

WHAT IS THIS?

It's a low-prep room transformation!

Use the 10 math challenges, included decor, and more for a fun & easy room transformation!

Simply print the academic challenges, put up a few included decor items, and you're ready for a great day!

Room transformations can be stress-free and low-prep.

Keep scrolling to learn how!

Let's start with the basics...

What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

Camping Day

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

STEP 1:

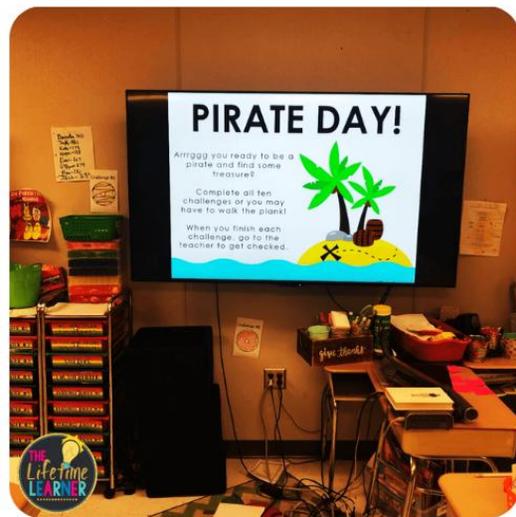

Tell your class they are pirates today!

They will practice graphing on coordinate planes in activities set up around the room. You can do this for a day, a few days, or over the course of a week!

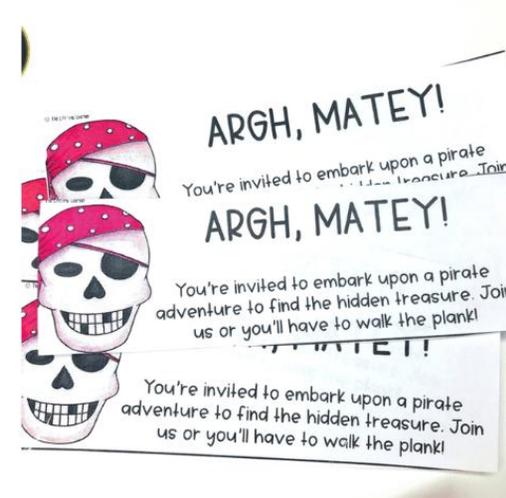

Set-up is quick and easy.

Simply print the posters, 10 activities, and a recording sheet for each student. Place them around your room and you're ready to begin!

Flexibility is key.

Need to modify? No problem!
Choose how many centers students will need to complete and what time frame they have to meet YOUR needs.

STEP 2:

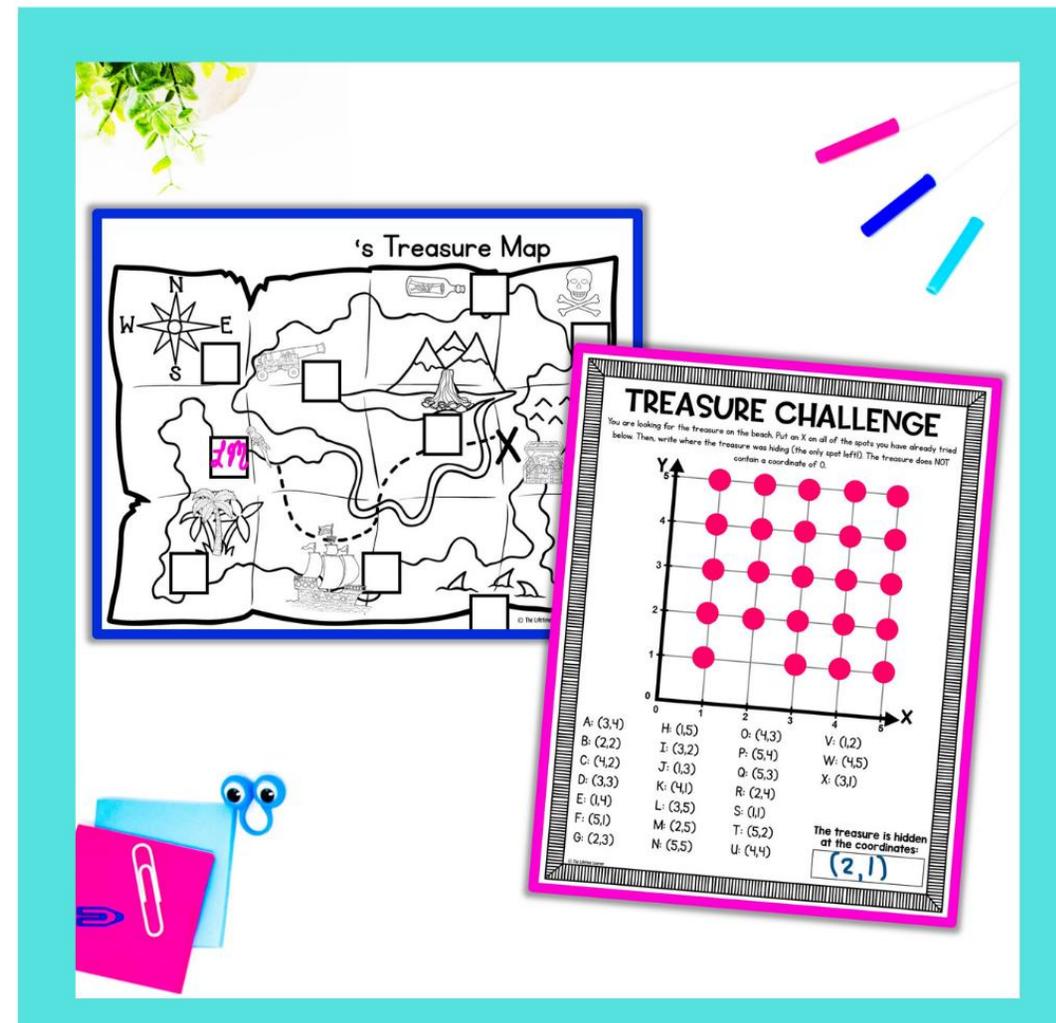

Let students move around the room and complete each center. They can be completed in any order. All centers include practicing graphing on coordinate planes.

Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

STEP 3:

When students finish all activities you've assigned, they win! You can give them the included certificate, coloring page, or a small prize of your choice.

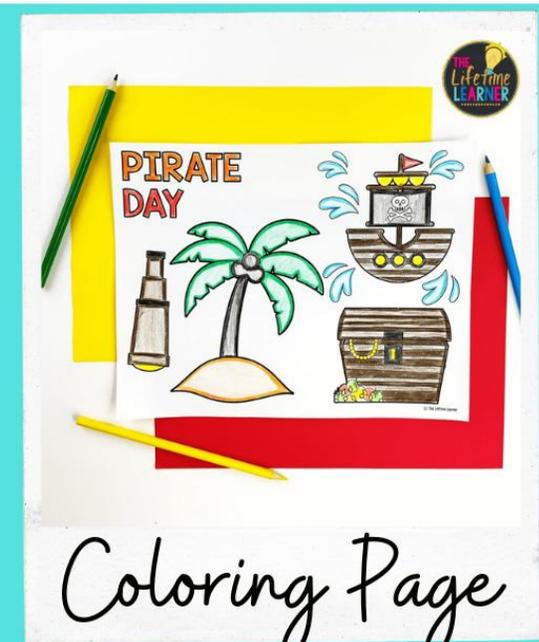

A shopping guide is also included to give you suggestions of optional "extras" you could add in.

Remember:

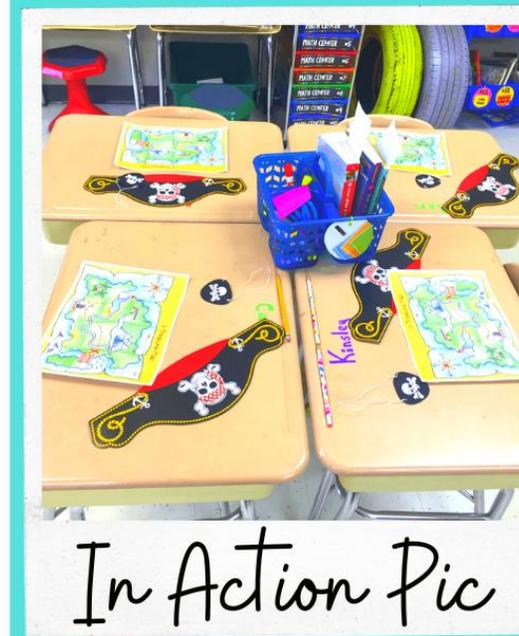

Anything different from a "normal" day in the classroom is special to students! A reward at the end isn't required during a classroom transformation.

Certificate

Coloring Page

In Action Pic

Prize

STEP 4:

Most of the time, there are early finishers. These kiddos get to go around the room and read fun facts about the topic! No one is ever bored.

Choose from 3 versions!

10 themed math challenges aligned to math standards

ISLAND CHALLENGE

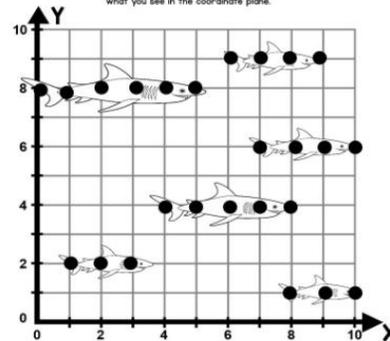

Your ship captain wants to know what's on the island you just arrived at. Help tell him what is located at each set of coordinates so he can find his way to the treasure.

(9,3) _____ (1,7) _____ (4,8) _____
(6,6) _____ (9,9) _____ (9,5) _____
(5,3) _____ (5,5) _____ (2,4) _____

SHARK CHALLENGE

You've got to watch out for sharks while sailing the sea! Your captain wants you to keep track of where sharks have been spotted out at sea. Write yes or no next to each coordinate based on what you see in the coordinate plane.

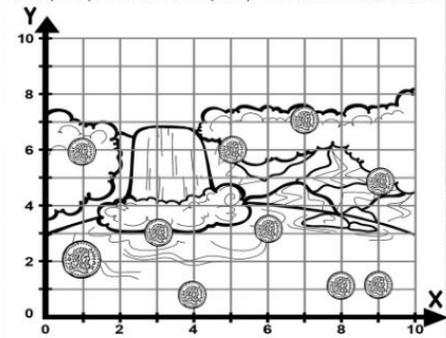

Help your captain know where the sharks are. Put "yes" or "no" to each:

(4,4) _____ (1,9) _____ (10,10) _____
(4,6) _____ (5,8) _____ (6,4) _____
(6,5) _____ (9,1) _____ (1,6) _____
(2,1) _____ (10,5) _____ (7,9) _____

WATERFALL CHALLENGE

It looks like some gold coins fell into the waterfall while you were carrying treasure back to your ship. Write down all of the places you found coins in the waterfall below.

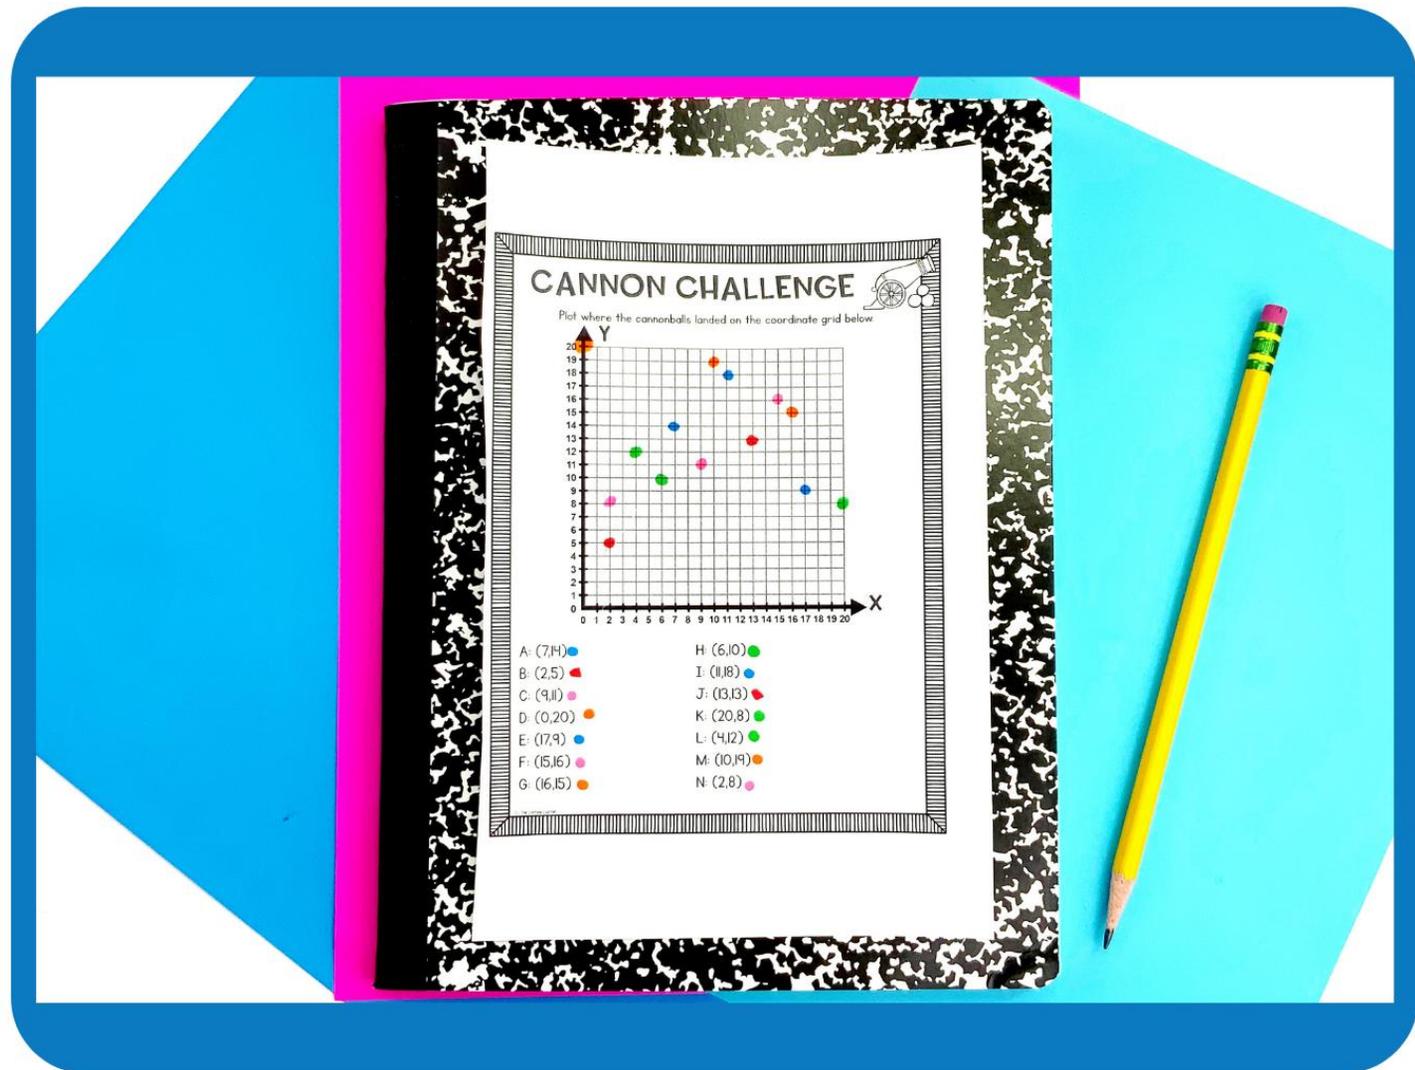

Coordinates where you found gold coins:

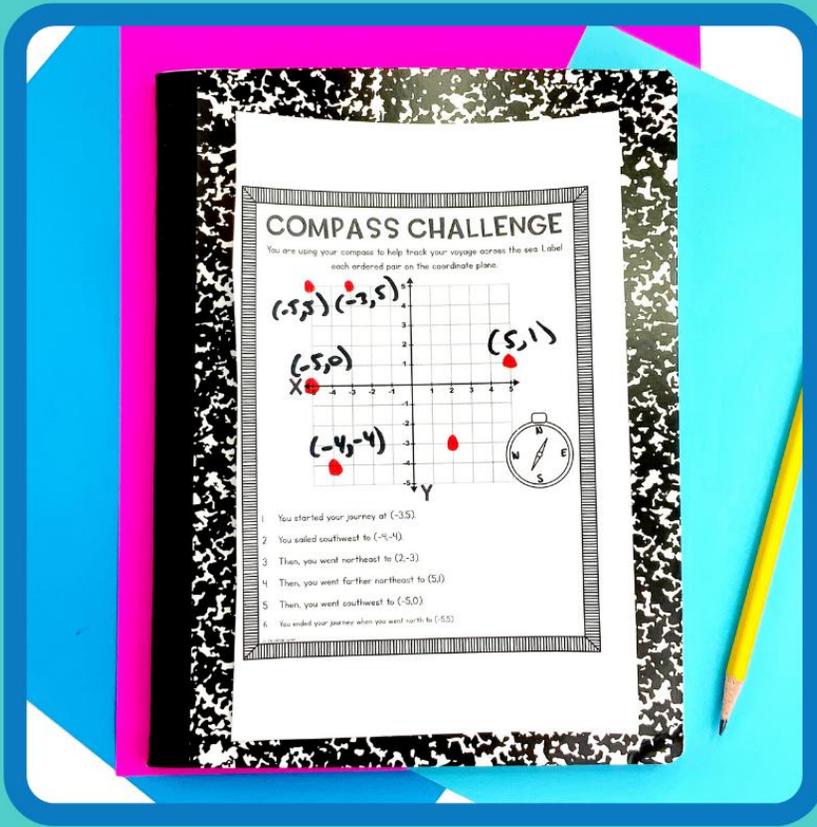

HOW TO USE THIS:

Ideas for Implementation:

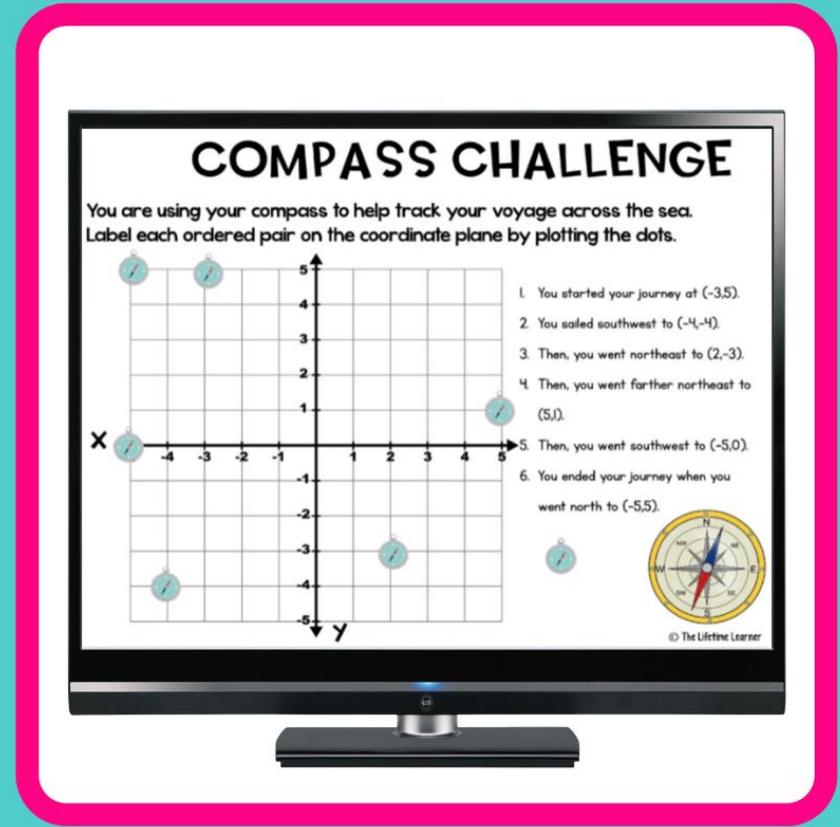

- pick and choose the centers you want to use: do what works best for your class!
- you can have students work individually, in partners, or small groups--any way works!
- give students 1-2 hours to complete all 10 activities
- give less than 10 challenges to students if you are short on time
- OR spread the room transformation out over a couple of days

Choose the format
that works best for you!

Every activity relates to real-life mathematics!

TREASURE CHALLENGE

You are looking for the treasure on the beach. Put an X on all of the spots below. Then, write where the treasure was hiding (the only spot left!). The spot that contains a coordinate of 0.

WATERFALL CHALLENGE

It looks like some gold coins fell into the waterfall while you were carrying treasure back to your ship. Write down all of the places you found coins in the waterfall below.

SHIP CHALLENGE

Pirate ships sailing around out there. You have to be careful that you don't bump into another ship! Help your captain by plotting and labeling the coordinates on the grid below.

SKULL CHALLENGE

Make a rectangle by figuring out where the fourth skull should go. Put a dot where it should go and write the coordinates.

BOTTLE CHALLENGE

You are trying to find a certain message in a bottle. The problem is...there are a lot of bottles in the sea! Use the clues below to figure out which bottle is yours.

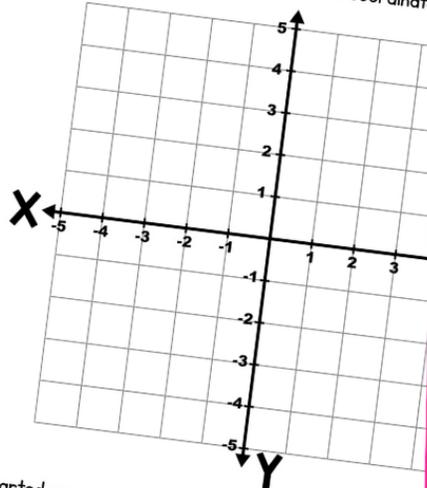

SHARK CHALLENGE

Watch out for sharks while sailing the seas! Your captain wants you to keep track of the sharks spotted out at sea. Write yes or no next to each coordinate based on what you see in the coordinate plane.

COMPASS CHALLENGE

You are using your compass to help track your voyage. Write down each ordered pair on the coordinate grid below.

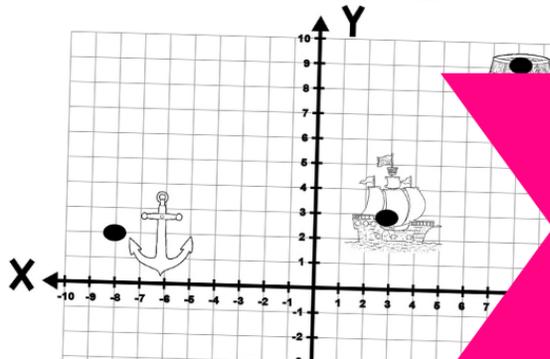

CANNON CHALLENGE

Write down the coordinates of the cannonballs landed on the coordinate grid below.

PARROT CHALLENGE

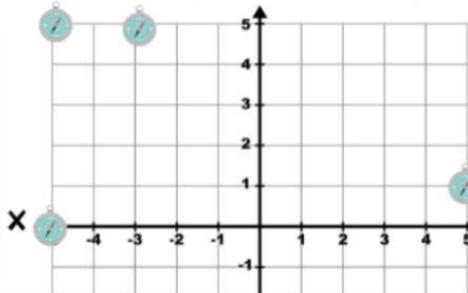

A parrot flew all over the island and saw lots of different things. Write the coordinates of the things he saw.

focuses on:
graphing on
coordinate planes

COMPASS CHALLENGE

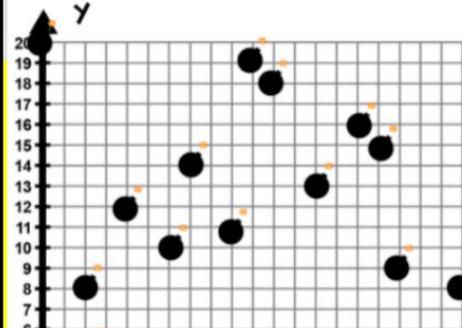

You are using your compass to help track your voyage across the sea. Label each ordered pair on the coordinate plane by plotting the dots.

1. You started your journey at $(-3, 5)$.
2. You sailed southwest to $(-4, 4)$.
3. Then, you went northeast to $(2, -3)$.
4. Then, you went farther northeast to $(5, 1)$.
5. Then, you went southwest to $(-5, 0)$.
6. You ended your journey when you...

CANNON CHALLENGE

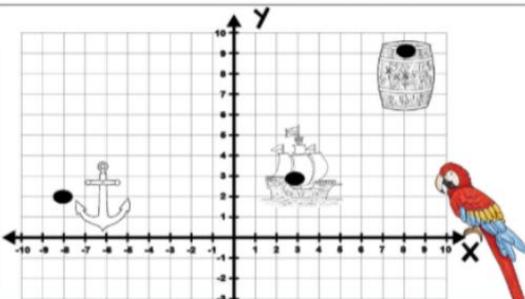

Plot where the cannonballs landed on the coordinate grid below.

- A: $(7, 14)$
- B: $(2, 5)$
- C: $(9, 11)$
- D: $(0, 20)$
- E: $(17, 9)$
- F: $(15, 16)$
- G: $(16, 15)$
- H: $(6, 10)$
- I: $(11, 18)$
- J: $(13, 13)$

PARROT CHALLENGE

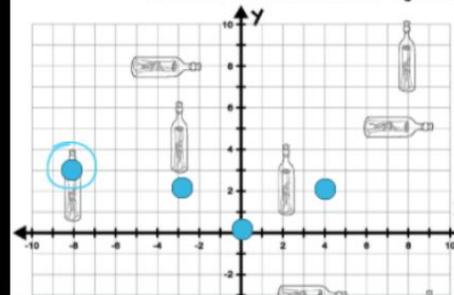

A parrot flew all over the island and saw lots of different things. Write the coordinates of item he saw.

- Anchor: $(-8, 2)$
- Treasure Chest: $(-7, 5)$
- Bomb: $(3, -9)$
- Palm Tree: $(8, -7)$

BOTTLE CHALLENGE

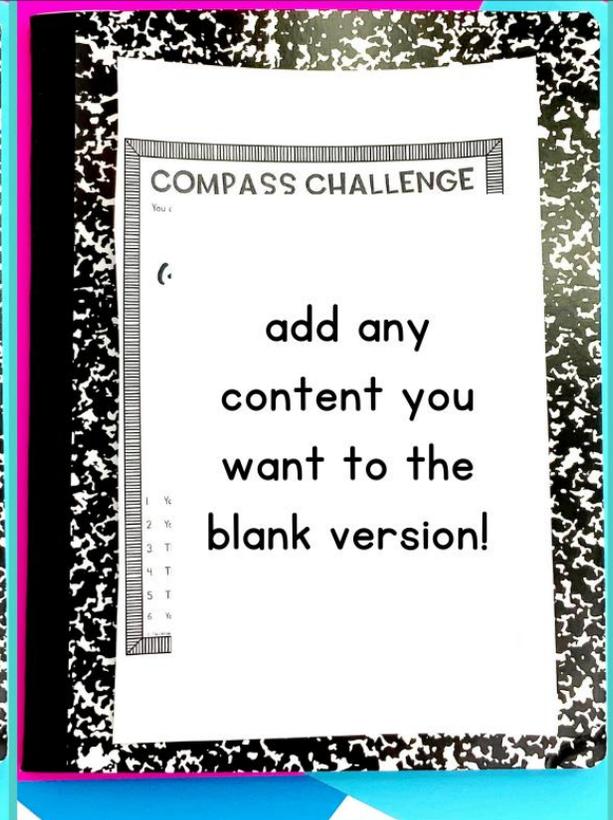

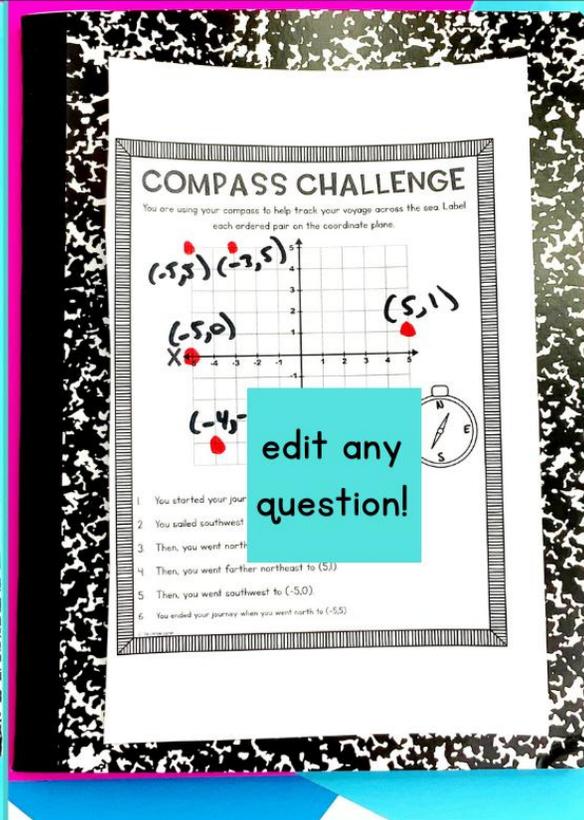

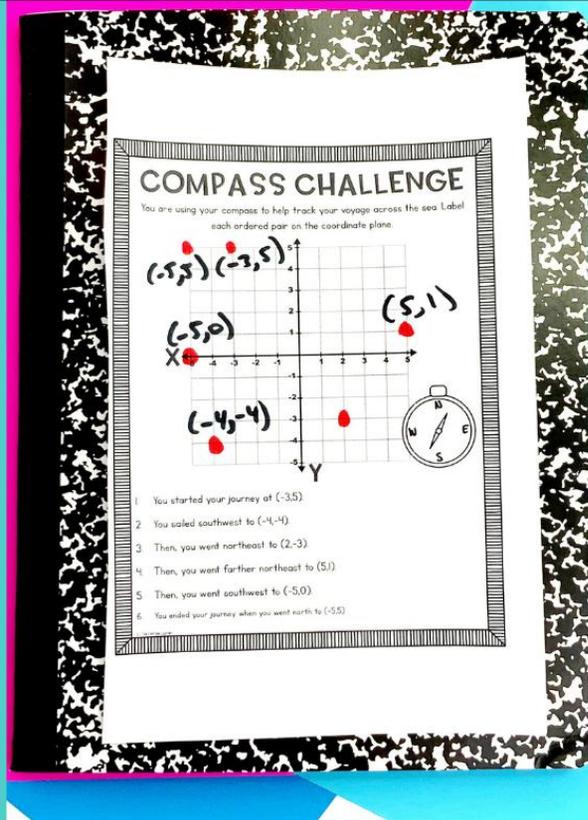

You are trying to find a certain message in a bottle. The problem is...there are a lot of bottles in the sea! Use the clues below to figure out which bottle is yours.

1. You start searching for the bottle at $(0, 0)$. Put a dot.
2. You go right 4 units and 2 units up. Put a dot.
3. Then you go 3 units to the right and 7 units down. Put a dot.
4. Then you go 10 units to the left and 2 units down. Put a dot.
5. Then you go 0 units to the left
