

WHAT IS THIS?

It's a low-prep room transformation!

Use the 10 math challenges, included decor, and more for a fun & easy room transformation!

Simply print the academic challenges, put up a few included decor items, and you're ready for a great day!

Room transformations can be stress-free and low-prep.

Keep scrolling to learn how!

Let's start with the basics...

What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

Camping Day

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

STEP 1:

Tell your class they are race car drivers today!

They will practice adding and subtracting decimals in activities set up around the room. You can do this for a day, a few days, or over the course of a week!

Set-up is quick and easy.

Simply print the posters, 10 activities, and a recording sheet for each student. Place them around your room and you're ready to begin!

Flexibility is key.

Need to modify? No problem!

Choose how many centers students will need to complete and what time frame they have to meet YOUR needs.

STEP 2:

Let students move around the room and complete each center. They can be completed in any order. All centers include practicing adding and subtracting decimals.

Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

GET READY TO RACE
Put a check on each place you go.

Airport	<input type="checkbox"/>	Fire Station	<input type="checkbox"/>
Bakery	<input type="checkbox"/>	Park	<input type="checkbox"/>
Bank	<input type="checkbox"/>	School	<input type="checkbox"/>
Movie Theater/Cinema	<input type="checkbox"/>	Football Stadium	<input type="checkbox"/>
City Hall	<input checked="" type="checkbox"/>	Pet Shop	<input type="checkbox"/>

$$\begin{array}{r} 714.16 \\ 585.71 \\ - 348.96 \\ \hline 236.75 \end{array}$$
$$\begin{array}{r} 693.74 + 299.67 \\ 693.74 \\ + 299.67 \\ \hline 993.41 \end{array}$$

City Hall

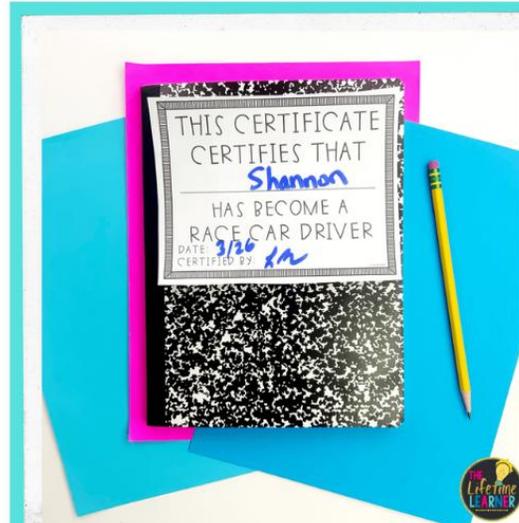

STEP 3:

When students finish all activities you've assigned, they win! You can give them the included certificate, coloring page, or a small prize of your choice.

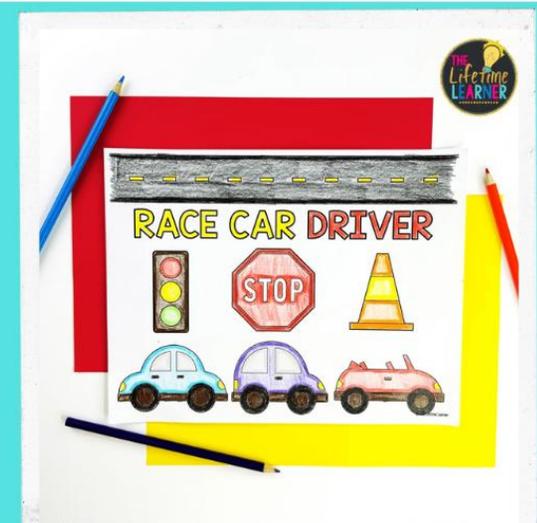

A shopping guide is also included to give you suggestions of optional "extras" you could add in.

Remember:

Anything different from a "normal" day in the classroom is special to students! A reward at the end isn't required during a classroom transformation.

Certificate

Coloring Page

Prize

STEP 4:

Most of the time, there are early finishers. These kiddos get to go around the room and read fun facts about the topic! No one is ever bored.

Choose from 3 versions!

1 Digital Scavenger Hunt

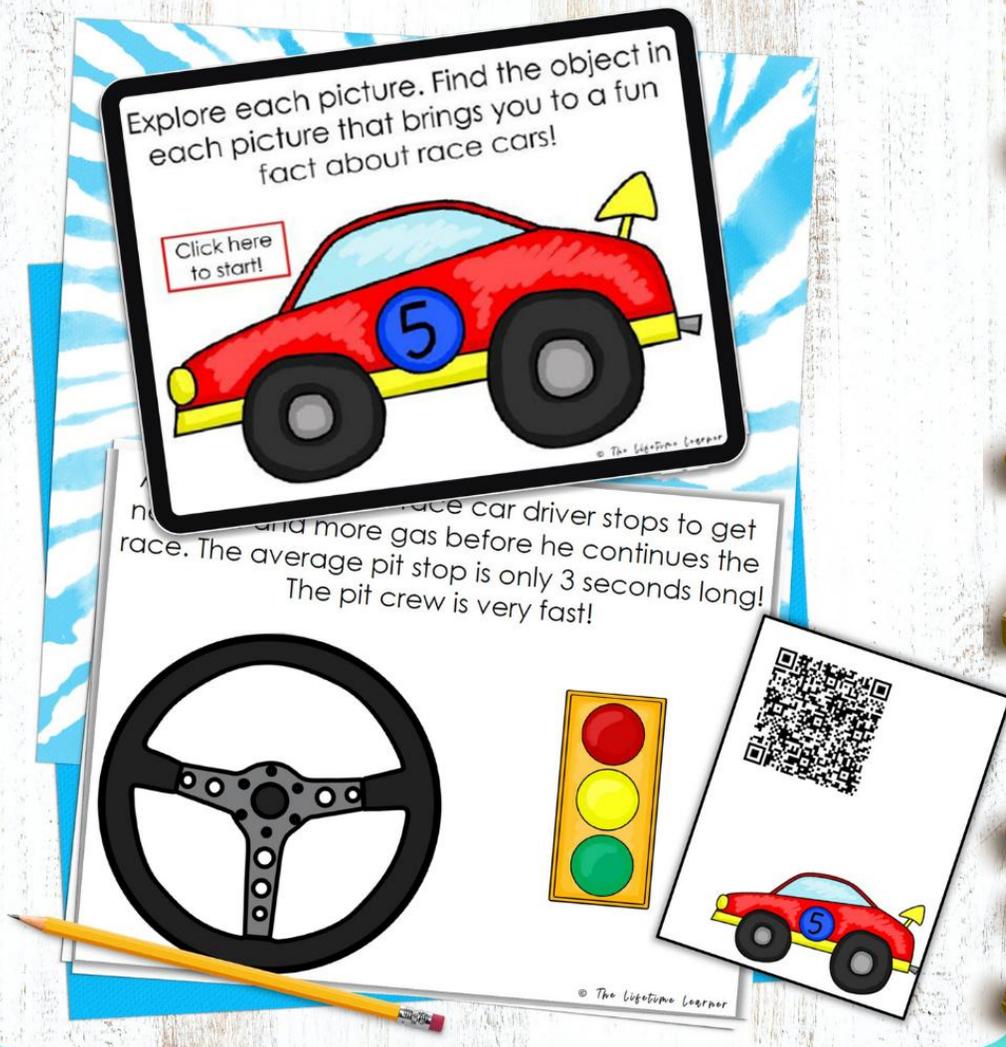

Let students "find" the facts on Google Slides

2 Printable Facts

Hang facts around room

3 QR Codes

THE CONTENT:

10 themed math challenges
aligned to math standards

AIRPORT CHALLENGE

$$\begin{array}{r} 82.3 \\ - 30.74 \\ \hline \end{array}$$

$$94.65 - 75.78$$

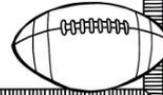

STADIUM CHALLENGE

The table below shows the number of miles a race car driver drove each day. Use the table to answer the questions below.

Monday	117.67
Tuesday	208.92
Wednesday	195.35
Thursday	231.04
Friday	219.82

1. How many less miles did the race car driver drive on Monday than on Wednesday?

2. How many miles in all were driven between Tuesday and Thursday?

BANK CHALLENGE

$$\begin{array}{r} 708.65 \\ - 513.92 \\ \hline \end{array}$$

$$583.79 - 97.55$$

HOW TO USE THIS:

Ideas for Implementation:

- pick and choose the centers you want to use: do what works best for your class!
- you can have students work individually, in partners, or small groups--any way works!
- give students 1-2 hours to complete all 10 activities
- give less than 10 challenges to students if you are short on time
- OR spread the room transformation out over a couple of days

SCHOOL CHALLENGE

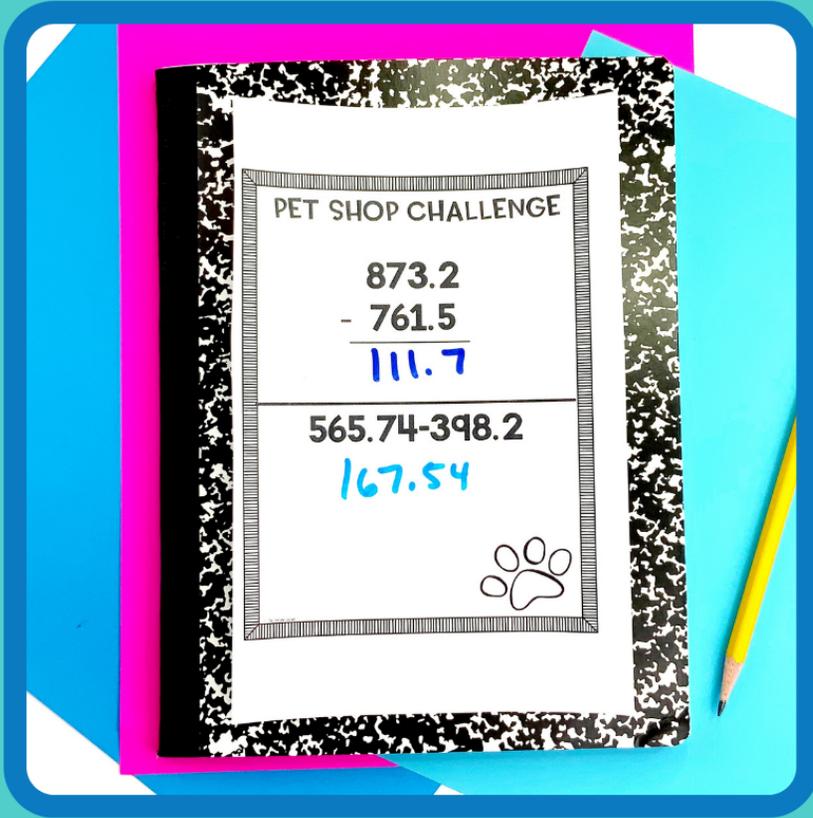

The table shows the average laps driven in each race. Answer the questions about the chart below.

Red Race	72.25
Blue Race	58.75
Yellow Race	87.50
Green Race	64.75
Orange Race	78.50

1. How many more laps on average were driven in the Yellow Race than the Blue Race? $87.5 - 58.75 = 28.75$

2. By how much did the average miles driven decrease in the Blue Race than in the Red Race? $72.25 - 58.75 = 13.5$
