HOW TO PLAY

STEP 2

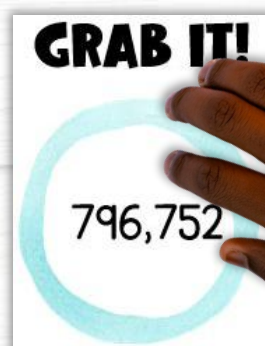

Students race to grab the card that is on top FIRST!

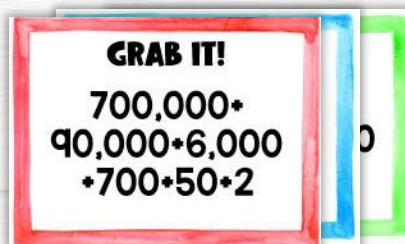

We're both looking for 796,752.

HOW TO PLAY

STEP 3

The person who finds the answer first gets to keep it as a point.

**I grabbed the card first so I win the round.
I keep the match.**

HOW TO PLAY

STEP 4

Play continues until you run out of rectangle cards.
The person with the most cards at the end wins.

OTHER IDEAS

Alternative Ways to Play:

1. Instead of each kid looking for the same card, divide the rectangle cards in half and have students race to find their match before their partner does.
2. Students work together to match all the cards.
3. Students can play in teams instead of individually.
4. Students play twice. They time themselves to see if they can match up all cards in a quicker amount of time the second time.
5. Students both get their own matching card to look for, but a player cannot move on till their partner has found their match too.
6. Lay out the circle cards all over the room. Give each child in your class a rectangle card and they need to go all around the room to find their match. When they find it, give them another rectangle card.
