

WHAT IS THIS?

It's a low-prep room transformation!

Use the 10 math challenges, included decor, and more for a fun & easy room transformation!

Simply print the academic challenges, put up a few included decor items, and you're ready for a great day!

Room transformations can be stress-free and low-prep.

Keep scrolling to learn how!

Let's start with the basics...

What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

Camping Day

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

STEP 1:

Tell your class they are going to see dinosaurs today!

They will practice 4th grade math skills in activities set up around the room. You can do this for a day, a few days, or over the course of a week!

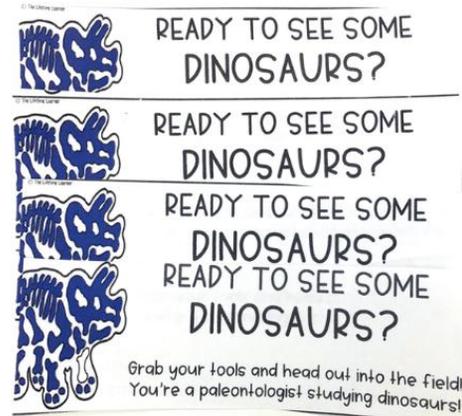

Set-up is quick and easy.

Simply print the posters, 10 activities, and a recording sheet for each student. Place them around your room and you're ready to begin!

Flexibility is key.

Need to modify? No problem!
Choose how many centers students will need to complete and what time frame they have to meet YOUR needs.

STEP 2:

Let students move around the room and complete each center. They can be completed in any order. All centers include practice with 4th grade math skills.

Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

STEP 3:

When students finish all activities you've assigned, they win! You can give them the included certificate, coloring page, or a small prize of your choice.

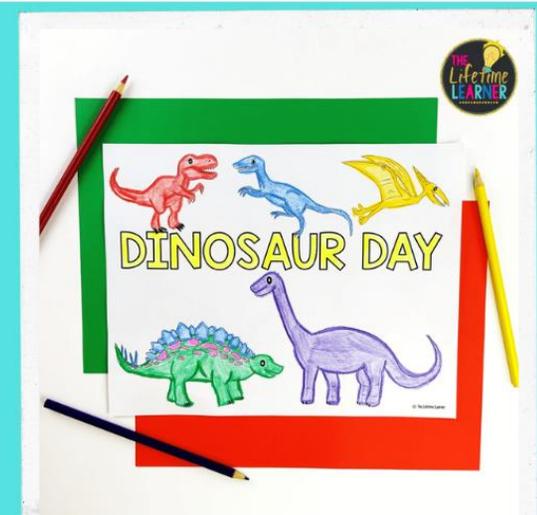

A shopping guide is also included to give you suggestions of optional "extras" you could add in.

Remember:

Anything different from a "normal" day in the classroom is special to students! A reward at the end isn't required during a classroom transformation.

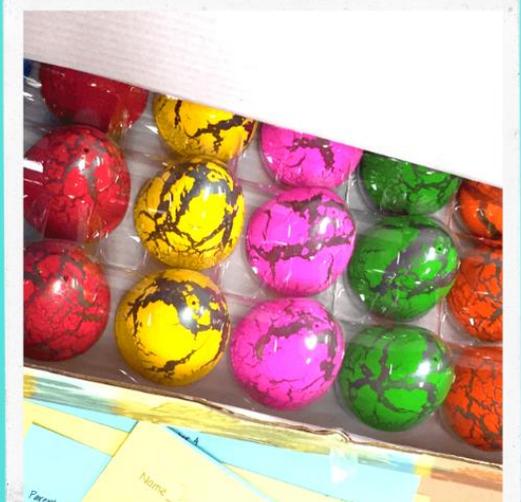

Certificate

Coloring Page

In Action Pic

Prize

STEP 4:

Most of the time, there are early finishers. These kiddos get to go around the room and read fun facts about the topic! No one is ever bored.

Choose from 3 versions!

Digital Scavenger Hunt

Let students "find" the facts on Google Slides

10 themed math challenges aligned to math standards

STEGOSAURUS

Answer the questions below to find the fossil!

1. Which expression could be used to solve this problem?
 $3\frac{2}{6} - 2\frac{5}{6} \times$

A. $\frac{11}{6} - \frac{13}{6}$ C. $\frac{20}{6} - \frac{16}{6}$
B. $\frac{18}{6} - \frac{12}{6}$ D. $\frac{20}{6} - \frac{17}{6}$

2. George saw this number line on his homework.

Which shaded section could have the same value as x?

A. C.
B. D.

PTERODACTYL

Answer the questions below to find the fossil!

1. Favorite Subject

Subject	Number of Votes
Math	15
Science	30
Reading	50
Geography	10
Writing	30

Fourth graders were surveyed about their favorite class. The graph shows the results. How many more 4th graders chose science or reading over the math and geography?

A. 45
B. 50
C. 55
D. 60

2. Max filled a jar with candy. The candy weighed 9,420 ounces. He gave away 2,137 ounces of the candy. How much did the remaining candy weigh?

A. 7,283 ounces
B. 7,290 ounces
C. 7,383 ounces
D. 6,283 ounces

ANKYLOSAURUS

Answer the questions below to find the fossil!

1. Each booth at the fair has 17 people in it. There are 15 booths at the fair. How many people are at the booths total?

A. 218 people
B. 233 people
C. 255 people
D. 264 people

2. Six monkeys each ate $1\frac{1}{3}$ bananas. How many bananas did the six monkeys eat in all?

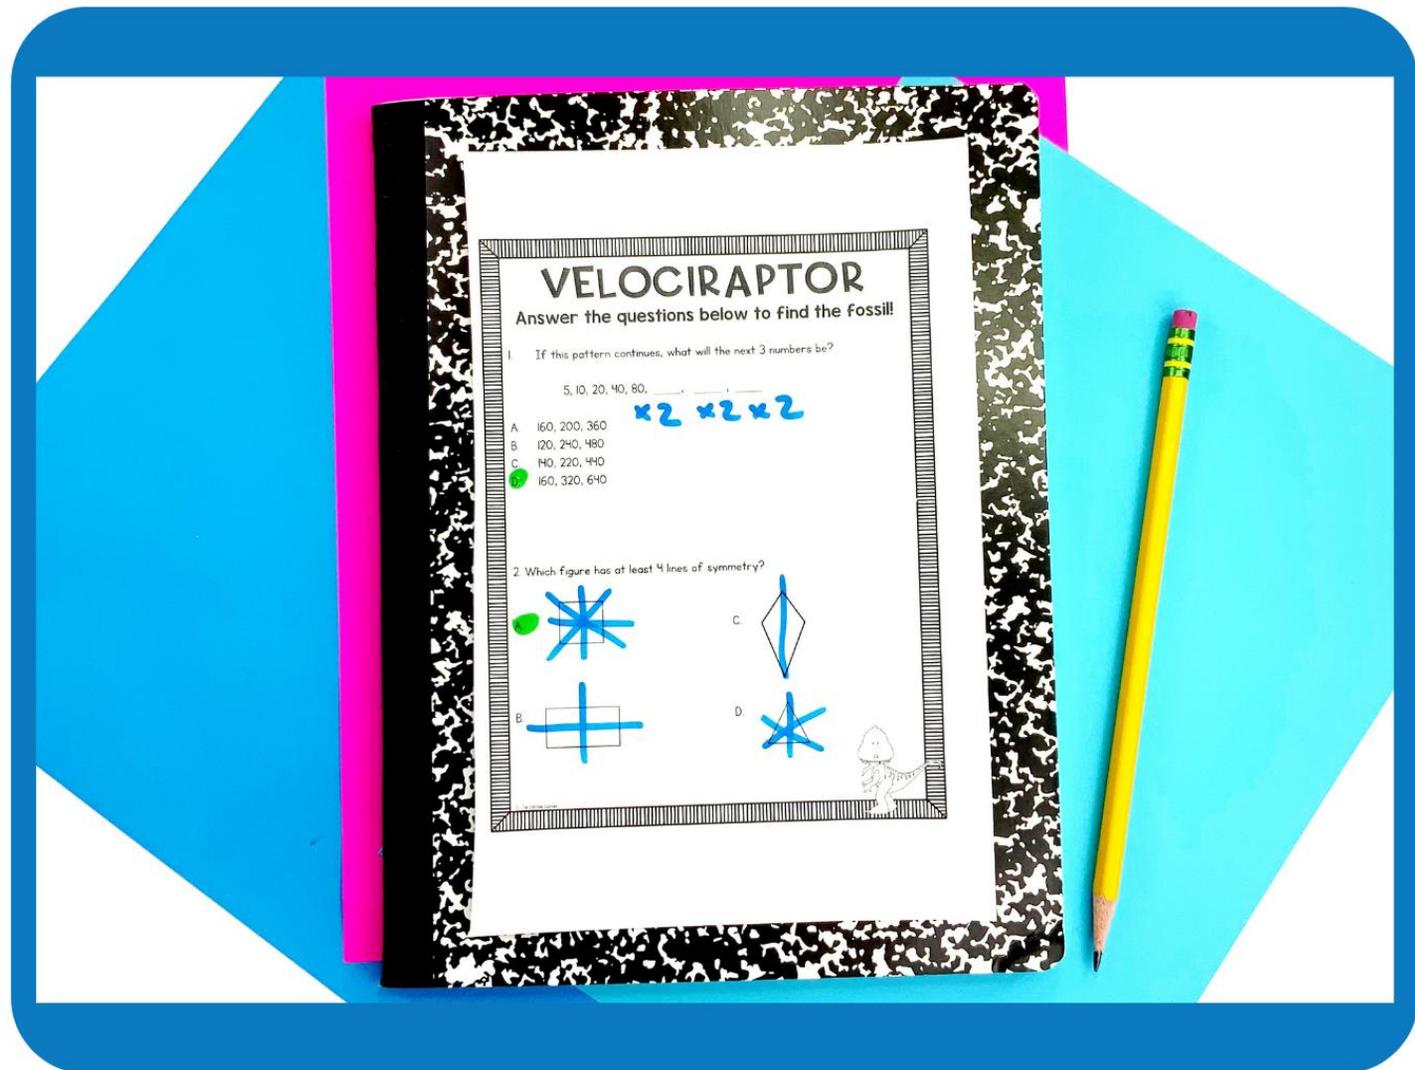

A. $6\frac{1}{3}$ bananas
B. $6\frac{2}{3}$ bananas
C. $7\frac{2}{3}$ bananas
D. 8 bananas

HOW TO USE THIS:

Ideas for Implementation:

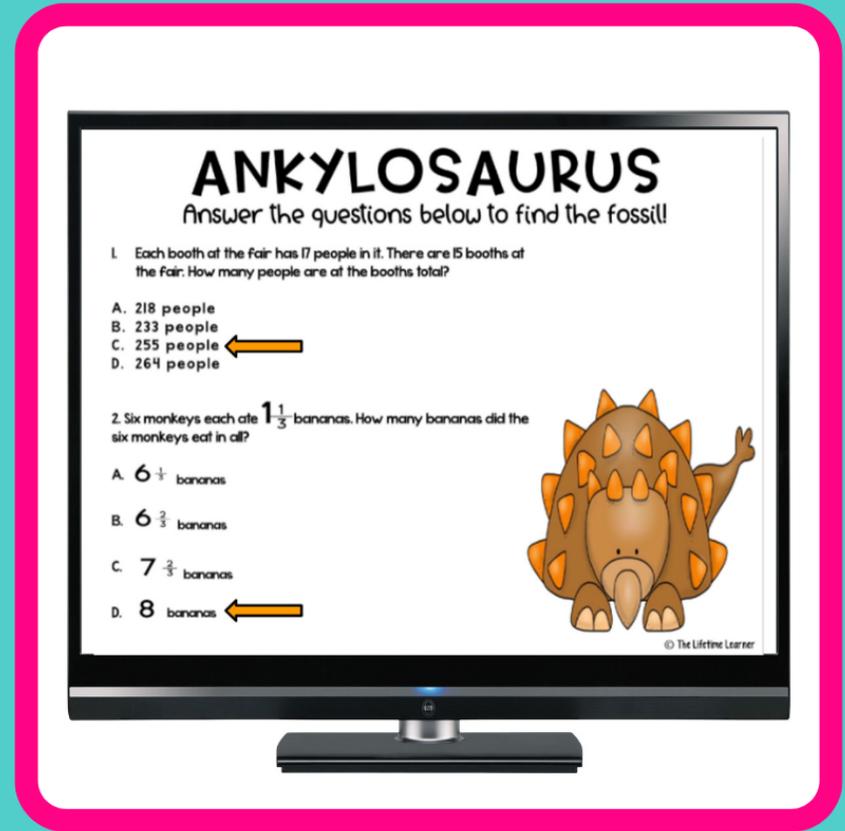

- pick and choose the centers you want to use: do what works best for your class!
- you can have students work individually, in partners, or small groups--any way works!
- give students 1-2 hours to complete all 10 activities
- give less than 10 challenges to students if you are short on time
- OR spread the room transformation out over a couple of days

A. $6\frac{1}{3}$ bananas

B. $6\frac{2}{3}$ bananas

SABER TOOTH TIGER

Answer the questions below to find the fossil!

1. Mr. Jeremy has 83 pens and wants to put them into containers. He puts 8 pens in each container. How many containers will Mr. Jeremy use?

A. 17
B. 18
C. 1,044
D. 1,144

2. Lacey is making jam. For the recipe she needs:

- $\frac{3}{6}$ cup jelly
- $\frac{1}{6}$ cup sugar
- $\frac{1}{6}$ cup strawberries

Lacey will triple the recipe. What is the total amount of jelly, sugar, and strawberries she will need?

MAMMOTH

Answer the questions below to find the fossil!

1. April collected 256 apples. Each tree that she picked them from could hold 39 apples. How many trees were completely plucked?

A. 6
B. 7
C. 217
D. 218

2. Which two rectangles have the same amount shaded?

I.

TRICERATOPS

Answer the questions below to find the fossil!

1. Four co-workers were completing a project of the same size. The table shows how much of the project each friend has completed.

Name	Fraction of Project
Julia	$\frac{3}{4}$
William	$\frac{10}{10}$
Selena	$\frac{4}{8}$
Tamar	$\frac{6}{12}$

Which friends have completed an equal amount of their project?

A. Tamar and William
B. Julia and Selena
C. William and Selena
D. Tamar and Julia
