

WHAT IS THIS?

It's a low-prep room transformation!

Use the 10 math challenges, included decor, and more for a fun & easy room transformation!

Simply print the academic challenges, put up a few included decor items, and you're ready for a great day!

Room transformations can be stress-free and low-prep.

Keep scrolling to learn how!

Let's start with the basics...

What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

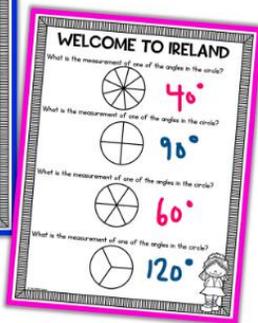

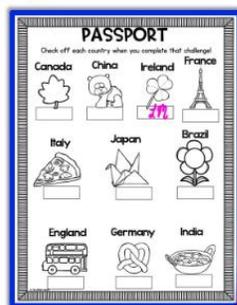

Camping Day

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

STEP 1:

Tell your class they are pilots today!

They will practice measuring angles in activities set up around the room. You can do this for a day, a few days, or over the course of a week!

Flexibility is key.

Need to modify? No problem!
Choose how many centers students will need to complete and what time frame they have to meet YOUR needs.

Set-up is quick and easy.

Simply print the posters, 10 activities, and a recording sheet for each student. Place them around your room and you're ready to begin!

STEP 2:

Let students move around the room and complete each center. They can be completed in any order. All centers include practicing measuring angles.

Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

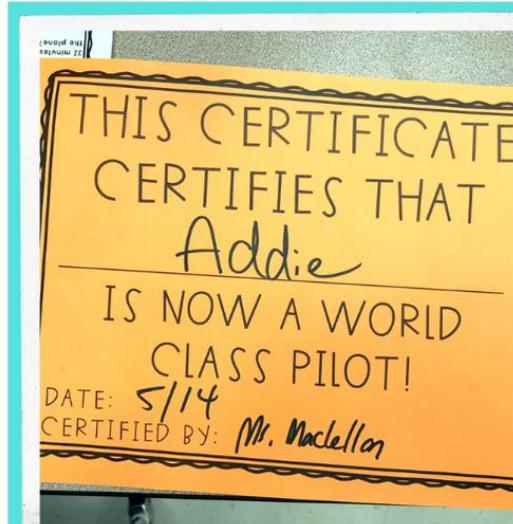

STEP 3:

When students finish all activities you've assigned, they win! You can give them the included certificate, coloring page, or a small prize of your choice.

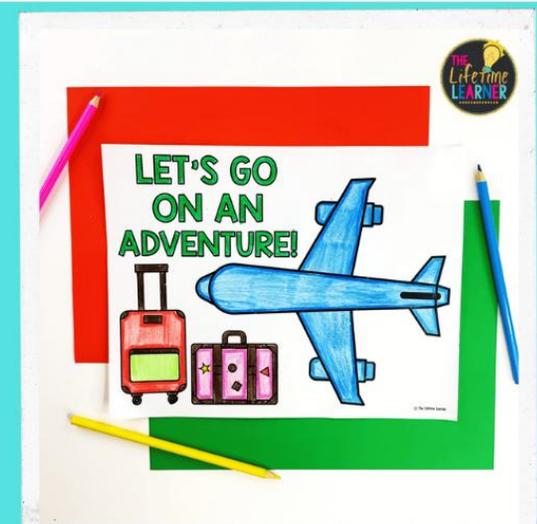

A shopping guide is also included to give you suggestions of optional "extras" you could add in.

Remember:

Anything different from a "normal" day in the classroom is special to students! A reward at the end isn't required during a classroom transformation.

Prize

STEP 4:

Most of the time, there are early finishers. These kiddos get to go around the room and read fun facts about the topic! No one is ever bored.

Choose from 3 versions!

THE CONTENT:

10 themed math challenges
aligned to math standards

WELCOME TO GERMANY

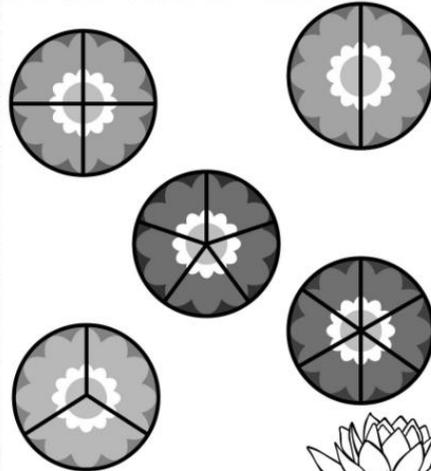

Find angles in the German house.

- Color 10 right angles red.
- Color 5 acute angles green.
- Color 3 obtuse angles blue.

WELCOME TO CHINA

What is the measurement of one of the angles in each circle? Write the answer next to each flower.

WELCOME TO ITALY

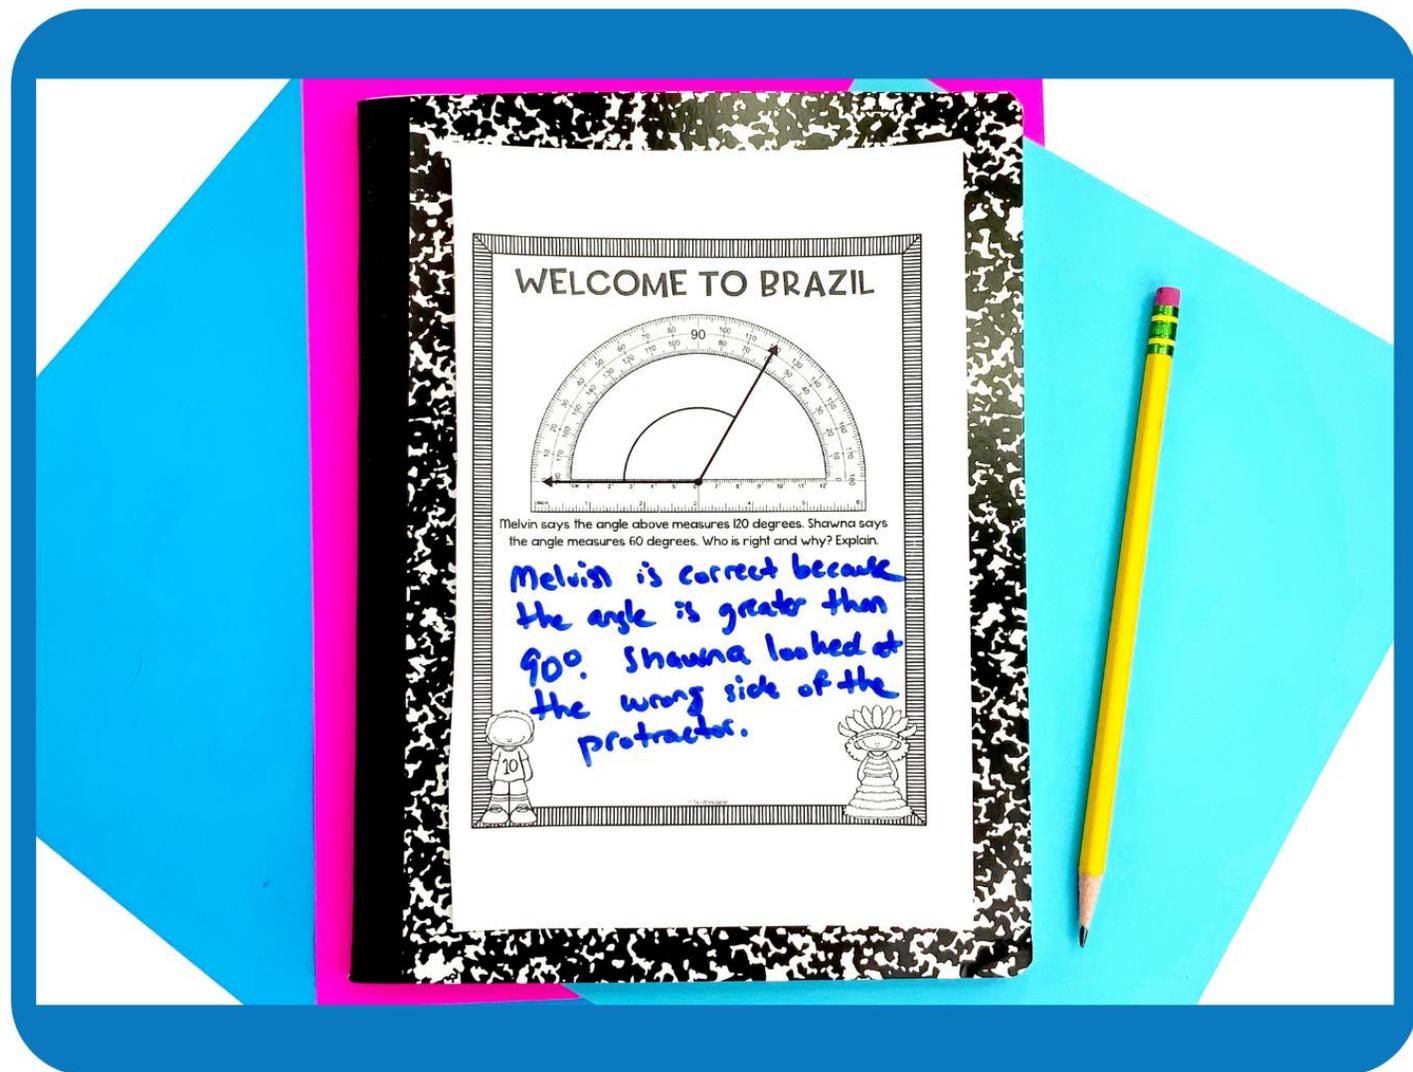

Measure the angle of each ice cream cone to the nearest 5 degrees and label it below.

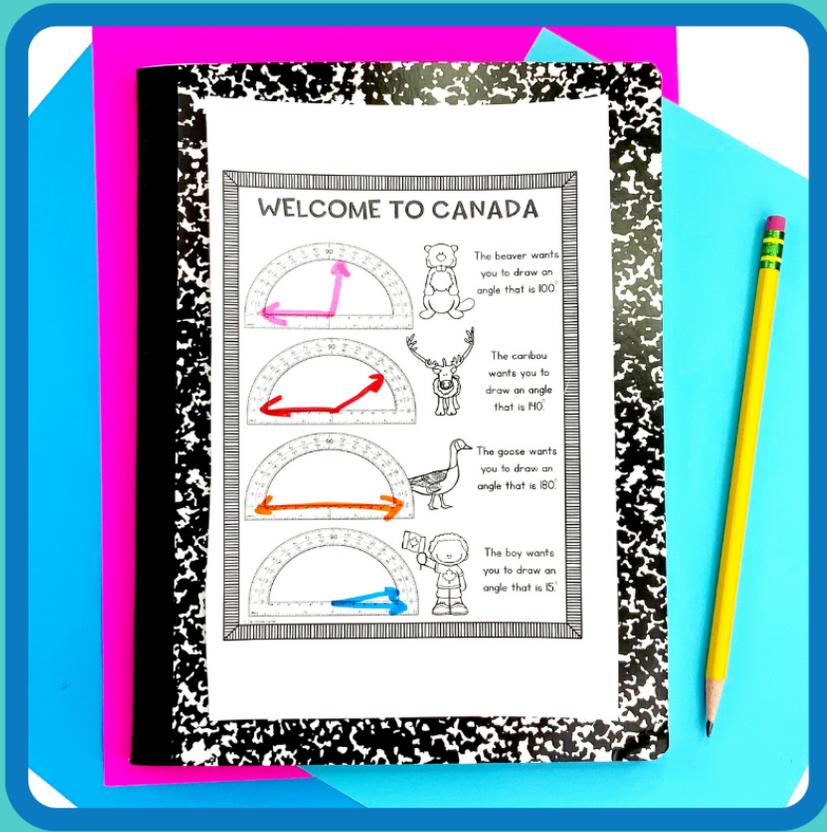

HOW TO USE THIS:

Ideas for Implementation:

- pick and choose the centers you want to use: do what works best for your class!
- you can have students work individually, in partners, or small groups--any way works!
- give students 1-2 hours to complete all 10 activities
- give less than 10 challenges to students if you are short on time
- OR spread the room transformation out over a couple of days

Choose the format
that works best for you!

Every activity relates to real-life mathematics!

WELCOME TO ITALY

Measure the angle of each ice cream cone to the nearest 5 degrees and label it below.

WELCOME TO CHINA

What is the measurement of one of the angles in each circle? Write the answer next to each flower.

WELCOME TO GERMANY

Find angles in the German house.

WELCOME TO IRELAND

What is the measurement of one of the angles in the wheel?

WELCOME TO INDIA

The elephant needs your help figuring out which angle is labeled incorrectly. Check each angle and circle the wrong one. Write the correct answer.

WELCOME TO FRANCE

Measure each of the angles below to the nearest 5 degrees.

WELCOME TO CANADA

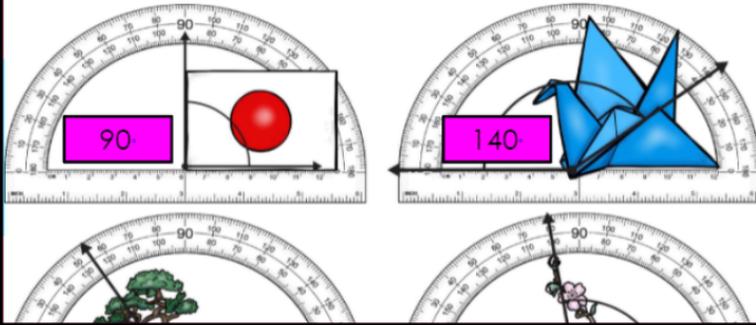

WELCOME TO JAPAN

Use a protractor and record the angle measurement for each angle below to the nearest 5 degrees.

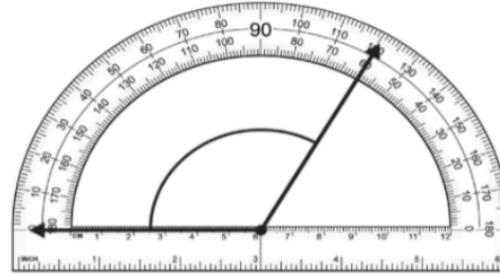

WELCOME TO BRAZIL

**focuses on:
measuring angles**

WELCOME TO JAPAN

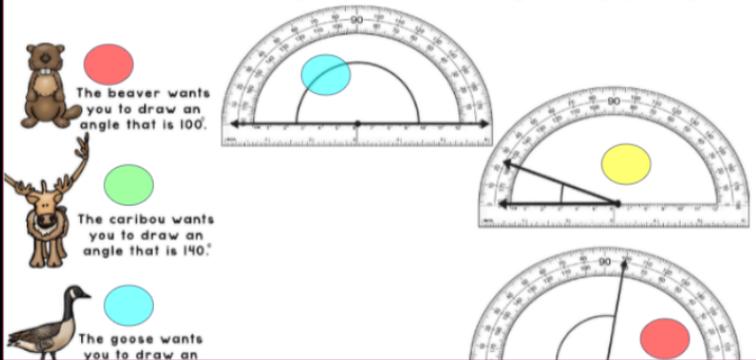

WELCOME TO BRAZIL

Melvin says the angle above measures 120 degrees.
Shawna says the angle measures 60 degrees.
Who is right and why? Explain.

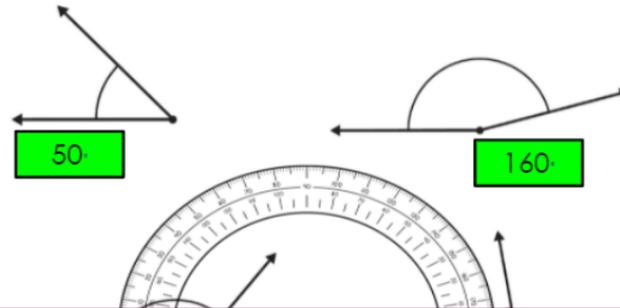

WELCOME TO CANADA

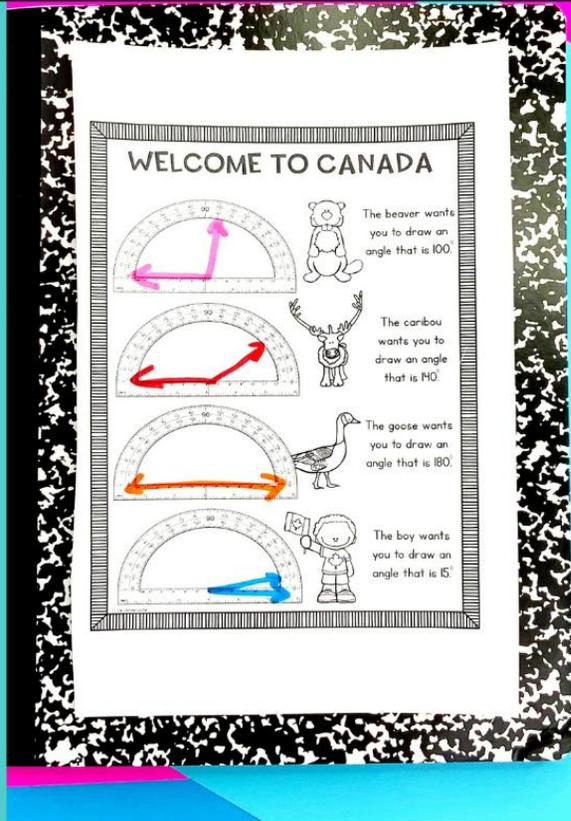

WELCOME TO ENGLAND

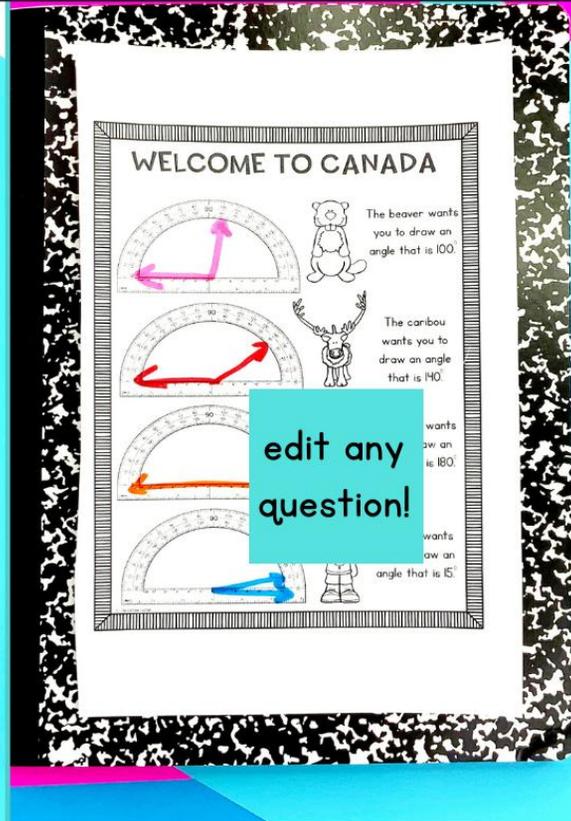

The bus driver in England sees some angle measurements as he is driving. You need to use the protractor provided to measure how big each one is to the nearest 5 degrees.
