

WHAT IS THIS?

It's a low-prep room transformation!

Use the 10 math challenges, included decor, and more for a fun & easy room transformation!

Simply print the academic challenges, put up a few included decor items, and you're ready for a great day!

Room transformations can be stress-free and low-prep.

Keep scrolling to learn how!

Let's start with the basics...

What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

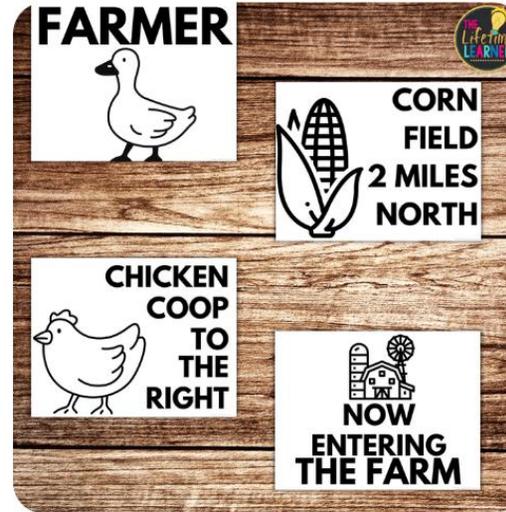

Camping Day

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

STEP 1:

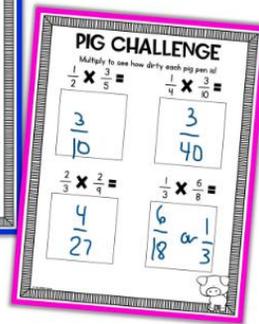

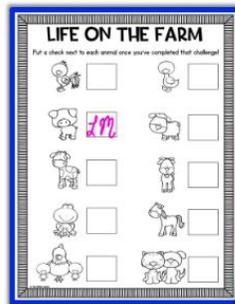

Tell your class they are farmers today!

They will practice multiplying fractions in activities set up around the room. You can do this for a day, a few days, or over the course of a week!

Set-up is quick and easy.

Simply print the posters, 10 activities, and a recording sheet for each student. Place them around your room and you're ready to begin!

Flexibility is key.

Need to modify? No problem! Choose how many centers students will need to complete and what time frame they have to meet YOUR needs.

STEP 2:

Let students move around the room and complete each center. They can be completed in any order. All centers include practicing multiplying fractions.

Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

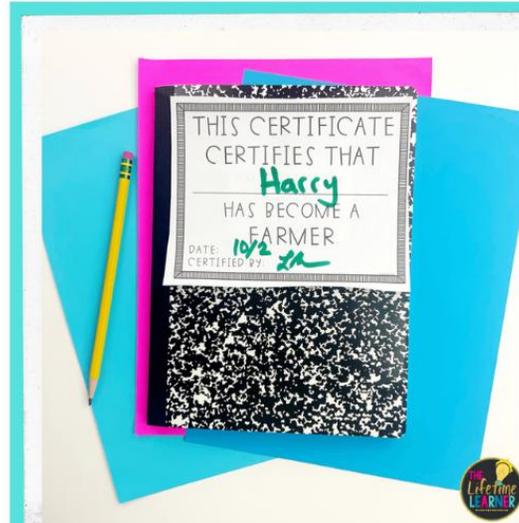

STEP 3:

When students finish all activities you've assigned, they win! You can give them the included certificate, coloring page, or a small prize of your choice.

A shopping guide is also included to give you suggestions of optional "extras" you could add in.

Remember:

Anything different from a "normal" day in the classroom is special to students! A reward at the end isn't required during a classroom transformation.

Certificate

Coloring Page

In Action Pic

Prize

STEP 4:

Most of the time, there are early finishers. These kiddos get to go around the room and read fun facts about the topic! No one is ever bored.

Choose from 3 versions!

THE CONTENT:

10 themed math challenges aligned to math standards

FROG CHALLENGE

You need to figure out the fraction of flies each frog ate based on the equations below. Use the frog bellies to show your work.

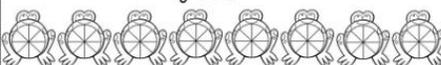

$\frac{2}{3} \times 7 =$

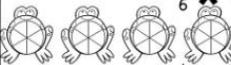

$\frac{3}{4} \times 5 =$

$\frac{6}{8} \times 8 =$

$\frac{5}{6} \times 4 =$

$\frac{1}{2} \times 6 =$

ROOSTER CHALLENGE

The rooster is running around the farm eating all of the other animals' food! Each animal started with a full bowl.

Identify the fraction that he has eaten out of each bowl. Then, multiply by the whole number shown based on how many times he did it.

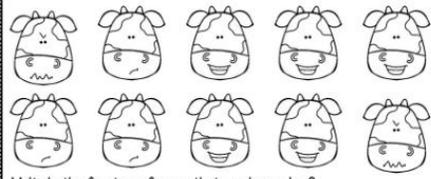

Cow's Food  The rooster ate the cow's food 6 days in a row!	Chicken's Food  The rooster ate the chicken's food 7 days in a row!
Pig's Food  The rooster ate the pig's food 2 days in a row!	Horse's Food  The rooster ate the horse's food 4 days in a row!
Frog's Food  The rooster ate the frog's food 8 days in a row!	Goat's Food  The rooster ate the goat's food 10 days in a row!
Sheep's Food  The rooster ate the sheep's food 4 days in a row!	Dog's Food  The rooster ate the dog's food 5 days in a row!

COWS CHALLENGE

The cows all feel differently about how hot it is on the farm today.

Color the angry cows red.
Color the sad cows blue.
Color the happy cows green.

Multiply the fraction of cows that are happy by 8.

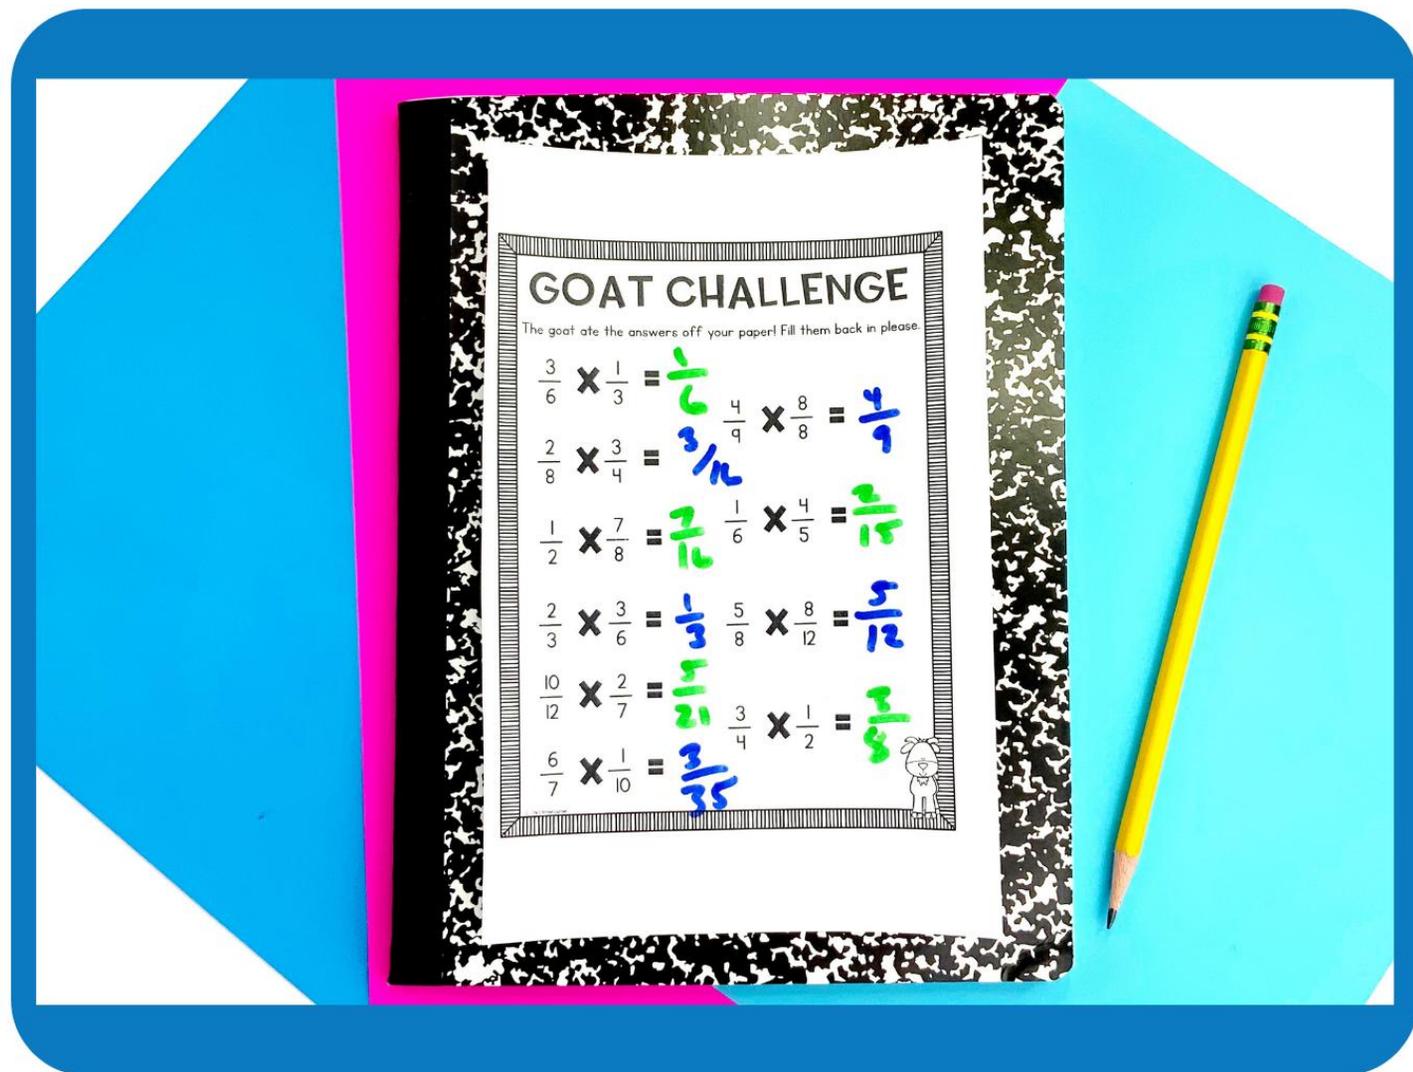

Multiply the fraction of cows that are sad by 4.

Multiply the fraction of cows that are mad by 3.

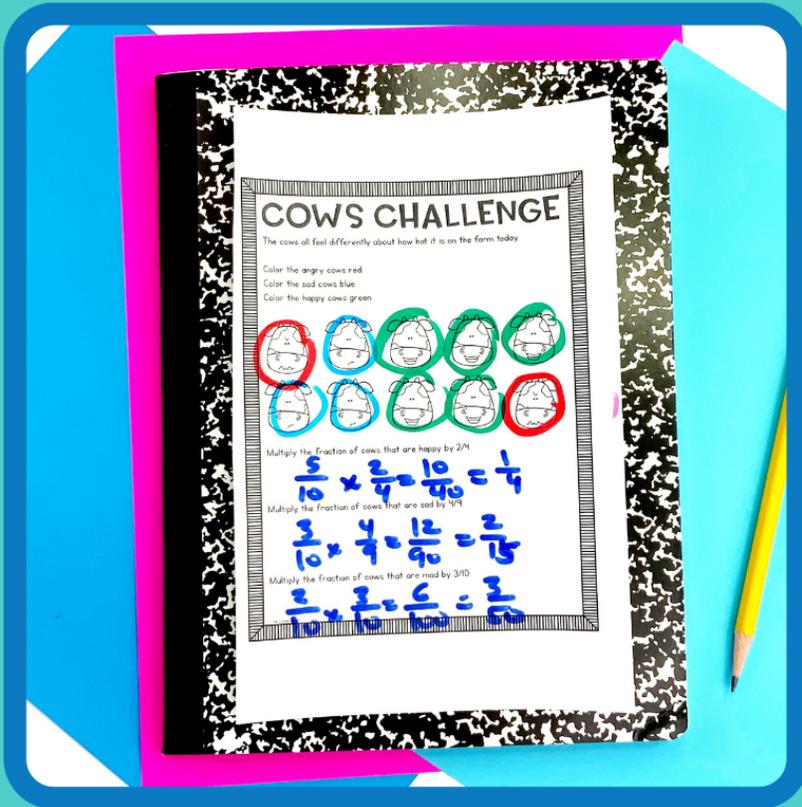

HOW TO USE THIS:

Ideas for Implementation:

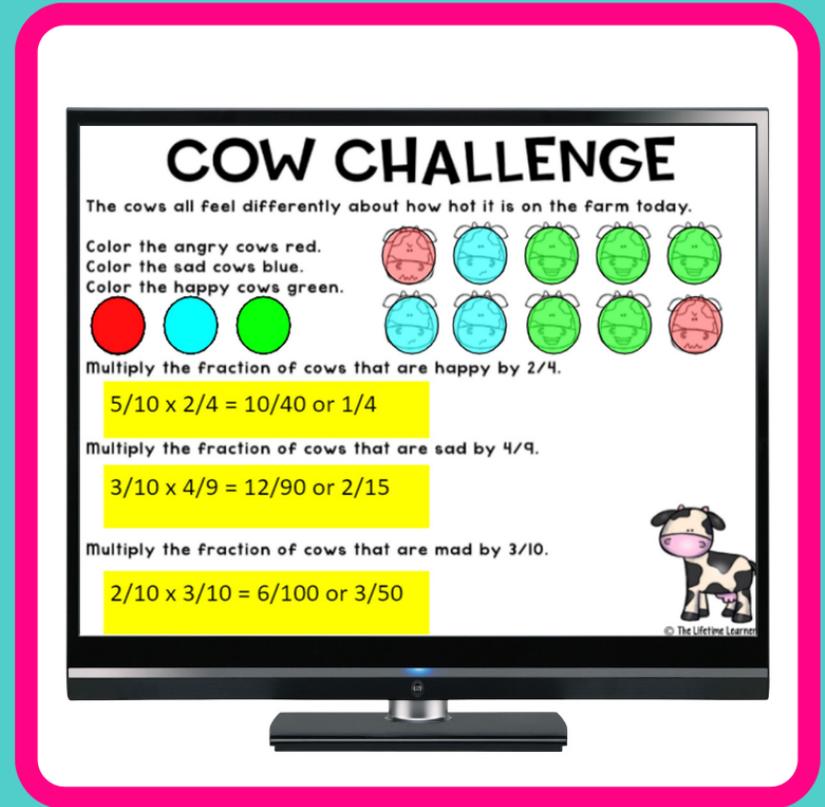

- pick and choose the centers you want to use: do what works best for your class!
- you can have students work individually, in partners, or small groups--any way works!
- give students 1-2 hours to complete all 10 activities
- give less than 10 challenges to students if you are short on time
- OR spread the room transformation out over a couple of days

Google Slides

Choose the format
that works best for you!

Every activity relates to real-life mathematics!

FROG CHALLENGE

You need to figure out the fraction of flies each frog ate based on the equations below. Use the frog bellies to show your work.

$$\frac{2}{3} \times 7 =$$

GOOSE CHALLENGE

Geese are no good at math!

They need your help to multiply each unit fraction by a whole number.

$$1 \times 7 =$$

ROOSTER CHALLENGE

The rooster is running around the farm eating all of the worms. Each animal started with a full bowl.

GOAT CHALLENGE

The goat ate the answers off your paper! Fill them back in please.

$$\frac{3}{6} \times 9 =$$

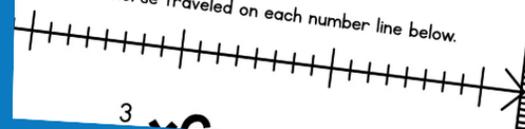

$$\frac{4}{9} \times 8 =$$

CAT & DOG CHALLENGE

The cat and dog both want you to draw some fractions below. Both the dog and cat's challenge to continue on! The dog has four kittens. Each one drinks $\frac{3}{5}$ of a cup of milk each day.

HORSE CHALLENGE

How far each horse traveled on each number line below.

COWS CHALLENGE

The cows all feel differently about how hot it is outside.

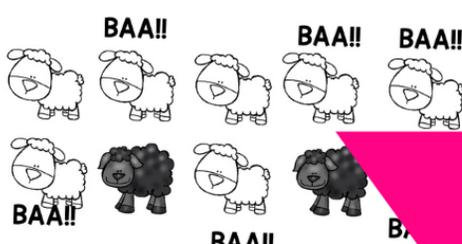

- Color the angry cows red.
- Color the sad cows blue.
- Color the happy cows green.

Multiply the fraction of cows that are happy by 8.

SHEEP CHALLENGE

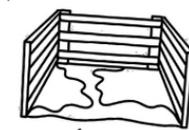

The sheep are grazing out in the pasture.

Your farm has 5 times as many black sheep as there are in the pasture. How many sheep are there at your farm?

PIG CHALLENGE

The pigs are playing around in the mud! They have messed up their pig pen and made it muddy!

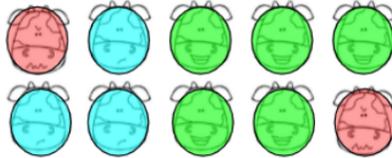

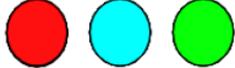

1/2 of the first pen. 1/2 of the pigs are dirty. What fraction are dirty?

**focuses on:
multiplying fractions**

COW CHALLENGE

The cows all feel differently about how hot it is on the farm today.

Color the angry cows red.
Color the sad cows blue.
Color the happy cows green.

Multiply the fraction of cows that are happy by $2/4$.

$$5/10 \times 2/4 = 10/40 \text{ or } 1/4$$

Multiply the fraction of cows that are sad by $4/9$.

$$3/10 \times 4/9 = 12/90 \text{ or } 2/15$$

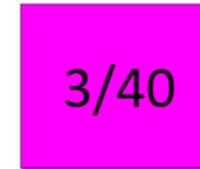

PIG CHALLENGE

Multiply to see how dirty each pig pen is!

$$\frac{1}{2} \times \frac{3}{5} =$$

$$\frac{1}{4} \times \frac{3}{10} =$$

$$\frac{2}{3} \times \frac{2}{9} =$$

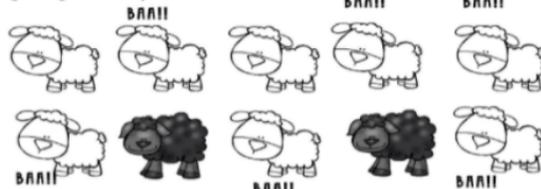

$$\frac{1}{3} \times \frac{6}{8} =$$

SHEEP CHALLENGE

The sheep are grazing out in the pasture.

Your farm has 5 times as many black sheep as there are in the pasture. What fraction of black sheep are there of your farm?

$$2/10 \times 5 = 10/10 \text{ or } 1$$

Your farm has 8 times as many white sheep as there are in the pasture. What fraction of white sheep are there of your farm?

$$8/10 \times 8 = 64/10 \text{ or } 6 \frac{2}{5}$$

ROOSTER CHALLENGE

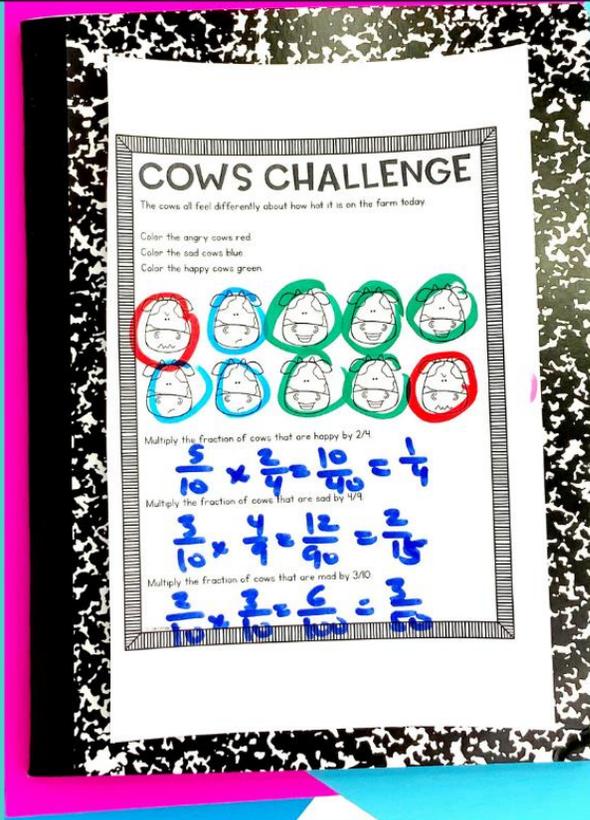

Find the area of each animal's food bowl based on the measurements given.

<p>Cow's Food</p>	<p>Chicken's Food</p>
<p>Pig's Food</p>	<p>Horse's Food</p>
<p>Frog's Food</p>	<p>Goat's Food</p>
