

# WHAT IS THIS?

It's a low-prep room transformation!

Use the 10 math challenges, included decor, and more for a fun & easy room transformation!

Simply print the academic challenges, put up a few included decor items, and you're ready for a great day!

Room transformations can be stress-free and low-prep.

Keep scrolling to learn how! 

# Let's start with the basics...

## What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

Camping Day

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

# STEP 1:

Tell your class they are construction workers today!

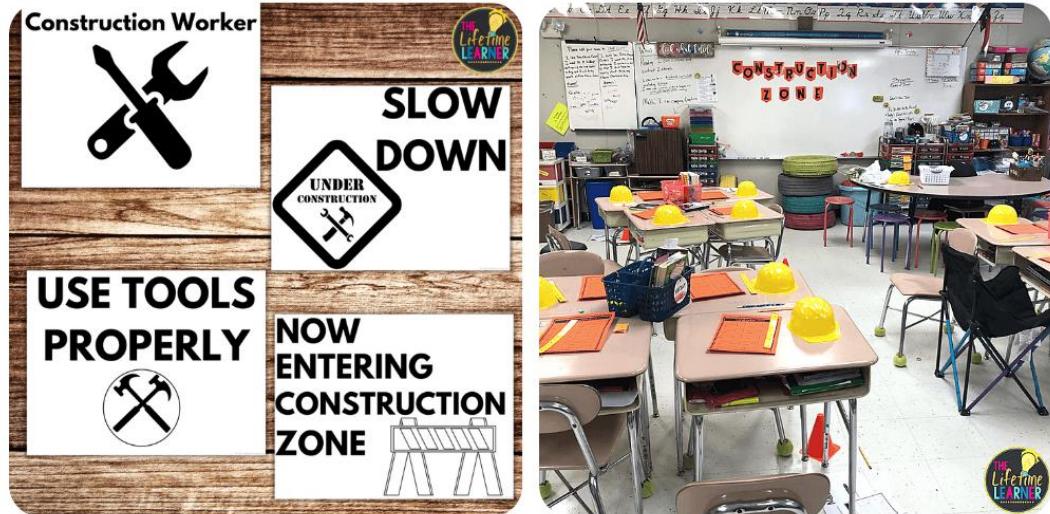

They will practice with measurement conversions in activities set up around the room. You can do this for a day, a few days, or over the course of a week!

Flexibility is key.

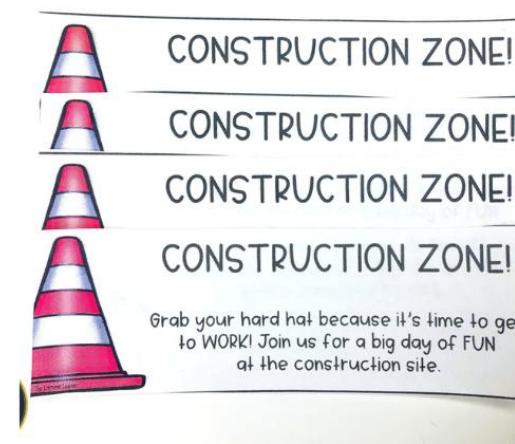

Need to modify? No problem!

Choose how many centers students will need to complete and what time frame they have to meet YOUR needs.

Set-up is quick and easy.

Simply print the posters, 10 activities, and a recording sheet for each student. Place them around your room and you're ready to begin!

# STEP 2:

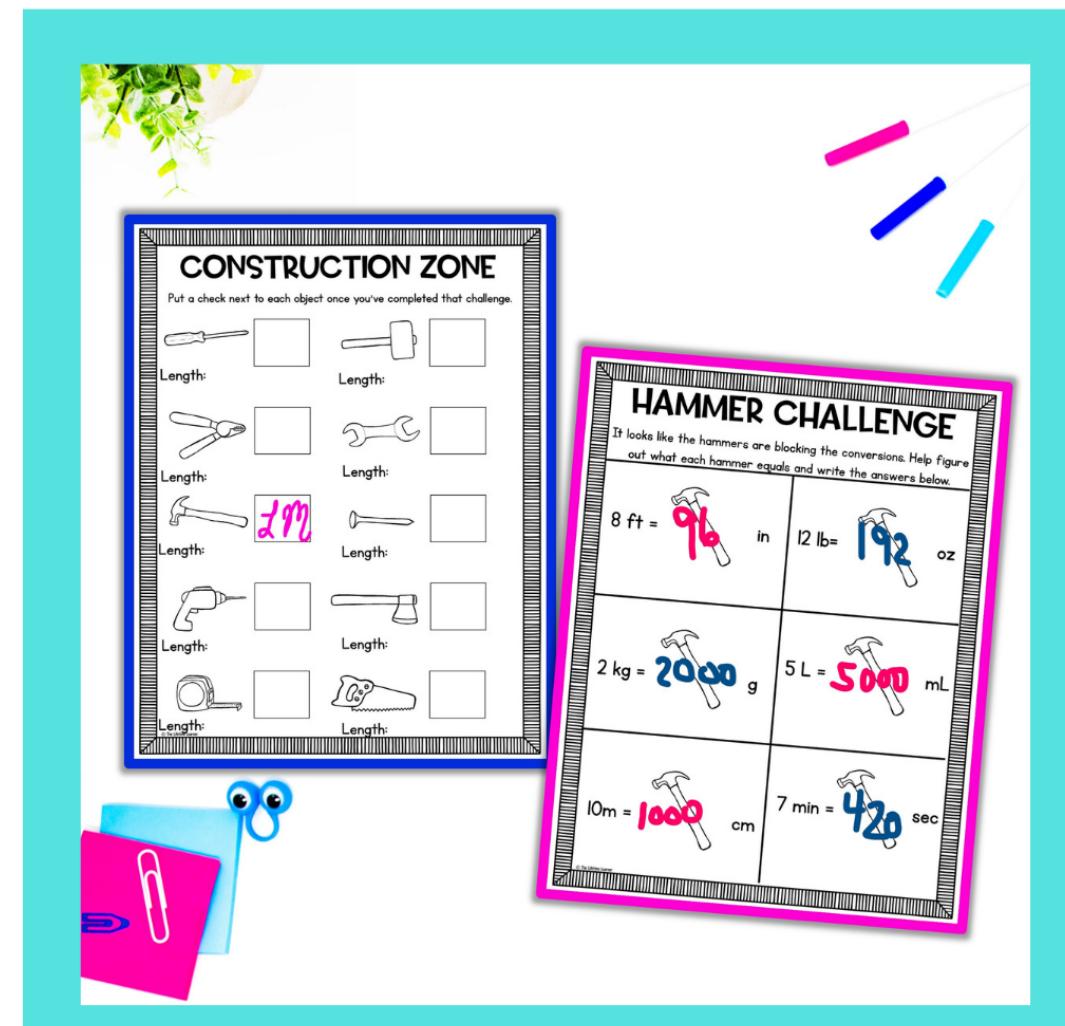

Let students move around the room and complete each center. They can be completed in any order. All centers include practice with measurement conversions.

## Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

## Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

# STEP 3:

When students finish all activities you've assigned, they win! You can give them the included certificate, coloring page, or a small prize of your choice.

A shopping guide is also included to give you suggestions of optional "extras" you could add in.

## Remember:

Anything different from a "normal" day in the classroom is special to students! A reward at the end isn't required during a classroom transformation.

# STEP 4:

Most of the time, there are early finishers. These kiddos get to go around the room and read fun facts about the topic! No one is ever bored.

## Choose from 3 versions!

### Digital Scavenger Hunt

Let students "find" the facts on Google Slides

1

### Printable Facts

2

Hang facts around room

3

### QR Codes

Students scan to read fun facts

# THE CONTENT:

## 10 themed math challenges aligned to math standards

### NAIL CHALLENGE

There is a mistake in each table. Find it, color it red, and write the correct measurement instead.

oz	lb
122	7
80	5
240	15

cm	m
5,000	50
300	30
500	5

sec	hrs
7,200	2
32,400	q
21,000	6

mins	hrs
666	11
360	6
240	4

mL	L
4,000	4
1,000	10
1,000	1

g	kg
8,000	8
12,000	12
300	3

### HAMMER CHALLENGE

It looks like the hammers are blocking the conversions. Help figure out what each hammer equals and write the answers below.

8 ft =	in	12 lb =	oz
2 kg =	g	5 L =	mL
10m =	cm	7 min =	sec

### THE MALLET CHALLENGE

Fill in the tables below. Use them to help you answer each question.

Pounds	Ounces
1	16
2	
3	
4	

How many pounds are equal to 48 ounces?

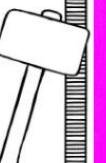

Kilograms	Grams
1	1,000
2	
3	
4	

How many liters is 4,000 milliliters equal to?

Minutes	Seconds
1	60
2	
3	
4	

How many grams are equal to 2 kilograms?

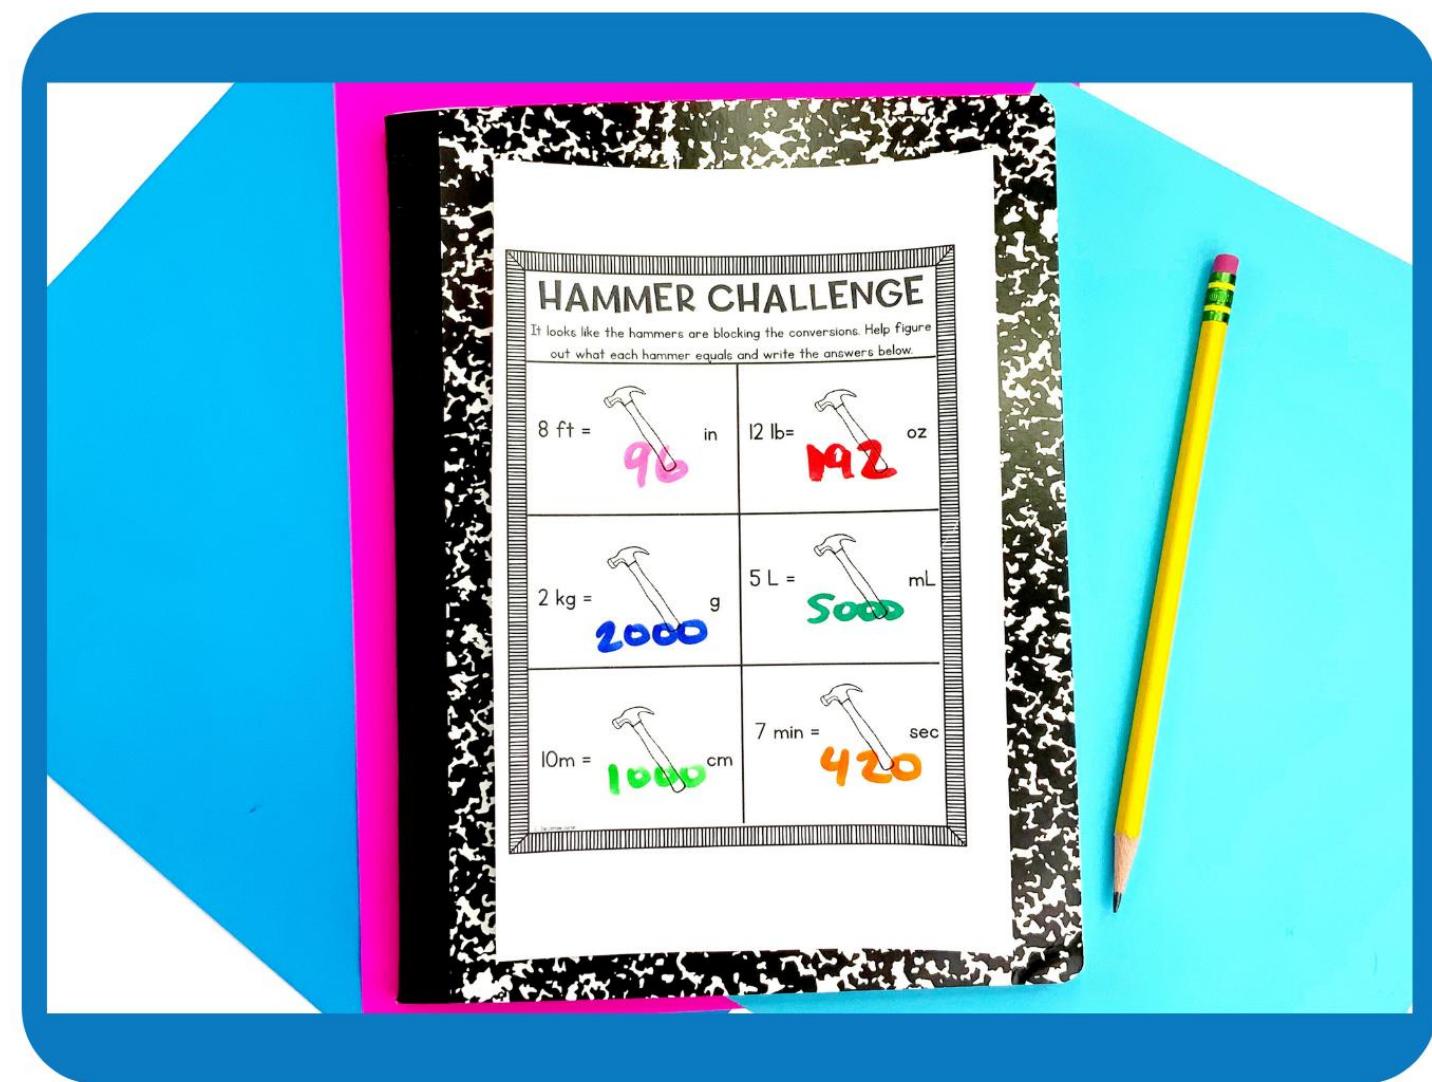

How many minutes are equivalent to 180 seconds?

# HOW TO USE THIS:

## Ideas for Implementation:

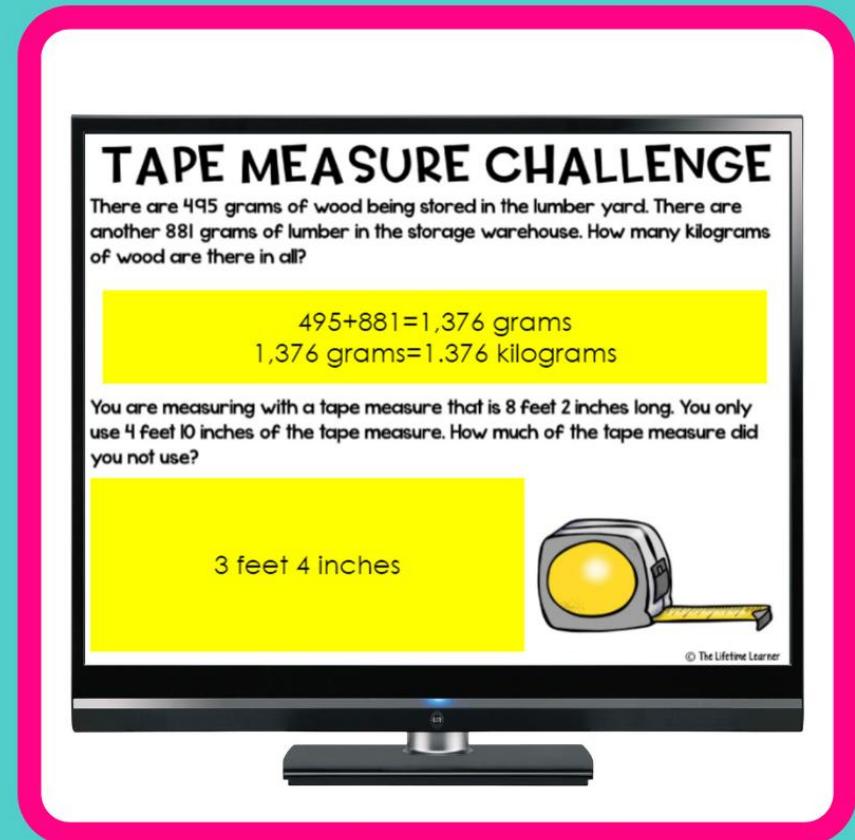

- pick and choose the centers you want to use: do what works best for your class!
- you can have students work individually, in partners, or small groups--any way works!
- give students 1-2 hours to complete all 10 activities
- give less than 10 challenges to students if you are short on time
- OR spread the room transformation out over a couple of days

Choose the format  
that works best for you!

# Every activity relates to real-life mathematics!

## DRILL CHALLENGE

Solve each of the following word problems.

You find a drill that is 14.9 centimeters long. How long is it in millimeters?

A construction worker

He sweats th

## SCREWDRIVER CHALLENGE

Figure out the answer in each question.

256 ounces of meat in his

Presley uses 4

the month of

## AXE CHALLENGE

The logging company cuts down 8 yards of wood. How many inches of wood does the company cut down in a day?

A construction machine weighs 8,814 pounds. A second machine weighs twice as much. What is the weight of both machines?

A new house you're building weighs 2,469 grams. How many houses would 5 of the houses weigh combined?

## WRENCH CHALLENGE

Solve each of the following word problems below.

Joanne has 1000 pints of ice cream in her

freezer. Over the course of the year, she eats

Luis's car uses 8 gallons of gas each day on his way to work. How many liters does it use in

## NAIL CHALLENGE

There is a mistake in each table.

Find it, color it red, and write the correct measurement instead.

oz	lb
122	7

cm	m
5,000	5
300	3
500	

## THE MALLET CHALLENGE

Fill in the tables below. Use them to help you answer each question.

Pounds	Ounces
1	16
2	
3	
4	

How many pounds are equal to 48 ounces?

How many

are equal to 48 ounces?

## PLIERS CHALLENGE

your pliers to take some wire off of a large water

is 3 liters of water inside. You cut the wire too

scratches the water barrel. 450 milliliters of water

## SAW CHALLENGE

in the work site has 50 pounds of sawdust in a wheelbarrow that he

the trash heap. You sneeze while moving it and 12 ounces of

round. How much sawdust is still in the wheelbarrow you are

## HAMMER CHALLENGE

The hammers are blocking the conversions. Help figure out each hammer equals and write the answers below.

	in	12 lb =	
	oz		

**focuses on:**  
**measurement conversions**

## TAPE MEASURE CHALLENGE

There are 495 grams of wood being stored in the lumber yard. There are another 881 grams of lumber in the storage warehouse. How many kilograms of wood are there in all?

$$495+881=1,376 \text{ grams}$$
$$1,376 \text{ grams}=1.376 \text{ kilograms}$$

You are measuring with a tape measure that is 8 feet 2 inches long. You only use 4 feet 10 inches of the tape measure. How much of the tape measure did you not use?

## SAW CHALLENGE

The lead carpenter on the work site has 50 pounds of sawdust in a wheelbarrow that he needs you to dump in the trash heap. You sneeze while moving it and 12 ounces of sawdust falls on the ground. How much sawdust is still in the wheelbarrow you are moving in pounds?

$$49 \text{ pounds } 4 \text{ ounces}$$

You walk a little down the lot with the wheelbarrow. You sneeze and another 8 ounces of sawdust falls out of the wheelbarrow. How much sawdust remains in the wheelbarrow in pounds?

$$48 \text{ pounds } 12 \text{ ounces}$$

Wow! Your allergies are really acting up today. You sneeze and another 12 ounces of sawdust falls on the

## HAMMER CHALLENGE

It looks like the hammers are blocking the conversions. Help figure out what each hammer equals. Type the answer on top of each hammer.

$$8 \text{ ft} = \begin{array}{l} 96 \\ \text{inches} \end{array} \text{ in}$$
$$12 \text{ lb} = \begin{array}{l} 192 \\ \text{ounces} \end{array} \text{ oz}$$

$$2 \text{ kg} = \begin{array}{l} 2,000 \text{ g} \\ \text{g} \end{array}$$
$$5 \text{ L} = \begin{array}{l} 5,000 \text{ mL} \\ \text{mL} \end{array}$$

## SAW CHALLENGE

$$49 \text{ pounds } 4 \text{ ounces}$$

You walk a little down the lot with the wheelbarrow. You sneeze and another 8 ounces of sawdust falls out of the wheelbarrow. How much sawdust remains in the wheelbarrow in pounds?

$$48 \text{ pounds } 12 \text{ ounces}$$

Wow! Your allergies are really acting up today. You sneeze and another 12 ounces of sawdust falls on the

## WRENCH CHALLENGE

Solve each of the following word problems below.

Joanne has 1000 pints of ice cream in her freezer. Over the course of the year, she eats 588 of them. How much ice cream remains in her freezer in quarts?

$$1000-588=412 \text{ pints}$$
$$206 \text{ quarts}$$

Zoe is trying to drink 7 gallons of water each week. For 3 weeks, she is successful. The next 3 weeks, she only drinks 4 gallons of water each day. How much water did she drink total so far in cups?

$$7 \times 3=21 \text{ gallons}, 3 \times 4=12 \text{ gallons}$$
$$21+12=33 \text{ gallons}$$
$$33 \text{ gallons}=528 \text{ cups}$$

Luis's car uses 8 gallons of gas each day on his way to work. How much gas does it use in 12 days in pints?

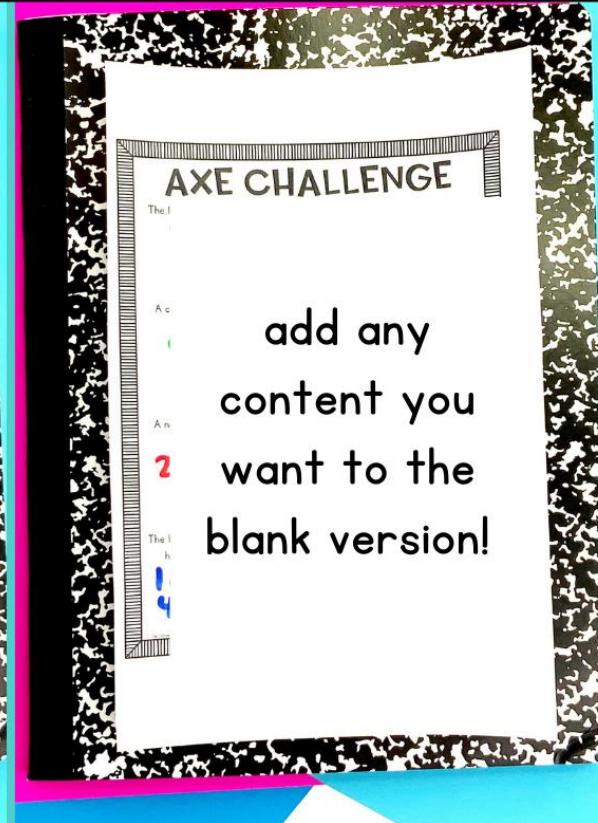

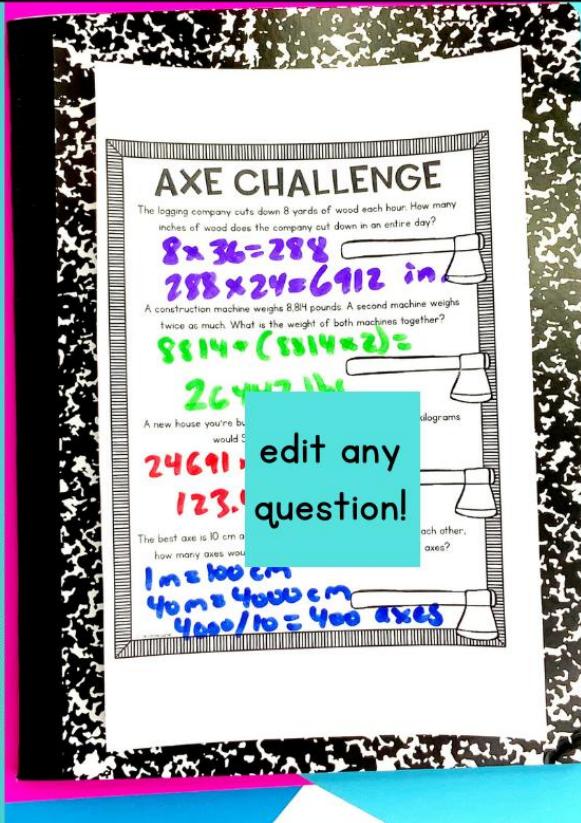

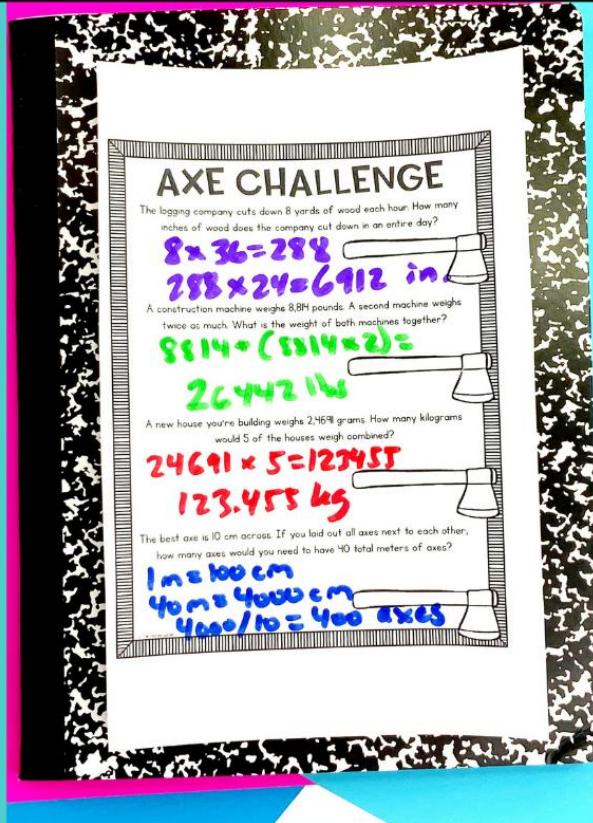

$$8 \times 12=96 \text{ gallons}$$
$$96 \text{ gallons}=768 \text{ pints}$$

Jessica, Linda, Mark, and Meagan each have 4 pints of milk. How much milk do they have altogether in gallons?

$$4 \times 4=16 \text{ pints}$$
$$16 \text{ pints}=2 \text{ gallons}$$

# THE LIFETIME LEARNER'S CLASSROOM TRANSFORMATIONS ARE:

1. Engaging to Students
2. Classroom Tested (and Student-Approved)
3. Print and Digital Compatible
4. Jam-Packed with Content
5. Aligned to Math Standards
6. Easy to Implement
7. Flexible for Every Classroom
8. Versatile Ways to Reward Students
9. Rigorous Student Learning Activities

All content is included so you can simply print  
and get ready for an AMAZING experience  
with your students!

# Please Note:

- **There are 10 math challenges provided as well as décor, a fast finisher activity, and additional extras.**
- **The digital version is provided in Google Slides.**
- **Nervous about trying your first room transformation? You'll be hooked once you try one! I promise!**
- **Feel free to contact me if you have questions or want to chat about room transformations. You can email me at**
