and a recording sheet for each student. Place them around your room and you're ready to begin!

Flexibility is key.

Need to modify? No problem! Choose how many centers students will need to complete and what time frame they have to meet YOUR needs.

STEP 2:

Let students move around the room and complete each center. They can be completed in any order. All centers include reviewing multiple math standards.

Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

STEP 3:

When students finish all activities you've assigned, they win! You can give them the included certificate, coloring page, or a small prize of your choice (instructions included how to let students build a cookie turkey!).

A shopping guide is also included to give you suggestions of optional "extras" you could add in.

Remember:

Anything different from a "normal" day in the classroom is special to students! A reward at the end isn't required during a classroom transformation.

STEP 4:

Most of the time, there are early finishers. These kiddos get to go around the room and read fun facts about the topic! No one is ever bored.

10 themed math challenges aligned to math standards

SCARECROW CHALLENGE

Write on top of each scarecrow's hat if the problem is multiplication, addition, subtraction, or division. Then solve. Show your work.

There are 9 scarecrows. Each one has 3 buttons on his shirt. How many buttons are there in all?

There are 4 scarecrows in the field. 3 fall down. How many are left?

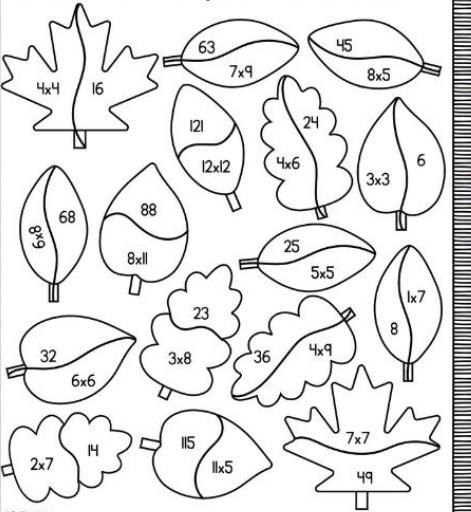

3 scarecrows share 9 buttons equally between them. How many buttons does each receive?

There are 4 scarecrows. The farmer puts 3 more in the field. How many are there now?

TRUCK CHALLENGE

The parade guests need your help deciding if each equation is correct or incorrect. Color the correct leaves green and the incorrect leaves red.

$4 \times 4 = 16$

$63 = 7 \times 9$

$45 = 8 \times 5$

$121 = 12 \times 12$

$24 = 4 \times 6$

$3 \times 3 = 6$

$6 \times 8 = 68$

$88 = 8 \times 11$

$25 = 5 \times 5$

$1 \times 7 = 8$

$32 = 6 \times 6$

$23 = 3 \times 8$

$36 = 4 \times 9$

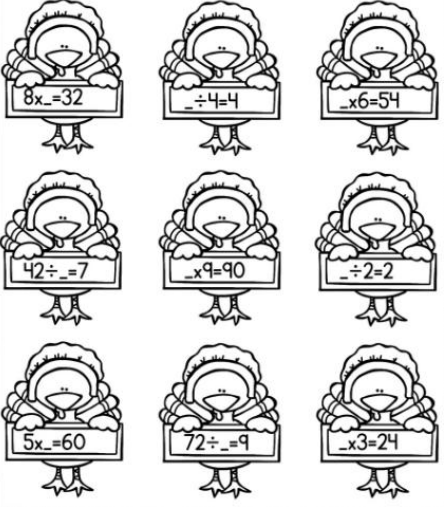

$2 \times 7 = 14$

$115 = 11 \times 5$

$7 \times 7 = 49$

SIGN CHALLENGE

Find each missing factor.

$8 \times _ = 32$

$_ \div 4 = 4$

$_ \times 6 = 54$

$42 \div _ = 7$

$_ \times 9 = 90$

$_ \div 2 = 2$

$5 \times _ = 60$

$72 \div _ = 9$

$_ \times 3 = 24$

HOW TO USE THIS:

Ideas for Implementation:

- pick and choose the centers you want to use: do what works best for your class!
- you can have students work individually, in partners, or small groups--any way works!
- give students 1-2 hours to complete all 10 activities
- give less than 10 challenges to students if you are short on time
- OR spread the room transformation out over a couple of days

SCARECROW CHALLENGE

Write on top of each scarecrow's hat if the problem is addition, subtraction, or division. Then solve. Show your work.

OWL CHALLENGE

Help the owl figure out the answer!

The owl goes to the grocery store. He picks up 5 pumpkin pies that are \$6 each. He goes to the frozen food aisle. He picks up three turkey pies for \$10 each.

CORN CHALLENGE

Solve each equation. Show your work. Write the answer in each box.
