

WHAT IS THIS?

It's a low-prep room transformation!

Use the 10 math challenges, included decor, and more for a fun & easy room transformation!

Simply print the academic challenges, put up a few included decor items, and you're ready for a great day!

Room transformations can be stress-free and low-prep.

Keep scrolling to learn how!

Let's start with the basics...

What is a classroom transformation?

A classroom transformation changes your room into a certain setting or theme to engage students in their own learning with rigorous content.

Donut Shop Day

Rock Star Day

Camping Day

You don't have to spend hours of your time setting up a room transformation or spend lots of money to make it **SO MUCH FUN!**

STEP 1:

Tell your class they are vets today!

They will practice solving addition and subtraction word problems within 10 in activities set up around the room. You can do this for a day, a few days, or over the course of a week!

Flexibility is key.

Need to modify? No problem!
Choose how many centers students will need to complete and what time frame they have to meet YOUR needs.

Set-up is quick and easy.

Simply print the posters, 10 activities, and a recording sheet for each student. Place them around your room and you're ready to begin!

STEP 2:

Let students move around the room and complete each center. They can be completed in any order. All centers include practicing solving addition and subtraction word problems within 10.

Optional Recording Sheet

When a student finishes a center, you sign that spot on their recording sheet to keep track of what they've completed.

Freedom to choose.

Students can work in partners, rotations, groups, or independently. Your choice!

The image displays two educational worksheets and decorative elements. The first worksheet, titled "PET HOSPITAL", instructs students to "Put a check next to each animal once you've completed the challenge." It features a grid of ten animal illustrations with empty checkboxes: Cat, Bird, Dog, Mouse, Puppy, Snake, Rabbit, Hamster, Fish, and Turtle. The second worksheet, titled "TURTLE", contains a word problem: "I see 1 turtle. I see 3 more turtles." Below the text are three illustrations of turtles. The worksheet also includes a "Number Line" from 0 to 10, with a bracket above the numbers 1, 2, and 3, and a circled number 4. An "Equation" box shows the problem $1 + 3 = 4$. A small turtle illustration is at the bottom right. Decorative elements include a pink paperclip, a blue paperclip, and a blue paperclip on the left, and a blue paperclip on the right.

STEP 3:

When students finish all activities you've assigned, they win! You can give them the included certificate, coloring page, or a small prize of your choice.

A shopping guide is also included to give you suggestions of optional "extras" you could add in.

Remember:

Anything different from a "normal" day in the classroom is special to students! A reward at the end isn't required during a classroom transformation.

Prize

STEP 4:

Most of the time, there are early finishers. These kiddos get to go around the room and complete a write the room activity! No one is ever bored.

How to Use

Name: _____

FIND IT! WRITE IT! <<<<

A. 	_____	F. 	_____
B. 	_____	G. 	_____
C. 	fish	H. 	_____
D. 	_____	I. 	_____
E. 	_____	J. 	_____

THE LIFETIME LEARNER

fish

leash

dog

Students write each word they find around the room.

How to Use

Name: _____

WRITE THE LETTER <<<<

Letter: _____		Letter: _____	
Letter: _____		Letter: _____	
Letter: _____		B.  The vet has my bunny.	
Letter: B		Letter: _____	
Letter: _____		Letter: _____	

THE LIFETIME LEARNER

cone on.

a new puppy.

Students find each card and write the correct letter on their recording sheet.

THE CONTENT:

10 themed math challenges
aligned to math standards

MOUSE

I see 4 mice. I see 1 more mouse.

Picture:

Number Line:

Equation:

$\underline{\quad} + \underline{\quad} = \underline{\quad}$

RABBIT

I see 2 rabbits hop. I see 3 more rabbits hop.

Picture:

Number Line:

Equation:

$\underline{\quad} + \underline{\quad} = \underline{\quad}$

FISH

I see 1 fish swim. I see 4 more fish swim.

Picture:

Number Line:

Equation:

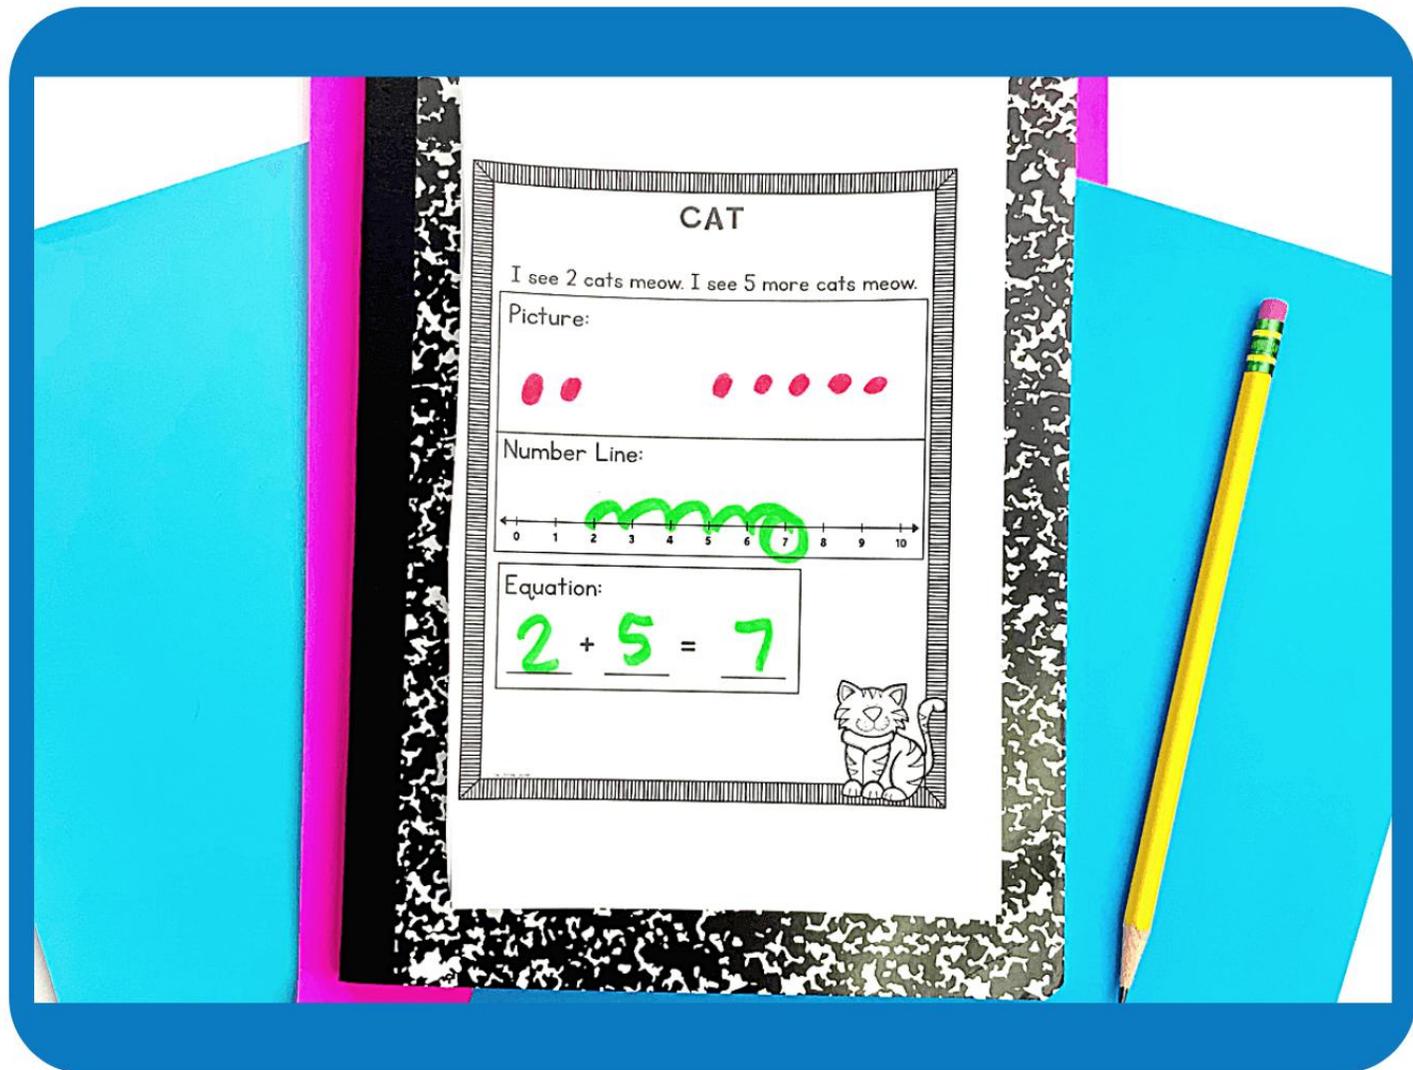

$\underline{\quad} + \underline{\quad} = \underline{\quad}$

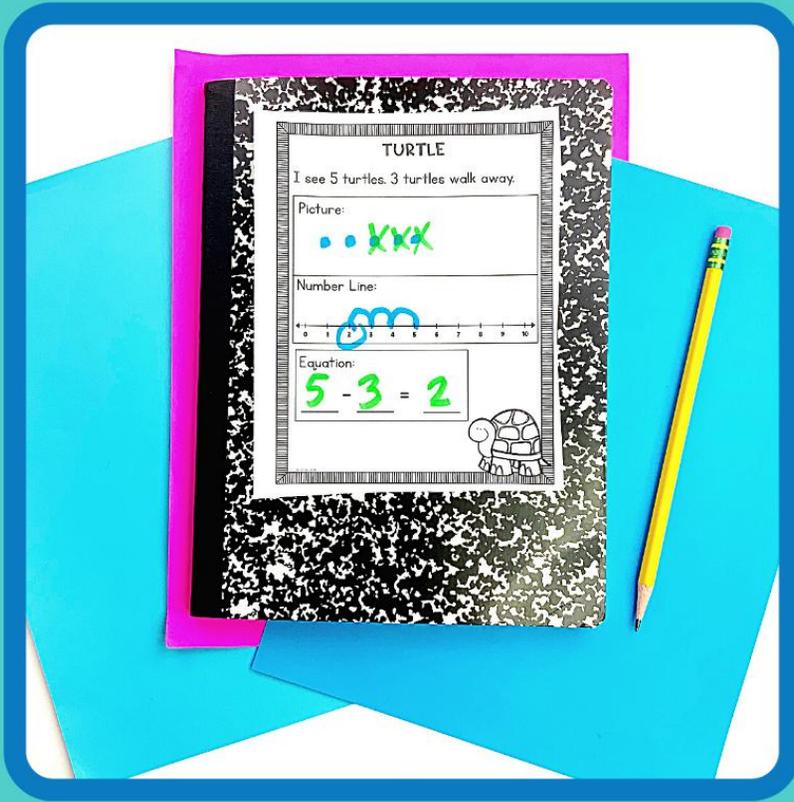

HOW TO USE THIS:

Ideas for Implementation:

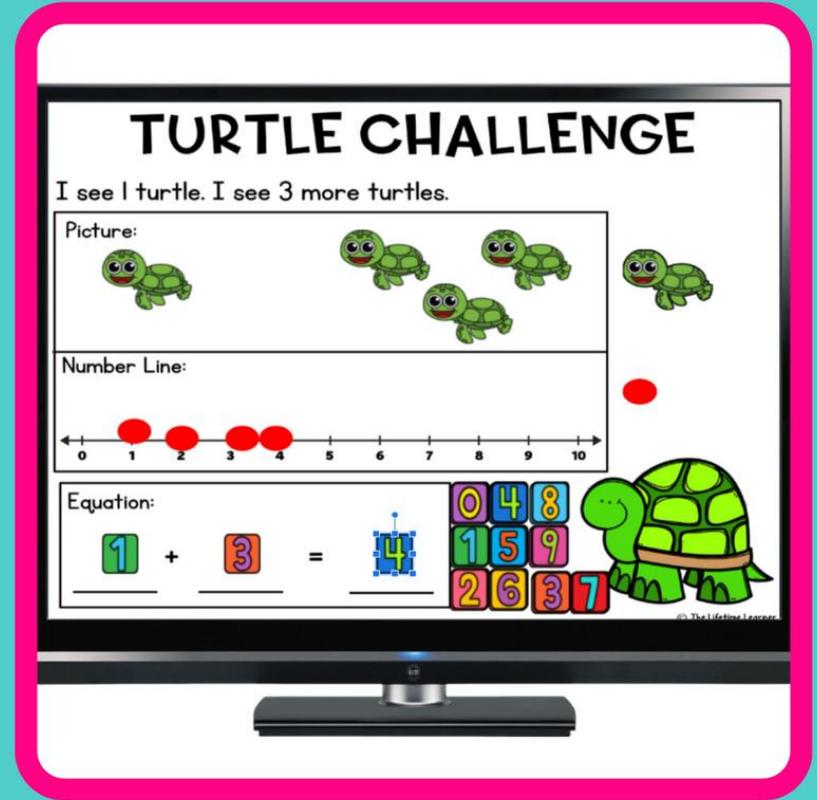

- pick and choose the centers you want to use: do what works best for your class!
- you can have students work individually, in partners, or small groups--any way works!
- give students 1-2 hours to complete all 10 activities
- give less than 10 challenges to students if you are short on time
- OR spread the room transformation out over a couple of days
