

WHAT IS THIS?

It's a low-prep room transformation!

Use the 10 math challenges, included decor, and more for a fun & easy room transformation!

Simply print the academic challenges, put up a few included decor items, and you're ready for a great day!

Room transformations can be stress-free and low-prep.

Keep scrolling to learn how!

Let's start with the basics...

What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

Camping Day

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

STEP 1:

Tell your class they are **realtors today!**

They will practice reading, writing, and comparing large numbers in activities set up around the room. You can do this for a day, a few days, or over the course of a week!

Set-up is quick and easy.

Simply print the posters, 10 activities, and a recording sheet for each student. Place them around your room and you're ready to begin!

Flexibility is key.

Need to modify? No problem!
Choose how many centers students will need to complete and what time frame they have to meet YOUR needs.

STEP 2:

Let students move around the room and complete each center. They can be completed in any order. All centers include practicing reading, writing, and comparing large numbers.

Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

REALTOR: OPEN HOUSE
Put a check next to each challenge once you've completed it!

479 CYPRUS ROAD
Match each key with the correct word form.

495,237		Four hundred ninety-five thousand two hundred thirty-seven
594,732		Nine hundred fifty-four thousand three hundred seventy-two
459,327		Four hundred ninety-three thousand seven hundred twenty-two
549,723		Four hundred fifty-nine thousand three hundred twenty-seven
954,372		Nine hundred fifty-four thousand three hundred seventy-two
945,273		Five hundred forty-five thousand two hundred thirty-three
499,722		Five hundred forty-four thousand three hundred seventy-seven
544,377		Nine hundred forty-five thousand two hundred seventy-three
955,233		Five hundred ninety-four thousand seven hundred twenty-three

STEP 3:

When students finish all activities you've assigned, they win! You can give them the included certificate, coloring page, or a small prize of your choice.

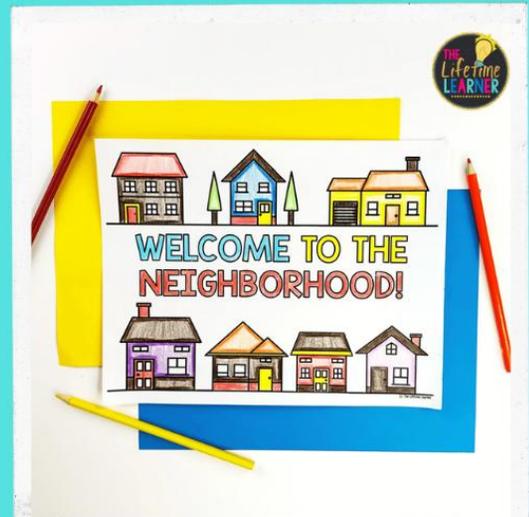

A shopping guide is also included to give you suggestions of optional "extras" you could add in.

Remember:

Anything different from a "normal" day in the classroom is special to students! A reward at the end isn't required during a classroom transformation.

Nine hundred fifty-five thousand two hundred thirty-three

Five hundred forty-four thousand three hundred seventy-seven

Nine hundred forty-five thousand two hundred seventy-three

Five hundred ninety-four thousand seven hundred thirty-two

Five hundred forty-nine thousand seven hundred twenty-three

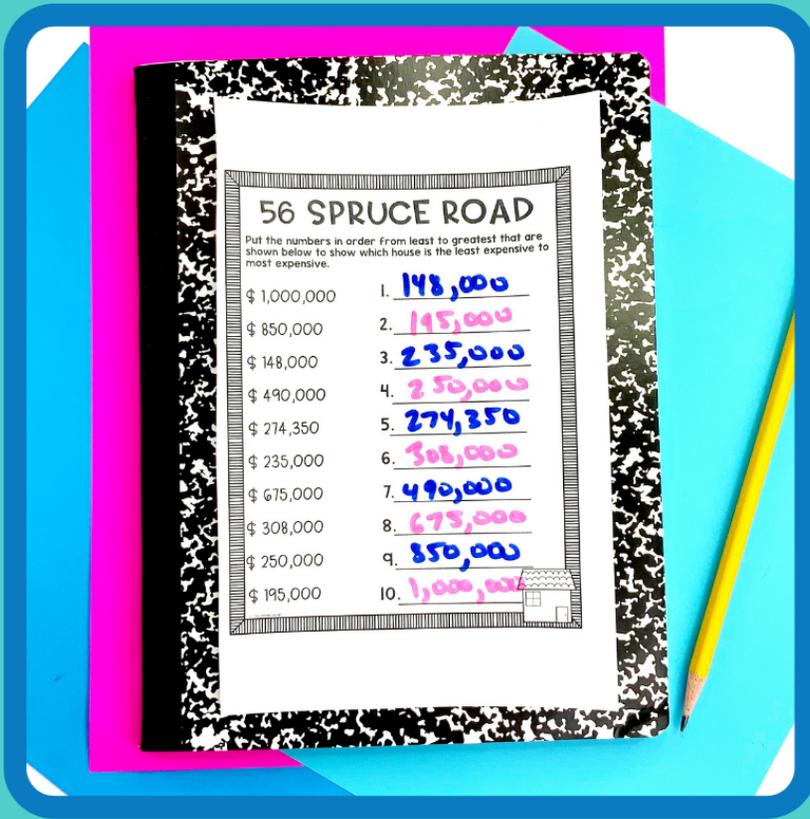

HOW TO USE THIS:

Ideas for Implementation:

- pick and choose the centers you want to use: do what works best for your class!
- you can have students work individually, in partners, or small groups--any way works!
- give students 1-2 hours to complete all 10 activities
- give less than 10 challenges to students if you are short on time
- OR spread the room transformation out over a couple of days

789 DOGWOOD COURT

\$159,804

A fellow realtor is saying that this house is worth one hundred and fifty-nine eight hundred four dollars.

Why is the realtor wrong?

The realtor wrote $100+59+800+4$. They forgot the word "thousand" after fifty-nine which is important because that changes what the number is. There is also no "and" after "one hundred".

How do you correctly write the number in word form?

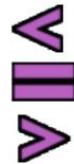

One hundred fifty-nine thousand eight hundred four dollars

868 BRIMSTONE WAY

Put the correct symbol in the middle of each set of numbers.

912,309	\triangleleft	921,903
80,000+9,000+500+90+8	\triangleright	80,000+5,000+700+90+3
