

WHAT IS THIS?

It's a low-prep room transformation!

Use the 30 math challenges, included decor, and more for a fun & easy room transformation!

Simply print the academic challenges, put up a few included decor items, and you're ready for a great day!

Room transformations can be stress-free and low-prep.

Keep scrolling to learn how!

Let's start with the basics...

What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

Camping Day

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

STEP 1:

Tell your class they are at the zoo today!

They will practice solving multiplication and division word problems in activities set up around the room. You can do this for a day, a few days, or over the course of a week!

Set-up is quick and easy.

Simply print the posters, 30 activities, and a recording sheet for each student. Place them around your room and you're ready to begin!

Flexibility is key.

Need to modify? No problem!
Choose how many centers students will need to complete and what time frame they have to meet YOUR needs.

STEP 2:

Let students move around the room and complete each center. They can be completed in any order. All centers include practicing solving multiplication and division word problems.

Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

WELCOME TO THE ZOO
Record your answers next to each animal.

	LM				
					LM

4 ÷ 1 = 4

12 × 7 = 64

48 ÷ 8 = 6

8 × 8 = 64

STEP 3:

When students finish all activities you've assigned, they win! You can give them the included certificate, coloring page, or a small prize of your choice.

A shopping guide is also included to give you suggestions of optional "extras" you could add in.

Remember:

Anything different from a "normal" day in the classroom is special to students! A reward at the end isn't required during a classroom transformation.

STEP 4:

Most of the time, there are early finishers. These kiddos get to go around the room and read fun facts about the topic! No one is ever bored.

Choose from 3 versions!

THE CONTENT:

30 themed math challenges
aligned to math standards

 <p>The sloth takes 8 minutes to eat once piece of lettuce. How many pieces of lettuce will he eat in 32 minutes?</p>	 <p>The polar bear goes swimming for 8 hours. He swims 10 laps each hour. How many laps did he swim in all?</p>
 <p>The penguin eats 15 fish in a period of 9 minutes. If he ate the same amount of fish each minute, how many fish did he eat per minute?</p>	 <p>There are 6 rhinos in the savannah at the zoo. Each one has 2 tusks. How many tusks do they all have together?</p>

© The Little Learner

 <p>There are 3 gorilla enclosures at the zoo. There are 11 gorillas sleeping in each enclosure right now. How many gorillas do you see?</p>	 <p>There are 42 giraffes at the zoo. They are currently standing in six equal groups. How many giraffes are in each group?</p>
 <p>There are 12 mama hippos at the zoo. Each one has 4 babies. How many hippo babies are there in all?</p>	 <p>28 red foxes are currently at the zoo. They are in 7 enclosures so that they aren't all cramped together. How many foxes are in each enclosure?</p>

© The Little Learner

 <p>The frog jumps 9 times onto each lily pad. There are 3 lily pads in the pond. How many times did the frog jump in all?</p>	 <p>The toucan flies over 4 trees. There are 5 branches on each tree. How many branches did he fly over total?</p>
 <p>The tiger eats 24 pieces of meat for breakfast. The pieces of meat were split in 2 piles. How many pieces of meat were in each pile?</p>	 <p>A snake at the zoo lays in the warmth of the heat lamp for 6 hours. He moves positions 3 times each hour. How many times did he move during that time period?</p>

© The Little Learner

HOW TO USE THIS:

Ideas for Implementation:

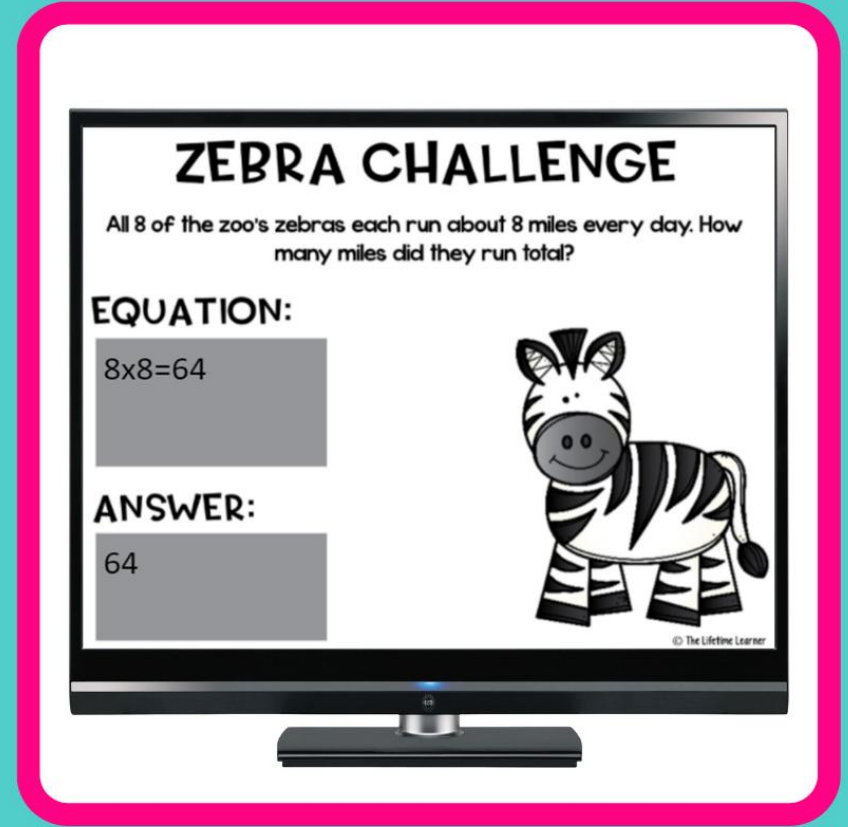

- pick and choose the centers you want to use: do what works best for your class!
- you can have students work individually, in partners, or small groups--any way works!
- give students 1-2 hours to complete all 30 activities
- give less than 30 challenges to students if you are short on time
- OR spread the room transformation out over a couple of days

that works best for you!

Every activity relates to real-life mathematics!

There are 4 alligators at the zoo. They are kept apart so there is only 1 alligator in each enclosure. How many enclosures does the zoo have for alligators?

Every leopard jumps 3 feet back. There are 12 leopards at the zoo. How far do they jump in total?

Each elephant at the zoo eats 35 pounds of hay a day. If they eat that much hay over a 5 hour period, how much hay are they eating per hour?

year.

times each hour. How long will he roar in 6 hours?

40 koalas are spread throughout the trees in their enclosure. If there are 10 koalas in each tree, how many trees are there?

focuses on:
multiplication & division
word problems

There are 48 fish thrown into the bear enclosure at the zoo. If 8 grizzly bears each eat an equal amount, how many fish did each bear eat?

EQUATION:

$$48 \div 8 = 6$$

ANSWER:

6

All 8 of the zoo's zebras each run about 8 miles every day. How many miles did they run total?

EQUATION:

$$8 \times 8 = 64$$

ANSWER:

64

There are 4 alligators at the zoo. They are kept apart so there is only 1 alligator in each enclosure. How many enclosures does the zoo have for alligators?

EQUATION:

$$4 \div 1 = 4$$

ANSWER:

4

Every leopard has 12 spots on their back. There are 7 leopards at the zoo. How many spots do the leopards have altogether?

EQUATION:

$$12 \times 7 = 84$$

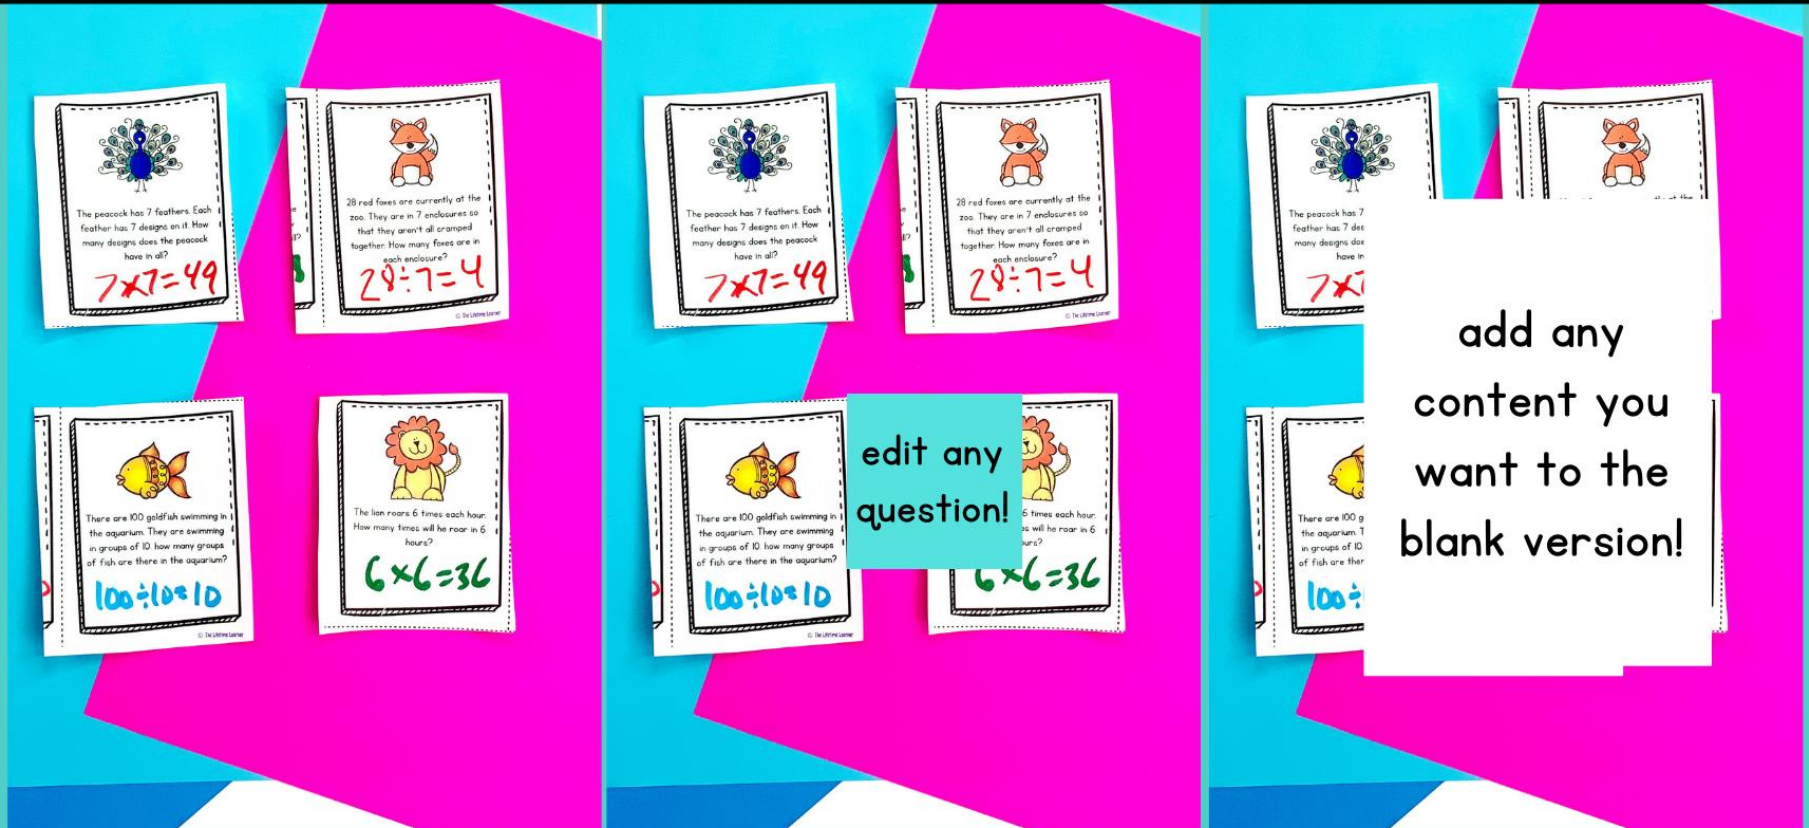

ANSWER:

84

K-5 MATH & READING

THE LIFETIME LEARNER'S CLASSROOM TRANSFORMATIONS ARE:

1. Engaging to Students
2. Classroom Tested (and Student-Approved)
3. Print and Digital Compatible
4. Jam-Packed with Content
5. Aligned to Math Standards
6. Easy to Implement
7. Flexible for Every Classroom
8. Versatile Ways to Reward Students
9. Rigorous Student Learning Activities

All content is included so you can simply **print**
and get ready for an **AMAZING** experience
with your students!

Please Note:

- **There are 10 math challenges provided as well as décor, a fast finisher activity, and additional extras.**
- **The digital version is provided in Google Slides.**
- **Nervous about trying your first room transformation? You'll be hooked once you try one! I promise!**
- **Feel free to contact me if you have questions or want to chat about room transformations. You can email me at lindsaythelifetimelearner@gmail.com**
