

WHAT IS THIS?

It's a low-prep room transformation!

Use the 10 math challenges, included decor, and more for a fun & easy room transformation!

Simply print the academic challenges, put up a few included decor items, and you're ready for a great day!

Room transformations can be stress-free and low-prep.

Keep scrolling to learn how!

Let's start with the basics...

What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

Camping Day

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

STEP 2:

Let students move around the room and complete each center. They can be completed in any order. All centers include reviewing 4th grade math concepts.

Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

COCONUTS
Answer the questions below.

1. Which angle in the drawing below is an obtuse angle?

A. Angle ABC
B. Angle FGH
C. Angle BED
D. Angle IGH

2. Which choice is equal to $4\frac{1}{3}$?

A. $4\frac{1}{3}$
B. $4\frac{1}{2}$
C. $\frac{2}{4}$
D. $\frac{4}{2}$

STEP 3:

When students finish all activities you've assigned, they win! You can give them the included certificate, coloring page, or a small prize of your choice.

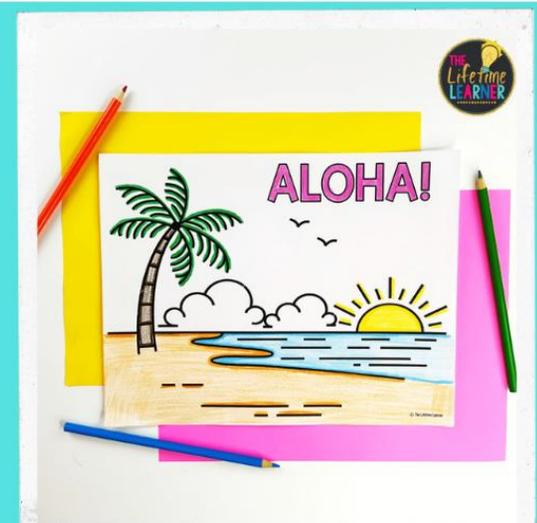

A shopping guide is also included to give you suggestions of optional "extras" you could add in.

Remember:

Anything different from a "normal" day in the classroom is special to students! A reward at the end isn't required during a classroom transformation.
