HOW IT WORKS

Teach once. Use all year. ✓

Start the year with 5 easy-to-learn games—
then simply swap out old skills for new ones as your students grow! 🔄

The format stays the same while the
math changes all year long! 🙌

Teacher-Loved.

These helped so much during our multiplication unit. The kids caught on faster, and I didn't have to spend hours prepping.
– Mrs. Langford

Student-Approved.

They're moving, talking, solving—way better than just handing them a worksheet. I get way more buy-in during math time.
– Mr. Clay

Classroom - Tested.

I've used them with groups, partners, even whole class. They're flexible, and I'm not constantly explaining directions. – Ms. Ochoa
