

WHAT IS THIS?

It's a low-prep room transformation!

Use the 10 math challenges, included decor, and more for a fun & easy room transformation!

Simply print the academic challenges, put up a few included decor items, and you're ready for a great day!

Room transformations can be stress-free and low-prep.

Keep scrolling to learn how!

Let's start with the basics...

What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

Camping Day

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

STEP 1:

Tell your class they are realtors today!

They will practice multiplying large numbers in activities set up around the room. You can do this for a day, a few days, or over the course of a week!

Set-up is quick and easy.

Simply print the posters, 10 activities, and a recording sheet for each student. Place them around your room and you're ready to begin!

Flexibility is key.

Need to modify? No problem!
Choose how many centers students will need to complete and what time frame they have to meet YOUR needs.

STEP 2:

Let students move around the room and complete each center. They can be completed in any order. All centers include practicing multiplying large numbers.

Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

REALTOR: OPEN HOUSE
Put a check next to each challenge once you've completed it!

<input type="checkbox"/>	123 Acorn Road	<input type="checkbox"/>	868 Brinstone Way
<input checked="" type="checkbox"/>	456 Maple Street	<input type="checkbox"/>	474 Cyprus Road
<input type="checkbox"/>	789 Dogwood Court	<input type="checkbox"/>	624 Pecan Grove Street
<input type="checkbox"/>	890 Pine Nut Way	<input type="checkbox"/>	408 Green Street
<input type="checkbox"/>	77 Apple Way	<input type="checkbox"/>	56 Spruce Road

456 MAPLE STREET
The people at 456 Maple Street are calculating the square feet of some houses on the market. Help them by solving the multiplication equations below.

HOUSE A	HOUSE B	HOUSE C
$\begin{array}{r} 72 \\ \times 15 \\ \hline 360 \\ +72 \\ \hline 1080 \end{array}$	$\begin{array}{r} 7 \\ 54 \\ \times 63 \\ \hline 162 \\ +324 \\ \hline 3402 \end{array}$	$\begin{array}{r} 2 \\ 95 \\ \times 24 \\ \hline 1380 \\ +190 \\ \hline 2280 \end{array}$

Which house will give them the most square feet to live in?
House B

Which house will give them the least square feet to live in?
House A

STEP 3:

When students finish all activities you've assigned, they win! You can give them the included certificate, coloring page, or a small prize of your choice.

A shopping guide is also included to give you suggestions of optional "extras" you could add in.

Remember:

Anything different from a "normal" day in the classroom is special to students! A reward at the end isn't required during a classroom transformation.

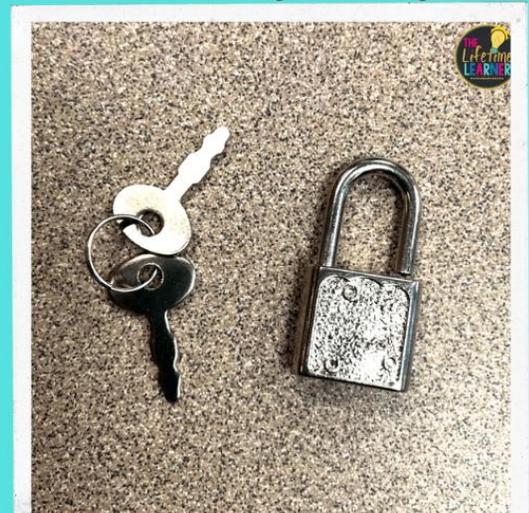

Certificate

Coloring Page

In Action Pic

Prize

STEP 4:

Most of the time, there are early finishers. These kiddos get to go around the room and read fun facts about the topic! No one is ever bored.

Choose from 3 versions!

THE CONTENT:

10 themed math challenges aligned to math standards

408 GREEN STREET

You quickly found the area of the backyard of this house earlier today. You multiplied the length by the width to get your answer.

38 ft

24 ft

backyard

30

8

20

$20 \times 30 = 60$

$20 \times 8 = 160$

4

$4 \times 30 = 120$

$4 \times 8 = 320$

You say: $320 + 120 + 160 + 60 = 660$ square feet

The realtor on site says you're wrong.
What did you do wrong? Explain.

77 APPLE WAY

Color the house based on the key.

Red: 28,747
Orange: 702
Yellow: 131,955
Green: 84,960
Blue: 62,538

323 x 89

4720 x 18

54 x 13

7 x 8934

36 x 72

285 x 463

123 ACORN ROAD

Uh oh! It looks like the family at this house is overdue paying their bills. Please figure out how much they owe for each bill.

Bills	Payments Missed
Water: \$24	3 months
Electric: \$702	5 months
Phone: \$27	4 months
Internet: \$88	6 months

Total Water Bill Due:

Total Electric Bill Due:

Total Phone Bill Due:

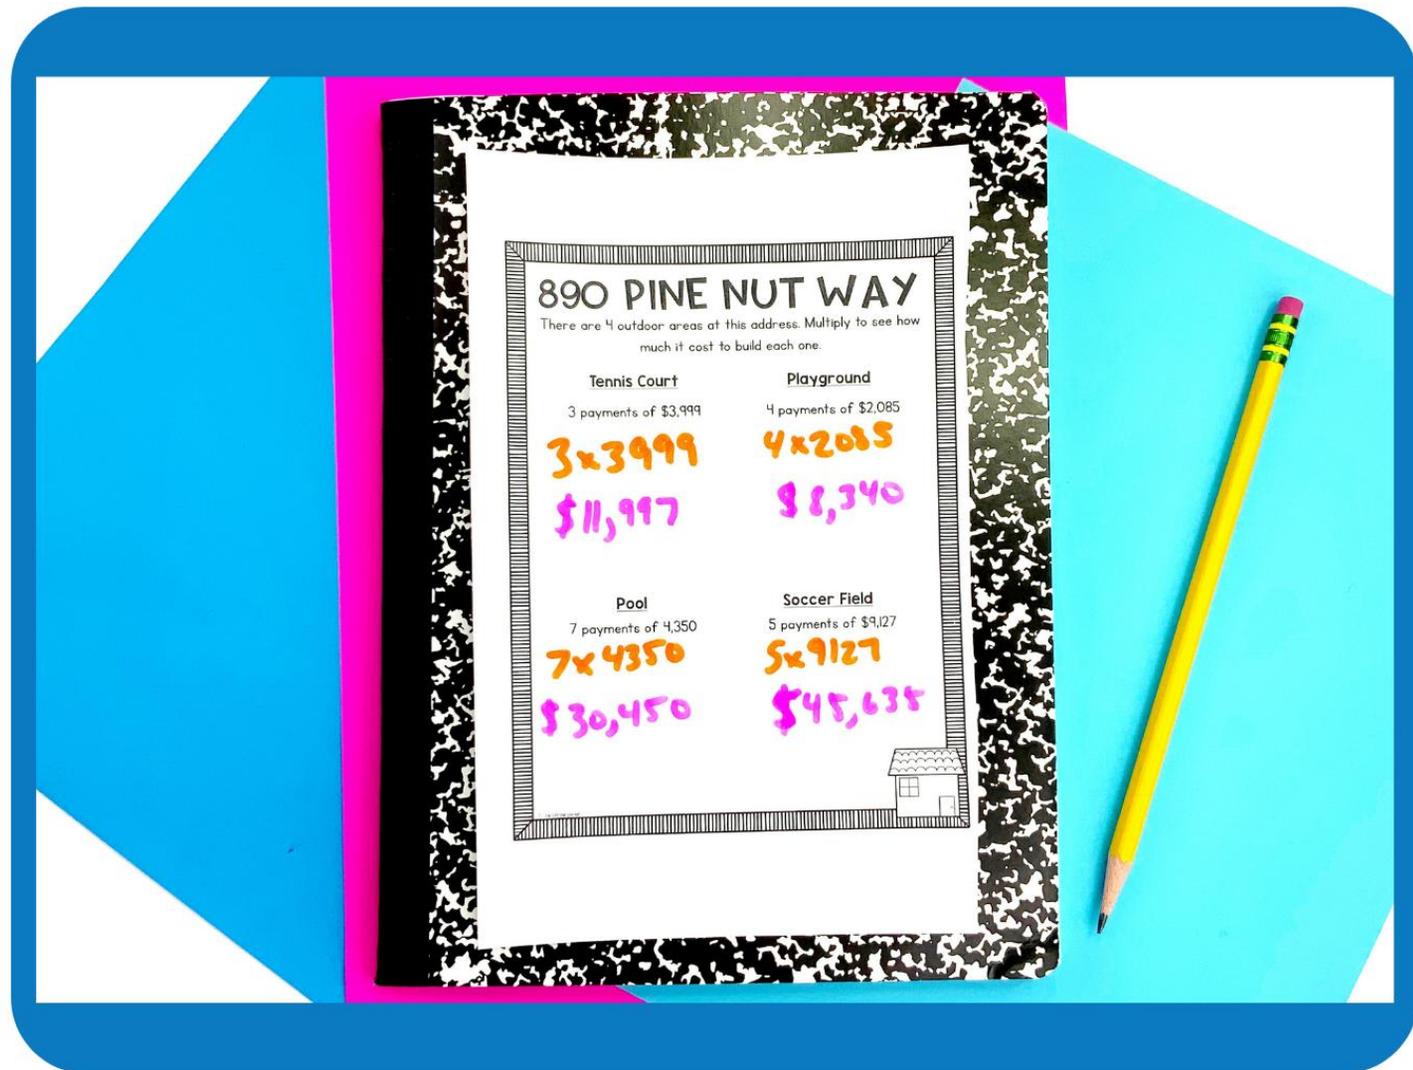

Total Internet Bill Due:

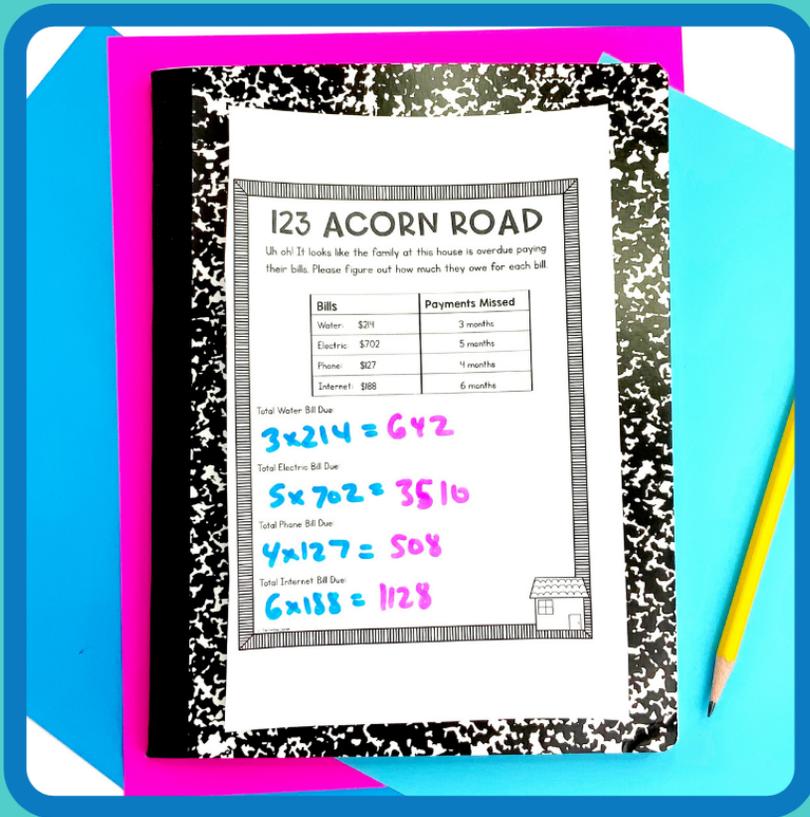

HOW TO USE THIS:

Ideas for Implementation:

- pick and choose the centers you want to use: do what works best for your class!
- you can have students work individually, in partners, or small groups--any way works!
- give students 1-2 hours to complete all 10 activities
- give less than 10 challenges to students if you are short on time
- OR spread the room transformation out over a couple of days
