

# WHAT IS THIS?

It's a low-prep room transformation!

Use the 10 math challenges, included decor, and more for a fun & easy room transformation!

Simply print the academic challenges, put up a few included decor items, and you're ready for a great day!

Room transformations can be stress-free and low-prep.

Keep scrolling to learn how!

# Let's start with the basics...

## What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

Camping Day

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

# STEP 1:

Tell your class they are doctors today!

They will practice writing fractions as decimals in activities set up around the room. You can do this for a day, a few days, or over the course of a week!

Flexibility is key.

Need to modify? No problem!  
Choose how many centers students will need to complete and what time frame they have to meet YOUR needs.

Set-up is quick and easy.

Simply print the posters, 10 activities, and a recording sheet for each student. Place them around your room and you're ready to begin!

# STEP 2:

Let students move around the room and complete each center. They can be completed in any order. All centers include practicing writing fractions as decimals.

## Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

## Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

**CALLING ALL SURGEONS**  
Put a check next to each organ once you've completed that surgery.

	<input type="checkbox"/>		<input type="checkbox"/>
Brain		Skin	
	<input type="checkbox"/>		<input type="checkbox"/>
Liver		Small Intestine	
	<input type="checkbox"/>		<input type="checkbox"/>
Kidneys		Lungs	
	<input type="checkbox"/>		<input type="checkbox"/>
Eyeball		Heart	
	<input type="checkbox"/>		<input checked="" type="checkbox"/>
Stomach		Spleen	

**SPLEEN SURGERY**  
The doctor needs your help giving each patient their medicine. Please give each patient the medicine they are looking for.

$\frac{2}{10}$		0.8
$\frac{4}{100}$		0.2
$\frac{88}{100}$		0.88
$\frac{4}{10}$		0.02
$\frac{8}{100}$		0.4
$\frac{2}{100}$		0.08
$\frac{8}{10}$		0.04

# STEP 3:

When students finish all activities you've assigned, they win! You can give them the included certificate, coloring page, or a small prize of your choice.

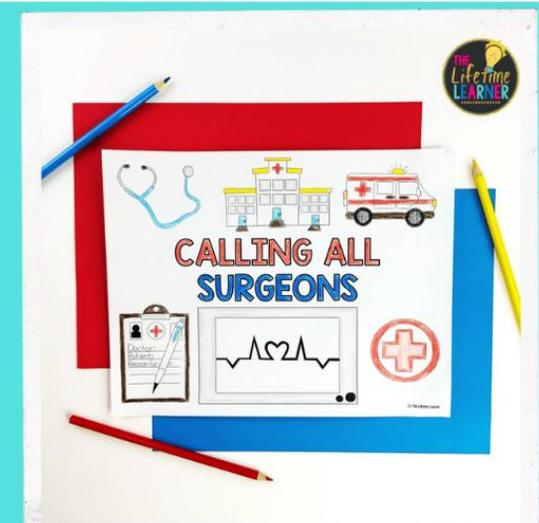

A shopping guide is also included to give you suggestions of optional "extras" you could add in.

## Remember:

Anything different from a "normal" day in the classroom is special to students! A reward at the end isn't required during a classroom transformation.

Certificate

Coloring Page

In Action Pic

Prize

# STEP 4:

Most of the time, there are early finishers. These kiddos get to go around the room and read fun facts about the topic! No one is ever bored.

**Choose from 3 versions!**

## Digital Scavenger Hunt

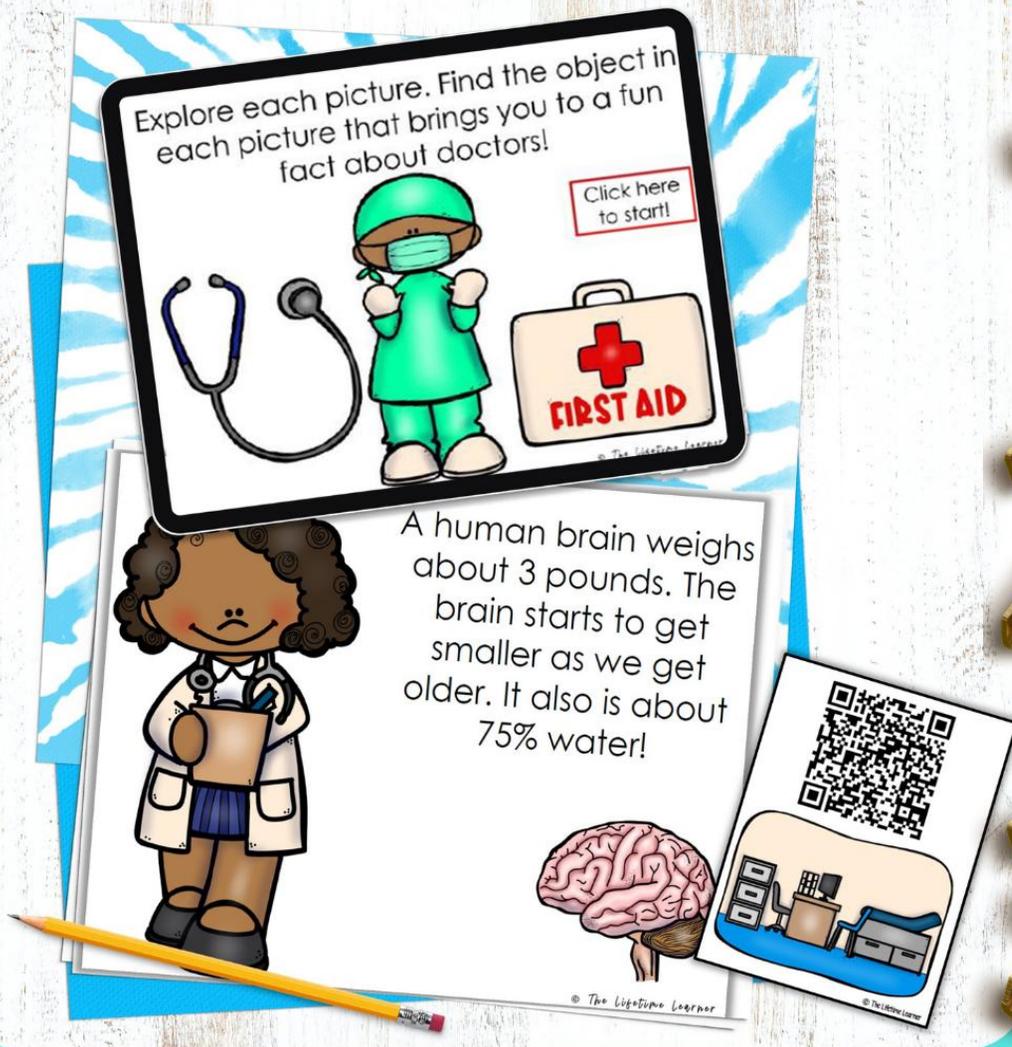

*Let students "find" the facts on Google Slides*

## Printable Facts

*Hang facts around room*

## QR Codes

*Students scan to read fun facts*

# THE CONTENT:

## 10 themed math challenges aligned to math standards

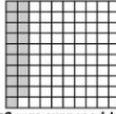

### SKIN SURGERY

As head surgeon, it's your job to check each surgeon's work. Please check each skin graft below to see if each medical student was correct. If they were, put a check. If they were not, put an X and tell what decimal they really did.

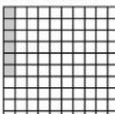

Student #1 was supposed to do a graft on 0.4 of the skin.

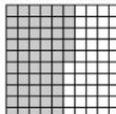

Doctor #4 was supposed to do a graft on nineteen hundredths of the skin.

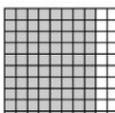

Doctor #2 was supposed to do a graft on 0.06 of the skin.

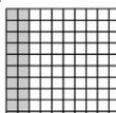

Doctor #2 was supposed to do a graft on 0.50 of the skin.

Doctor #3 was supposed to do a graft on eight tenths of the skin.

Doctor #3 was supposed to do a graft on two hundredths of the skin.

### EYEBALL SURGERY

Surgeons have to complete paperwork too. You need to fill out the paperwork on the laser eye surgeries you completed this week.

Complete the chart below.

Surgery Days	Amount of the Eyeball Fixed in Decimal Form	Amount of the Eyeball Fixed in Fraction Form	Amount of Eyeball Fixed in Word Form
Monday	0.05		
Tuesday		$\frac{3}{100}$	
Wednesday			fifty-seven hundredths
Thursday	0.46		
Friday			nine tenths
Saturday		$\frac{4}{10}$	

### SMALL INTESTINE SURGERY

Give each doctor the medicine they need by coloring each medicine bottle the same color as the doctor.

I need 0.42 grams of medicine, stat!

I need 0.29 grams of medicine, stat!

I need 0.2 grams of medicine, stat!

I need 0.09 grams of medicine, stat!

I need 0.02 grams of medicine, stat!

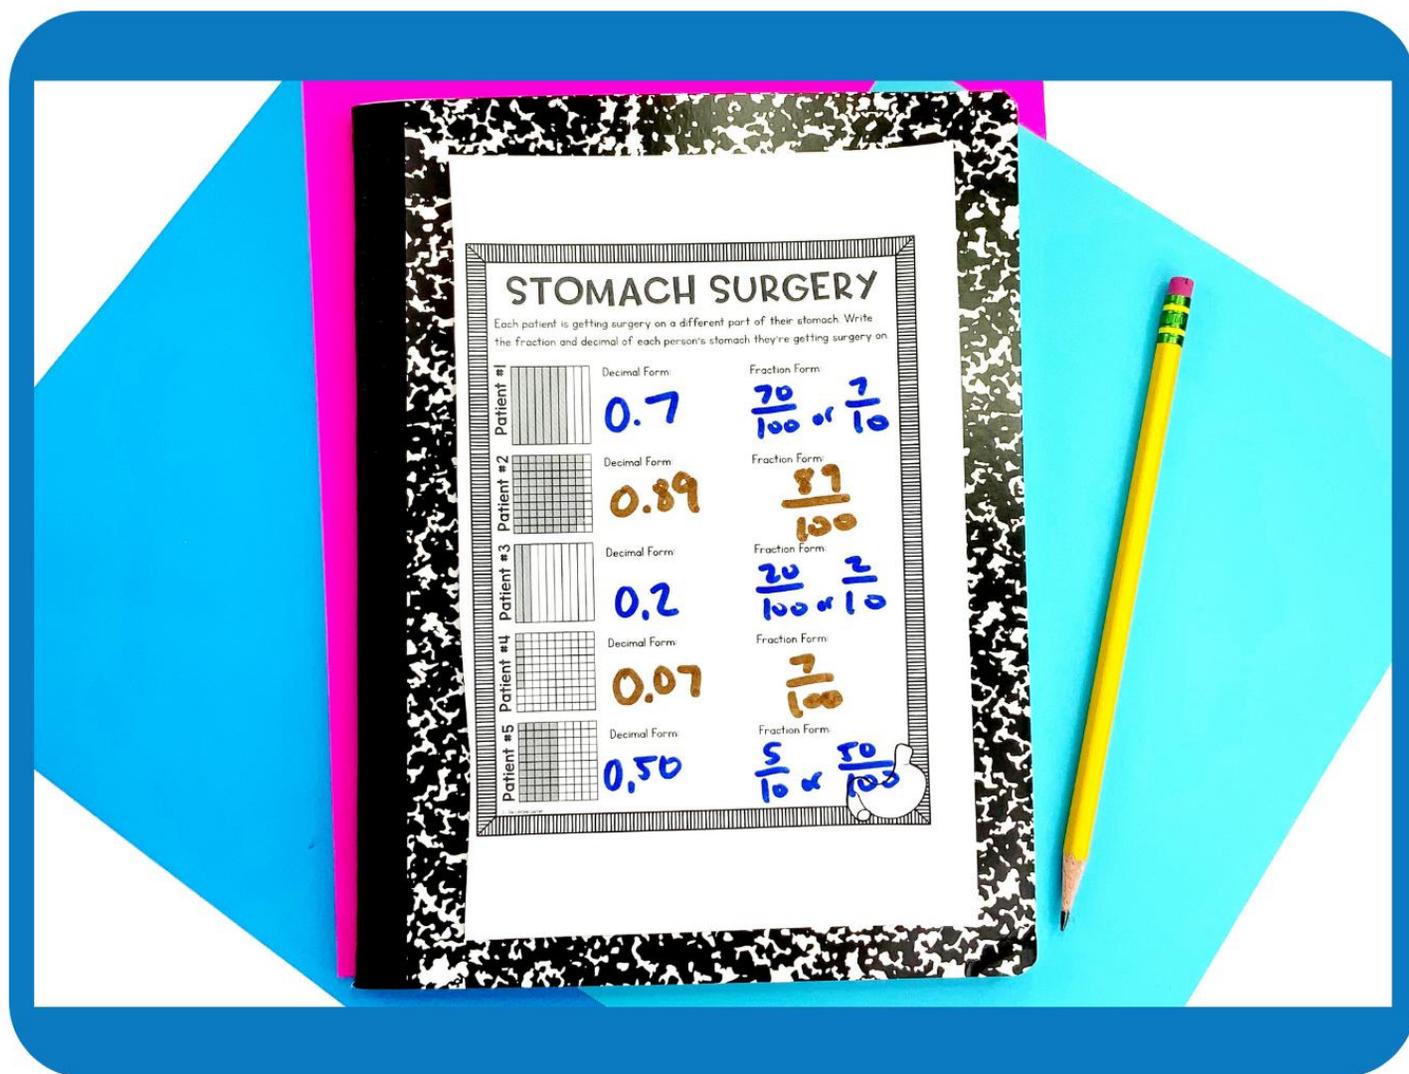

I need 0.9 grams of medicine, stat!

# HOW TO USE THIS:

## Ideas for Implementation:

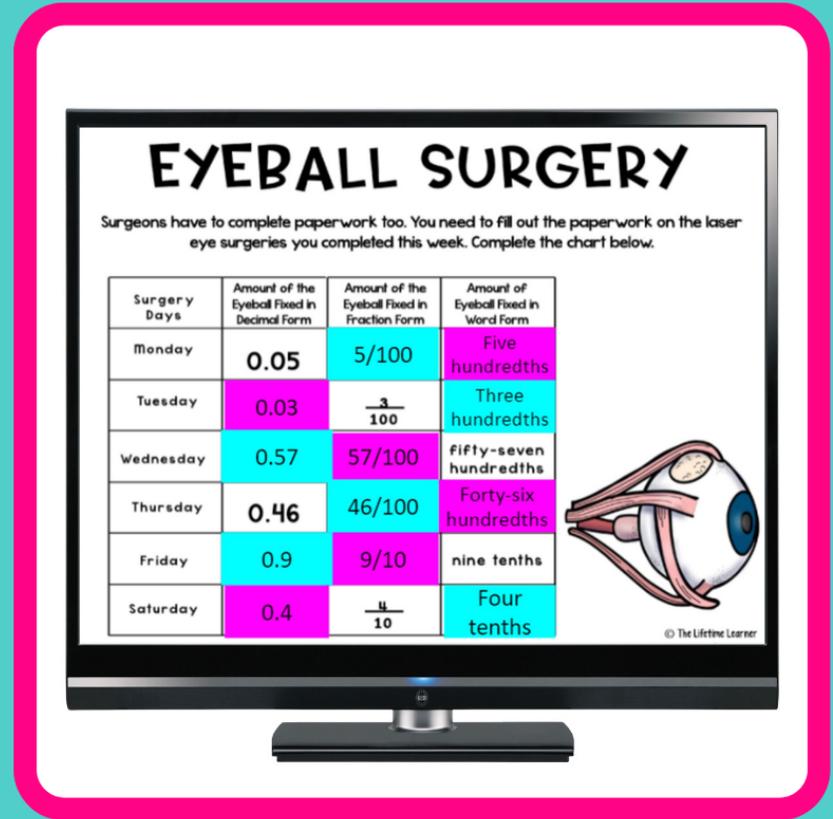

- pick and choose the centers you want to use: do what works best for your class!
- you can have students work individually, in partners, or small groups--any way works!
- give students 1-2 hours to complete all 10 activities
- give less than 10 challenges to students if you are short on time
- OR spread the room transformation out over a couple of days

# PRINT & DIGITAL

Print & Go

Google Slides

Choose the format  
that works best for you!

# Every activity relates to real-life mathematics!

## KIDNEY SURGERY

Uh oh! The doctor accidentally left each patient's kidney as a fraction. The nurse needs your help converting each into a decimal so she can give each patient their medicine.

## SKIN SURGERY

As head surgeon, it's your job to check each surgeon's work. Please check each skin graft below to see if each medical student was correct. If they were, put a check. If they were not, put an X and tell what decimal they really did.

## EBALL SURGERY

Please complete paperwork too. You need to fill out the laser eye surgeries you completed this week. Chart below.

## HEART SURGERY

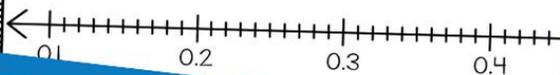

During heart surgery, you have to administer medicine to ensure the heart stays healthy. Please use the form so you don't get lost.

## BRAIN SURGERY

Help each doctor make the incision they need on the number lines provide below by marking a dot at where the doctor requests.

Doctor #1: I need to make an incision at forty-five hundredths.

## LIVER SURGERY

During a liver transplant today. Please draw a picture to show how the liver will go to each patient below.

Liver will go to Patient A.

## SMALL INTESTINE SURGERY

Give each doctor the medicine they need. Each medicine bottle the same color.

I need 0.92 grams of medicine, stat!

I need 0.29 grams of medicine, stat!

I need 0.2 grams of medicine, stat!

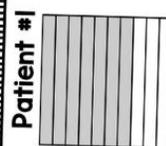

I need 0.09 grams of medicine, stat!

## STOMACH SURGERY

Each patient is getting surgery on a different part of their stomach. Write the fraction and decimal of each person's stomach they're getting surgery on.

Decimal Form:

Fraction Form:

Decimal Form:

Fraction Form:
